

# ONE TABLE

Addressing root causes  
of homelessness

The number of people who become homeless over the course of a year and who exit homelessness far exceed the number of people in the point in time count.

NOTE: 2017 NUMBERS ARE FOR 3 QUARTERS

## Number of People Entering and Exiting HMIS in King County, 2012-2017

Note: HMIS tracks only agencies funded with homeless fund sources. Other systems such as housing authorities help people exit from homelessness, but do not record those exits in HMIS.

**Notes:** About 30% of clients do not consent to share their identifying information in HMIS. As these clients cannot be de-duplicated, these inflow estimates might be slightly higher than the actual inflow to the homeless system.
