A RESOLUTION establishing a framework for developing a corridor plan for the
Tolt river.

WHEREAS, the lower six miles of the Tolt river is impacted by flooding and channel migration;
and

WHEREAS, the King County Flood Control Zone District ("District") maintains a system of
flood containment levees in this area; and

WHEREAS, in partnership and collaboration with the Snoqualmie Watershed, the city of
Carnation, local residents and others, the District, through King county as its service provider, has
initiated the Tolt river corridor plan ("Corridor Plan"); and

WHEREAS, the Corridor Plan will emphasize the reduction of public safety risks associated
with flooding and river processes and the improvement of flood protection infrastructure in the
District's river facility inventory; and

WHEREAS, the Corridor Plan will recommend a suite of actions within the river corridor,
comprised of levees, floodplain, channel migration and riparian areas to achieve goals and objectives
within the scope of the Corridor Plan; and

WHEREAS, flooding in recent years, including a significant flood in 2009, has overtopped
portions of the aging levee system with impacts to farms, homes, roadways and communities; and

WHEREAS, neighborhoods adjacent to this river corridor are at risk from bank erosion,
flooding and channel migration; and

WHEREAS, the District board of supervisors desires to establish a framework for the Corridor

Plan, which includes goals and provisional objectives, as well as a range of floodplain management approaches and tools for evaluation; now, therefore,

BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE KING COUNTY FLOOD CONTROL ZONE DISTRICT:

SECTION 1. The board of supervisors adopts the "Tolt River Corridor Plan Framework, Floodplain Management Goals, Objectives and Conceptual Approaches," dated February 11, 2015, which is Attachment A to this resolution.
