SERVICE AREA MAP

City Hosted Collection Events | Wastemobile Collection Events | Hazardous Waste Collection Facilities

HOUSEHOLD HAZARDOUS WASTE COLLECTION SERVICES

Residents and small businesses can dispose of unwanted hazardous products at four fixed facilities, traveling wastemobile locations and city and tribal events throughout the year.

Fixed Facility Locations:
Auburn, Factoria, North Seattle, South Seattle

Residents can reduce their exposure risk to toxic materials at home by properly disposing of hazardous materials using LHWMP's household hazardous waste collection services. To ensure all residents have access to using our collection services, residents age 65+ or a person with a disability, can safely dispose of hazardous materials by calling our Home Collection Staff for in-home service.

Local Hazardous Waste Management Program in King County

A multi-agency program established to help protect public health and the environment throughout King County by reducing exposure risks to hazardous materials and wastes.

Local Hazardous Waste Management Program in King County

PROGRAM SERVICES

Services available to King County residents and businesses are focused on the prevention, collection and policy initiatives that reduce exposure risks to hazardous materials.

POLICY

Creating systems change in the production, use and disposal of hazardous materials to help ensure chemicals and products that are safe for people and for our environment.

PREVENTION

Reduced exposures to toxic materials, at home and at work, through awareness of using less toxic products and proper management and disposal of hazardous materials.

COLLECTION

Safe and convenient disposal of hazardous materials through ongoing disposal services, mobile collection events and in-home collection services for residents age 65+ and for residents with a disability.

About the Local Hazardous Waste Management Program

The Local Hazardous Waste Management Program in King County (LHWMP) is a regional partnership established to protect public health and the environment by reducing exposure risks to hazardous materials.

LHWMP is implemented through a multi-jurisdictional Management Coordination Committee (MCC) and operates through the consensus of its five members, who are drawn from each of the program partners. Enabled through the King County Board of Health (BOH Code 11.04.), the MCC sets strategic direction, implementation policies and oversees program operations, budgets and workplans.

The MCC is staffed by the Program Director, Lynda Ransley, who works with the MCC to fulfill its obligation to provide program services to the ratepayers and the public at large.

MANAGEMENT COORDINATION COMMITTEE MEMBERS

MCC Chair
Darrell Rodgers, PhD
Public Health-Seattle & King County

MCC Vice Chair
Councilmember Hank Myers
City of Redmond Council, Sound Cities Association

Susan Fife-Ferris
Seattle Public Utilities

Jeff Gaisford
King County Solid Waste Division

Joan Lee
King County Water and Land Resources Division

SERVICE DELIVERY

The program is deeply committed to ensuring our services are delivered equitably to all King County residents, including those who are not reached through traditional communication and service delivery methods. We continuously work to engage and increase community partnerships that will increase the reach, impact and equity of our services and are committed to having a workforce that reflects the diversity of the County.

As we build a plan for moving forward in 2020, LHWMP is examining ways to continue to improve racial and cultural equity in how the program operates and delivers its services. Community members will have an opportunity to comment on this and to provide feedback on LHWMP services during the 2020 Local Hazardous Waste Plan Update process.

REACH

The program serves 2.1 million residents and over 60,000 businesses

Outreach to 357,676 families over the last five years on safe handling, storage and disposal of hazardous materials.

Outreach materials provided in 22 languages.

IMPACT

Businesses receiving technical assistance properly managed and disposed of over 970 tons of hazardous materials over the past five years.

Collection and disposal services disposed of over 7,900 tons of hazardous materials from residents and businesses generating small quantities of waste.

EQUITY

Through evidence based service delivery that is relevant, effective, equitable and community centered.

LHWMP is committed to ensuring equity and social justice is embedded in programs services and operations.
