Subject: Therapeutic Health Services' Kent Branch is Growing!

Dear Councilmember Fain:

We are pleased to announce that we are nearing completion of Therapeutic Health Services' Kent location expansion at 24823 Pacific Highway South.

Leasing two vacant spaces immediately adjacent to the space we have occupied since 2010 provided us with the square footage we needed to construct the kind of clinic that will meet the growing demand for behavioral health services in South King County.

Working closely with Mayor Ralph, the Kent City Council and the land use/development department, we were able to amend zoning regulations to permit the provision of Medication for Opioid Use Disorder (MOUD) treatment at this location. A grant from the Washington State Department of Commerce funded approximately two-thirds of the construction costs.

In addition to the dispensary, our expanded Kent location will have additional one-on-one and group counseling spaces, allowing us to significantly expand not only the substance use disorder, but also the mental health services that are currently being offered at the site. King County Adult Drug Court Services will continue to be provided at this site.

Construction should be completed by the end of May. If you are interested in a tour of the facility, please let me know and I will contact you regarding scheduling once the project has completed.

Please feel free to reach out to me if you have any questions.
