FCD Resolution FCD2017-07

Proposed No. FCD2017-07.3

Sponsors

1 A RESOLUTION relating to the operations and finances of
2 the District, adopting the 2018 budget and authorizing
3 improvements.

4 WHEREAS, pursuant to RCW 86.15.140, the King County Flood Control Zone
5 District ("District") held a public hearing on the proposed 2018 budget of the District on
6 November 13, 2017, and

7 WHEREAS, the board of supervisors ("the Board") desires to adopt the District's
8 2018 budget, and

9 WHEREAS, by Ordinance 15728, the King County council adopted the District's
10 initial comprehensive plan of development for flood and stormwater control, which is
11 titled "2006 King County Flood Hazard Management Plan," and by Resolution
12 FCD2011-05.1, the District Board amended the initial plan to include a project in the city
13 of Seattle (collectively, "the District Comprehensive Plan"), and

14 WHEREAS, pursuant to RCW 86.15.110, the Board must approve by resolution
15 all flood control and storm water control improvements, prior to the extension,
16 enlargement, acquisition or construction of such improvements, and

17 WHEREAS, RCW 85.15.110, further provides that such approval resolution must
18 state whether the improvements are to be extended, enlarged, acquired or constructed;
19 state that the comprehensive plan has been adopted; state that the improvements generally

20 contribute to the objectives of the comprehensive plan; state that the improvements will
21 benefit the county as a whole; state the estimated costs of the improvements; and identify
22 the data supporting the estimated costs, and

23 WHEREAS, the Board desires to approve improvements in the District's 2018
24 budget that are not in the District Comprehensive Plan, or that have been modified by the
25 District's 2018 budget, in accordance with RCW 85.15.110, and

26 WHEREAS, the District reaffirms its commitment to the effective and efficient
27 implementation of capital projects by contracting with King County, as its primary
28 service provider, and other jurisdictions when appropriate;

29 NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF
30 SUPERVISORS OF THE KING COUNTY FLOOD CONTROL ZONE DISTRICT:

31 SECTION 1. The Board hereby adopts the 2018 Budget for the District, as set
32 forth in Attachments A ("Work Program"), B ("Annual Budget"), C ("Annual Operating
33 Budget"), D ("2018 Capital Budget"), E ("2018 - 2023 Capital Budget"), F ("2018
34 Annual District Oversight Budget"), G ("2018 Subregional Opportunity Fund
35 Allocations") and H ("2018-2023 Capital Budget Project List"); provided that King
36 County, or other jurisdictions contracted to implement projects, work shall submit
37 predesign reports for capital projects to the District executive director, and shall seek
38 approval from the executive director of project charters. Furthermore, King County shall
39 provide to the District executive committee thirty percent design project reports for
40 authorization to proceed with sixty percent design.

41 SECTION 2. The Board approves the extension, enlargement, acquisition or
42 construction, as applicable, of the improvements that are included in the District

43 Comprehensive Plan, that are included in the District Comprehensive Plan but have been
44 modified by Attachments C, D and H to this resolution, or that are not included in the
45 District Comprehensive Plan but are identified in Attachments C, D and H to this
46 resolution (collectively, "the improvements"). The District Comprehensive Plan includes
47 the streams or water courses upon which the improvements will be enlarged, extended,
48 acquired or constructed. The Board determines that the improvements generally
49 contribute to the objectives of the District Comprehensive Plan and will be of benefit to
50 the county as a whole.

51 SECTION 3. The estimated costs of the improvements are stated in Attachments
52 C, D and H to this Resolution and the supporting data for the estimated costs are on file
53 with the director of the King County water and land resources division.

54 SECTION 4. For improvements that will be constructed, preliminary engineering
55 studies and plans either have been prepared or will be prepared, and have been filed or
56 will be filed, with the director of the King County water and land resources division.

57 SECTION 5. The Board authorizes the executive committee to modify project
58 budgets and schedules identified in Attachment H; provided that all changes must remain
59 within the identified basin and overall basin budget allocation as identified in
60 Attachments C and D.

61 SECTION 6. Section 3.6 of the interlocal agreement between the District and
62 King County provides that King County shall notify the District executive director in
63 writing if the county needs to modify or reprioritize capital projects. King County's
64 notifications to the District executive director should include information regarding
65 variations within project budgets of more than twenty percent in the "acquisition,"

66 "design," "construction," "contingency" and "total" expenditure categories, shown on
67 Attachment D to this resolution.
68

FCD Resolution FCD2017-07 was introduced on and passed as amended by the King County Flood Control District on 11/13/2017, by the following vote:

Yes: 8 - Mr. von Reichbauer, Mr. Gossett, Ms. Lambert, Mr.
McDermott, Mr. Dembowski, Mr. Upthegrove, Ms. Kohl-Welles and
Ms. Balducci
No: 0
Excused: 1 - Mr. Dunn

KING COUNTY FLOOD CONTROL DISTRICT
KING COUNTY, WASHINGTON

ATTEST:

Melani Pedroza, Clerk of the District

Attachments: A. King County Flood Control District 2018 Work Program dated October 30, 2017, B. King County Flood Control 2018 Annual District Budget dated 11/8/17, C. King County Flood Control District 2018 Work Program

The District work program is comprised of three categories: district oversight and policy development, operations, and capital improvements. The Flood Control District contracts with King County for operations and capital improvements.

- **District Oversight and Policy Development**
 - Policy direction to guide Advisory Committee and King County as service provider
 - Financial planning, budgeting, levy rate, bonding (if any)
 - Administration of contracts
 - Asset management
 - Capital improvement priorities
 - Capital improvement implementation evaluation
 - Public awareness priorities
 - Post flood event review and evaluation
 - Federal and state legislative agenda
 - Legal services, financial management, and Washington State audit
- **Operations Work Program**
 - Annual Maintenance
 - Flood Hazards Plan, Grants, Outreach
 - Flood Hazard Studies, Maps, Technical Services
 - Flood Preparation, Flood Warning Center, Post Flood Recovery
 - Program Management, Supervision, Finance, Budget
 - Program Implementation,
 - District Planning, Outreach, Policy and Technical Services
- **Capital Improvement Program (CIP)**
 - Capital Improvement Projects Acquisitions and Elevations
 - Programmatic capital funding (Subregional Opportunity Fund, Cooperative Watershed Management Grants, Flood Reduction Grants)

2018 Priorities:

Management & Budget

- Seek federal assistance with US Army Corps issues
- Align capital expenditure schedules
- Provide budget issue requests to Advisory Committee

Policy Development

- Equity and Social Justice Policy
- Evaluate Home Elevation Program to recommend policy changes to make program more effective

and accessible for residents at risk of flooding

Capital Projects

- Establish reporting format for delineating that portion a project's capital budget that meets habitat mitigation requirements and that portion dedicated to habitat restoration benefits
- Reports from WLRD on capital project progress

Real Estate

- Update facility inventory and real estate records
- Address property title issues

Planning and Studies

- Snoqualmie Middle Fork Planning Process
- Lower Green River Planning Process
- 2018 Flood Hazard Management Plan Update Process
- Levee Breach Study to evaluate and identify gaps in evacuation and shelter in place plans in areas impacted by a levee breach

Grants

- Monitor Opportunity Fund Project Implementation
- Monitor WRIA Grant Progress and Identify Leveraging Opportunities
- Outreach for Flood Reduction Grants Program including funding opportunities for dam inundation mapping

Communications

- Review and approve communications plans by Service Provider for planning processes, advisory committees, large wood, flood awareness, and special initiatives
- Conduct media outreach and response on identified priorities
- Participate in public meetings on priorities
- Web Site Upgrades

King County ILA Service Provider Work Plan

Resource Management, Annual Maintenance, and Facility Monitoring

Program Summary: Coordinate facility and property maintenance for the District, which includes 500 flood protection facilities covering 119 linear miles and approximately 800 acres of land managed for flood mitigation purposes. Facility inspections and assessments may lead to proposed repairs in the capital program. Inspections and assessments also help to increase the potential for federal funding assistance for future flood damages.

Annual Maintenance Program:

- Manage work authorizations and coordinate with Department of Transportation (DOT) Road Services Division, Washington Conservation Corps, work crews from the Road Division, Earth Corps, the Department of Juvenile and Adult Detention's Community Work Program, or contractors on completion of maintenance activities:

- Facility mowing
- Access gate maintenance
- Access road maintenance
- Noxious and non-native plant removal
- Irrigation and watering
- Interpretive sign installation and maintenance.
- Coordinate design of facility and acquisition property re-vegetation projects.
- Coordinate design and implementation of volunteer planting and other land stewardship projects.
- Provide land and resource management including management of lands for appropriate levels of public access.
- Inspect, assess and, if necessary, remove hazardous trees.
- Collect and remove garbage from fee-simple owned property.

Flood Protection Facility Assessment and Monitoring Program

- Develop methods for facility inventory/assessment program.
- Conduct annual, spring and fall, facility assessments.
- Conduct, or assist with, post-flood damage assessments.
- Produce annual report on facility conditions.

Facility Maintenance and Repair Program

- Conduct or assist with facility assessments, consistent with the facility assessment and monitoring program.
- Coordinate with the U.S. Army Corps of Engineers (Corps) on PL 84-99 levee inspections including vegetation management, permitting, and mitigation (as necessary).
- Support or lead staff on the Green River Pump Station Operation and Maintenance Program.

Sediment Management, Large Woody Debris, In-stream Management Program

- Coordinate sediment management program/project actions to reduce flood risks.
- Coordinate large woody debris program/project actions to reduce flood risks.
- Monitor other in-stream hazards and coordinate associated flood risk reduction actions.

Flood Hazard Plan, Grants, Repetitive Loss Mitigation, and Public Outreach

Program Summary: Manage repetitive loss area mitigation coordination, public outreach, flood hazard management planning, and grant preparation. Repetitive loss mitigation is generally achieved by buying or elevating at-risk homes. While buyouts and elevations are funded via the capital program, the planning, prioritization, and the Federal Emergency Management Agency (FEMA) grant submittals are funded via the operating program. Most operating costs for grant development are reimbursable if the FEMA grant is awarded. Public outreach for specific capital projects is funded through the capital program; basin-wide outreach regarding on-going and planned capital projects is considered an operating expense.

Repetitive Loss Area Mitigation Planning

Program

- Track repetitive loss area and repetitive loss property information.
- Provide ongoing program database updates, including tracking property owner communications, interest, and staff recommendations for mitigation options.
- Manage and administer King County's Home Buyout and Elevation Program consistent with District acquisition policies.

Public Outreach and Communications Program

- Provide increased citizen preparedness for floods.
- Provide community outreach support for capital projects.
- Conduct annual basin-wide meetings and outreach regarding the full range of floodplain management activities, whether on-going or planned.
- Support media relation activities.
- Coordinate citizen involvement, and prepare and facilitate public meetings.
- Coordinate updates to webpage and other outreach and educational materials.
- Coordinate outreach to landowners with facility easements regarding maintenance work.
- Coordinate with the District to implement communications protocols.

Community Rating System (CRS) and federal Disaster Mitigation Act Coordination

- Manage the CRS program consistent with the newly adopted federal CRS manual, including coordination with other CRS jurisdictions in King County through the CRS Users Group.
- Complete annual CRS recertification documentation.
- Coordinate/manage updates and process to the planning and regulatory processes for future flood plan updates, King County's Regional Hazard Mitigation Plan, King County Comprehensive Plan, Shoreline Master Plan, and Critical Areas Ordinance. This includes coordination with other jurisdictions.

Grants Program

If resources are available, the following types of grant activities may be included:

- Develop grant applications for FEMA hazard mitigation assistance grants as well as post-flood funding. Develop other grant applications to support capital project implementation.
- Administer the biennial Washington State Department of Ecology Flood Control Assistance Account Program (FCAAP) grant process and track successful grants to ensure timely reporting.
- Coordinate and assist with preparation of applications for all state and federal flood hazard mitigation grant processes.

Provide grant application technical assistance to cities and other stakeholders, as needed. Grant prioritization within WLRD shall be based on the following considerations, in order of significance:

- The impacts to public safety.
- The portion of the project directly related to flood reduction.
- The risks of potential damage to infrastructure, including but not limited to businesses, homes, farms, and roads.
- Efficiency of staffing hours.

In addition to grant alerts to the District, WLRD shall transmit a grant overview report to the District by June 30 of each year including information with a description of grants for which WLRD has applied and how the above priorities were taken into consideration.

Flood Hazard Studies, Maps, and Technical Studies

Program Summary: Generate technical information used to characterize, quantify, and delineate flood risks, as well as to develop and implement strategies and actions to reduce those risks. Flood hazard technical information types include hydrologic and hydraulic studies, floodplain and channel migration zone maps, geologic studies, geographic information system (GIS) land use data, dam operations studies, risk assessments and flood hazard management corridor working maps. These technical assessments are used to inform the capital project feasibility, prioritization, and design process funded by the capital program.

- Conduct independently or with consultant contracts, as needed, the following technical study and mapping projects:
 - Floodplain delineation and mapping
 - Channel migration zone delineation and mapping
 - Channel monitoring
 - Gravel removal studies and analysis
 - Risk assessments
 - Hydraulic modeling
 - Landslide hazard mapping in areas that may intersect major river floodplains.
- Coordinate with FEMA and other local, state and federal agencies on mapping studies and products.
- Maintain accessible flood study and flood hazard data in a floodplain mapping library.

Flood Preparation, Flood Warning Center and Post Flood Recovery Program

Program Summary: Implement a comprehensive approach to preparing and educating citizens for flood events, coordinating emergency response and regional flood warning center operations during flood events, and ensuring consistency across basins for post-flood recovery actions. Post-flood damage assessments may result in capital projects to repair damaged facilities. Flood and post-flood activities are tracked with a unique project number so that expenditures may be submitted for any federal assistance that becomes available following a federal disaster declaration.

Flood Preparedness

- Coordinate flood hazard education program, communication tools (brochures, web content, customer service bulletins, etc.) to increase the awareness of flood risks and prepare citizens for flood events. This includes base-level participation in the regional Take Winter by Storm campaign.
- Track and disseminate flood hazard technical information to other King County departments (Department of Transportation (DOT), Department of Permitting and Environmental Review (DPER), etc.) and other local, state, and federal agencies.
- Coordinate annual flood awareness month and associated public information program strategy (meetings, websites, other) designed to increase the public's awareness of locally

available resources and information.

Regional Flood Warning Center

- Staff the Regional Flood Warning Center monitoring and emergency first responder flood patrols during flood events.
- Coordinate with the following agencies in support of the Regional Flood Warning Center operations:
 - Local governments
 - City of Seattle and Corps on dam operations
 - National Weather Service on weather forecasts and flood predictions
 - King County Office of Emergency Management for coordinated emergency response activities
 - United States Geological Survey (USGS) on river gauging contract and gauge upgrades
 - King County DOT on road closures and emergency flood damage and repair response activities.
- Coordinate flood emergency response activities.

Post-Flood Recovery Operations Program

- Complete preliminary damage assessments, and develop and track FEMA public assistance Project Worksheet completion, expenditures and general documentation.
- Coordinate with FEMA and Corps on flood damage repairs and federal funding opportunities; determine eligibility.
- Identify projects and complete grant applications for post-disaster FEMA Hazard Mitigation Grant Program opportunities.

Program Management, Supervision; Finance, Budget and General Administration

Program Summary: Provide supervisory, budgeting, contract administration, and administrative services for the District.

Management and Supervision Tasks

- Manage the technical and business operations of the District work program and staff.
- Develop annual operating and capital budgets, work programs and staff allocations.
- Provide supervision, technical assistance and quality control/assurance to staff.
- Carry out responsibilities for hiring, management performance, developing training expectations and recommending effective discipline and termination.
- Ensure programs and projects are completed to carry out the goals and objectives of the River and Floodplain Management Program.
- Work collaboratively with other government and regulatory agencies, departments within King County, and the public to address environmental policies and issues related to floodplain management principles, goals and objectives.

Finance and Budget Operations

- Develop annual capital and operating budget.
- Track and report annual capital and operating budget, revenue and expenditures.
- Process approved reimbursement requests for Subregional Opportunity Fund, Water Resource Inventory Area (WRIA) Cooperative Watershed Management grants, and Flood Reduction grants.
- Provide grant and cost-share reporting, billing and documentation.
- Provide contract and procurement management, support and strategy. (Note: contract administration for specific capital projects is charged to the capital project budget rather than the operating budget.)
- Support capital project managers/engineers with detailed project expenditures, revenues, scheduling, contract management and other finance needs in support of CIP implementation.
- Contract record-keeping consistent with county, state, and federal policies and requirements.

General Administration

- Records maintenance.
- Copying, filing, correspondence, and scheduling.
- Meeting preparation, coordination and support.
- Photo-documentation management.
- General program administrative support.

Compliance

- Provide access to records including but not limited to contracts, invoices, timesheets.
- Respond to annual District audits, King County Council audits, state audits, grant-related audits, and quarterly procurement audits.
- File semi-annual and Annual Report with the Board of Supervisors and Executive Director in printed and electronic form for posting to the District website.
- Notify Executive Director in writing when project scope, budget or schedule change from the adopted capital improvement plan.
- Notify Executive Director of grant requests 30 days prior to grant due date or submittal
- Notify Executive Director of grant award within 10 days of grant approval.
- Work with Executive Committee and Executive Director to support the District's work with Advisory Committee.

King County Flood Control District Program Implementation

Program Summary: Implement flood hazard management programs and coordinate capital improvement projects for the District. Teams of staff are organized by river basin, supported by countywide technical services and countywide planning services, and will be responsible for identifying, implementing, and tracking flood risk reduction program and project actions within a given basin. Staff also coordinate four basin technical committees with partner jurisdictions and maintain relationships with communities and other agencies.

Basin Team and Basin Technical Committee Program

- Staff and coordinate regular Basin Technical Committees.
- Implement work program to guide private property owner and community outreach

- necessary to complete capital improvement projects.
- Develop ongoing relationships with cities, agencies, and stakeholders within the basin, and ensure consistency across basins.
- Coordinate on acquisition priorities with Acquisition Unit consistent with District acquisition policies.
- Coordinate and support logjam investigation and response/action.
- Respond to, investigate and provide technical assistance for enforcement on complaints and general inquiries. Conduct citizen and/or landowner contact, communication and outreach.
- Conduct annual public meetings about large wood.
- Coordinate with the DOT Road Services Division on construction crew scheduling.
- Provide quarterly project reporting to management.
- Address and seek resolution on basin-specific floodplain management issues.

King County Flood Control District Advisory Committee Coordination

- Provide staff support to the Flood Control District Advisory Committee and the Board of Supervisors, as requested by the Executive Director.
- Track basin technical committee meetings, issues, and cross-basin policy issues.
- Coordinate public process across the District to ensure consistent outreach across basins.
- Report District activities, accomplishments, revenues and expenditures through an annual report.
- Respond to Advisory Committee and Board of Supervisors requests for information regarding rate structure options, and other issues.

Flood Control District Committee Support

- Provide presentations and updates as requested by the Executive Director at meetings of the Executive Committee and Board of Supervisors.

Floodplain Management Planning

- Support Board discussions of policy issues, building on materials previously developed for the Citizens Committee.
- Support Board engagement in capital project planning efforts, including the development of goals and evaluating alternative flood risk reduction actions. Participate in basin planning and coordination efforts such as the Lower Snoqualmie Flood-Fish-Farm work group.

Agriculture Needs Assistance

- Provide technical and modeling assistance and permitting support for farm pad proposals.
- Manage compensatory storage bank.
- Provide assistance to identify and pursue mitigation opportunities for barn and other farm structure elevations.
- Implement recommendations of the Farm/Flood Task Force as directed by District Executive Committee.
- Coordinate outreach to farmers and the King County Agriculture Commission to gather input on the unique needs of agriculture lands within flood hazard areas.

Capital Improvement Program Implementation

Program Summary: The vast majority of the proposed District work program and budget is dedicated to the implementation of major maintenance and capital projects. This work includes managing and implementing major maintenance, repair and new flood protection facility design, permitting and construction; home buyouts and acquisitions; home and barn elevations; and farm pad cost-share assistance.

The capital projects include those projects to be completed by jurisdictions through the Subregional Opportunity Fund program with funding allocated proportional to assessed value of each jurisdiction, grants recommended through the WRIA cooperative watershed management program, and the flood reduction grant program.

Construction of flood protection infrastructure has paved the way for considerable residential, commercial and industrial economic development in flood hazard areas. The flood protection infrastructure has reduced the frequency of flooding and severity of erosion, and contained flood flows within levees that has allowed for significant economic growth by promoting development of historical floodplains, as exemplified by the industrial and commercial development lining the lower Green River. However, these areas will always face the potential risk that the flood protection facilities could be overwhelmed, resulting in serious flood damage, significant impacts to the regional economy, or personal injury and death. While the costs of flood protection facility construction and maintenance are borne by the public, the value to the economy is a regional benefit.

The CIP will complete high priority and regionally significant flood hazard management capital improvement projects to significantly protect public safety and reduce flood risks to the regional economy, transportation corridors, and public and private infrastructure and property. These capital improvement projects include retrofits and repairs to levees and revetments; levee setbacks to improve slope stability and increase flood conveyance and capacity; and targeted acquisition of repetitive loss properties and other at-risk developments.

The CIP will provide project design, construction and management on the following project implementation elements, consistent with WLR Division's Project Management Manual:

- Scope and Concept
 - Identify problem, alternatives, recommended solution and project goals.
- Feasibility
 - Identify and conduct studies, analysis, cost estimates, resource needs, landowner issues.
- Acquisition
 - Obtain the necessary property rights to perform the work.
- Design and Permitting
 - Address all elements of the project (e.g. geomorphic, constructability)
- Complete all federal, state and local permitting requirements (e.g. Corps, Endangered Species Act (ESA))
 - Survey

- Conduct pre- and post-construction (“as-built”) survey
- AutoCAD
 - Develop design plan set
- Hydraulic Modeling
 - Conduct pre- and post-project modeling
 - Complete Letter of Map Revision (LOMR) for constructed projects, when/if warranted
- Ecological
 - Conduct pre- and post-construction monitoring
 - Complete pre-project feasibility studies/analysis
 - Provide project design support
 - Complete biological assessments/evaluations
 - Individual
 - Programmatic
 - Complete Section 7 ESA consultation
 - Coordinate or support permitting and permit agency outreach
- State Environmental Policy Act (SEPA)
 - Complete individual project SEPA review
 - Complete programmatic SEPA review
- Geotechnical Engineering Support/Geologist/Geotechnical
 - Provide sediment management monitoring, analysis and modeling
 - Conduct pre- and post-construction monitoring
 - Conduct pre-project feasibility studies/analysis
 - Provide project design support
- Engineering (may include Project Management function as well)
 - Lead design engineer for projects
 - Manage construction of projects
 - Obtain resources for projects; make task assignments
 - Track and report project scope, schedule, and budget
 - Develop plan set for construction, or bid documentation support
 - Provide overall project quality assurance and quality control oversight
- Project Management
 - Obtain resources for projects; make task assignments
 - Track and report project scope, schedule, and budget
 - Provide overall project quality assurance and quality control oversight
 - Monitoring and Adaptive Management
 - Pre-project baseline information
 - Construction Monitoring
 - Conduct pre- and post-construction monitoring
 - Provide monitoring reports to DPER and other agencies as required.

Central Costs/Overhead and Reimbursement from Capital

- This category includes use-based and FTE-based overhead costs from the Water and Land

Resources Division of the Department of Natural Resources and Parks and King County. Examples include use-based charges for the Prosecuting Attorney's Office, risk management, and the financial management system, as well as FTE-based charges for building rent and utilities. When staff loan out from the operating fund to the capital fund, the capital fund reimburses the operating fund for FTE-related overhead charges.

King County Flood Control District

2018 Annual Budget

Attachment B

11/8/17

Program	2016 Actuals	2017 Approved	2017 Revised	2018 Requested
Flood District Administration	666,522	692,090	692,090	792,853

King County Flood Control District

2018 Subregional Opportunity Fund Allocations

Attachment G

11/8/17

Jurisdiction	Opportunity Fund Allocation	Project Name	Project Description
Algona	\$10,000	Algona Stormwater System Repair	Replacing rotted out stormwater pipe where needed
Auburn	\$94,016	DEFERRING	
Beaux Arts	\$10,000	DEFERRING	
Bellevue	\$603,506	Meydenbauer Basin/NE 8th St. & 100th Ave Conveyance Improvement	Amendment adding budget to project that will reduce the flooding frequency at this intersection.
Black Diamond	\$10,000	DEFERRING	
Bothell	\$58,737	Blythe Park Sediment Reduction and Source Control for Blythe Creek Phase II	Complete 90% design and obtain needed permits for a sediment catchment pond and up stream sediment control measures.
Burien	\$69,268	DEFERRING	
Carnation	\$10,000	DEFERRING	
Clyde Hill	\$28,639	Storm Drainage Retrofits	Amendment adding budget to complete four storm drainage improvement projects in the City.
Covington	\$27,174	Timberlane-Jenkins Stormwater LID	Retrofit of stormwater facilities in drainage easement areas within Timberlane Estates.
Des Moines	\$39,355	DEFERRING	
Duvall	\$12,980	DEFERRING	
Enumclaw	\$15,030	Battersby Avenue Culvert Replacement	Replace failing culvert that crosses under Battersby Avenue (SE 440th St.)
Federal Way	\$115,813	DEFERRING	
Hunts Point	\$13,095	2018 Operation & Maintenance	Cleaning and cameraing of existing storm system.
Issaquah	\$109,676	DEFERRING	
Kenmore	\$47,964	DEFERRING	
Kent	\$190,352	Lake Fenwick Aerator Upgrade	Complete design and construction of an upgraded aerator to reduce hazardous algae blooms in the lake.
King County	\$487,648	Fairwood Park 11 Pipe Replacement	Remove existing conveyance system of a stormwater facility and replace with a concrete box culvert that will provide fish passage.
Kirkland	\$276,229	DEFERRING	
Lake Forest Park	\$33,090	DEFERRING	
Maple Valley	\$40,775	DEFERRING	
Medina	\$45,695	Medina Park Stormwater Pond Improvements	Amendment adding budget to complete permitting, removing organic sediment, and installing outlet control device in upper pond.
Mercer Island	\$152,234	Lincoln Landing Stormwater & Park Improvements	Construct stormwater, shoreline and park improvements currently in design at Lincoln Landing, a street end park on the north shore of Mercer Island.
Milton	\$10,000	DEFERRING	
Newcastle	\$33,298	DEFERRING	
Normandy Park	\$18,103	Phase 4 Stormwater Management Control	Map existing stormwater conveyance system conditions into GIS database. This will include researching existing utility easements.
North Bend	\$14,358	DEFERRING	
Pacific	\$10,000	DEFERRING	
Redmond	\$211,556	1. Overlake Regional Infiltration Vault 2. Bear Creek Modeling and Avondale Embankment Protection	1. Install infiltration vault to fully retrofit the Overlake urban center with flow control that will reduce or eliminate flooding downstream. 2. Create an updated HEC-RAS model of Bear Creek and conduct an alternatives analysis for embankment protection along Avondale Road.
Renton	\$177,949	Cedar River Gravel Removal	Implement Maintenance and Monitoring Plan.
Sammamish	\$181,741	Zackuse Creek Fish Passage	Amendment adding budget to replace an undersized culvert and restore and realign 200 feet of Zackuse Creek.
SeaTac	\$38,619	DEFERRING	
Seattle	\$2,278,511	Thomton Creek Natural Drainage System Stormwater Conveyance	Provide conveyance improvements, stormwater controls, and water quality treatment to improve the Thomton Creek watershed and provide needed drainage infrastructure.
Shoreline	\$111,004	Pump Stations 26 and 30 Improvements (Pre-Design)	Evaluate options to replace City of Shoreline Stormwater Pump Stations.
Skylomish	\$10,000	DEFERRING	
Snodqualmie	\$29,818	DEFERRING	
Tukwila	\$60,070	Tukwila 205 Levee Certification - Phase 3	Perform the third phase of a levee certification study for the Tukwila 205 Levee.
Woodinville	\$38,586	DEFERRING	
Yarrow Point	\$13,780	2018 Operation & Maintenance	Cleaning and cameraing of existing storm system and installation of ~300 linear feet of thickened edge.
Jurisdiction Totals	\$5,738,669		
Deferrals	\$1,053,845		
Projects	\$4,684,824

1	WLFLO MILLER RD RVTMNT 2016 REPAIR	SF Skykomish	WLR Const	\$1,409	\$760,796	\$756,390	\$152,405	\$0	\$0	\$0	\$0	\$0	\$152,405	\$476,374	Damage to pavement. Very large rock removed from pavement, vertical banks and exposed subgrade in several locations totaling approximately 350 feet of damage. If not repaired, Miller River Road could be severely damaged.	
2	WLFLO SKYKOMISH HOME BUYOUTS	SF Skykomish	WLR Acqui/Elev	\$380	\$380	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$380	Acquisition of at-risk single family homes in the Town of Skykomish.	
3	WLFLO SF SKYKOMISH REP LOSS MIT	SF Skykomish	WLR Acqui/Elev	\$295,404	\$690,638	\$385,434	\$54,966	\$0	\$0	\$0	\$0	\$119,405	\$173,971	\$864,809	This project will elevate or buyout individual structures in the South Fork Skykomish Basin to eliminate the risk of flooding or erosion during future flood events.	
4	WLFLO SKYK W RVR DR FLOOD STUDY	SF Skykomish	WLR Const	\$7,475	\$81,237	\$76,762	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$81,237	This project would improve infrastructure at the mouth of Maloney Creek and on the SF Skykomish River to reduce the frequency of flooding of homes and property within the Town of Skykomish.	
5	WLFLO SKYKOMISH LB DOWN 2016 REPAIR	SF Skykomish	WLR Const	\$61,767	\$150,000	\$88,233	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$150,000	Approximately 50-foot-long section of missing armor rock immediately downstream of the bridge. Further flooding may compromise or severely damage facility.	
6	WLFLO SKYKOMISH LB UP 2016 REPAIR	SF Skykomish	WLR Const	\$7,658	\$309,433	\$301,775	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$309,433	Three pockets of missing armor rock; 15, 10 and 75 feet wide and eroded topsoil from upper sections of levee. Further flooding may compromise or severely damage facility.	
7	WLFLO TIMBERLANE NB BRIDGE BUYOUTS	SF Skykomish	WLR Acqui/Elev	\$1,671,273	\$2,986,513	\$1,015,240	\$723,361	\$0	\$0	\$0	\$0	\$0	\$723,361	\$2,909,874	This project will continue to acquire and remove homes along a stretch of the Skykomish River that are endangered by erosive forces as well as inundation in some places.	
8	WLFLO TIMBERLANE 2016 REPAIR	SF Skykomish	WLR Const	\$11,040	\$52,500	\$41,460	\$106,492	\$20,000	\$20,000	\$20,000	\$20,000	\$20,000	\$0	\$43,540	\$56,040	Old privately built facility in Timberlane Village on County property. Riverside rocky walls continue to oversteepen, settle and fall into the river.
9	WLFLO 428TH AVE SE BR FEASIBILITY	Upper Snoq	WLR Const	\$188,614	\$200,000	\$131,386	\$51,159	\$0	\$0	\$0	\$0	\$0	\$51,159	\$268,614	FCD-requested project to reduce neighborhood isolation from flooding. Develop a set of alternatives for improvements to 428th Avenue SE, SE 92nd Street, and Reing Road to reduce the frequency of community isolation caused by floodwaters overtopping these roadways.	
10	WLFLO 1 USACE PL 84-99 SF SNO	Upper Snoq	WLR Const	\$0	\$0	\$0	\$150,223	\$183,154	\$352,868	\$363,454	\$0	\$0	\$0	\$1,049,698	\$1,049,698	Ensure eleven South Fork Snoqualmie River levees meet the standards of the US Army Corps of Engineers PL 84-99 program in order to receive future assistance from the Corps in the event of flood damage to the levees.
11	WLFLO 1 SF SNO LEVEE REMEDIATION	Upper Snoq	WLR Const	\$0	\$0	\$0	\$295,673	\$374,439	\$777,790	\$749,623	\$0	\$0	\$0	\$2,147,526	\$2,147,526	Six levee deficiencies have been identified in this levee segment. The project will design and reconstruct the impaired segment of levee in place.
12	WLFLO 1 RIBARY CREEK	Upper Snoq	WLR Const	\$0	\$0	\$0	\$0	\$636,492	\$815,106	\$2,338,618	\$2,408,777	\$0	\$6,198,983	\$6,198,983	Address flooding from Ribary Creek at Bendigo Blvd in North Bend as the Snoqualmie levees prevent drainage to the river during high flows.	
13	WLFLO 1 REIF RD LEVEE IMPROVEMENTS	Upper Snoq	WLR Const	\$0	\$0	\$0	\$0	\$0	\$265,438	\$318,421	\$385,037	\$457,218	\$1,427,015	\$1,427,015	Conduct a feasibility study to determine ways of preventing the overtopping of the Reif Rd Levee. Potential solutions include: repair and/or raise levee in place / setback levee / gravel removal / home elevations.	
14	WLFLO 1 CIRCLE RVR RANCH RISK RED	Upper Snoq	WLR Const	\$64,225	\$150,000	\$85,775	\$278,506	\$513,426	\$1,608,158	\$1,738,093	\$0	\$0	\$4,138,093	\$4,288,093	This project will determine a preferred action to reduce long term risks from channel migration in the Circle River Ranch Neighborhood on the South Fork Snoqualmie River. Being conducted concurrent with South Fork Snoqualmie Corridor Plan.	
15	WLFLO 1 MASON THRSN EXT 2016 REPAIR	Upper Snoq	WLR Const	\$0	\$240,000	\$240,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$240,000	Large scour hole in bank at upstream end of Mason-Thorson Extension rock-faced levee. Significant settlement and displacement of face rock at upstream end of facility. Scour hole in bank threatens to end-run facility and damage adjacent private property. Damage to levee face-rock compromises levee integrity and may lead to progressive failure, especially at upstream end.	
16	WLFLO 1 MF SNO CORRIDOR IMP	Upper Snoq	WLR Const	\$954	\$1,100,000	\$1,099,046	\$0	\$2,243,361	\$1,591,350	\$1,311,272	\$0	\$0	\$5,148,983	\$6,248,983	Placeholder for corridor plan implementation projects.	
17	WLFLO 1 MF SNO CORRIDOR PLAN	Upper Snoq	WLR Const	\$1,310,605	\$1,634,912	\$614,307	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$1,634,912	Middle Fork Snoqualmie Corridor Planning, scheduled for completion in 2018.	
18	WLFLO 1 NORTH FORK BRIDGE 2016 REPAIR	Upper Snoq	WLR Const	\$111	\$385,000	\$384,889	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$385,000	The North Fork Bridge was originally built in 1951 and is extremely vulnerable to scour as the channel thalweg migrates. In order to keep the bridge safe and reliable during a flood, it is important to protect the piers and abutments from scour failure.	
19	WLFLO 1 REIF RD 2016 REPAIR	Upper Snoq	WLR Const	\$0	\$253,000	\$253,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$253,000	Length 50-60 feet. Face rock has appeared to have settled 1-2 feet exposing core material above near upper part of levee face. Larger face rock missing in pockets upstream end of this damage site. Continued damage could compromise facility which provides flood protection for several residences landward of the facility.	
20	WLFLO 1 REING RD RVTMNT 2016 REPAIR	Upper Snoq	WLR Const	\$0	\$0	\$0	\$1,500,000	\$0	\$0	\$0	\$0	\$0	\$0	\$1,500,000	\$1,500,000	Repair three primary damage sites just upstream and directly across from the South Fork Snoqualmie confluence totalling ~285 lineal feet.
21	WLFLO 1 RECORD OFFICE 2016 REPAIR	Upper Snoq	WLR Const	\$0	\$0	\$0	\$350,000	\$421,000	\$0	\$0	\$0	\$0	\$0	\$771,000	\$771,000	Repair downstream 280 lineal feet of facility which is missing face rock and toe rock. A significant scour hole has formed around a City of Snoqualmie stormwater outfall pipe at the downstream end of facility. Potential erosion impact to Park Ave SE in City of Snoqualmie, an area included in the City's planned "Riverwalk" park and trail project.
22	WLFLO 1 SF SNO CORR EARLY ACTION	Upper Snoq	WLR Const	\$1,373,089	\$5,562,744	\$4,188,655	\$14,020,666	\$0	\$0	\$0	\$0	\$0	\$0	\$1,523,089	\$1,523,089	Project identified by Board to alleviate potential flooding of I-90 in North Bend. Currently evaluating project alternatives, including levee setback and gravel removal.
23	WLFLO 1 SF SNO CORRIDOR IMP	Upper Snoq	WLR Const	\$0	\$130,771	\$130,771	\$87,671	\$0	\$0	\$0	\$0	\$0	\$0	\$130,771	\$130,771	Placeholder for corridor plan implementation projects.
24	WLFLO 1 SF SNO CORRIDOR PLAN	Upper Snoq	WLR Const	\$2,472,914	\$2,962,914	\$216,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$2,688,914	\$2,688,914	SF Snoqualmie Corridor planning process and development of capital investment strategy.
25	WLFLO 1 SHAKE MILL LB 2016 REPAIR	Upper Snoq	WLR Const	\$0	\$800,000	\$800,000	\$1,000,000	\$923,239	\$0	\$0	\$0	\$0	\$0	\$723,239	\$1,523,239	Total breach of levee - erosion and lateral channel migration is ongoing. No immediately adjacent private property or infrastructure. Continued erosion could threaten 428th Ave embankment or bridge.
26	WLFLO 1 SHAKE MILL RB 2016 REPAIR	Upper Snoq	WLR Const	\$0	\$197,500	\$197,500	\$172,899	\$447,676	\$0	\$0	\$0	\$0	\$0	\$620,575	\$818,075	Between 428th St Bridge and Tate Creek, several locations on levee where toe-rock dislodged and corresponding minor bank erosion along 50-60 feet of river bank. Actual gaps range between 6-10 feet. Missing toe rock compromises levee integrity, increasing its vulnerability to further scour and potential failure. Failure of this facility could result in damage to a heavily used county road (428th Ave SE).
27	WLFLO 1 SI VIEW RM4 2017 REPAIR	Upper Snoq	WLR Const	\$0	\$0	\$0	\$209,000	\$0	\$0	\$0	\$0	\$0	\$0	\$209,000	\$209,000	Repair approximately 25 lineal feet of the facility with missing toe rock and shallow scour scarp into bank that is approximately 1-2 feet deep. Si View Levee is a relatively short flood containment levee that protects 50+ homes in the Si View Park Neighborhood of North Bend from flooding.
28	WLFLO 1 SR202 SF BRIDGE LENGTHEN	Upper Snoq	WLR Const	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$100,000	\$100,000	\$100,000	Placeholder funding to partner with WSDOT to expand bridge SR202 opening over South Fork Snoqualmie and Ribary Creek to improve conveyance and reduce upstream flood impacts. Supported by North Bend. Requires state or federal funding. Relative contribution of this project is being evaluated in the SF Snoqualmie Corridor Plan.	
29	WLFLO 1 TATE CRK BRIDGE FEASIBILITY	Upper Snoq	Agreement	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$150,000	\$150,000	\$150,000	Prepare a Concept Development Report (CDR) to analyze and select best span/alignment replacement bridge and road-raising option as the current bridge does not provide enough hydraulic opening due to the transport of sediments and water overtops the approaches during floods.	
30	WLFLO 1 UPPER SNOQ 2015 FLOOD REPAIR	Upper Snoq	WLR Const	\$5,672	\$1,465,673	\$1,460,000	\$15,450	\$0	\$0	\$0	\$0	\$0	\$15,450	\$1,481,123	Flood damage repairs from January 2015 flood event. Locations include Mason-Thorson Elm and Mason-Thorson Extension (Middle Fork Snoqualmie), North Park (North Fork Snoqualmie), and Record Office, Meadowbrook and Railroad (Snoqualmie mainstem).	
31	WLFLO 1 UPPER SNOQ BEA FLD MITGTN	Upper Snoq	WLR Acqui/Elev	\$9,163,547	\$11,971,284	\$7,897,737	\$1,484,158	\$2,412,151	\$2,484,516	\$2,559,061	\$2,635,822	\$0	\$11,545,699	\$23,516,983	This project will continue to acquire or elevate flood-prone structures in the Upper Snoqualmie basin to reduce the risk of flood, erosion, and channel migration damage. Partnership with Cities of Snoqualmie and North Bend. As of May 2016 260 remain to be elevated or acquired. This amount assumes 10-12 home elevations per year.	
32	WLFLO 2 DUTCHMAN RD REPAIR	Lower Snoq	WLR Const	\$0	\$209,914	\$209,914	\$338,679	\$0	\$0	\$0	\$0	\$0	\$0	\$338,679	\$648,593	Repair approximately 200 feet of revetment. Dutchman Road in this location provides the sole access to residences and business on the west side of the Snoqualmie Valley downstream of Duval. Continued erosion of the revetment could result in erosion of the road (West Snoqualmie Valley Road NE) which would severely limit access to the downstream property owners during or following a flood event.
33	WLFLO 2 DUVAL BRIDGE 1136A	Lower Snoq	Agreement	\$0	\$30,000	\$30,000	\$120,000	\$0	\$0	\$0	\$0	\$0	\$0	\$120,000	\$150,000	The foundation of the main-span pier is exposed and is vulnerable to destabilization during a flood. Add scour mitigation measures to protect footing. Bridge crosses the Snoqualmie River at Duval and is the city's primary route.

No.	Title	Basin	Type of project	2016 Inception to Date Expenditure	2017 Revised Inception to Date Budget	2017 Available Budget	2018 Requested	2019 Projected	2020 Projected	2021 Projected	2022 Projected	2023 Projected	6-Year CIP Total	Project Life Total	Comments
34	WFL2 FARM FLOOD TSK FORCE IMP	Lower Snoq	WLR Const	\$968,348	\$763,750	\$95,411	\$111,858	\$115,214	\$118,670	\$122,320	\$126,897	\$0	\$593,869	\$1,357,628	This project provides technical and cost-sharing assistance to residential and agricultural landowners in the Lower Snoqualmie floodplain to help them better withstand the impacts of flooding. Specific project actions include farm pads, elevations of homes, and elevation of flood proofing of agricultural structures.
35	WFL2 L SNO REP LOSS MITIGATION	Lower Snoq	WLR Acqui/Elev	\$1,389,231	\$1,712,699	\$443,488	\$311,021	\$0	\$0	\$0	\$0	\$0	\$11,723	\$1,895,671	Funding as possible local match for FEMA grants to elevate or acquire at-risk structures.
36	WFL2 L SNOQUALMIE CORRIDOR PLAN	Lower Snoq	WLR Const	\$5,644,814	\$7,262,761	\$1,607,947	\$113,053	\$742,630	\$655,636	\$0	\$0	\$0	\$1,511,319	\$8,754,080	Cost shared contribution to multiple levee setbacks and high priority flood risk reduction acquisitions in the Fall City reach of the Lower Snoqualmie. Projects reduce flood and erosion risk to residents, roads, and landowners. FCD expenditure leverages habitat restoration funding from other sources.

Final expenditures for the remainder of 2017 will include reimbursement for property acquisition and riparian plantings. The revised 2017 financial plan includes revenue of \$4.1 million for the sale of the Rivers Edge Business Park. Per FCD 2016-20 Section 6, this revenue makes expenditure authority available for the Lower Russell Levee Setback project. The Briscoe project will be closed out once the District's I/A with Kent expires in 2018.
99	WLFL8 BRPS BLACK R PUMP STATION	Green	WLR Const	\$5,134,045	\$5,374,203	\$240,158	(\$238,158)	\$0	\$0	\$0	\$0	\$0	\$0	\$5,145,042	Expenditures here include sediment removal, fuel system upgrades, life-cycle efficiency analysis to inform future upgrades, and priority items from recently completed needs assessment (2015). New line items established below to account for discrete project elements.
100	WLFL8 BRPS CONTROL BLDG REPLCMT	Green	WLR Const	\$0	\$50,000	\$50,000	\$480,368	\$1,554,622	\$7,577,624	\$25,887	\$0	\$0	\$9,638,501	\$9,688,501	This project will design and build the second phase of renovations to the Black River pump station. Major components include replacement of the control building, replacement of the trash rack system, and replacement of the screen sump system.
101	WLFL8 BRPS FISH PASS IMPRVMTS	Green	WLR Const	\$0	\$0	\$0	\$0	\$0	\$0	\$831,751	\$2,241,456	\$6,316,655	\$9,389,862	\$9,389,862	This project will design and build the fourth phase of renovations to the Black River pump station, revising and replacing the obsolete fish passage system.
102	WLFL8 BRPS HIGH-USE ENGINES	Green	WLR Const	\$0	\$252,900	\$252,900	\$221,179	\$1,414,074	\$25,133	\$0	\$0	\$0	\$1,689,286	\$1,613,286	This project will design and build the first phase of renovations to the Black River pump station, replacing the three smaller pump engines which run much more frequently than the other, larger pump engines.
103	WLFL8 BRPS SUPPORT SYS UPGRADES	Green	WLR Const	\$0	\$0	\$0	\$0	\$175,261	\$622,168	\$779,584	\$26,893	\$0	\$1,820,976	\$1,820,976	This project will design and build the third phase of renovations to the Black River pump station, replacing support systems such as engine control panels, cooling systems, filters and hoses.
104	WLFL8 DESIMONE URACE 2015	Green	Agreement	\$1,834,698	\$2,583,620	\$928,922	(\$823,000)	\$0	\$0	\$0	\$0	\$0	\$0	\$1,834,698	Cost-share flood damage repair from March 2014 high flows with Corps of Engineers. Construction in 2016.
105	WLFL8 DYKSTRA URACE 2015	Green	Agreement	\$638,356	\$692,856	\$54,500	\$6,695	\$0	\$0	\$0	\$0	\$0	\$0	\$6,695	Cost-share flood damage repair from March 2014 high flows with Corps of Engineers. Construction in 2016.
106	WLFL8 GREEN R PHASE 99 MITGATN	Green	WLR Const	\$3,668,478	\$4,043,988	\$375,510	\$1,616,554	\$52,000	\$25,000	\$25,000	\$0	\$0	\$1,718,554	\$5,762,542	This project will result in actions to mitigate environmental damage from tree cutting during 2008-9 (as required by permitting agencies) to maintain eligibility for WS Army Corps of Engineers PL64-99 program. The current mitigation effort is the Tofield project.
107	WLFL8 GREEN PRE-CONST ACQ	Green	WLR Acqui/Elev	\$0	\$0	\$0	\$5,000,000	\$5,000,000	\$5,000,000	\$5,000,000	\$5,000,000	\$5,000,000	\$30,000,000	\$30,000,000	This project will acquire strategic real estate upon which future large Flood Control District capital projects are dependent, thereby reducing risk to construction schedules for those projects.
108	WLFL8 HSB BREDA SETBACK	Green	WLR Const	\$0	\$1,795,000	\$1,795,000	\$1,822,674	\$590,285	\$2,427,136	\$982,119	\$0	\$0	\$6,522,214	\$6,277,214	New project to implement interim SWIF adopted by Board of Supervisors. This project will reconstruct the Horseshoe Bend Levee at the Breda reach (RM 24.45-24.72) to a more stable configuration in order to reduce flood risk to the surrounding area. The project will also raise levee crest elevations to contain the 500-year (0.2% annual chance) flood. This segment of the levee has the lowest factor of safety rating of the Horseshoe Bend levee.

No.	Title	Beam	Type of project	2016 Inception to Date Expenditure	2017 Revised Inception to Date Budget	2017 Available Budget	2018 Requested	2019 Projected	2020 Projected	2021 Projected	2022 Projected	2023 Projected	6-Year CIP Total	Project Life Total	Comments
109	WFLB HSB MCCOY REALIGNMENT	Green	WLR Const	\$0	\$400,000	\$400,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$400,000	New project to implement interim SWIF adopted by Board of Supervisors. This PL 64-99 levee segment contains a 'Minimally acceptable' rating by the USACE due to a slope deficiency at RM 24.3 (oversteepened slopes from 1.3 to 1.7H:1V for 500 feet). The City of Kent constructed a secondary containment levee in this reach, set back from the river's edge, which is currently not part of the federal levee. The only remaining structure between the two levees is a Puget Sound Energy facility. The Horseshoe Bend Levee Certification Report calculator Factor of Safety (FOS) values for rapid drawdown of 1.08 and 1.55 at about RM 24.3 and RM 24.4, respectively. River level lessor in this reach between 1998 and 2011 is 2.7 feet at RM 24.34. Funding of \$400,000 covers the cost of major modification to the federal levee so that the City of Kent's secondary containment levee can be incorporated into the federal levee project.
110	WFLB HSB NURSING HOME SETBACK	Green	WLR Const	\$0	\$0	\$0	\$0	\$0	\$0	\$100,000	\$2,000,000	\$500,000	\$2,600,000	\$2,600,000	New project to implement interim SWIF adopted by Board of Supervisors. The Nursing Home levee is over-steepened and does not meet current engineering standards. The seismismic consequence of levee failure or overtopping to the lower Green River valley is extensive and could cause loss of millions of dollars in damage. This capital project area contains a 'Minimally Acceptable' deficiency by the US Army Corps of Engineers at RM 25.5 (over steepened slopes from 1.25 to 1.7H:1V for 225 feet). The Horseshoe Bend Levee Certification Report calculator Factor of Safety (FOS) value for rapid drawdown of 1.01 at RM 25.57 (Section F). This is barely above the minimum FOS (1.0) from the US Army Corps of Engineers manual.
111	WFLB INTERIM SWIF IMPLEMENTATION	Green	WLR Const	\$0	\$30,000	\$30,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$30,000	Coordination and planning activities to implement recommendations of interim SWIF. Maintenance work associated with the interim SWIF is included in the operating budget.
112	WFLB LOWER RUSSELL ACQ KENT	Green	Agreement	\$0	\$1,000,000	\$1,000,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$1,000,000	Acquisitions by the City of Kent for the Lower Russell levee setback project.
113	WFLB LWR GRN R CORRIDOR PLANEIS	Green	WLR Const	\$0	\$1,743,249	\$1,743,249	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$1,743,249	Lower Green River Corridor Planning and Environmental Impact Statement.
114	WFLB LWR RUSSELL LEVEE SETBACK	Green	WLR Const	\$6,041,888	\$12,077,130	\$6,035,242	\$2,476,808	\$13,910,520	\$18,357,812	\$63,028	\$0	\$0	\$34,810,168	\$46,887,298	Remove and replace the existing flood containment system of levee and revetments along the right (east) bank of the Green River between river mile 17.65 (S 212th St) and river mile 19.25 (S 231st Way) in the City of Kent to provide long-term flood protection and improve riparian and aquatic habitat. Increased expenditure authority to match interim SWIF adopted by Board of Supervisors.
115	WFLB MILWAUKEE LEVEE #2-KENT	Green	Agreement	\$10,788	\$8,500,000	\$8,489,213	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$8,500,000	Prepare an analysis and study of design and construction alternatives to provide flood protection, scour protection, enable levee certification and secure necessary land rights. Current ILA with Kent for this first phase is \$3.65 million; the ILA assumes that the total project cost is \$8.5 million.
116	WFLB PATTON BRIDGE 3015	Green	Agreement	\$0	\$150,000	\$150,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$150,000	This project will address scour damage to the bridge, which is on the primary through route of the Green River Valley Rd. The bridge is also a King County landmark.
117	WFLB PORTER LEVEE	Green	WLR Const	\$0	\$720,000	\$720,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$720,000	Contribute the cost of a repair (\$720,000) to a \$7 million levee setback project. By relocating the levee, future repair costs for the Flood Control District are reduced. In response to community concerns, the project also includes funding to elevate the road so that the school bus serving this neighborhood does not have to drive in the oncoming lane to avoid floodwaters.
118	WFLB BODDINGTON BEACH SETBACK	Green	WLR Const	\$16,664,851	\$16,889,083	\$324,232	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$16,889,083	Project expenditures will continue into 2017; closures anticipated in 2018.
119	WFLB RUSSELL RD UPPER KENT	Green	Agreement	\$6,020,673	\$6,072,173	\$61,500	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$6,072,173	Project is to improve the levee by providing a minimum of 3 feet of freeboard above the predicted 500-year flood event and improve slope stability. These seg north of the Russell Road Upper Levee have over-steepened slopes and therefore lack adequate structural stability to provide adequate safety.
120	WFLB S 180TH ST BRIDGE FLOODWALL EXT.	Green	Agreement	\$0	\$65,378	\$65,378	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$65,378	The project will increase the height of a flood wall to provide approximately 30" of additional flood protection.
121	WFLB S 277TH ST REVETMENT	Green	WLR Const	\$90,528	\$300,000	\$209,472	\$1,726,602	\$1,428,186	\$0	\$0	\$0	\$0	\$3,155,000	\$3,456,000	This project will conduct a feasibility analysis of channel migration hazards from river mile 21.1 to 21.7. No design or construction funding at this time.
122	WFLB SE 360 PLAT SR 164	Green	Agreement	\$0	\$0	\$0	\$90,000	\$100,000	\$400,000	\$100,000	\$0	\$0	\$690,000	\$690,000	This project will analyze culvert replacement and road-raising options and implement the preferred option.
123	WFLB SE 384 ST @ 176 AVE SE	Green	Agreement	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$150,000	\$1,500,000	\$1,650,000	\$1,650,000	These two bridges are subject to having the roadway approach fill wash out during a flood. Excavate approaches and rebuild approaches to prevent losing approaches during flooding. A similar repair was done on Woodville-Duval Bridge No. 1136D.
124	WFLB SIGNATURE POINTE REVETMENT	Green	WLR Const	\$0	\$300,000	\$300,000	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$300,000	Signature Pointe is a revetment/levee on the Green River between river mile 22.06 and 23.18 that does not meet the FEMA requirements for accreditation due to inadequate freeboard. This project includes development of a project charter and an alternatives analysis to select an alternative to achieve increased flood protection, embankment and toe protection in a manner that can be certified and accredited.
125	WFLB TUK-205 RATOLO FLOODWALL	Green	WLR Const	\$0	\$0	\$0	\$0	\$0	\$0	\$1,500,000	\$300,000	\$1,800,000	\$1,800,000	\$1,800,000	New project to implement interim SWIF adopted by Board of Supervisors. This project will construct a 0.15 mile floodwall and sloped embankment to protect adjacent businesses from flooding. The floodwall alignment (including embankment slope, factors of safety, and necessary real estate) will be finalized during the project design phase.
126	WFLB TUK-205 SEGAL FLOODWALL	Green	WLR Const	\$0	\$0	\$0	\$0	\$0	\$601,000	\$562,754	\$3,188,003	\$3,283,643	\$7,635,400	\$7,635,400	New project to implement interim SWIF adopted by Board of Supervisors. The Gaco portion of the Tukwila-205 levee between river mile 15.79 and 15.88 is over-steepened and damaged and cannot be adequately repaired using the existing easements. This project would acquire properties landward of the damaged levee to enable a levee setback and repair of the embankment and toe scour at this outside bend, in coordination with the Army Corps of Engineers PL 64-99 rehabilitation program.
127	WFLB TUK-205 USACE GACO REPAIR	Green	WLR Const	\$44,246	\$9,264,053	\$9,019,807	\$3,796,580	\$15,813	\$0	\$0	\$0	\$0	\$3,812,493	\$12,875,546	600 feet of scour has exposed rock armor. No sign of armor loss. Interim SWIF capital project is for 0.33 miles of floodwall and toe/scour protection. Increased vulnerability to further scour and damage to facility.
128	WFLB BUJACE SWIF	Green	WLR Const	\$2,209,817	\$2,209,817	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$2,209,817	Green River Corridor Planning (under System-Wide Improvement Framework) agreement with Army Corps of Engineers.
