---

Good afternoon,

On behalf of the Mobility Equity Cabinet, I am excited to support the work of King County Metro and the recommendations that have been put forth before the RTC re: updates to the King County Metro's strategic plan, service guidelines as well as Metro Connects - King County Metro's long range-plan.

As co-chair representing the cabinet, we thought it best to share videos featuring cabinet members that speak to not only our experiences supporting transit, but also the importance in centering equity in providing service throughout the county.

Below are five videos featuring cabinet members:

Ellany Kaycee
