UW Medicine Patients Are First Pillars

- UW Medicine Pillars are the foundation of Patients Are First
- We have aligned our organizational goals to these Pillars, which has enabled us to create and sustain results when teamed with the other PAF approaches and tactics.
- We measure how well we are progressing in our journey to lead for the future through the lens of the Pillars and goals:

Focus on Serving the Patient/Family

Serve all patients and family members with compassion, respect and excellence.

Provide the Highest Quality Care

Provide the highest quality, safest and most effective care to every patient, every time.

Become the Employer of Choice

Recruit and retain a competent, professional workforce focused on serving our patients and their families.

Practice Fiscal Responsibility

Ensure effective financial planning and the economic performance necessary to invest in strategies that improve the health of our patients.

Unwavering Focus on Patient Safety
