### HEALTHCARE RESIDENTS & STUDENTS

## Clinic Goals

- 1000+ Patients Per Day
- 100 Dental Operatories
- 10+ Vision Lanes
- 50+ Medical Treatment Rooms

- Focused on underserved and vulnerable populations.
- Local professionals direct and manage each area of the Clinic.
- Dental services: hygiene, restorative, extractions, select endodontics, CEREC crowns, flippers, X-rays.
- Vision services: complete dilated eye exams, glaucoma screening, diabetic retinopathy, readers, prescription eyeglasses.
- All patients are triaged and have their blood-pressure, temperature and medical history taken before being seen in care areas.
- Students are welcome, however spaces are limited and students may be restricted in their type of involvement in patient care. The criteria for student participation also varies by discipline. See online registration for more details.
- Volunteer for only one day or as many as all four Clinic days. Full day participation is strongly encouraged to help maintain operational efficiency. Depending on the assignment, a full day may last from 6 AM - 6 PM. Additional volunteer opportunities are available for Clinic set up and take down.
- Volunteer healthcare professionals are not obligated to provide follow-up care. However, free or sliding-scale follow-up care is needed and appreciated, even from those unable to volunteer at the Clinic.
- Healthcare providers are responsible for their own professional liability insurance. WA State providers may be able to receive free malpractice insurance, paid for by the Department of Health, through the Volunteer Retired Providers Program.
- Only U.S. licensed professionals are able to volunteer as healthcare providers. Out-of-state providers MUST submit an attestation form to the WA State Department of Health in order to volunteer.
- Approved mission of the Public Health Reserve Corps and Washington Medical Reserve Corps.
- Seven continuing education credits will be available at no cost to participating dentists.
