Ordinance 18556

Proposed No. 2017-0181.1

Sponsors Upthegrove

1 AN ORDINANCE authorizing the King County executive
2 to renew an aquatic lease with the state of Washington,
3 acting through the Department of Natural Resources,
4 granting King County the use of a portion of aquatic lands
5 located in Quartermaster Harbor, specifically those aquatic
6 lands associated with the public dock at Dockton park, for
7 the purpose of continuing to allow public recreational use
8 and access.

9 **STATEMENT OF FACTS:**

- 10 1. The Washington state Department of Natural Resources manages state-
11 owned aquatic lands to protect fish and wildlife and to facilitate
12 commerce, navigation and public access.
- 13 2. The Maury Island aquatic reserve encompasses approximately five
14 thousand five hundred thirty acres of state-owned aquatic tidelands and
15 bedlands around Vashon-Maury Island, including Quartermaster Harbor.
- 16 3. The King County parks and recreation division of the department of
17 natural resources and parks manages Dockton park on Maury Island,
18 which is located on the south central part of Maury Island, adjacent to
19 Quartermaster Harbor. Dockton park has amenities that enhance public

20 use and access to the shoreline, including a boat launch and a public dock.

21 4. A thirty-year aquatic lease with the Washington state Department of
22 Natural Resources for the area encompassing the Dockton park dock
23 expired in 2012.

24 5. The department of natural resources and parks supports continued
25 public use of and access to the shoreline in the area of Dockton park.

26 Therefore, the department of natural resources and parks has a continuing
27 need to lease a portion of aquatic lands within Quartermaster Harbor from
28 the Washington state Department of Natural Resources.

29 6. Renewal of the lease is consistent with the 2014 Maury Island Reserve
30 Aquatic Management Plan and will allow continued public recreational
31 use of the aquatic area adjacent to Dockton park including, but not limited
32 to, public fishing piers, swimming, moorage, kayaking, environmental
33 research and educational access.

34 8. Renewing the lease will also allow the parks and recreation division to
35 make necessary improvements to the aging dock and moorage slips at
36 Dockton park.

37 BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

38 SECTION 1. The King County executive is authorized to enter into an aquatic
39 lease between the King County parks and recreation division and the Washington state

42 9500 SW Dock Street, Vashon, WA 98070, and to take all actions necessary to

BACKGROUND

Tenant desires to lease the aquatic lands commonly known as Quartermaster Harbor, which is bedlands, located in King County, Washington, from State, and State desires to lease the property to Tenant pursuant to the terms and conditions of this Lease. State has authority to enter Lease under Chapter 43.12, Chapter 43.30 and Title 79 of the Revised Code of Washington (RCW).

THEREFORE, the Parties agree as follows:

SECTION 1 PROPERTY

1.1 Property Defined.

- (a) State leases to Tenant and Tenant leases from State the real property described in Exhibit A together with all the rights of State, if any, to improvements on and easements benefiting the Property, but subject to the exceptions and restrictions set forth in this Lease (collectively the "Property").
- (b) This Lease is subject to all valid interests of third parties noted in the records of King County, or on file in the Office of the Commissioner of Public Lands, Olympia, Washington; rights of the public under the Public Trust Doctrine or federal navigation servitude; and treaty rights of Indian Tribes.
- (c) This Lease does not include a right to harvest, collect or damage natural resources, including aquatic life or living plants; water rights; mineral rights; or a right to excavate or withdraw sand, gravel, or other valuable materials.
- (d) State reserves the right to grant easements and other land uses on the Property to others when the easement or other land uses will not interfere unreasonably with the Permitted Use.

1.2 Survey and Property Descriptions.

- (a) Tenant prepared Exhibit A, which describes the Property. Tenant warrants that Exhibit A is a true and accurate description of the Lease boundaries and the improvements to be constructed or already existing in the Lease area. Tenant's obligation to provide a true and accurate description of the Property boundaries is a material term of this Lease.
- (b) State's acceptance of Exhibit A does not constitute agreement that Tenant's property description accurately reflects the actual amount of land used by Tenant. State reserves the right to retroactively adjust rent if at any time during the term of the Lease State discovers a discrepancy between Tenant's property description and the area actually used by Tenant.

1.3 Inspection. State makes no representation regarding the condition of the Property, improvements located on the Property, the suitability of the Property for Tenant's Permitted Use, compliance with governmental laws and regulations, availability of utility rights, access to the Property, or the existence of hazardous substances on the Property. Tenant inspected the Property and accepts it "AS IS."

SECTION 2 USE

2.1 Permitted Use. Tenant shall use the Property for public recreational use and access, including boating and use of public dock both day use and overnight moorage, public fishing (the Permitted Use"), and for no other purposes. This is a water-dependent use. Exhibit B describes the Permitted Use in detail. The Permitted Use is subject to additional obligations in Exhibit B.

2.2 Restrictions on Permitted Use and Operations. The following limitations apply to the Property and adjacent state-owned aquatic land. Tenant's compliance with the following does not limit Tenant's liability under any other provision of this Lease.

- (a) Tenant shall not cause or permit:
 - (1) Damage to natural resources,
 - (2) Waste, or
 - (3) Deposit of material, unless approved by State in writing. This prohibition includes deposit of fill, rock, earth, ballast, wood waste, refuse, garbage, waste matter, pollutants of any type, or other matter.
- (b) Tenant shall not cause or permit scour or damage to aquatic land and vegetation. This prohibition includes the following limitations:
 - (1) Tenant shall not use or allow use of a pressure washer to clean underwater surfaces unless the water is deeper than seven (7) feet.
 - (2) Tenant shall not allow moorage or anchorage of vessels in water more shallow than seven (7) feet at the extreme low tide or water.
- (c) Tenant shall not install fixed breakwaters.
- (d) Tenant shall not construct or install new covered moorage or boat houses.
- (e) Unless approved by State in writing, Tenant shall not cause or permit dredging on the Property. State will not approve dredging unless (1) required for flood control, maintenance of existing vessel traffic lanes, or maintenance of water intakes and (2) consistent with State's management plans, if any. Tenant shall maintain authorized dredge basins in a manner that prevents internal deeper pockets.
- (f) Tenant shall not allow residential uses on state owned aquatic land.
- (g) Tenant shall not allow or authorize new floating houses.

2.3 Conformance with Laws. Tenant shall, at all times, keep current and comply with all conditions and terms of permits, licenses, certificates, regulations, ordinances, statutes, and other government rules and regulations regarding Tenant's use or occupancy of the Property. Tenant shall comply with the King County Stormwater Pollution Manual for Commercial, Multi-Family and Residential Properties ("Manual") dated January 2009, and comply with any revisions to that Manual that may occur after the effective date of this Lease.

2.4 Liens and Encumbrances. Unless expressly authorized by State in writing, Tenant shall keep the Property free and clear of liens or encumbrances arising from the Permitted Use or Tenant's occupancy of the Property.

SECTION 3 TERM

3.1 Term Defined. The term of this Lease is Twelve (12) years (the "Term"), beginning on the ___ day of _____, 2017 (the "Commencement Date"), and ending on the ___ day of _____, 2029 (the "Termination Date"), unless the creosote piling within the leasehold are removed or wrapped pursuant to Exhibit B.2.c, which will result in extending the ending date to _____, 2042 (the "Termination Date"), unless terminated sooner under the terms of this Lease.

3.3 Renewal of the Lease. This Lease does not provide a right of renewal. Tenant may apply for a new lease, which State has discretion to grant. Tenant must apply for a new lease at least one (1) year prior to Termination Date. State will notify Tenant within ninety (90) days of its intent to approve or deny a new Lease.

3.4 End of Term.

- (a) Upon the expiration or termination of this Lease, Tenant shall remove Improvements in accordance with Section 7, Improvements, and surrender the Property to State in the same or better condition as on the Commencement Date, reasonable wear and tear excepted.
- (b) Definition of Reasonable Wear and Tear.
 - (1) Reasonable wear and tear is deterioration resulting from the Permitted Use that has occurred without neglect, negligence, carelessness, accident, or abuse of the Property by Tenant or any other person on the premises with the permission of Tenant.
 - (2) Reasonable wear and tear does not include unauthorized deposit of material prohibited under Paragraph 2.2 regardless of whether the deposit is incidental to or the byproduct of the Permitted Use.
- (c) If Property is in worse condition, excepting for reasonable wear and tear, on the surrender date than on the Commencement Date, the following provisions apply.
 - (1) State shall provide Tenant a reasonable time to take all steps necessary to remedy the condition of the Property. State may require Tenant to enter into a right-of-entry or other use authorization prior to the Tenant entering the Property if the Lease has terminated.
 - (2) If Tenant fails to remedy the condition of the Property in a timely manner, State may take steps reasonably necessary to remedy Tenant's failure. Upon demand by State, Tenant shall pay all costs of State's remedy, including but not limited to the costs of removing and disposing of material deposited improperly on the Property, lost revenue resulting from the condition of the Property, and administrative costs associated with the State's remedy.

3.4 Holdover.

- (a) If Tenant remains in possession of the Property after the Termination Date, the occupancy will not be an extension or renewal of the Term. The occupancy will be a month-to-month tenancy, on terms identical to the terms of this Lease, which either Party may terminate on thirty (30) days' written notice.
 - (1) The monthly rent during the holdover will be the same rent that would be due if the Lease were still in effect and all adjustments in rent were made in accordance with its terms.
 - (2) Payment of more than the monthly rent will not be construed to create a periodic tenancy longer than month-to-month. If Tenant pays more than the monthly rent and State provides notice to vacate the property, State shall refund the amount of excess payment remaining after the Tenant ceases occupation of the Property.

- (b) If State notifies Tenant to vacate the Property after the termination date and Tenant fails to do so within the time set forth in the notice, Tenant will be a trespasser and shall owe the State all amounts due under RCW 79.02.300 or other applicable law.

SECTION 4 RENT

If the State fails to provide the notice required in Paragraph 4.4(a), State shall not collect the adjustment amount for the year in which State failed to provide notice. Upon providing notice of adjustment, State may adjust and prospectively bill Annual Rent as if missed or waived adjustments had been implemented at the proper interval. This includes the implementation of any inflation adjustment.
- (c) RCW 79.105.230 provides that use of state-owned aquatic lands and improvements for public parks or public recreation shall be granted without charge if certain conditions are met. The State shall not adjust the Annual Rent provided the Tenant is in compliance with RCW 79.105.230 and WAC 332-30-131 (4).

4.5 Rent Adjustments for Water-Dependent Uses.

- (a) Inflation Adjustment. State shall adjust water-dependent rent annually pursuant to RCW 79.105.200-.360, except in those years in which State revalues the rent under Paragraph 4.5(b) below. This adjustment will be effective on the anniversary of the Commencement Date.

- (b) **Revaluation of Rent.** At the end of the first four-year period of the Term, and at the end of each subsequent four-year period, State shall revalue the water-dependent Annual Rent in accordance with RCW 79.105.200-.360.
- (c) **Rent Cap.** State shall increase rent incrementally in compliance with RCW 79.105.260 as follows: If application of the statutory rent formula for water-dependent uses would result in an increase in the rent attributable to such uses of more than fifty percent (50%) in any one year, State shall limit the actual increase implemented in such year to fifty percent (50%) of the then-existing rent. In subsequent, successive years, State shall increase the rental amount incrementally until the State implements the full amount of increase as determined by the statutory rent formula.

The State does however acknowledge receipt of a spreadsheet and associated map entitled 'Quartermaster Harbor Sediment Chemistry Analytical Results Compared to Sediment Management Standards Chemical Criteria' dated November 2, 2010.
- (c) Tenant is responsible for conducting all appropriate inquiry and gathering sufficient information about the existence, scope, and location of Hazardous Substances on or near the Property necessary for Tenant to meet Tenant's obligations under this Lease and utilize the Property for the Permitted Use.

- (c) If use of Hazardous Substances by Tenant and affiliates on the Property results in violation of law:
 - (1) Tenant shall submit or shall require its affiliate to submit to State any plans for remedying the violations, and
 - (2) Tenant shall implement or shall require its affiliate to implement any remedial measures to restore the Property or natural resources that State may require in addition to remedial measures required by regulatory authorities.

- (3) Tenant shall inspect all equipment using petroleum products, hydraulic fluids, machinery coolants, chemicals, or other toxic or deleterious materials on a monthly basis and immediately make all repairs necessary to stop leakage. - (f) If, after the Commencement Date, the Washington Department of Ecology, U.S. Environmental Protection Agency or other regulatory agency establishes different standards applicable to Tenant's activities under the Permitted Use, and Tenant does not have sufficient funding to comply with the new standards, Tenant may terminate this Lease upon not less than thirty (30) days written notice to State whereupon, on the thirtieth day after delivery of such notice, this Lease shall terminate. However, Tenant shall not be allowed to terminate the Lease under this Section 8.4(f) unless Tenant can first demonstrate to State that Tenant has used reasonable efforts to secure sufficient funding to comply with the new standards. Tenant has satisfied the requirements to use reasonable efforts to secure funding if the Parks Division has made an appropriation request for funding to the King County Council.

8.5 Management of Contamination, if any.

- (c) Tenant shall provide State with copies of all documents Tenant submits to any federal, state or local authorities concerning environmental impacts or proposals relative to the Property. 8.9 Cleanup.

- (a) If Tenant's act, omission, or breach of obligation under Paragraph 8.4 results in a release of Hazardous Substances that exceeds any applicable regulatory cleanup standard, Tenant shall, at Tenant's sole expense, promptly take all actions necessary or advisable to clean up the Hazardous Substances in accordance with applicable law.
- (b) Tenant may undertake a cleanup of the Property pursuant to the Washington State Department of Ecology's Voluntary Cleanup Program, provided that Tenant cooperates with the Department of Natural Resources in development of cleanup plans. Tenant shall not proceed with Voluntary Cleanup without the Department of Natural Resources approval of final plans. Nothing in the operation of this provision is an agreement by the Department of Natural Resources that the Voluntary Cleanup complies with any laws or with the provisions of this Lease. Tenant's completion of a Voluntary Cleanup is not a release from or waiver of any obligation for Hazardous Substances under this Lease.

8.10 Sampling by State, Reimbursement, and Split Samples.

- (a) State may enter the Property and conduct sampling, tests, audits, surveys, or investigations ("Tests") of the Property at any time to determine the existence, scope, or effects of Hazardous Substances.
- (b) If such Tests, along with any other information, demonstrate a breach of Tenant's obligations regarding Hazardous Substances under this Lease, Tenant shall promptly reimburse State for all costs associated with the Tests, provided State gave Tenant thirty (30) calendar days advance notice in non-emergencies and reasonably practical notice in emergencies.
- (c) In non-emergencies, Tenant is entitled to obtain split samples of Test samples, provided Tenant gives State written notice requesting split samples at least ten (10) calendar days before State conducts Tests. Neither party is obligated to provide any analytical summaries or the work product of experts.

- (c) Each permitted transferee shall assume all obligations under this Lease, including the payment of rent. No assignment, sublet, or transfer shall release, discharge, or otherwise affect the liability of Tenant.
- (d) State's consent under this Paragraph 9.1 does not constitute a waiver of any claims against Tenant for the violation of any term of this Lease.

14.3 Remedies.

- (a) Upon an Event of Default, State may terminate this Lease and remove Tenant by summary proceedings or otherwise.

Best Management Practices for Marinas

Bilge Water Discharge Management

1. Provide notice that the discharge of contaminated bilge is illegal.
2. Make information available on bilge pumpout services.

Solid Waste

1. Provide adequate trash containers for tenants to use.

Sewage Management

1. Post the location and operational hours for nearby pumpout facilities and list mobile pumpout services.
2. Once pumpout is installed, provide clear instructions in pumpout use. Include a prohibition against disposal of hazardous materials.
3. Provide clean, adequate shore-side facilities and encourage tenants to use them for showering and laundry.
4. Minimize food wastes thrown overboard by providing adequate garbage service.

Spill Prevention and Response

1. Post the proper information for reporting spills.
2. When a spill occurs, stop the spill or leakage at the source. Contain the material. Recover what you can, then wait for the Coast Guard or Department of Ecology to respond.
