18 STATEMENT OF FACTS:

19 1. A. The following GMA provisions of RCW 36.70A.011 and
20 36.70A.020 demonstrate how recreation is considered an integral part of
21 Rural Areas and is a key planning goal that is to be provided.

22 **"RCW 36.70A.011 - Findings -- Rural lands.**

23 . . . Finally, the legislature finds that in defining its rural element under
24 RCW 36.70A.070(5), a county should foster land use patterns and develop
25 a local vision of rural character that will: Help preserve rural-based
26 economies and traditional rural lifestyles; encourage the economic
27 prosperity of rural residents; foster opportunities for small-scale, rural-
28 based employment and self-employment; permit the operation of rural-
29 based agricultural, commercial, **recreational**, and tourist businesses that
30 are consistent with existing and planned land use patterns; be compatible
31 with the use of the land by wildlife and for fish and wildlife habitat; foster
32 the private stewardship of the land and preservation of open space; and
33 enhance the rural sense of community and quality of life"

34 **"RCW 36.70A.020 - Planning goals.**

35 The following goals are adopted to guide the development and adoption of
36 comprehensive plans and development regulations of those counties and
37 cities that are required or choose to plan under RCW 36.70A.040. The
38 following goals are not listed in order of priority and shall be used
39 exclusively for the purpose of guiding the development of comprehensive
40 plans and development regulations:

41 . . . (9) Open space and recreation. Retain open space, enhance
42 recreational opportunities, conserve fish and wildlife habitat, increase
43 access to natural resource lands and water, and develop parks and
44 recreation facilities"

45 B. The King County Comprehensive Plan (KCCP) policies R-105, R-221
46 and R-526 (below) recognize that recreation is an appropriate use within
47 the Rural Area and the Forest Production District.

48 **R-105** Uses related to and appropriate for the Rural Area include
49 those relating to farming, forestry, mineral extraction, and
50 fisheries such as the raising of livestock, growing of crops,
51 sale of agricultural products produced on-site; small-scale
52 cottage industries; and recreational uses that rely on a rural
53 location are also appropriate.

54 **R-221** Nonresidential uses in the Rural Area shall be limited to those
55 that:

- 56 a. Provide convenient local services for nearby residents; or
57 b. Require location in a Rural Area; or
58 c. Support natural resource-based industries; or
59 d. Provide adaptive reuse of significant historic resources;
60 or
61 e. Provide recreational opportunities that are compatible
62 with the surrounding Rural Area.

63 These uses shall be sited, sized and landscaped to
64 complement rural character as defined in policy R-101,
65 prevent impacts to the environment and function with rural
66 services including on-site wastewater disposal.

67 **R-526** Public and private forest owners are encouraged to provide
68 for recreational, educational and cultural uses when
69 compatible with forest protection.

70 C. The King County Code currently contains standards for recreational
71 activities in connection with public parks.

72 D. There are currently no standards in the code for other types of
73 recreational activities, such as children's camps and hunting and fishing
74 camps, which are not typically provided by public parks.

75 E. The lack of code standards has had the deleterious effect of turning
76 popular, long-established recreational camps, such as Camp River Ranch
77 and Camp Don Bosco near Carnation and Camp Sealth on Vashon Island,
78 into legal non-conforming uses, which under certain circumstances, are in
79 danger of having to be discontinued.

80 F. The lack of code standards also has the potential to cause confusion on
81 which land use review process is applicable in establishing a new
82 recreational camp or to entirely prevent such uses from even being
83 considered for establishment.

84 G. The creation of standards for recreational uses outside the purview of
85 public parks is necessary for the implementation of GMA goal related to
86 recreation and would not require policy changes within the KCCP."

87 2. Ordinance 15032, Section 12, amended K.C.C. 21A.08.050. The
88 amendment included a deletion of condition 21 relating to interim
89 recycling facilities that was in the code as it then existed. This deletion
90 resulted in a renumbering the remaining conditions in K.C.C.
91 21A.08.050.B and a need to make corresponding corrections of the
92 numbers in the table as they applied to different land uses. Ordinance
93 15032, Section 12, corrected some, but not all, of the numbers in the table.
94 The effect of this clerical error was to apply conditions to land uses that
95 were not intended to apply to those land uses. Section 4 of this ordinance
96 corrects these errors. Section 13 of this ordinance applies this correction
97 retroactively to the date Ordinance 15032, Section 12, became effective.

98 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

99 NEW SECTION. SECTION 1. There is hereby added to K.C.C. chapter 21A.06
100 a new section to read as follows:

101 **Camps, recreational and retreat.** Camps, recreational and retreat:
102 Establishments primarily engaged in operating recreational and retreat camps that offer a
103 variety of active recreational activities such as trail riding, hiking, hunting, water-related
104 activities such as swimming, kayaking, canoeing, rafting and fishing, and other similar
105 outdoor activities, as well as, more passive activities based on the enjoyment of the
106 natural setting. Recreational and retreat camps may provide overnight accommodation

107 facilities, such as cabins and designated campsites, and other amenities for site users,
 108 such as meeting and assembly spaces, food services, recreational facilities and equipment
 109 and medical/health stations.

110 SECTION 2. Ordinance 10870, Section 330, as amended, and K.C.C.
 111 21A.08.030 are each hereby amended to read as follows:

112 **A. Residential land uses.**

B. Development conditions.

758

1. This maximum density may be achieved only through the application of

759

residential density incentives in accordance with K.C.C. chapter 21A.34 or transfers of

760

development rights in accordance with K.C.C. chapter 21A.37, or any combination of

761

density incentive or density transfer. Maximum density may only be exceeded in

762

accordance with K.C.C. 21A.34.040.F.1.g. and F.6.

763

2. Also see K.C.C. 21A.12.060.

764

3. These standards may be modified under the provisions for zero-lot-line and

765

townhouse developments.

766

4. Height limits may be increased if portions of the structure that exceed the

767

base height limit provide one additional foot of street and interior setback for each foot

768 above the base height limit, but the maximum height may not exceed seventy-five feet.

769 Netting or fencing and support structures for the netting or fencing used to contain golf

770 balls in the operation of golf courses or golf driving ranges are exempt from the

771 additional interior setback requirements but the maximum height shall not exceed

772 seventy-five feet, except for large active recreation and multiuse parks, where the

773 maximum height shall not exceed one hundred twenty-five feet, unless a golf ball

774 trajectory study requires a higher fence.

775 5. Applies to each individual lot. Impervious surface area standards for:

776 a. Regional uses shall be established at the time of permit review;

777 b. Nonresidential uses in residential zones shall comply with K.C.C.

778 21A.12.120 and 21A.12.220;

779 c. Individual lots in the R-4 through R-6 zones that are less than nine thousand

780 seventy-six square feet in area shall be subject to the applicable provisions of the nearest

781 comparable R-6 or R-8 zone; and

782 d. A lot may be increased beyond the total amount permitted in this chapter

783 subject to approval of a conditional use permit.

784 6. Mobile home parks shall be allowed a base density of six dwelling units per

785 acre.

786 7. The standards of the R-4 zone apply if a lot is less than fifteen thousand

787 square feet in area.

788 8. At least twenty linear feet of driveway shall be provided between any garage,

789 carport or other fenced parking area and the street property line. The linear distance shall

790 be measured along the center line of the driveway from the access point to such garage,
791 carport or fenced area to the street property line.

792 9.a. Residences shall have a setback of at least one hundred feet from any
793 property line adjoining A, M or F zones or existing extractive operations. However,
794 residences on lots less than one hundred fifty feet in width adjoining A, M or F zones or
795 existing extractive operations shall have a setback from the rear property line equal to
796 fifty percent of the lot width and a setback from the side property equal to twenty-five
797 percent of the lot width.

798 b. Except for residences along a property line adjoining A, M or F zones or
799 existing extractive operations, lots between one acre and two and one-half acres in size
800 shall conform to the requirements of the R-1 zone and lots under one acre shall conform
801 to the requirements of the R-4 zone.

802 10.a. For developments consisting of three or more single-detached dwellings
803 located on a single parcel, the setback shall be ten feet along any property line abutting
804 R-1 through R-8, RA and UR zones, except for structures in on-site play areas required in
805 K.C.C. 21A.14.190, which shall have a setback of five feet.

806 b. For townhouse and apartment development, the setback shall be twenty feet
807 along any property line abutting R-1 through R-8, RA and UR zones, except for
808 structures in on-site play areas required in K.C.C. 21A.14.190, which shall have a setback
809 of five feet, unless the townhouse or apartment development is adjacent to property upon
810 which an existing townhouse or apartment development is located.

811 11. Lots smaller than one-half acre in area shall comply with standards of the
812 nearest comparable R-4 through R-8 zone. For lots that are one-half acre in area or

813 larger, the maximum impervious surface area allowed shall be at least ten thousand
814 square feet. On any lot over one acre in area, an additional five percent of the lot area
815 may be used for buildings related to agricultural or forestry practices. For lots smaller
816 than two acres but larger than one-half acre, an additional ten percent of the lot area may
817 be used for structures that are determined to be medically necessary, if the applicant
818 submits with the permit application a notarized affidavit, conforming with K.C.C.
819 21A.32.170A.2.

820 12. For purposes of calculating minimum density, the applicant may request that
821 the minimum density factor be modified based upon the weighted average slope of the
822 net buildable area of the site in accordance with K.C.C. 21A.12.087.

823 13. The minimum lot area does not apply to lot clustering proposals as provided
824 in K.C.C. chapter 21A.14.

825 14. The base height to be used only for projects as follows:

826 a. in R-6 and R-8 zones, a building with a footprint built on slopes exceeding a
827 fifteen percent finished grade; and

828 b. in R-18, R-24 and R-48 zones using residential density incentives and
829 transfer of density credits in accordance with this title.

830 15. Density applies only to dwelling units and not to sleeping units.

831 16. Vehicle access points from garages, carports or fenced parking areas shall
832 be set back from the property line on which a joint use driveway is located to provide a
833 straight line length of at least twenty-six feet as measured from the center line of the
834 garage, carport or fenced parking area, from the access point to the opposite side of the
835 joint use driveway.

836 17.a. All subdivisions and short subdivisions in the R-1 zone shall be required to
837 be clustered if the property is located within or contains:

- 838 (1) a floodplain;
- 839 (2) a critical aquifer recharge area;
- 840 (3) a regionally or locally significant resource area;
- 841 (4) existing or planned public parks or trails, or connections to such facilities;
- 842 (5) a category type S or F aquatic area or category I or II wetland;
- 843 (6) a steep slope; or
- 844 (7) an urban separator or wildlife habitat network designated by the
845 Comprehensive Plan or a community plan.

846 b. The development shall be clustered away from critical areas or the axis of
847 designated corridors such as urban separators or the wildlife habitat network to the extent
848 possible and the open space shall be placed in a separate tract that includes at least fifty
849 percent of the site. Open space tracts shall be permanent and shall be dedicated to a
850 homeowner's association or other suitable organization, as determined by the director,
851 and meet the requirements in K.C.C. 21A.14.040. On-site critical area and buffers and
852 designated urban separators shall be placed within the open space tract to the extent
853 possible. Passive recreation, with no development of recreational facilities, and natural-
854 surface pedestrian and equestrian trails are acceptable uses within the open space tract.

855 18. See K.C.C. 21A.12.085.

856 19. All subdivisions and short subdivisions in R-1 and RA zones within the
857 North Fork and Upper Issaquah Creek subbasins of the Issaquah Creek Basin (the North
858 Fork and Upper Issaquah Creek subbasins are identified in the Issaquah Creek Basin and

859 Nonpoint Action Plan) and the portion of the Grand Ridge subarea of the East
860 Sammamish Community Planning Area that drains to Patterson Creek shall have a
861 maximum impervious surface area of eight percent of the gross acreage of the plat.
862 Distribution of the allowable impervious area among the platted lots shall be recorded on
863 the face of the plat. Impervious surface of roads need not be counted towards the
864 allowable impervious area. Where both lot- and plat-specific impervious limits apply, the
865 more restrictive shall be required.

866 20. This density may only be achieved on RA 2.5 (~~and RA-5~~) zoned parcels
867 receiving density from rural forest focus areas through ~~((the))~~ a transfer of density credit
868 ~~((pilot program outlined in))~~ pursuant to K.C.C. chapter ~~((21A.55))~~ 21A.37.

869 21. Base density may be exceeded, if the property is located in a designated
870 rural city urban growth area and each proposed lot contains an occupied legal residence
871 that predates 1959.

872 22. The maximum density is four dwelling units per acre for properties zoned
873 R-4 when located in the Rural Town of Fall City.

874 23. The minimum density requirement does not apply to properties located
875 within the Rural Town of Fall City.

876 24. The impervious surface standards for the county fairground facility are
877 established in the King County Fairgrounds Site Development Plan, Attachment A to
878 Ordinance 14808 on file at the department of natural resources and parks and the
879 department of development and environmental services. Modifications to that standard
880 may be allowed provided the square footage does not exceed the approved impervious
881 surface square footage established in the King County Fairgrounds Site Development

882 Plan Environmental Checklist, dated September 21, 1999, Attachment B to Ordinance
883 14808, by more than ten percent.

884 25. For cottage housing developments only:

885 a. The base height is eighteen feet.

886 b. Buildings have pitched roofs with a minimum slope of six and twelve may
887 extend up to twenty-five feet at the ridge of the roof.

888 26. Impervious surface does not include access easements serving neighboring
889 property and driveways to the extent that they extend beyond the street setback due to
890 location within an access panhandle or due to the application of King County Code
891 requirements to locate features over which the applicant does not have control.

892 SECTION 7. Ordinance 10870, Section 351, as amended, and K.C.C.

893 21A.12.140 are each hereby amended to read as follows:

894 **Setbacks – from regional utility corridors.**

895 A. Except as otherwise provided in subsection B of this section, ((4))in
896 subdivisions and short subdivisions, areas used as regional utility corridors shall be
897 contained in separate tracts.

898 B. For a subdivision or short subdivision:

899 1. Upon mutual agreement of the utility and applicant for the subdivision or
900 short subdivision submitted at the time of application for the preliminary plat, the area of
901 the regional utility corridor placed in a separate tract may be less than the entire utility
902 right-of-way or easement. The agreement may be evidenced by correspondence between
903 the utility and the applicant;

904 2. If the utility and applicant enter into an agreement under subsection B.1 of
905 this section:

906 a. The location of the easement or right-of-way shall be shown on the face of
907 the plat;

908 b. The applicant shall record on the title of all lots that extend into the right-
909 of-way or easement a notice approved by the department that there is an easement or
910 right-of-way for a regional utility corridor that may subject use of that area of the
911 property to conditions established by the utility; and

912 c. The department shall include as conditions of plat approval the conditions
913 on use of the area within the regional utility corridor included in the agreement between
914 the utility and the applicant.

915 C. In ~~((other types of))~~ land development permits other than subdivisions or short
916 subdivisions, easements shall be used to delineate regional utility corridors.

917 ~~((C.))~~ D. All structures shall maintain a minimum distance of five feet from
918 property or easement lines delineating the boundary of regional utility corridors, except
919 for utility structures necessary to the operation of the regional utility corridor.

920 ~~((D.))~~ E. Any structure designed for human occupancy, except for utility
921 structures not normally occupied that are necessary for the operation of the pipeline or a
922 minor communication facility, shall maintain a minimum distance of one hundred feet
923 from a hazard liquid or gas transmission pipeline located within a regional utility
924 corridor. The setback distance may be modified if the applicant demonstrates the
925 following:

926 1. A one-hundred-foot setback would deny all reasonable use of the property;

927 or

928 2. That the structure would be protected from radiant heat of an explosion by

929 berming or other physical barriers; or

930 3. That a one-hundred-foot setback would be impractical or unnecessary due to

931 existing geographic features, streets, lot lines, or easements; or

932 4. That no other practical alternative exists to meet the demand for service; and

933 5. That the applicant will construct a hazardous liquid or gas transmission

934 containment system or other mitigating actions if the county finds that leakage could

935 accumulate within one hundred feet of the pipeline. Any containment system or other

936 mitigating actions required by this section shall meet all applicable federal, state and local

937 regulations.

938 SECTION 8. Ordinance 15032, Section 18 and K.C.C. 21A.14.025 are each

939 hereby amended to read as follows:

940 **Cottage housing development.** For cottage housing developments in the R4-R8

941 zones:

942 A. The total area of the common open space must be at least two hundred and

943 fifty square feet per unit and at least fifty percent of the units must be clustered around

944 the common space.

945 B. The total floor area of each unit, including any enclosed parking, is limited to

946 one thousand two hundred square feet. The footprint of each unit, including any enclosed

947 parking, is limited to nine hundred square feet. A front or wraparound porch of up to one

948 hundred square feet is permitted and is not to be included in the floor area or footprint
949 calculation.

950 C. Fences within the cottage housing unit development are limited to three feet in
951 height. Fences along the perimeter of the cottage housing development are limited to six
952 feet.

953 D. Individual cottage housing units must be at least ten feet apart.

954 SECTION 9. Ordinance 10870, Section 562 and K.C.C. 21A.34.030 are each
955 hereby amended to read as follows:

956 **Maximum densities permitted through residential density incentive review.**

957 A. Except as otherwise provided in subsection B. of this section, ((F))the
958 maximum density permitted through residential density incentive ("RDI") review shall be
959 ((150)) one-hundred fifty percent of the base density of the underlying zone of the
960 development site ((or 200 percent of the base density)).

961 B. The maximum density permitted through RDI review shall be two hundred
962 percent of the base density of the underlying zone of the development site for the
963 following RDI proposals ((with 100)):

964 1. For proposals where one-hundred percent of the units are affordable units; or

965 2. For cottage housing proposals.

966 SECTION 10. Ordinance 14190, Section 7, as amended, and K.C.C. 21A.37.050
967 are each hereby amended to read as follows:

968 **Transfer of development rights (TDR) program – development limitations.**

969 A. Following the transfer of residential development rights a sending site may
970 subsequently accommodate remaining residential dwelling units, if any, on the buildable

971 portion of the parcel or parcels or be subdivided, consistent with the zoned base density
972 provisions of the density and dimensions tables in K.C.C. 21A.12.030 and 21A.12.040,
973 the allowable dwelling unit calculations in K.C.C. 21A.12.070 and other King County
974 development regulations. For sending sites zoned RA, the subdivision potential
975 remaining after a density transfer may only be actualized through a clustered subdivision,
976 short subdivision or binding site plan that creates a permanent preservation tract as large
977 or larger than the portion of the subdivision set aside as lots. Within rural forest focus
978 areas, resource use tracts shall be at least fifteen acres of contiguous forest land.

979 B. ~~((Residential and nonresidential uses on lots zoned R-1, RA, A and F shall be~~
980 ~~limited to a maximum of ten percent impacting impervious surface.~~

981 C.)) Only those nonresidential uses directly related to, and supportive of the
982 criteria under which the site qualified are allowed on a sending site.

983 ~~((D-))~~ C. The applicable limitations in this section shall be included in the
984 sending site conservation easement.
