

Name	Location	Date	Comment
Kimberly Jones	Snoqualmie, WA	2015-11-10	I don't believe that selling to the dairy will be the best use of the land nor follow the county's stated RFP.
Tracy Rekart	Seattle, WA	2015-11-10	It's important to protect our land and water. I stand for the ground and water. I am it's voice.
Theresa Herfindahl	Shoreline, WA	2015-11-10	We need sustainable farming here not those dependent on synthetic fertilizers.
Michael Akers	Seattle, WA	2015-11-10	Our land in King County is too valuable as a resource to be used to dump poop. Better it should go into a trust and be leased or sold to small organic farmers!
Susan Miller	Seattle, WA	2015-11-10	So SO tired of seeing our rural areas absolutely destroyed by factory farms.
JESSICA APPELDOORN	Mercer Island, WA	2015-11-10	I want to help save our beautiful earth from bad practice farming that is destructive to both the environment and mankind.
Elke Robshaw	Seattle, WA	2015-11-10	I'm against GMO corn (or anything GMO)
Cheryl Baunsgarf	North Bend, WA	2015-11-10	I believe in real, organic food with all my heart. I pray we will not destroy our land and Valley. I pay so much money to eat grass fed beef, free range eggs and non-gmo foods. Please. Please keep our Valley pristine and glorious.
Mary Zinn	Denver, CO	2015-11-10	I spend time in the area and value it as a natural resource!!
Ginger Johnson	Makawao, HI	2015-11-10	I Care
Treencha Russell	Bellevue, WA	2015-11-10	I support local, sustainable, farming practices. Industrial farms may have a place, but the Kellers already have one. Use the land for food production.
Adelaide Brooks	Seattle, WA	2015-11-10	I care about the health of our region, our food, environment and our people.
Leslie Bedell	North Bend, WA	2015-11-10	This is my home land. No way do I want it to be destroyed by this type of farming and cruel animal practices.
Lynne Marthes	Bellevue, WA	2015-11-10	I disagree with the reallocation of the land to a farm with an operations plan that includes harmful pesticides, the growth of genetically enhanced crops and a non- organic approach to land and animal productivity.
Lisa Snedeker	Andover, MN	2015-11-10	My family all lives in this area. We need to make changes for the better as a nation, and this is a good step.
Emily Tripp	Redmond, WA	2015-11-10	I'm signing because of the importance of organic produce that needs to stay within this community to maintain health and teach future generations of the importance of growing your own produce.
Sonya Browder	Bellevue, WA	2015-11-10	I live here and it effects me and my children
Wendy Pfeifer	Gig Harbor, WA	2015-11-10	The land should be used as the RFP stipulated.
Jennifer Wolfe	Kirkland, WA	2015-11-10	I support small organic farms as the only viable way to feed our human family now and in the future.
Kelli Riddle	Alma, AR	2015-11-10	I care about the future and health of humans.
Michael Massetti	Bee Cave, TX	2015-11-10	I do not want any GMO farms anywhere. Please support organic only.
Kristen Barry	Tucson, AZ	2015-11-10	F monsanto
Ida Hightower	Renton, WA	2015-11-10	We want to keep our WA Organic farmers
Bruce Carlson	Snoqualmie, WA	2015-11-10	I bike through this area and value it.
Christine Dodson	Lakewood, WA	2015-11-10	GMOs are not welcome here.
Catherine Domoszlay	Duvall, WA	2015-11-10	Confinement farming, GMO's and Round Up are all counterintuitive to farming, and feeding people healthy options for a healthy life.
Darci Nelson	Hermiston, OR	2015-11-10	We need to protect our environment and have sustainable farming practices. Gmo farming is horrendously awful for the environment.

Name	Location	Date	Comment
Elaine Jacobs	Lynnwood, WA	2015-11-10	Everything about this is bad!
Janet Barrow	Swanage, United Kingdom	2015-11-10	Monsanto is not to be trusted with any food, it has not done testing on their methods , and we are afraid of the long term outcome..
Deborah Pietropaolo	rochester, NY	2015-11-10	Gmo's lead to sickness & death in humans , destruction of our earth and planet!
paula grobe	Wylie, TX	2015-11-10	I am SICK of BIG GOV'T and the POWERS that BE having control of our lives with no concern for my welfare...only THEIR POCKETS!!! If "you" kill us all than for what reason will "you" need to farm??!!!!
Regina Brennan	Seattle, WA	2015-11-10	This cannot happen! Noooooooooo!
Catherine Skene	Newport Beach, CA	2015-11-10	GMO is horrible and we need to promote naturally grown food
michelle baron	green valley, CA	2015-11-10	I am against GMOs and their toxic legacy.
Tamara Reid	Monroe, WA	2015-11-10	I am anti-gmo in all foods, and that is too close to home. Farm organically, its better for the people, and the earth!
Darcie Day	Everett, WA	2015-11-10	I'm signing because I DO NOT WANT GMO, ROUNDUP, OR OTHER CRAP anywhere near the organic farms there!
Patricia Rasbury	Nashville, TN	2015-11-10	I frequently travel to Washington - Snoqualmie Valley is a jewel for the entire state! It should remain so and continue its national reputation for agricultural excellence.
Beth Stroh-Stern	Carnation, WA	2015-11-10	This large dairy operation using GMOs requiring herbicides and pesticides does not conform to the stated goals of King County to preserve sustainable agriculture. The organic option is a much better fit for our community.
Cynthia White	Redmond, WA	2015-11-10	Please don't allow GMOs in our beautiful valley. Thank you.
Laurie Mustone	Haverhill, MA	2015-11-10	We don't need more pesticides or GMO corn. Toxic, toxic, toxic.
Mark Bromberg	Issaquah, WA	2015-11-10	There are many non-GMO organic farms in the Valley that could be impacted by this purchase by Keller Dairy
Buddha Glow	Seattle, WA	2015-11-10	I'm a NO Gmo person... You grow that and I'll refuse to eat it. Period. No discussion, no debating the finer points... the Gmo market went about it the wrong way so now it can go fuq itself. I will NOT participate nor support. If that means no corn, soy, cotton, or the like... so be it. Why so adamant? Because I'm coming up on 1year OFF antidepressants solely by eating real food I grew myself. If that means I fuq the farmer... you should think ahead before trying to sicken people. Im not playing nice anymore since MonNosFer@tu is doing the same. I bet I win
Nancy Crosgrove	Newport, WA	2015-11-10	The last thing we need is more GMO pollution!
Terri Booth	Everson, WA	2015-11-10	This land has more value as sustainable farmland than more corporate agricultural ventures.
Anna Muckenthaler	Kirkland, WA	2015-11-10	I am signing because the health of our population, planet, and animals in surrounding areas is more important than the money to be gained by this sale. Round-up has been banned in other countries due to the toxicity, and cancer-causing consequences. This is not good for us. Please tell them no.
Erika Ruiz	Mountlake Terrace, WA	2015-11-10	This area has no need or use for GMO's. STAY OUT MONSANTO!!!
Belinda Drilevich	ravensdale, WA	2015-11-10	land use needs to be carefully considered and this ground should be protected and treasured
David Ginsberg	Seattle, WA	2015-11-10	Public lands should remain public and glyphosate should be banned
shirley cedillo	San Diego, CA	2015-11-10	GMOs are poisoning our food supply
Donna Bradley	Mesa, AZ	2015-11-10	We do not want GMO food grown in the US!!

Name	Location	Date	Comment
Tracy Ferguson	St Petersburg, FL	2015-11-10	GMOs are bad for the planet, humans and animals. All farming and lawns should be organic.
Marcia Price	Sauk City, WI	2015-11-10	I buy organic wine from this valley. But will no longer buy if it is sold out for gmo use. DON'T DO THIS
Annette Klapstein	Seattle, WA	2015-11-10	Oh HELL NO! NO GMO corn! NO Monsanto products! For godsake, KEEP our public farmland PUBLICALLY-OWNED
reneemarie cottier	Harlan, IN	2015-11-10	I'm against gmos and factory farming
Linda Paine	Carnation, WA	2015-11-10	I'm signing because I want to keep the integrity of the Snoqualmie Valley and promote safe and healthy farming practices.
sandy aguilara	Temecula, CA	2015-11-10	STOP GMO!!!!!!!!!!
Victoria Hill	Brier, WA	2015-11-10	This decision is on the WRONG SIDE OF HISTORY. Pay attention to CLIMATE CHANGE and give land to ORGANICS
Todd Rawlings	Sammamish, WA	2015-11-10	I am very concerned about the quality of my food and will not eat food with any traces of Roundup, glyphosate or GMO cross-pollination. We need to keep the Snoqualmie Valley free of these poisons.
Stephen Byer	Woodinville, WA	2015-11-10	Keep chemicals out of our streams.
Patricia Hendrix	Horn Lake, MS	2015-11-10	Get out!!
Pamela Martin	Eugene, OR	2015-11-10	We don't want polluting businesses in Oregon. And we don't want GMO products.
laila buenagua	Taylor, MI	2015-11-10	we need to eat cleaner food and for our children.
Leslie Chertok	tacoma, WA	2015-11-10	This is not cost effective, best use of land, nor in the public best interest.
Anthony Kinsey	Carnation, WA	2015-11-10	The Keller proposal does not meet the stated RFP goals of: (1) To increase opportunities for new and beginning farmers, and (2) To offer opportunities to increase consumer appreciation for local food and public support for local farming.
Erinn Slosar	Royse City, TX	2015-11-10	I used to live in the area that this pertains to, much of my family is still there as well as my tribes. Allowing this sale to pass would only hurt the delicate ecosystems of the area but also damage the health of everyone around it. Shame on king county, snohomish county, and the state for even considering this.
Cathy Strote	Washougal, WA	2015-11-10	Not in my state!
Frank Nicholson	Somoma, CA	2015-11-10	GMO's cross contaminate Organic with no responsibility taken by the GMO owners/producers. Once contaminated, Organic loses its certification.
Nancy Crist	Sedona, AZ	2015-11-10	Enough is enough with poisoning and degrading our home!
Karen Juhre	Seattle, WA	2015-11-10	I do not want any more farm land growing GMO crops.
Debra Crump	Sedona, AZ	2015-11-10	It's the right thing to do
Patricia Fitchen	Monroe, WA	2015-11-10	We don't want GMO's anywhere!!!!
Joyce Thompson	Cambridge, Canada	2015-11-10	This is criminal.
Amanda Musser	Bellingham, WA	2015-11-10	I do not approve of CAFOs or GMOs
Deborah Fitchen	Pomeroy, WA	2015-11-10	We don't want this in our state. I have family in that area
Gianpaolo Boccato	Seattle, WA	2015-11-10	I buy my produce from Jubilee Farm
Summer Trudell	Bellingham, WA	2015-11-10	I want a healthy world for my children
Connie Wible	Mercer Island, WA	2015-11-10	I know this property and it needs to stay farmland organic farmland

Name	Location	Date	Comment
Diane Engles	Raleigh, NC	2015-11-10	GMOs are not necessary and cause harm to the environment, animals and people.
Snezhinka Kehayova	Issaquah, WA	2015-11-11	I want a clean land, water and air for my kids
Paul Sursely	El Paso, TX	2015-11-11	I'm signing because as a frequent visitor to this beautiful area, I am appalled that this land would be sold to a company that intend to use it for GMO purposes. Day no to GMO's.
Laura Appell	Seattle, WA	2015-11-11	I am dismayed and disturbed to learn that King County has ignored its own policies and requirements, and is abandoning an ever-decreasing amount of organic farmland. Stop this!
sheila parker	Seattle, WA	2015-11-11	I do not want to see Roundup-Ready GMO corn using glyphosate and synthetic fertilizers in the Snoqualmie Valley PERIOD. For one thing, the residues of this destructive land use will spill into the water in various ways. I DO NOT WANT TO COMPROMISE JUBILEE FARM'S ABILITY TO CONTINUE TO FARM THE WAY GOD INTENDED -- using organic and biodynamic farming methods. Sheila Parker.
Robyn Hartman	Woodinville, WA	2015-11-11	It makes far more sense for the property to benefit many local residents than one privately owned business, especially when the latter might cause problems for nearby farms.
Jacilyn Oseguera	Select an Airport, WA	2015-11-11	Please save this land from unhealthy business practices.
April Cary	San Antonio, TX	2015-11-11	We are being poisoned with the very food we need to sustain life. Enough with gmo and pesticides!!!
Jenna MacInnis	Medford, OR	2015-11-11	Stop poisoning our lands!
Kari Dewdney	Marysville, WA	2015-11-11	The rest of the world is realizing selling your soul to the devil is also selling our children's health. WAKE UP!
Keri Walker	Lynden, WA	2015-11-11	GMO's KILL!!! They are wrong.Organic is the ONLY way.
Matt Pelham	Sammamish, WA	2015-11-11	I love the Snoqualmie Valley and support the Seattle Tilth. Tall Chief provides a chance to either improve land use for all of King County's residents or take a step backwards.
Stephen Bettinger	Seattle, WA	2015-11-11	Cows are designed for and meant to walk. Walk here, there, all over to find food and other cows. We must respect our food. In life and in the food chain. No confinement farming! Would you want to live that way?
Mazzetti Virginia	Tonasket, WA	2015-11-11	It is a shame to destroy an economy which is working for the community and putting in place a polluting one which has a captive/prisoner vibration with it. Not in the interest of healthy community.
Bobbe Branch	Bellevue, WA	2015-11-11	I am signing because I lived in Carnation for 20 years and want to keep the land there for farmers who will not pollute the land, river, and plants with more pesticides and chemicals and effect the organic farms in the area!! Think about the impact before acting, please!! Thank you Bobbe Branch
megan barker	Sammamish, WA	2015-11-11	I
linda columbia-cael	Olympia, WA	2015-11-11	We do not need anymore GMOS crops in our state!!!!
Julie losey	Woodinville, WA	2015-11-11	I worry about future generations and this crud we now call food.
Teri Palmer	McCleary, WA	2015-11-11	I am a Snoqualmie Indian and thoroughly resent any non-organic food stuffs.

Name	Location	Date	Comment
B Sullivan	North Bend, WA	2015-11-11	While I support any/all local business in the valley, I think it's important to focus on preservation, low impact, and environmentally friendly farming approaches. Anything that causes unnatural run-off into the river should be specifically disallowed. While I realize that the Keller family has been farming in the valley for generations, it's my impression that their use of this property will follow more typical farming practices and will also likely incorporate the growing of GMO crops as well as chemical fertilizers and/or pesticides. That is the kind of approach we need LESS off in the Valley.
Judith Fisher	Bothell, WA	2015-11-11	Seattle Tilth has proven track record to protect the site. No synthetic fertilizers and no GMO!
margaret m walsh	yakima, WA	2015-11-11	peace is on the menu -- once we get meat off the menu -- there will be peace on the planet
Barbara Alles	Redwood City, CA	2015-11-11	Loss of qaulity organic food production land hurts all Americans.
Jessica Jacobson	Kalispell, MT	2015-11-11	What goes into our dairy cows comes out in our milk. Don't pollute the land or the animals. Selling at a loss. Something stinks here.
stephanie allgood	redmond, WA	2015-11-11	Don't do this!!! This isn't smart agriculture for our area. Local organic veg is what we need in our area.
Dea Allgood	Seattle, WA	2015-11-11	I want to support organic farming in the Snoqualmie valley
Patricia Knox	Woodinville, WA	2015-11-11	I support organic foods for the health of my grandchildren and the planet. No GMO corn at Tall Chief.
Julie Pershin	Santa Fe, NM	2015-11-11	GMOs cause auto immune diseases are linked to cancer, irreversibly tarnish and ruin the environment, kill the already endangered bee population and pollute water systems. 36 countries have banned GMOs. The Non GMO Labeling Project was started in Bellingham. Please look beyond the money and choose PEOPLE over profits. Protect the environment, protect the people - DON'T be responsible for allowing this to happen. Please do your research thoroughly on this one and don't be bamboozled by Monsanto's evil propaganda and money schemes. Act responsibly, the Earth depends on it. Thank You. :)
Lari Power	Mercer Island, WA	2015-11-11	The Snoqualmie Valley surrounds a main tributary to the Puget Sound and its fisheries. This watershed cannot afford chemicals that would damage the livelihood of the people of Puget Sound.
Sharon Smith	Albany, OR	2015-11-11	Because we need to move toward divesting the world of these poisons, not expanding their use!
Erin Jorgensen	Enumclaw, WA	2015-11-11	GMO's threaten biodiversity and have not proved safe as food for people or animals.
Jim Rupert	Fall City, WA	2015-11-11	I'm signing in the interest of fairness and benefitting the greater good.
Karl Kaufmann	Fall City, WA	2015-11-11	Use of this land for commercial dairy is entirely against the best interests of the residents and the original plan for sustainable low impact use.
tom maendle	San Francisco, CA	2015-11-11	GMOs cause cancer and pollute the Earth, we owe it to our descendants to speak the truth and live in right relation with all living beings.
Camille Dohrn	Seattle, WA	2015-11-11	This is a bad idea in every way. More chemicals in the soil is more chemicals in the groundwater and more poison in the food supply.
stephanie browne	Renton, WA	2015-11-11	We need to change our food system and focus on real food.
Lesli Olson	Woodinville, WA	2015-11-11	I want this land used for ORGANIC food with no pesticides or GMOs, please.

Name	Location	Date	Comment
Todd Boyle	Seattle, WA	2015-11-11	I intend to retire in the Snoqualmie valley, let's not poison the earth.
Barbara Mitchell	Claypool, AZ	2015-11-11	Organic responsibility grown produce of any kind is the most important purpose one could have ANY WHERE since this is becoming scarce from what it was. To put in anything including GM crops or in the case milk cows, will only continue to poison our earth. If I could, I would like to buy that myself just to keep this land pristine and clean. But only a gift from God would allow this. Please, do not sell to ANYONE who will NOT continue to keep this land unpoisoned
Erik Goheen	Seattle, WA	2015-11-11	roundup is recognized as a cancer-causing chemical, and monocrop conventional agriculture degrades soil. The Tilth proposal would sustainable alternatives in the Snoqualmie valley.
Barbara Perry	Bellingham, WA	2015-11-11	Farmers do not have to use poisons or pollute the river with excrement when they can use Salses filters for getting energy from cow manure.
Robert Storr	Palmdale, CA	2015-11-11	I do not want any further poisoning by Glyphosate, Roudup, Monsanto or the like.
Kathie Hansen	Mount Vernon, WA	2015-11-11	I want GMO's banned
Giovanna Orecchio	Bellevue, WA	2015-11-11	All King County residents must take a stand to preserve this incredible land while making smart economic decisions for generations to come. The Snoqualmie Valley is a national treasure, and we're facing a pivotal moment in which we have the power to do the right thing.
Diane Beeny	Westfield, NJ	2015-11-11	Please protect Snoqualmie Valley from toxic GMOs, herbicides and fertilizers, etc!!!
Dermuid O'Shea	Hastings, United Kingdom	2015-11-11	This must not happen!
Kiri Nibler	Seattle, WA	2015-11-11	I support local, organic, and sustainably produced food.
Jim DeBlasio	Everett, WA	2015-11-11	This is not an appropriate use of public lands.
Chanel Bork	Bothell, WA	2015-11-11	No more GMOs!
Gay Mason	Clarkston, WA	2015-11-11	We need to protect the environment from chemicals the kill the bees and contaminate the Eco system.
shauna butlet	Jackson, CA	2015-11-11	No more poison in our air or food!!
Amber King	Douglas, AK	2015-11-11	As a supporter of organic, sustainable, permaculture the impact of this land falls in line with King County's local food programs, the only way to create a healthy local food production areas is smaller organic operations. More jobs, higher yields per acre, less toxic chemicals and destruction of sensitive wildlife areas. Please help support king county's food security for the future.
Keith Caneer	Seattle, WA	2015-11-11	Stop GMO and Roundup spraying
Bonnie Strehlow	Federal Way, WA	2015-11-11	I'm signing because it is important to keep sustainable, high quality, responsibly grown AND local farm land as much as possible. I've live in this area for 40 years and have watched with sadness as farmland has been parceled out & sold to the highest bidder just to destroy the beauty of what made Seattle area so desirable to live in. Please stop this awful sale and give the Seattle Tilth Proposal more thoughtful consideration. Thank you. Bonnie Strehlow
Robin Jansen	Redmond, WA	2015-11-11	With real estate booming, why sell at a loss? This is precious agricultural land and should not be polluted with GMOs, pesticides and factory farms. This reeks of corruption and a "sweetheart" deal.

Name	Location	Date	Comment
stephanie cooper	seattle, WA	2015-11-11	It is crucial that whenever possible (i.e. when considering public lands) that our lands be used responsibly, sustainably, for the future. Once misused, we can't go back, realistically. We ALL want, even you King County Council, to preserve our lands as best possible for our future, our birds, our health. Don't think about early quick profit. You are in place to make responsible decisions which means thinking longer term. Keep this jewel land a Jewel! Don't sell out!
John taft	bluffton, SC	2015-11-11	Someone has got to stop the destruction of our planet, yes OUR planet, from destruction so that a few can get even richer.
Brittney Brophy	Sultan, WA	2015-11-11	Gmo are not good for human consumption!
Karin Earnst	Winlock, WA	2015-11-11	ER need more organic farms, not less. Stay out of Snoqualmie valley!!
Duncan James	Fall City, WA	2015-11-11	We need to look into and research this issue more closely. Public input needs to be included. The conclusions need to be will communicated comunicated to the public. The community is too divided as it exists today.
Judy Neldam	Duvall, WA	2015-11-11	I own the Grange Cafe in Duvall, a farm to table restaurant, and I am a strong supporter of increasing organic farming in the Snoqualmie Valley. Conventional dairy operations tend to pollute the soil and rivers and the intensive use of chemicals contaminates surrounding soil and puts local citizens at an increased health risk. I am appalled that the county would use public funds for this purpose and ask that you reconsider this proposal which favors one family over the needs of an entire valley.
A Jones	Sydney, Australia	2015-11-11	We need more organic farms and land
ROBERT CATTON	Seattle, WA	2015-11-11	It is not appropriate to allow expansion of a dairy farm with 4.5 million dollars of public funds. Watch or read "Forks over Knives", or Dr. Dean Ornish's "The Spectrum" to learn about the harm caused to the environment and to our individual bodies by raising cattle, the consumption of dairy products and the impact of corn in our diet. We expect more from our King County council persons.
Debbi Thiessen	Seattle, WA	2015-11-11	Organic farming is the best thing we can do for our land and those who live on it. Please do not use my tax money to help bring less biodiversity and toxic chemicals to our county! Follow the rules you set for the sale of this land.
Kea Swartz-Ireland	Seattle, WA	2015-11-11	A planet free of pesticides is hard to imagine but the beauty of that valley is something so worth fighting for. The low water table there would clearly allow all pesticides and antibiotics used on a dairy to seep into the water table and quickly move to other farmland and contaminate the entire valley. I love dairy products but we can't look at the small picture. And the value of the organic food raised in that valley is priceless in so many ways
JT Cannon-Kyte	Fall City, WA	2015-11-11	I'm signing because I believe that the guidelines of the RFP and the Valley visioning work were not followed. At the very least, the Exec should withdraw Ordinance 2015-0423 and redo the RFP. If that doesn't happen, I urge the KC Council to vote this down and ask for a do-over. Thanks. ~jtck
Ling Zhang	Seattle, WA	2015-11-11	I support organic gardening practice over GMO. I do not want my children to have weak immune system and have limited source to organic food. I am in support of expansion of organic gardening space not shrinking existing one.
Jeannette Fess	lafayette, CA	2015-11-11	fuck the NWO, this is wrong.
Renee Werth	Kirkland, WA	2015-11-11	I'm signing because food is suppose to heal us not kill us
Nancy Koeppen	Tumwater, WA	2015-11-11	Roundup ready GMO crops are toxic to the environment and to people who consume them. We need to ban Roundup, not promote it.
