Executive Summary

The EEO/Affirmative Action Plan is a statement of King County Executive Branch's commitment to the values of equity, diversity and productivity in the workplace.

The EEO/Affirmative Action Plan is a statement of King County Executive Branch's commitment to the values of equity, diversity and productivity in the workplace. It assesses the need for affirmative action to address under-representation of minorities, women and persons with disabilities to achieve parity by:

1. Identifying areas of program focus,
2. Stating the actions previously taken to move towards parity, and
3. Setting forth an action-oriented plan to address under-representation prospectively within the law.

At the beginning of 2003, the Executive Branch departments successfully accomplished a majority of its affirmative action race/ethnicity and gender goals and partially accomplished its persons with disability goals. Specifically:

- For African Americans, 90% or 64 of the 71 goal setting areas are fully represented.

- For Asian Americans, 97% or 67 of the 71 goal setting areas are fully represented.
- For Latino Americans, 85% or 60 of the 71 goal setting areas are fully represented.
- For Native Americans, 85% or 60 of the 71 goal setting areas are fully represented.
- For women, 56% or 40 of the 71 goal setting areas are fully represented.
- For persons with disabilities, 33% or 24 of the 71 goal setting areas were fully represented.

Highlights of 2003-2004:

Affirmative Action Progress

1. From January 1, 2003 to June 30, 2004, the Executive Branch departments hired and promoted a highly diverse race/ethnicity and gender workforce. The new hires consisted of 29% people of color and 41% women, while promotions consisted of 28% people of color and 42% women. Minimal hiring and promotions of persons with disabilities occurred.

2. The race/ethnicity and gender diversity of the department hires and promotions contributed to the county's representation in the majority of its race/ethnicity and gender goal setting areas but not for persons with disabilities. The remaining affirmative action goals were accomplished as follows:

Goal setting group	Total # of goal setting areas* as of 1/1/03	# of areas where goals were fully met by 6/30/04	# of areas where goals were partially met by 6/30/04	# of areas where no progress by 6/30/04
African Americans	7	3	0	4
Asian Americans	4	0	0	4
Latino Americans	11	0	1	10
Native Americans	11	0	1	10
Persons with Disabilities	47	0	7	40
Women	31	8	9	14

While the Executive Branch continues to make progress in the goal setting areas, these affirmative action accomplishments were influenced by several factors:

- The remaining goals are more difficult to meet,
- In consultation with the 504-ADA Advisory Committee, established that the chronic under-self-reporting of persons with disabilities may be based on stigma and negative labeling, and

- Hiring opportunities were limited given the County's financial challenges.
3. Targeted recruitment and outreach initiatives were undertaken in 2004 and will be increased in 2005. Examples include:
- An internal Executive Branch recruitment co-op is being established to coordinate and leverage departmental recruitment and outreach efforts.
 - An extensive recruitment and outreach database has been established to assist departments in customizing their respective recruitment and outreach plans.
 - Implementation plans were developed by the departments to document and monitor how they plan to meet their affirmative action hiring objectives
 - Purposeful presence in various education and community events is being pursued, and
 - Ongoing consultation with the citizen 504-ADA Advisory Committee is being facilitated to improve outreach to the disability community.
4. New affirmative action race/ethnicity and gender goals for 2005-2006 are proposed, based on the 2000 Census data for the Executive Branch.

In 2005, recruitment and outreach activities will be increased. King County will continue in its efforts to successfully attract and retain people of color, women and persons with disabilities. By May 2005, a proposed work plan will be submitted to the Executive outlining

* Goal setting areas refer to the EEO job categories used by each department such as Officials and Administrators, Professionals, Technicians, Administrative Support, Skilled Crafts, Transit Operators, Service Maintenance, Protective Services and Para-professionals.

the strategic approach for 1) identifying and addressing any identified employment barriers, and 2) fostering a safe, inclusive and diversity friendly workplace. HRD will engage the stakeholder committees to obtain their advice, insights, input and connections to their varied and diverse communities for partnership purposes. The report will also include an assessment of the Executive Branch's capacity to accomplish the proposed work plan and recommend resources, as appropriate.

EEO Program Status

5. King County provided disability services to 362 and 406 employees in 2003 and the first 10 months of 2004 respectively. Disabilities services include information and referral, consultation, accommodation and job reassignment.
6. The review of formally filed discrimination complaints with human rights agencies from 1997 to October 2004 found that during the past seven years, the Executive Branch reduced its formally filed complaints by 50% overall.

An analysis of the overall basis for filing discrimination complaints shows that:

- Race continues to be the most frequently filed basis for discrimination
- Retaliation is the second most frequently filed basis, and
- Sex and Disability non-accommodation complaints rank as the third most frequently filed basis.

Further study will be conducted in 2005 to determine underlying drivers for the complaint pattern and to identify appropriate interventions.

1. Vision

The mission of the King County Executive Branch is to enhance King County's quality of life and support its economic vitality by providing high-quality, cost-effective, valued services to our customers.

Viewing government as an instrument of change, we envision King County as a collaborative, responsive, innovative and progressive regional government. We continue to value the diversity of our workforce as the key to providing effective culturally competent services to our many communities.

We also value the diversity of our many communities as a primary source of applicants for our workforce.

We believe that diversity and equal employment opportunity are basic foundations of effective service provider teams, therefore, we:

- Work to attract and retain a committed, talented and diverse workforce capable of addressing complex challenges;

- Create bias-free work environments that promote diversity, equity, and productivity and where our employees and citizens can feel respected, communicate freely, and contribute fully;
- Provide leadership, role modeling, encouragement, support and resources to foster innovation in meeting our goals, and to ensure the implementation of this plan;
- Hold ourselves accountable, make our results known, and celebrate our successes to further promote the values of diversity, equity and productivity; and
- Lead the region in addressing the effects of discrimination.

To assist in the fulfillment of this mission, the King County Executive Branch has established a voluntary EEO/Affirmative Action Plan with goals and timetables to correct underutilization and continuously strive toward diversity, equity, and productivity in the workplace.

It is the policy of the King County Executive Branch to express the values of diversity, equity and productivity by treating its employees with dignity and respect in accomplishing its public service mission.

To accomplish these values, King County reaffirms its EEO and Affirmative Action commitments to:

A. EEO Policy

1. Comply with the County's established policy of equal employment opportunity which prohibits discrimination on the basis of race, color, age, sex, marital status, sexual orientation, religion, ancestry, national origin, the presence of any sensory, mental or physical disability, or veteran status as Special Disabled veteran or Vietnam

Era veteran in its employment and personnel practices as required under federal, state and County regulations and guidelines.

Employment and personnel practices and actions include, but are not limited to recruitment, application, testing, selection, hiring, orientation, probationary review, compensation and

benefits, supervision, provisional/temporary lead assignment, training, tuition reimbursement, promotion, transfer, discipline, demotion, termination, lay-off, recall, re-employment and any other terms and conditions of employment. Benefits include but are not limited to health care coverage, wellness, pension, disability, life insurance, investment plans, and dependent care programs.

2. Prohibit harassment, which is a form of discrimination. Harassment is defined as unwelcome verbal or physical conduct relating to an individual on the basis of race, color, age, sex, marital status, sexual orientation, religion, ancestry, national origin, disability or veteran status. To constitute harassment, the conduct must be sufficiently severe or pervasive so as to alter the terms or conditions of employment. Such conduct can take many forms and may include slurs, comments, jokes, innuendoes, unwelcome compliments, cartoons, or other similar conduct.

Sexual harassment is a type of harassment. It is unwelcome verbal or physical conduct of a sexual nature that is sufficiently

severe or pervasive so as to alter the terms and conditions of employment. Sexual harassment may include unwelcome sexual advances, requests for sexual favors, displays of sexually oriented materials, or other verbal or physical conduct of a sexual nature. In addition, sexual harassment includes unwelcome conduct when submission to such conduct, either explicitly or implicitly, is used as the condition of an individual's employment, or submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual.

3. Provide reasonable disability accommodation to applicants and employees to mitigate employment and performance barriers.
4. Develop and maintain a work environment that promotes diversity and equity.
5. Hold all employees accountable for complying with this policy. Any employee who commits or participates in any action, which is a violation of this policy, may be subject to disciplinary action as appropriate.
6. Encourage any employee with questions, issues or complaints about any type of discrimination in the workplace to bring such matters to the attention of their immediate supervisor or personnel officer or the Human Resources Division. When requested or as appropriate, notify the employee of his/her right to file a discrimination complaint with human rights or complaint resolution agencies such as the King County Office for Civil Rights

Enforcement, Washington State Human Rights Commission, the Federal Civil Rights Commission, Department of Labor and Veterans Administration.

7. Ensure that employees can raise issues and complaints without fear of reprisal, retaliation, harassment, intimidation, threats, coercion or discrimination because they: (1) surfaced an EEO issue and/or concern and/or filed a formal complaint; (2) assisted or participated in any investigation, compliance review, hearing, or any other activity related to the administration of any non-discrimination and/or affirmative action program; (3) opposed any act or practice that is discriminatory; and/or (4) exercised any other employment right protected by county, state, or federal law or its implementing regulations.

2. Continue efforts to conduct inclusive recruitment and outreach to include minority group members, women, persons with disabilities and covered veterans to expand their utilization in all job levels given their availability and qualifications. Previous efforts include,

but were not limited to: participating in community events, career fairs and other events to create visibility for the County as an employer; contacting known applicant sources for minorities, women, persons with disabilities and covered veterans; and encouraging employees to participate in community events and professional associations.

6. Identification of Areas for Improvement

A. Areas of Improvement (41 C.F.R. 60-2,17(b))

1. Affirmative Action Data Management

In June of 2004, the federal government released the detailed Census 2000 data which included race/ethnicity and gender, but not persons with disabilities workforce census information. As a result, the Executive Branch is proposing to establish new race/ethnicity and gender workforce availabilities based on Census 2000 data and to extend the current persons with disabilities workforce availabilities in the 2005-2006 EEO/AA Plan.

In addition, during 2003 and 2004, the county automated the process of producing affirmative action reports by furthering the integration of employee data from two personnel/payroll streams (MSA and PeopleSoft) and by utilizing specialized software called Criterion Affirmative Action Management System (CAAMS). Programming was completed to implement Ordinance 14571 which allowed for the inclusion of accommodated employees with disabilities in the persons with disabilities affirmative action

reports. As CAAMS did not have the capacity to produce persons with disabilities affirmative action reports, stand alone reports for persons with disabilities were developed.

2. 2003-2004 Affirmative Action Progress

Monitoring affirmative action accomplishments is a key activity prescribed in the EEO/AA Plan. At the onset of the 2003-2004 Plan, the Executive Branch reviewed 71 goal setting areas¹ to determine representation of people of color, people with disabilities, and women. Where under-representation existed, hiring goals were set. The Executive Branch departments successfully accomplished a majority of its affirmative action race/ethnicity and gender goals and partially accomplished its persons with disability goals. Specifically:

- For African Americans, 90% or 64 of the 71 goal setting areas are fully represented.
- For Asian Americans, 97% or 67 of the 71 goal setting areas are fully represented.
- For Latino Americans, 85% or 60 of the 71 goal setting areas are fully represented.
- For Native Americans, 85% or 60 of the 71 goal setting areas are fully represented.

¹Goal setting areas refer to the EEO job categories used by each department such as Officials and Administrators, Professionals, Technicians, Administrative Support, Skilled Crafts, Transit Operators, Service Maintenance, Protective Services and Para-professionals.

- For women, 56% or 40 of the 71 goal setting areas are fully represented.
- For persons with disabilities, 33 % or 24 of the 71 goal setting areas are fully represented.

The remaining under-represented areas became the basis for the 2003 and 2004 hiring goals.

From January 1, 2003 to June 30, 2004, the Executive Branch departments hired and promoted a highly diverse race/ethnicity and gender workforce. The new hires consisted of 29% people of color and 41% women, while promotions consisted of 28% people of color and 42% women. Minimal hiring and promotions of persons with disabilities (PWD) occurred.

	All	People of Color		Women		PWD	
		#	%	#	%	#	%
2003 New Hires	530	145	27%	222	42%	6	1.1%
January to June 2004 New Hires	292	90	31%	116	40%	4	1.4%
Total	822	235	29%	338	41%	10	1.2%
2003 Promotions	125	32	26%	40	32%	1	0.8%

The race/ethnicity and gender diversity of the department hires and promotions contributed to the county's representation in the majority

of the race/ethnicity and gender goal setting areas but not for persons with disabilities representation. The remaining affirmative action goals were successfully accomplished as follows:

Goal setting group	Total # of goal setting areas as of 1-1-03	# of areas where goals were fully met by 6-30-04	# of areas where goals were partially met by 6-30-04	# of areas where no progress by 6-30-04
African Americans	7	3	0	4
Asian Americans	4	0	0	4
Latino Americans	11	0	1	10
Native Americans	11	0	1	10
PWD	47	0	7	40
Women	31	8	9	14

While the Executive Branch continues to make progress in the goal setting areas, these affirmative action accomplishments were influenced by several factors:

- The remaining goals are more difficult to meet;
- In consultation with the 504-ADA Advisory Committee, established that the chronic under-self-reporting of persons with disabilities may be based on stigma and negative labeling; and
- Hiring opportunities were somewhat limited given the County's financial challenges.

Focused department implementation plans, accomplishment of targeted recruitment and outreach efforts and active monitoring of progress or lack-off are key activities in successfully meeting

the remaining more difficult goals. Along these lines, in 2004, the following recruitment and outreach efforts were initiated:

- An internal Executive Branch recruitment co-op is being established to coordinate and leverage departmental recruitment and outreach efforts
- An extensive recruitment and outreach database has been established to assist departments in customizing their respective recruitment and outreach plans,
- Implementation plans were developed by the departments to document and monitor how they plan to meet their affirmative action hiring objectives
- Purposeful presence in various education and community events is being pursued, and
- Ongoing consultation with the citizen 504-ADA Advisory Committee is being facilitated to improve outreach to the disability community.

In 2005, recruitment and outreach efforts will be increased. King County will continue its efforts to successfully attract and retain people of color, women and persons with disabilities. By May 2005, a proposed work plan will be submitted to the Executive outlining the strategic approach for 1) identifying and addressing any identified employment barriers, and 2) fostering a safe, inclusive and diversity friendly workplace. HRD will engage the stakeholder committees to obtain their advice, insights, input and connections to their varied and diverse communities for partnership purposes. The report will also include an assessment of the Executive Branch's capacity to accomplish the proposed work plan and recommend resources, as appropriate.

For details on the county's affirmative action workforce profiles and employment activity, please see attachments 2 and 3 respectively for 2003 and 2004 affirmative action reports. Each set of reports includes:

- AA Progress by Goal Setting Group
- Summary of Employee Changes² By Department and By Protected Group
- Summary of Employee Changes for Each Department
- Summary Analysis by Department compares the department workforce to the available workforce. Where there is under-representation, goals are set.

3. Proposed 2005-2006 Affirmative Action Goals

Race/Ethnicity and Gender Goals

Workforce availabilities are used as benchmarks to determine if there is under-representation of women, people of color and persons with disabilities within departments. The county developed the proposed updated 2005-2006 race/ethnicity and gender workforce availabilities based on Census 2000 data consistent with the Office of Federal Contract Compliance requirements.³ The process included:

- Profiling its workforce for each job by EEO Job Category, Race and Gender. (Job Group Analysis Report)
- Analyzing the recruitment areas for filling job vacancies. (Immediate and Recruitment Labor Area Distribution Report)
- Profiling the two factor calculations that produced the workforce availabilities for people of color and women. (Utilization Analysis Report)

³See Attachment 1: D. Workforce Availability Development Methodology.

- Profiling the county workforce as compared to the workforce availability of people of color and women. Where there was under-representation, identifying an affirmative action goal. (Summary Analysis Report)

As previously stated, the current workforce availabilities for persons with disabilities are proposed for extension given the lack of Census 2000 data for update purposes. The proposed 2005-2006 workforce availabilities for people of color, persons with disabilities, and women are detailed on pages 22-23.

Note that when the proposed race/ethnicity and gender workforce availabilities were compared to the 2003-2004 workforce availabilities, the net changes include:

B. Improvement Strategies

(41 C.F.R. 60-2.17)

1. Standardized Human Resource Practices

2. Applicant Pool Diversity Enhancement Activities and Fair Employment

HRD will continue to provide the following services to departments:

- Coordinate the update of recruitment tools and strategies to reach a diverse pool of applicants and targeted under-represented applicants, and train department management and hiring authorities on their use.

administrative County-wide guidelines governing the recruitment, examination, qualification and selection of individuals into the program; develop and implement a centralized data tracking system for the Program.

The departments will:

- a. Document their outreach and recruitment efforts. These will be reported on a semi-annual and annual basis to HRD as part of documenting the County's affirmative action efforts and progress for monitoring purposes.
- b. Use the affirmative action tools, allowable under Initiative 200. The allowable affirmative action tools are as follows:
 1. Affirmative Action planning with hiring goals for women, people of color and persons with disabilities.
 2. Non-discrimination policy and program for all aspects of employment.
 3. Equal employment opportunity indicator for job ads and postings (e.g., "EEO/AA" or "EEO/AA Employer").
 4. Targeted advertising, outreach and recruitment to diversify the applicant pool in conjunction with general recruitment.
 5. Relationships with organizations, agencies, and institutions for the purposes of diversity recruitment in conjunction with general recruitment.
 6. Participation in community and institutional events for the purposes of diversity recruitment in conjunction with general recruitment.

7. Posting, notification, training and implementation of EEO policies to ensure equity and diversity friendly work environment and resolution avenues for EEO issues.
8. Selection processes that are non-discriminatory.

3. 2003 and 2004 Affirmative Action and EEO Response Capacity Building Program

A. Building Executive Branch Capacity

The HRD Director serves as the equal employment opportunity officer for the Executive Branch. She is assisted by an EEO Analyst and the Employment and Diversity Manager who is responsible for affirmative action, diversity and recruitment programs. Department human resources service delivery managers assist her to implement EEO and affirmative action initiatives at their respective departments.

In 2003 and 2004, the Executive branch successfully accomplished the following in an effort to enhance the county's capacity to promote the workplace values of diversity, equity and productivity:

- Training: Launched a new one hour EEO and Anti-harassment online training for all employees. Continued to provide management training which includes the 90 minute EEO and Anti-Harassment online training, the 3.5 hour EEO classroom training and the 3.5 hour Managing Diverse Employees training.
- Data Management: Installed upgraded affirmative action software and produced new 2005-2006 workforce availabilities based on Census 2000 data and streamlined affirmative action report

production. Enhanced data management activities for 2005 will include modifying persons with disabilities affirmative action reporting to include accommodated employees.

- Technical Assistance and Consultation: Enhanced the ability to provide technical assistance and consultation to department management regarding discrimination issues, cross-cultural conflict and service delivery to diverse communities.
- Pre-qualified Consultant Pools: Continued to provide pre-qualified pools of consultants for EEO investigations, diversity and effective cross-cultural service provision training and facilitation. In 2004, expanded the EEO consultant pool.
- Employment Technical Assistance: Continued to provide employment training for management. In the process of developing hiring manual to assist departments implement effective and consistent hiring processes.
- Hired an onstaff EEO investigator to execute, oversee, and manage investigations required to address allegations of discrimination or harassment.

B. Disability Accommodation Program

Failure to provide reasonable accommodation is a form of discrimination. To prevent such violations and assist the employee perform the essential functions of their jobs, disability services specialists are available at HRD and at the Department of Transportation to coordinate the disability accommodation process. In 2003 and from January 1, 2004 to October 31, 2004, disability services staff:

- Updated the Executive Policy on Disability Accommodation and established the Executive Policy on Transitional Duty to assist employees with disabilities to benefit from temporary work. This is mutually beneficial to the employee and the employer. The employee's return to work is expedited and the employer gains from the employee's work contribution.
- Served 362 and 406 employees with disabilities in 2003 and the first 10 months of 2004 respectively. Services include consultation, information and referral, disability accommodation, and re-assignment placement.

These intervention efforts clearly contribute to the county's low rate of disability discrimination complaint as depicted in the section below.

C. EEO Program

Employees have the right to seek resolution of alleged discrimination concerns and issues internally and/or externally by filing with enforcement agencies such as the federal Equal Employment Opportunity Commission, the Washington State Human Rights Commission and the King County Office of Civil Rights Enforcement.

Employees and management are encouraged to resolve issues internally at the lowest level possible and where needed through mediation assistance. The County Executive promulgated a Nondiscrimination and Anti-harassment policy which provided employees with multiple options to surface their EEO concerns. The

employee can approach their immediate supervisor, any member of management within the agency, their department director, his or her anti-harassment designee or human resource staff, the HRD Director, HRD Deputy Director, Diversity Manager or the HRD Director Designee, the EEO Analyst.

Hence, HRD's EEO capacity building initiatives in the workplace were given priority to effect a diversity and equity friendly work environment. Such initiatives include EEO management and employee training, diversity management training, pre-qualified consultant pools of investigators and diversity experts, focus on disability services, inclusion of all protected groups under the nondiscrimination and anti-harassment policy, and the addition of an onstaff investigator. The results are apparent in the complaint reduction that has occurred during the past seven years, from 1997 to October 2004. Overall, the county reduced its formally filed complaints by 50% overall.

4. Employee Involvement

Executive Policy PER 22-5 (AEP) established the Employee-Based EEO/AA Advisory Committee to review and recommend systemic changes for the enhancement of affirmative action and equal employment opportunity in the workplace. In 2003 and 2004 respectively, the Committee was active in reviewing transit operator discipline, retention of deputy sheriffs, training of corrections sergeant and utilization of term-limited temporary employees.

5. Management Accountability

Management accountability is identified in Section 5. Establishment of Responsibility for Implementation of the EEO/AA Plan. However, Initiative 200 has prompted changes in the way that policy and plan accountability can be established for Department directors and managers. Previously, accountability was based on achievement of overall annual hiring goals in EEO job categories as a significant part of performance appraisal expectations.

Management will be held accountable for:

- Implementation of the EEO/Affirmative Action Plan requirements.
- Recruitment and outreach efforts consistent with affirmative action hiring objectives.

- Use of merit based selection tools in the hiring and promotion processes consistent with federal EEOC Uniform Guidelines on Employee Selection Procedures and Washington State's Human Rights Commission guide to Pre-Employment Inquiries. (These guidelines are located respectively at http://www.access.gpo.gov/nara/cfr/waisidx_00/29cfr1607_00.html and <http://www.wa.gov/hrc/> under Policy and Quality Improvement, click Commission Rules, click WAC 162-12-140.
- Effective response to EEO complaints and maintenance of an equity and diversity friendly environment.

7. Departmental Action-Oriented Plans (C.F.R. 60-2.17 (c))

Executive Branch departments and agencies are held accountable for ensuring equal employment opportunity and the success of affirmative action in the workplace towards a diverse workforce.

Within 45 days of the adoption of this Affirmative Action Plan, each Executive department shall develop an affirmative action implementation plan with the following elements:

- Identification of under-represented EEO Job Categories.
- Current Vacancy Planning to identify opportunities for affirmative action.
- Identification of Strategies to achieve affirmative action such as recruitment and outreach to diversify applicant pools for targeted under-represented EEO Job Categories.

The departments will conduct annual vacancy planning which will include gathering information on current vacancies, projecting attrition of employees by race/ethnicity, gender and disability status for the coming year, reviewing current under-representation and determining overall affirmative action targets to ensure representation.

8. Internal Audit and Reporting Requirements

King County believes that one of the most important elements in effectively implementing a written Affirmative Action Compliance Plan is an adequate internal audit and reporting system.

Through this system, progress can be monitored and management kept informed. For this purpose, King County through HRD, has established the following internal audit and report system:

1. Monitor and evaluate department performance and County progress on a quarterly basis.
2. Prepare Council required semi-annual and annual reports on department affirmative action performance and provide copies to the King County Civil Rights Commission, the King County 504/ADA Advisory Committee and the Executive's Employee-based EEO/AA Advisory Committee.

Affirmative action performance reports will include workforce profiles and employee movement reports (new hires, promotions, transfers, demotions, terminations) to determine progress. Where appropriate, termination

reports by reason will be developed should adverse impact be indicated.

3. Evaluate individual department's annual affirmative action performance.
4. Monitor and advise departments of their EEO-AA performance in areas such as affirmative action progress, action oriented program effectiveness, provision of adequate resources, applicant flow, employee movement and discipline.
5. Encourage the use of existing internal dispute resolution processes, to allow employees and departments to resolve affirmative action and equal employment opportunity issues at the lowest level possible.

9. Compliance with the OFCCP's Gender Discrimination Guidelines (41 C.F.R. 60-20)

King County complies with the gender discrimination guidelines as follows:

- King County's employment advertising does not express a gender preference and, if printed, does not appear in gender-segregated columns.
- King County's Personnel Guidelines and employment application forms expressly state that there will be no discrimination on the basis of gender.
- King County recruits employees of both genders for all positions.
- King County does not rely upon a state "protective" law to deny women employees the right to any job they are qualified to perform.
- King County offers employees of both genders an equal opportunity for any jobs they are qualified to perform, except when gender is a bona fide occupational qualification.
- King County does not make any distinction based upon gender with regard to employment opportunities, wages, hours or other terms and conditions of employment.
- King County does not make any distinction between married and unmarried persons of one gender that is

not made between married and unmarried persons of the other gender.

- King County does not deny employment to women with young children.
- King County does not terminate employees of one gender in a particular job group when they reach a certain age, unless the same rule applies to members of the other gender.
- King County provides appropriate physical facilities to both genders.
- King County does not penalize, in conditions of employment, women who require time away from work for childbearing. When, under King County's leave policy, a woman employee would qualify for leave, then childbearing is considered a justification like any other for granting such leave, for a reasonable period of time. The conditions applicable to her leave and to her return to

employment are in accordance with King County's leave policy with respect to all leaves of absence. Further, King County's maternity policy complies with the 1978 Pregnancy Amendment to Title VII of the Civil Rights Act of 1964.

King County does not, on the basis of gender, specify any differences between men and women employees in retirement age.

10. Support of Community Action Programs

King County seeks to have its EEO commitment fully understood by the community for the purpose of diversifying our applicant pools and achieving a better understanding of the communities we serve.

In an effort to achieve such awareness on the part of the community, the following steps have been and will continue to be taken:

- King County encourages members of its management to serve in local civic organizations and community development activities to gain a better understanding of local community issues.
- King County encourages its employees to participate in community programs. For example, King County sponsors internships, summer youth for the economically disadvantaged and summer hire for youth in the workplace. It also participates in Career Shadow Day and Take Your Children to Work to encourage young people to start thinking about future career goals. It also provides for the use of paid leave for volunteer work at schools and educational institutions.
- King County participates in local activities that encourages the involvement and integrates minorities, women and people with disabilities.

11. Religion and National Origin Discrimination Guidelines (41 C.F.R. Part 60 50)

King County is committed to providing and ensuring equal employment opportunity to all applicants and employees without regard to their religion or national origin, as follows:

- Internal communication of its policy with respect to nondiscrimination on the basis of religion or national origin.
- Notification to recruitment sources of King County's policy regarding nondiscrimination on the basis of religion or national origin.

King County accommodates the religious observances and practices of employees and prospective employees except where such accommodation would result in an undue hardship in conducting its business.

Attachment 1: AA Plan Definitions

A. Affirmative Action Program Definitions

As defined in the King County Personnel Guidelines, affirmative action is: A temporary corrective program that is designed to ensure full representation of minorities, women and persons of disability in the workplace. (See page 61 of the King County Personnel Guidelines dated 10/01/00.)

B. Definition and Verification of Race/Ethnicity, Gender, Disability, and Veteran Status

A. Defining Employee Race/Ethnicity, Disability and Veteran Status

King County adopts the Office of Federal Contract Compliance Program's (OFCCP) definitions to identify a person's racial and ethnic status as listed below. Applicants and employees will self-identify for affirmative action purposes only.

- **Native American:** All persons having origins in any of the original peoples of North America, including Alaska Natives, and who maintain cultural identification through tribal affiliation or community recognition.
- **Black:** All persons having origins in any of the Black racial groups of Africa.

- **Asian:** All persons having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- **Hispanic:** All persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

Note: OFCCP states that only those persons from Central and South American countries who are of Spanish origin descent or culture should be included in the category Hispanic. Persons from Brazil, Guyana, Surinam or Trinidad, for example, would be classified according to their race and would not necessarily be included as Hispanic. The Portuguese should be excluded from the category Hispanic and should be classified according to race.

Individuals who have mixed ancestry will be asked to identify their primary cultural ethnic/race identification.

- **Person With Disabilities:** The definition below is for affirmative action purposes only.

A disability is a permanent physical, mental or sensory condition that is likely to limit an individual's ability to obtain, maintain, or advance in employment. The disability must be substantial rather than slight, and permanent in that it is seldom fully corrected by medical replacement, therapy or surgical means.

Special Disabled Veteran means “(i) A veteran who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Department of Veterans Affairs for a disability: (A) Rated 30% or more; (B) Rated at 10 or 20% in the case of a veteran who has been determined under 38 U.S.C. 3106 to have a serious employment handicap; or (ii) A person who was discharged or released from active duty because of a service-disconnected disability.

- **Veteran of Vietnam Era** means “a person who (1) Served on active duty for a period of more than 180 days, and was discharged or released there from with other than a dishonorable discharge, if any such part of such active duty occurred: (I) In the Republic of Vietnam between February 28, 1961 and May 7, 1975; or (ii) Between August 5, 1964, and May 7, 1975, in all other cases; or (2) Was discharged or released from active duty for a service-connected disability if any part of such active duty was performed” in the above time period.

B. Verification and Resolution of Race/Ethnicity and Disability

The Human Resources Division (HRD) will resolve protected group identification issues raised by the prospective hiring authority, by other employees or identified by the applicant/employee based on the following documentation:

Blacks, Asians, and Hispanics

A person MUST meet one of the qualifications and provide documentation to be classified as a member of a minority group:

1. Identifies as a member of a specified minority group

Documentation: Birth certificate, visa, etc.

2. Is recognized by minority groups in the Seattle-King County community or other community as a member.

Documentation: Written documentation from the applicant’s community

Native American

A person MUST meet one of the qualifications AND provide documentation to be classified as an American Indian/Alaskan Native.

1. Is an enrolled member of a state or federally recognized tribe

Documentation: Tribal Certification Card, letter from tribe, etc.

2. Is recognized by other American Indians/Alaska Natives in the Seattle-King County community or other community as a member

Documentation: Written documentation from the American Indian/Alaska Native community.

3. Has at least one-quarter (1/4) American Indian or Alaskan Native blood and identifies as such.

Documentation: Evaluative interview and a completed Family Ancestry Chart.

Persons With Disabilities

A job applicant/employee can self-identify as having a disability. There is required no status verification process.

With regards to **confidentiality**, voluntary protected group designation will be utilized strictly for affirmative action purposes. This information will not be shared. However, it is not unusual for employees to self disclose disability information to their supervisor or human resource staff to facilitate:

- **Job Accommodation:** The County will reasonably accommodate the physical, mental, and/or sensory limitations of a qualified disabled employee.
- **First Aid and Safety:** The supervisor and safety floor captain will be informed of the employee's disability to ensure employee safety in the event of an emergency i.e. for evacuation purposes.

D. Workforce Availability Development Methodology

Workforce availabilities are used as benchmarks to determine if there is under-representation of people of color, persons with disabilities and women within departments. The Office of Federal Contract Compliance provides guidance in establishing people of color and women's workforce availabilities. Employers are required to use external and internal factors in updating workforce availabilities. The Executive Branch used the following information to update each department's workforce availabilities.

A. External Factor

The county combined the workforce data of people of color and women with requisite skills in the immediate area and the recruitment area to establish the external factor. See definition below. The county used recruitment practices to assign weights to combine both components.

- Requisite Skills in the Immediate Area. This is the availability of people of color and women in the workforce having the requisite skills in the immediate labor area.
- Requisite Skills in the Recruitment Area. This is the availability of people of color and women in the workforce having the requisite skills that the employer can reasonably recruit. Data for this factor reflects the reasonable recruitment area from which each department could reasonably seek workers for a particular job category. For example: recruitment for high level management would include statewide and national applicant search.

B. Internal Factor

The county used the percentage of people of color and women who are working in King County Executive Branch. These employees are promotable and transferable within a particular department.

The county used actual hiring and promotional practices to establish the weights to combine the external and internal factors.
