Buffer averaging

Sponsor: Upthegrove

jln

Proposed No.: 2019-0143

AMENDMENT TO PROPOSED ORDINANCE 2019-0143, VERSION 2

Beginning on page 69, line 1409, strike line 1409 through line 1415 and insert:

"a. ~~the ((ecological structure and function of the buffer after averaging is equivalent to or greater than the structure and function before averaging; or))~~ buffer averaging will improve wetland protection if the wetland has significant differences in characteristics that affect habitat functions, such as a wetland with a forested component adjacent to a degraded emergent component or a "dual-rated" wetland with a Category I area adjacent to a lower-rated area; ~~((or))~~

b. if either consistent with allowed alterations in K.C.C. 21A.24.045 or approved as an alteration exception under K.C.C. 21A.24.070, averaging will result in a site design alternative that allows reasonable use of the parcel that could not otherwise be accomplished without buffer averaging; or

c. averaging includes the corridors of a wetland complex; and"

EFFECT: Allows wetland buffer averaging when it results in reasonable use of a parcel in addition to other criteria.

Type IV Wetlands Relocation

Sponsor: Upthegrove

jln

Proposed No.: 2019-0143

AMENDMENT TO PROPOSED ORDINANCE 2019-0143, VERSION 2

On page 73, after line 1507, insert:

"SECTION 27. Ordinance 15051, Section 187, as amended, and K.C.C.

21A.24.335 are hereby amended to read as follows:

A. Unless allowed as an alteration exception under K.C.C. 21A.24.070, only the alterations identified in K.C.C. 21A.24.045 are allowed in wetlands and wetland buffers;

B. The applicant shall not introduce any plant or wildlife that is not indigenous to the Puget Sound lowland into any wetland or wetland buffer unless authorized by a state or federal permit or approval; and

~~C. ((A category IV wetland less than two thousand five hundred square feet that is not part of a wetland complex may be altered in accordance with an approved mitigation plan by relocating the wetland into a new wetland, with equivalent or greater functions, or into an existing wetland at the ratios specified in K.C.C. 21A.24.340 based on the type of mitigation measures proposed; and~~

~~D.))~~ Alterations to category I wetlands containing bogs or fens are limited to K.C.C. 21A.24.045 D.20. and D.52."

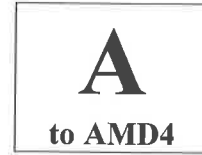

Renumber the remaining sections consecutively and correct any internal references accordingly.

jln

Proposed No.: 2019-0143

1 **AMENDMENT TO PROPOSED ORDINANCE 2019-0143, VERSION 2**

2 Beginning on page 114, after line 2309, insert:

3 "SECTION 37. A. The executive shall transmit a report that establishes local best
4 available science for wetlands in unincorporated King County in compliance with chapter
5 365-195 of the WAC and that recommends any changes to wetland protections to reflect
6 local best available science. The report shall:

7 1. Characterize wetlands in King County through an evaluation of the function,
8 sensitivity and health of wetlands in unincorporated King County;

9 2. Review of the existing science pertaining to wetlands in King County,
10 including work completed by the Snoqualmie fish, farm, flood advisory committee;

11 3. Provide information on how disturbances caused by development activity and
12 land uses in King County affect the functions of wetlands;

13 4. Develop wetland protections that consider best available science, such as
14 buffer widths, permitted alterations and compensatory mitigation;

15 5. Discuss innovative wetland protection alternatives such as buffer averaging,
16 variable buffer widths or smart buffers that allow flexibility in land use and site design
17 while maximizing ecological benefits; and
