

2008 King County Performance Report 2008-499

Our Vision-Leading the region in shaping a better tomorrow. King County aims to enhance the quality of life and support economic vitality by providing high-quality, cost-effective, valued services to our customers. The King County Performance Report is designed to answer the question: "How effective are county services?"

About King County. King County provides regional services to all residents of the county, including people who live in cities. These include public transit, sewage disposal, the county jail, elections, public health services and regional parks. In unincorporated communities, King County provides the services listed above in addition to many local services, such as land-use regulation, building permits, solid waste disposal, and roads. Other local services in unincorporated communities are provided by fire, water, library and hospital districts that operate independently of county government.
