

ATTACHMENT A:

LEASE AGREEMENT

LEASE NO. DACW671230010000
Replaces No. DACW671940003700

DEPARTMENT OF THE ARMY LEASE

LAKE WASHINGTON SHIP CANAL AND HIRAM M. CHITTENDEN LOCKS PROJECT

KING COUNTY, WASHINGTON

THIS LEASE, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, acting by and through the Real Estate Contracting Officer, Real Estate Division, U.S. Army Engineer District, Seattle, hereinafter referred to as the Lessor, and **KING COUNTY, A POLITICAL SUBDIVISION OF THE STATE OF WASHINGTON**, with its principal address at 201 South Jackson Street, Suite 600, Seattle, Washington 98104-3855, hereinafter referred to as the Lessee.

WITNESSETH:

That the Lessor finds that this Lease is advantageous to the United States, that the terms and conditions are considered to promote the national defense or to be in the public interest; that the Premises are under the control of the Lessor; that the Premises are not needed for the Term below for public use by the Lessor; and that the property is not excess property.

That the Lessor, by the authority of Title 10, United States Code, Section 2667, and for the consideration hereinafter set forth, hereby leases to the Lessee 2,151.17 square feet (0.05 acres) of property identified in **EXHIBITS A -Map** and **B -Legal Description** attached hereto and made a part hereof, hereinafter referred to as the Premises, for maintenance of an existing bulkhead located on the Fremont Cut which is part of the Lake Washington Ship Canal and Hiram M Chittenden Locks Project.

THIS LEASE is granted subject to the following conditions:

1. TERM

Said Premises are hereby leased for a term of five (5) years, beginning June 1, 2019 and ending May 31, 2024, unless earlier terminated pursuant to the condition on **TERMINATION**.

2. CONSIDERATION

a. The Lessee shall pay rental in advance to the Lessor in the amount of **THIRTEEN THOUSAND AND NO/100 DOLLARS (\$13,000.00)**. The Lessee shall pay this amount in a lump sum for the 5-year term; to the order of: FAO, USACE SEATTLE,

and delivered to Seattle District, Army Corps of Engineers, ATTN: CENWS-RET, 4735 East Marginal Way South, Bldg 1202, Seattle, WA 98134-2388.

b. All rent and other payments due under the terms of this Lease must be paid on or before the date payments are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982 (31 U.S.C. Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation on late payment of rent. Interest will accrue from the later of the due date or the date notification of the amount due is mailed to the Lessee. An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges, and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

3. SUPERVISION BY THE LESSOR AND DISTRICT ENGINEER

a. The use and occupation of the Premises incident to the exercise of the privileges and purposes hereby granted shall be subject to the supervision and approval of the Lessor and to such general rules and regulations as the Lessor may from time to time prescribe.

b. The Premises shall be under the general supervision and subject to the approval of the District Engineer, who is the officer with operational control over the Premises, hereinafter referred to as said officer. The Lessee's use of the Premises shall be accomplished in such manner as not to endanger personnel or property of the said officer or obstruct travel on any road or other thoroughfare.

4. COST OF UTILITIES

The Lessee shall pay the cost, as determined by the said officer, of producing and/or supplying any utilities and other services furnished by the Government or

through Government-owned facilities for the use of the Lessee, including the Lessee's proportionate share of the cost of operation and maintenance of the government-owned facilities by which such utilities or services are produced or supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the said officer.

5. NOTICES

a. All notices and correspondence to be given pursuant to this Lease shall be addressed, if to the Lessee, to **King County, ATTN: (Director) Christie True, 201 South Jackson Street, Suite 600, Seattle, Washington 98104-3855** and, if to the Lessor, to the **Real Estate Contracting Officer, Attention: Chief, Real Estate Division 4735 East Marginal Way South, Bldg 1202, Seattle, WA 98134-2388**; or as may from time to time otherwise be directed by the parties.

b. Notices shall be mailed by certified mail, postage prepaid, return receipt requested, addressed to the addresses listed in 5.a. above. The effective date of the notice shall be the earlier of the actual date of receipt or the date the addressee is notified of the attempted delivery of the certified mail, whether or not the addressee actually accepts delivery. Use of an express delivery service will not substitute for this requirement.

c. Communications other than notices required under this Lease may be sent by means other than certified mail, return receipt requested, including electronic mail." Such communications include routine matters of coordination and informal exchange of information.

6. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary of the Army", "Real Estate Contracting Officer", "Lessor", "said officer", or "Chief, Real Estate Division" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, licensees, assignees, transferees, successors, and their duly authorized representatives.

7. IDENTIFICATION OF GOVERNMENT AGENCIES, STATUTES, PROGRAMS, AND FORMS

Any reference in this Lease, by name or number, to a government department, agency, statute, regulation, program, or form shall include any successor, amendment, or similar department, agency, statute, regulation, program, or form.

8. APPLICABLE LAWS AND REGULATIONS

a. The Lessee shall comply with all applicable Federal, State, county, and municipal laws, ordinances, and regulations wherein the Premises are located.

b. The Lessee shall be solely responsible for obtaining at its cost and expense any permits or licenses required for its operations under this Lease, independent of any existing permits or licenses held by the Lessor.

c. The Lessee understands and acknowledges that the granting of this Lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), Section 404 of the Clean Water Act (33 U.S.C. § 1344) or Section 408 (33 U.S.C. § 408) or any other permit or license which may be required by Federal, State, interstate, or local laws, regulations, and ordinances in connection with the Lessee's use of the Premises.

d. The Lessee shall promptly report to the Lessor any incident for which the Lessee is required to notify a Federal, State, or local regulatory agency or any citation by a Federal, State, or local regulatory agency of non-compliance with any applicable law, ordinance, or regulation.

9. DISCLAIMER

This Lease is effective only insofar as the rights of the United States in the Premises are concerned; and the Lessee shall obtain such permission as may be required on account of any other existing rights.

10. TRANSFERS AND ASSIGNMENTS

Without prior written approval of the Lessor, the Lessee shall not transfer or assign this Lease, sublet the Premises or any part thereof, or grant any interest, privilege, or license whatsoever in connection with this Lease. Failure to comply with this paragraph shall constitute a breach for which the Lessor may immediately terminate the Lease.

11. CONDITION OF PREMISES

The Lessee acknowledges that it has inspected the Premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

12. SUBJECT TO EASEMENTS

This Lease is subject to all existing easements, whether of record or not, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the Premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the Lessor, interfere with the use of the Premises by the Lessee.

13. SUBJECT TO MINERAL INTERESTS

This Lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, the Lessee understands and acknowledges that such interests may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), Department of the Interior which has responsibility for mineral development on federal lands. The Lessor will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the Premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

14. PROTECTION OF PROPERTY

a. For the purposes of this condition, the term "Lessee" shall include Lessee's employees, officers, agents, invitees, contractors and subcontractors, assigns, licensees, sublessees, subgrantees, and other affiliates.

b. The Lessee shall keep the Premises in good order and repair and in a decent, clean, sanitary, and safe condition by and at the expense of the Lessee. The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this Lease, and shall exercise due diligence in the protection of all property located on the Premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to the Lessor, or at the election of the Lessor, reimbursement made therefore by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the Lessor.

c. The Lessee shall immediately notify the Lessor upon discovery of any hazardous conditions on the Premises that present an immediate threat to health and/or danger to life or property. The Lessor, upon discovery of any hazardous conditions on the Premises that present an immediate threat to health and/or danger to life or property, will so notify the Lessee. In addition to the rights of termination for noncompliance or at will (for any reason at any time), upon discovery of any hazardous conditions on the Premises by the Government, or upon notice of Lessee's discovery of such conditions, the Government shall close, or cause the Lessee to close the affected

part or all of the Premises to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the Lessor will have the option to: (1) correct the hazardous conditions and collect the cost of repairs and any other resulting damages, including consequential damages and loss in value to the premises from the Lessee, if the conditions were caused by Lessee; or, (2) revoke the Lease for noncompliance or at will (for any reason at any time) and the Lessee shall restore the Premises in accordance with the Condition on **RESTORATION**. The Lessee shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition on **PROTECTION OF PROPERTY**. Hazardous conditions not caused by the Lessee will be dealt with at the discretion of the Lessor, but the Lessee will nonetheless be responsible for closing the area as directed by the Lessor or complying the Lessor's closing of the area, as applicable, in accordance with this condition.

15. RIGHT TO ENTER AND FLOOD

The right is reserved to the United States, its officers, agents, and employees to enter upon the Premises at any time and for any purpose necessary or convenient in connection with government purposes; to make inspections, to remove timber or other material, except property of the Lessee, to flood the Premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the Premises or portion(s) thereof as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

16. TITLE TO IMPROVEMENTS

The demolition, renovation, and construction of improvements by the Lessee are private undertakings, and during the term of this Lease title to all such improvements vest and remain in Lessee. The improvements shall remain real property for the duration of this Lease. All structures and equipment furnished by the Lessee shall be and remain the property of the Lessee during the term of the Lease. Upon expiration, revocation, or termination of the Lease, disposition of such improvements shall be accomplished in accordance with the condition on **RESTORATION**.

17. DESTRUCTION BY UNAVOIDABLE CASUALTY

If the Premises or improvements thereon shall be destroyed or be so totally damaged by fire or other unavoidable casualty so as to render the Premises untenable, wholly or in part, then payment of rent shall cease and either party may forthwith terminate this Lease by written notice to that effect, notwithstanding the condition on **TERMINATION**. If part of the Premises or the improvements were rendered untenable, rental payment may be apportioned to reflect the part remaining usable to Lessee. In the event the Lease is not terminated, the Lessor shall diligently proceed to

return the Premises and improvements to operation and resume payment of rent in a manner and in a timeframe satisfactory to the Lessor.

18. RENTAL ADJUSTMENT

In the event the Lessor revokes this Lease or in any other manner materially reduces the Premises or materially affects its use by the Lessee prior to the expiration date, an equitable adjustment will be made in the rental paid or to be paid under this Lease. Any adjustment of rent shall be evidenced by a written supplemental agreement, executed by the Lessor; PROVIDED, however, that none of the provisions of this condition shall apply in the event of revocation because of noncompliance by the Lessee with any of the terms and conditions of this Lease.

19. INSURANCE

a. Except where the Lessee is a self-insured Federal, State, local, tribal, or territorial entity, at the commencement of this Lease, the Lessee, shall obtain, from a reputable insurance company, or companies, as defined below, commercial general liability insurance and any other insurance consistent with sound business practices for the use authorized. The liability insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit of \$1,000,000, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the Lessee under the terms of this Lease. Such policy or policies shall name the United States of America as an additional insured. The Lessee shall require its insurance company to furnish to the Lessor a copy of the policy or policies, or if acceptable to the Lessor, certificates of insurance evidencing the purchase of such insurance. The minimum amount of liability insurance coverage is subject to revision by the Lessor every three years or upon renewal or modification of this Lease.

b. The insurance policy or policies shall be a comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services, and activities involved. All liability policies shall be primary and non-contributory to any other insurance. The Lessee shall require that the insurance company give the Lessor thirty (30) days written notice of any cancellation or change in such insurance. The Lessor may require closure of any or all of the Premises during any period for which the Lessee does not have the required insurance coverage.

c. Each insurance policy will provide that any losses shall be payable notwithstanding any act or failure to act or negligence of the Lessee or the Lessor or any other person and will provide that the insurer will have no right of subrogation against the United States of America. Under no circumstances will the Lessee be

entitled to assign to any third party rights of action that it may have against the Lessor arising out of this Lease.

d. For the purposes of this condition on **INSURANCE**, "reputable insurance company" shall mean a company licensed to do business in the state in which the property is located, with general policyholder's ratings of at least A- and a financial rating of at least VIII in the most current Best's Insurance Reports available on the date the Lessee obtains or renews the insurance policies, unless otherwise agreed to by the Lessor, in its discretion. If the Best's ratings are changed or discontinued, the Parties shall agree to an equivalent method of rating insurance companies.

20. PROHIBITED USES

a. The Lessee shall not permit gambling on the Premises or install or operate, or permit to be installed or operated thereon, any device which is illegal; or use the Premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the Premises any activity which would constitute a nuisance. The Lessee shall not sell, store or dispense, or permit the sale, storage, or dispensing of beer or other intoxicating liquors on the Premises.

b. The Lessee shall not construct or place any structure, improvement, or advertising sign on the Premises, or allow or permit such construction or placement without prior written approval of the Lessor.

21. ENVIRONMENTAL PROTECTION

a. The Lessee, including the Lessee's sublessees, successors, or assigns, and the employees, agents, contractors and invitees of any of them, will use all reasonable means available to protect the environmental and natural resources and where damage nonetheless occurs from activities of the Lessee, including the Lessee's subtenant/successors or assigns, employees, agents, contractors and invitees of any of them, the Lessee shall be liable to restore the damaged resources.

b. The Lessee, including the Lessee's sublessees, successors, or assigns, and the employees, agents, contractors, and invitees of any of them, shall protect the **LAKE WASHINGTON SHIP CANAL AND HIRAM M. CHITTENDEN LOCKS PROJECT** against pollution of its air, ground, and waters by complying, at its sole cost and expense, with all Environmental Laws that are or may become applicable to the Premises or the Lessee's activities on the Premises, including but not limited to all applicable federal, State, and local laws, regulations, United States Army Corps of Engineers policies, and other requirements. The disposal of any toxic or hazardous materials within the Premises is specifically prohibited.

c. The term "Environmental Law", as used herein, means any statute, law, act, ordinance, rule, regulation, order, decree, or ruling of any Federal, State, and/or local governmental, quasi-governmental, administrative or judicial body, agency, board, commission, or other authority relating to the protection of health and/or the environment or otherwise regulating and/or restricting the use, storage, disposal, treatment, handling, release, and/or transportation of Hazardous Substances, including, without limitation, the Comprehensive Environmental Response Compensation and Liability Act of 1980, the Resource Conservation and Recovery Act, the Federal Water Pollution Control Act, the Clean Air Act, the Hazardous Materials Transportation Act, the Toxic Substances Control Act, the Emergency Planning and Community Right To Know Act, and the environmental control laws of the State of WASHINGTON, each as now or hereafter amended, and all regulations and interpretive guidelines respectively promulgated thereunder. Compliance with such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, State, interstate or local governmental agency, are hereby made a condition of this Lease.

d. The Lessee is required to participate in all aspects of an environmental assessment, including but not limited to pre-briefings, the Outgrant Pre Visit Questionnaire, the assessment, exit briefings, of its outgranted area. The Lessee shall promptly initiate and complete all necessary corrective actions, as determined and directed by the said officer, in order to fully resolve those findings contained in Environmental Assessment Report(s) that the said officer determines must be implemented. Failure of the Lessee to take the required corrective action(s) identified in the Environmental Assessment Report(s) may be referred to the appropriate enforcement agency, which will render final determinations with respect to compliance with relevant laws or regulations. Continued non-compliance by the Lessee may also serve as grounds for revocation of this Lease.

e. The use of any pesticides or herbicides within the Premises shall be in conformance with all applicable Federal, State, interstate, and local laws and regulations. The Lessee must obtain approval in writing from the said officer before any pesticides or herbicides are applied to the Premises.

22. ENVIRONMENTAL SITE ASSESSMENT

a. An Environmental Condition of Property report (ECP) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as **EXHIBIT C**. Upon expiration, revocation, termination, or relinquishment of this Lease another ECP shall be prepared which will document the environmental condition of the property at that time. A comparison of the two reports will assist the Lessor in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

b. Appendix B of the ECP references dock area and dock, which are not included in this leased area.

23. EXCAVATION RESTRICTIONS AND NOTIFICATION

In the event that the Lessee discovers unexpected buried debris or a foreign, potentially unsafe or hazardous substance, the Lessee will immediately cease work in the affected area, immediately notify the said officer, and protect the affected area and the material from further disturbance until the said officer gives clearance to proceed. Such abeyance of activity in the affected area shall not constitute a default of the Lessee's obligation under this Lease.

24. HISTORIC PRESERVATION

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the Premises, the Lessee shall immediately notify the Lessor and protect the site and the material from further disturbance until the Lessor gives clearance to proceed.

25. SOIL AND WATER CONSERVATION

The Lessee shall maintain, in a manner satisfactory to the Lessor, all soil and water conservation structures that may be in existence upon said Premises at the beginning of or that may be constructed by the Lessee during the term of this Lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the Premises. Any soil erosion occurring outside the Premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the Lessor, at the Lessee's sole cost and expense.

26. NATURAL RESOURCES

The Lessee shall cut no timber; conduct no mining operations; remove no sand, gravel, or kindred substances from the ground; commit no waste of any kind; or in any manner substantially change the contour or condition of the Premises except as authorized in writing by the Lessor.

27. FORCE PROTECTION STANDARDS

Any facilities constructed on the Premises may be constructed using commercial standards in a manner that provides force protection safeguards appropriate to the activities conducted in, and the location of, such facilities.

28. RESTORATION

a. Upon expiration, revocation, or termination of this Lease, the Lessee shall vacate the Premises, remove its real property improvements and personal property (Lessee's property) from the Premises unless otherwise agreed by the Lessor, and restore the Premises to a condition satisfactory to the Lessor. Such restoration shall include restoration of all property of the United States on the Premises and environmental restoration as determined based on the condition on **ENVIRONMENTAL SITE ASSESSMENT**.

b. In the event this Lease is terminated or revoked by the Lessor for any reason, the Lessor may grant the Lessee a non-exclusive revocable license to use the Premises to vacate, remove Lessee's property therefrom, and restore the Premises to the required condition. Such license shall generally be for a period not to exceed ninety (90) days.

c. If the Lessee shall fail or neglect to remove Lessee's property and restore the Premises as required in this condition on **RESTORATION**, the Lessor may cause restoration work to be performed, including but not limited to removal of Lessee's property from the Premises. The Lessee shall have no claim for damages against the United States or its officers or agents related to or resulting from any removal of Lessee's property or any restoration work. The Lessee shall pay the United States on demand any sums which may be expended by the United States after expiration, revocation, or termination of the Lease to remove Lessee's property and to restore the Premises.

d. Upon written agreement by the Lessor, any or all of the Lessee's property may be surrendered to the United States in lieu of removal, with title vesting in the United States without additional consideration therefore. The Lessee grants the Lessor power of attorney to execute any deed, bill of sale, or other documents to clear title to such real property improvements or personal property which the Lessor has agreed shall not be removed from the Premises. The Lessor may provide appropriate evidence of title in the Lessee to all property being removed by Lessee.

29. TERMINATION

a. The Lessor may terminate this Lease at any time (i) if the Lessee fails to comply with any term or condition of this Lease, or (ii) at will (i.e. at any time for any reason).

b. The Lessee may terminate this Lease at any time by giving the Lessor at least thirty (30) days' notice in writing, provided that no refund by the United States of any rent due and paid shall be made, and provided further, that Lessee shall be responsible to pay any and all rent set forth in the condition on **CONSIDERATION** that becomes due and payable prior to the effective date, as defined in the condition on **NOTICES**, of such notice.

30. FAILURE OF LESSOR TO INSIST UPON COMPLIANCE

a. The failure of the Lessor to insist, in any one or more instances, upon performance of any of the terms, covenants, or conditions of this Lease shall not be construed as a waiver or relinquishment of the Lessor's right to the current or future performance of any such terms, covenants, or conditions and the Lessee's obligations in respect to such performance shall continue in full force and effect.

b. No remedy herein or otherwise conferred upon or reserved to Lessor shall be considered to exclude or suspend any other remedy but the same shall be cumulative and shall be in addition to every other remedy given hereunder, or now or hereafter existing at or in equity, regulation, or by statute. Every power and remedy given by this Lease to Lessor may be exercised from time to time and so often as occasion may arise or as may be deemed expedient.

31. DISPUTES

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. §§ 7101-7109) (the Act), all disputes arising under or relating to this Lease shall be resolved under this clause and the provisions of the Act.

b. "Claim", as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of Lease terms, or other relief arising under or relating to this Lease. A claim arising under this Lease, unlike a claim relating to this Lease, is a claim that can be resolved under a Lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$100,000 is not a claim under the Act until certified as required by subparagraph c.(2) below. The routine request for rental payments that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as a liability or amount or is not acted upon in a reasonable time.

c.

(1) A Claim by the Lessee shall be made in writing and submitted to the Lessor for a written decision. A claim by the Government against the Lessee shall be in the form of a written decision by the Lessor.

(2) For Lessee claims exceeding \$100,000, the Lessee shall submit with the claim a certification that—

(i) the claim is made in good faith;

(ii) supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) the amount requested accurately reflects the Lease adjustment for which the Lessee believes the Government is liable.

(iv) the certifier is authorized to certify the claim on behalf of the Lessor.

(3) The individual signing on behalf of the Lessee must be authorized to certify the claim on behalf of the Lessee and shall be:

(i) If the Lessee is an individual, the certificate shall be executed by that individual.

(ii) If the Lessee is not an individual, the certification shall be executed by an individual authorized to certify on behalf of the entity who is –

(A) a senior company official in charge of the Lessee's location involved; or

(B) an officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$100,000 or less, the Lessor must, if requested in writing by the Lessee, render a decision within sixty (60) days of receipt of the request. For Lessee-certified claims over \$100,000, the Lessor must decide the claim or notify the Lessee of the date by which the decision will be made within sixty (60) days of receipt of the request.

e. The Lessor's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the Lessor or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c.(2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the Lessor received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during

which the Lessor receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

~~h.~~ The Lessee shall proceed diligently with the performance of the Lease, pending final resolution of any request for relief, claim, or action arising under the Lease, and comply with any decision of the Lessor.

32. INDEMNITY

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the Premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors. Notwithstanding any other provision of this Lease, any provision that purports to assign liability to the United States Government shall be subject to and governed by Federal law, including but not limited to the Contract Disputes Act of 1978 (41 U.S.C. Sections 7101-7109 (2012)), the Anti-Deficiency Act (31 U.S.C. Sections 1341 and 1501), and the Federal Tort Claims Act (28 U.S.C. Section 2671, et seq.).

33. NO INDIVIDUAL LIABILITY OF UNITED STATES OFFICIALS

No covenant or agreement contained in this Lease shall be deemed to be the covenant or agreement of any individual officer, agent, employee, or representative of the United States, in his or her individual capacity and none of such persons shall be subject to any personal liability or accountability by reason of the execution of this Lease, whether by virtue of any constitution, statute, or rule of law or by the enforcement of any assessment or penalty, or otherwise.

34. ANTI-DEFICIENCY ACT

Nothing in this Lease shall obligate the Lessor to obligate appropriated funds in violation of the Anti-Deficiency Act 31 U.S.C. §§ 1341-1351. Notwithstanding the foregoing, nothing contained in this Lease shall limit, diminish, or eliminate any rights that the Lessee or its successors or assigns may have against the Lessor under applicable statutes, rules, or regulations.

35. TAXES

Any and all taxes imposed by the State or its political subdivisions upon the property or interest of the Lessee in the Premises shall be paid promptly by the Lessee. If and to the extent that the property owned by the Government is later made taxable by State or local governments under an Act of Congress, the Lease shall be renegotiated.

36. COVENANT AGAINST CONTINGENT FEES

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this Lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the Lessor shall have the right to annul this Lease without liability or, in its discretion, to require the Lessee to pay to the Lessor, in addition to the Lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

37. SEVERAL LESSEES

If more than one Lessee is named in this Lease the obligations of said Lessees herein contained shall be joint and several obligations.

38. MODIFICATIONS AND CONSENTS

a. This Lease contains the entire agreement between the parties hereto with regard to the Lease, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing and signed by the parties to be bound or by a duly authorized representative. This provision shall apply to this condition as well as all other conditions of this Lease.

b. The provisions of this Lease may only be superseded, modified, or repealed pursuant to a written amendment or supplemental agreement to this Lease.

39. MERGER

This Lease and any other agreement shall not merge. In the event the terms and conditions of this Lease conflict with the terms and conditions of any other agreement, the terms and conditions of the Lease shall prevail.

40. NOT PARTNERS

Nothing contained in this Lease will make, or will be construed to make, the Lessor and the Lessee hereto partners or joint venturers with each other, it being

understood and agreed that the only relationship between the Lessor and the Lessee under this Lease is that of landlord and tenant with respect to the Premises.

41. NON-DISCRIMINATION

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the Premises, because of race, color, religion, sex, sexual orientation, gender identity age, handicap, or national origin. The Lessee shall comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

42. LABOR, MATERIAL, EQUIPMENT, AND SUPPLIES

Lessee shall bear the sole responsibility for furnishing and paying for all labor, materials, equipment, and supplies used in conjunction with the exercise by the Lessee of any right granted hereunder, unless specifically absolved from said responsibilities elsewhere within this Lease.

43. DETERMINATION REGARDING EXECUTIVE ORDER 13658

Any reference in this section to "prime contractor" or "contractor" shall mean the Lessee and any reference to "contract" shall refer to the Lease.

a. Executive Order 13658. The parties expressly stipulate this contract is subject to Executive Order 13658, the regulations issued by the Secretary of Labor in 29 CFR Part 10 pursuant to the Executive Order, and the following provisions.

b. Minimum Wages.

(1) Each worker (as defined in 29 CFR 10.2) engaged in the performance of this contract by the prime contractor or any subcontractor, regardless of any contractual relationship which may be alleged to exist between the contractor and worker, shall be paid not less than the applicable minimum wage under Executive Order 13658.

(2) The minimum wage required to be paid to each worker performing work on or in connection with this contract between January 1, 2019 and December 31, 2019 shall be \$12.00 per hour. The minimum wage shall be adjusted each time the Secretary of Labor's annual determination of the applicable minimum wage under section 2(a)(ii) of Executive Order 13658 results in a higher minimum wage. Adjustments to the Executive Order minimum wage under section 2(a)(ii) of Executive Order 13658 will be effective for all workers subject to the Executive Orders beginning January 1 of the following year. If appropriate, the contracting officer, or other agency official overseeing this

contract shall ensure the contractor is compensated only for the increase in labor costs resulting from the annual inflation increases in the Executive Order 13658 minimum wage beginning on January 1, 2020. The Secretary of Labor will publish annual determinations in the Federal Register no later than 90 days before such new wage is to take effect. The Secretary will also publish the applicable minimum wage on www.wdol.gov (or any successor Web site). The applicable published minimum wage is incorporated by reference into this contract.

(3) The contractor shall pay unconditionally to each worker all wages due free and clear and without subsequent deduction (except as otherwise provided by 29 CFR 10.23), rebate, or kickback on any account. Such payments shall be made no later than one pay period following the end of the regular pay period in which such wages were earned or accrued. A pay period under this Executive Order may not be of any duration longer than semi-monthly.

(4) The prime contractor and any upper-tier subcontractor shall be responsible for the compliance by any subcontractor or lower-tier subcontractor with the Executive Order minimum wage requirements. In the event of any violation of the minimum wage obligation of this clause, the contractor and any subcontractor(s) responsible therefore shall be liable for the unpaid wages.

(5) If the commensurate wage rate paid to a worker on a covered contract whose wages are calculated pursuant to a special certificate issued under 29 U.S.C. 214(c), whether hourly or piece rate, is less than the Executive Order minimum wage, the contractor must pay the Executive Order minimum wage rate to achieve compliance with the Order. If the commensurate wage due under the certificate is greater than the Executive Order minimum wage, the contractor must pay the 14(c) worker the greater commensurate wage.

c. Withholding. The agency head shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the prime contractor under this or any other Federal contract with the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay workers the full amount of wages required by Executive Order 13658.

d. Contract Suspension/Contract Termination/Contractor Debarment. In the event of a failure to pay any worker all or part of the wages due under Executive Order 13658 or 29 CFR Part 10, or a failure to comply with any other term or condition of Executive Order 13658 or 29 CFR Part 10, the contracting agency may on its own action or after authorization or by direction of the Department of Labor and written notification to the contractor, take action to cause suspension of any further payment, advance or guarantee of funds until such violations have ceased.

Additionally, any failure to comply with the requirements of this clause may be grounds for termination of the right to proceed with the contract work. In such event, the Government may enter into other contracts or arrangements for completion of the work, charging the contractor in default with any additional cost. A breach of the contract clause may be grounds for debarment as a contractor and subcontractor as provided in 29 CFR 10.52.

e. The contractor may not discharge any part of its minimum wage obligation under Executive Order 13658 by furnishing fringe benefits or, with respect to workers whose wages are governed by the Service Contract Act, the cash equivalent thereof.

f. Nothing herein shall relieve the contractor of any obligation under Federal, State or local law, or under contract, for the payment of a higher wage to any worker, nor shall a lower prevailing wage under any such Federal, State, or local law, or under contract, entitle a contractor to pay less than \$10.35 (or the minimum wage as established each January thereafter) to any worker.

g. Payroll Records.

(1) The contractor shall make and maintain for three years of records containing the information specified in paragraphs f(1)(i) through (vi) of this section for each worker and shall make the records available for inspection and transcription by authorized representative of the Wage and Hour Division of the U.S. Department of Labor:

- (i)** Name, address, and social security number.
- (ii)** The worker's occupation(s) or classification(s).
- (iii)** The rate or rates of wages paid.
- (iv)** The number of daily and weekly hours worked by each worker.
- (v)** Any deductions made; and
- (vi)** Total wages paid.

(2) The contractor shall also make available a copy of the contract, as applicable, for inspection or transcription by authorized representatives of the Wage and Hour Division.

(3) Failure to make and maintain or to make available such records for inspection and transcription shall be a violation of 29 CFR Part 10 and this contract, and in the case of failure to produce such records, the contracting officer, upon direction of

an authorized representative of the Department of Labor, or under its own action, shall take such action as may be necessary to cause suspension of any further payment or advance of funds until such time as the violations are discontinued.

(4) The contractor shall permit authorized representative of the Wage and Hour Division to conduct investigation, including interviewing workers at the worksite during normal working hours.

(5) Nothing in this clause limits or otherwise modifies the contractor's payroll and recordkeeping obligations, if any, under the Davis-Bacon Act, as amended, and its implementing regulation; the Service Contract Act, as amended, and its implementing regulations; the Fair Labor Standards Act, as amended, and its implementing regulations; or any other applicable law.

h. The contractor (as defined in 29 CFR 10.2) shall insert this clause in all of its covered subcontracts and shall require its subcontractors to include this clause in any covered lower-tier subcontracts. The prime contractor and any upper-tier subcontractor shall be responsible for the compliance by any subcontractor or lower-tier subcontractor with this contract clause.

i. Certification of Eligibility.

(1) By entering into this contract, the contractor (an officials thereof) certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of the sanctions imposed pursuant to section 5 of the Service Contract Act, section 3(a) of the Davis-Bacon Act, or 29 CFR 5.12(a)(1).

(2) No part of this contract shall be subcontracted to any person or firm whose name appears on the list of persons or firms ineligible to receive Federal contracts.

(3) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

j. Tipped employees. In paying wages to a tipped employee as defined in section 3(t) of the Fair Labor Standards Act, 29 U.S.C 203(t), the contractor may take a partial credit against the wage payment obligation (tip credit) to the extent permitted under section 3(a) of Executive Order 13658. In order to take such a tip credit, the employee must receive an amount of tips at least equal to the amount of the credit taken; where the tipped employee does not receive sufficient tips to equal the amount of the tip credit the contractor must increase the cash wage paid for the workweek so that the amount of cash wage paid and the tips received by the employee equal the applicable minimum wage under Executive Order 13658. To

utilize this proviso:

- (1) The employer must inform the tipped employee in advance of the use of the tip credit;
- (2) The employer must inform the tipped employee of the amount of cash wage that will be paid and the additional amount by which the employee's wages will be considered increased on account of the tip credit;
- (3) The employees must be allowed to retain all tips (individually or through a pooling arrangement and regardless of whether the employer elects to take a credit for tips received); and
- (4) The employer must be able to show by records that the tipped employee received at least the applicable Executive Order minimum wage through the combination of direct wages and tip credit.

k. Anti-retaliation. It shall be unlawful for any person to discharge or in any other manner discriminate against any worker because such worker has filed any complaint or instituted or caused to be instituted any proceeding under or related to Executive Order 13658 or 29 CFR Part 10, or has testified or is about to testify in any such proceeding.

l. Disputes concerning labor standards. Disputes related to the application of Executive Order 13658 to this contract shall not be subject to the general disputes clause of the contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR Part 10. Disputes within the meaning of this contract clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the workers or their representatives.

m. Notice. The contractor must notify all workers performing work on or in connection with a covered contract of the applicable minimum wage rate under the Executive Order. With respect to service employees on contracts covered by the Service Contract Act and laborers and mechanics on contracts covered by the Davis-Bacon Act, the contractor may meet this requirement by posting, in a prominent and accessible place at the worksite, the applicable wage determination under those statutes. With respect to workers performing work on or in connection with a covered contract whose wages are governed by the FLSA, the contractor must post a notice provided by the Department of Labor in a prominent and accessible place at the worksite so it may be readily seen by workers. Contractors that customarily post notices to workers electronically may post the notice electronically provided such electronic posting is displayed prominently on any Web site that is maintained by the contractor, whether external or internal, and

customarily used for notices to workers about terms and conditions of employment.

n. If a duly authorized representative of the United States discovers or determines, whether before or subsequent to executing this contract, that an erroneous determination regarding the applicability of Executive Order 13658 was made, contractor, to the extent permitted by law, agrees to indemnify and hold harmless the United States, its officers, agents, and employees, for and from any and all liabilities, losses, claims, expenses, suits, fines, penalties, judgments, demands or actions, costs, fees, and damages directly or indirectly arising out of, caused by, related to, resulting from or in any way predicated upon, in whole or in part, the erroneous Executive Order 13658 determination. This includes contractor releasing any claim or entitlement it would otherwise have to an equitable adjustment to the contract and indemnifying and holding harmless the United States from the claims of subcontractors and contractor employees.

44. DETERMINATION REGARDING EXECUTIVE ORDER 13706

Any reference in this section to "prime contractor" or "contractor" shall mean the Lessee and any reference to "contract" shall refer to the Lease.

a. Executive Order 13706. This contract is subject to Executive Order 13706, the regulations issued by the Secretary of Labor in 29 CFR part 13 pursuant to the Executive Order, and the following provisions.

b. Paid Sick Leave.

(1) The contractor shall permit each employee (as defined in 29 CFR 13.2) engaged in the performance of this contract by the prime contractor or any subcontractor, regardless of any contractual relationship that may be alleged to exist between the contractor and employee, to earn not less than 1 hour of paid sick leave for every 30 hours worked. The contractor shall additionally allow accrual and use of paid sick leave as required by Executive Order 13706 and 29 CFR part 13. The contractor shall in particular comply with the accrual, use, and other requirements set forth in 29 CFR 13.5 and 13.6, which are incorporated by reference in this contract.

(2) The contractor shall provide paid sick leave to all employees when due free and clear and without subsequent deduction (except as otherwise provided by 29 CFR 13.24), rebate, or kickback on any account. The contractor shall provide pay and benefits for paid sick leave used no later than one pay period following the end of the regular pay period in which the paid sick leave was taken.

(3) The prime contractor and any upper-tier subcontractor shall be responsible for the compliance by any subcontractor or lower-tier subcontractor with the requirements of Executive Oder 13706, 29 CFR part 13, and this clause.

c. Withholding. The contracting officer shall, upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the prime contractor under this or any other Federal contract with the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay employees the full amount owed to compensate for any violation of the requirements of Executive Order 13706, 29 CFR part 13, or this clause, including any and/or benefits denied or lost be reason of the violation; other actual monetary losses sustained as a direct result of the violation, and liquidated damages.

d. Contract Suspension/Contract Termination/Contractor Debarment. In the event of a failure to comply with Executive Order 13706, 29 CFR part 13, or this clause, the contracting agency may on its own action or after authorization or by direction of the Department of Labor and written notification to the contractor, take action to cause suspension of any further payment, advance, or guarantee of funds until such violations have ceased. Additionally, any failure to comply with the requirements of this clause may be grounds for termination of the right to proceed with the contract work. In such event, the Government may enter into other contracts or arrangements for completion of the work, charging the contractor in default with any additional cost. A breach of the contract clause may be grounds for debarment as a contractor and subcontractor as provided in 29 CFR 13.52.

e. The paid sick leave required by Executive Order 13706, 29 CFR part 13, and this clause is in addition to a contractor's obligations under the Service Contract Act and Davis-Bacon Act, and a contractor may not receive credit toward its prevailing wages or fringe benefit obligations under those Acts for any paid sick leave provided in satisfaction of the requirements of Executive Order 13706 and 29 CFR part 13.

f. Nothing in Executive Order 13706 or 29 CFR part 13 shall excuse noncompliance with or supersede any applicable Federal or State law, any applicable law or municipal ordinance, or a collective bargaining agreement requiring greater paid sick leave or leave rights than those established under Executive Order 13706 and 29 CFR part 13.

g. Recordkeeping.

(1) Any contractor performing work subject to Executive Order 13706 and 29 CFR part 13 must make and maintain, for no less than three (3) years from the completion of the work on the contract, records containing the information specified in paragraphs (i) through (xv) of this section for each employee and shall make them available for inspection, copying, and transcription by authorized representatives of the Wage and Hour Division of the U.S. Department of Labor:

(i) Name, address, and Social Security number of each employee;

- (ii) The employee's occupation(s) or classifications(s);
- (iii) The rate or rates of wages paid (including all pay and benefits provided);
- (iv) The number of daily and weekly hours worked;
- (v) Any deductions made;
- (vi) The total wages paid (including all pay and benefits provided) each pay period;
- (vii) A copy of notifications to employees of the amount of paid sick leave the employee has accrued, as required under 29 CFR 13.5(a)(2);
- (viii) A copy of employees' requests to use paid sick leave, if in writing, or, if not in writing, any other records reflecting such employee requests;
- (ix) Dates and amounts of paid sick leave taken by employees (unless a contractor's paid time off policy satisfies the requirements of Executive Order 13706 and 29 CFR part 13 as described in §13.5(f)(5), leave must be designated in records as paid sick leave pursuant to Executive Order 13706);
- (x) A copy of any written responses to employees' requests to use paid sick leave, including explanations for any denials of such requests, as required under 29 CFR 13.5(d)(3);
- (xi) Any records reflecting the certification and documentation a contractor may require an employee to provide under 29 CFR 13.5(e), including copies of any certification or documentation provided by an employee;
- (xii) Any other records showing any tracking of or calculations related to an employee's accrual or use of paid sick leave;
- (xiii) The relevant covered contract;
- (xiv) The regular pay and benefits provided to an employee for each use of paid sick leave; and
- (xv) Any financial payment made for unused paid sick leave upon a separation from employment intended, pursuant to 29 CFR 13.5(b)(5), to relieve a contractor from the obligation to reinstate such paid sick leave as otherwise required by 29 CFR 13.5(b)(4).

(2)(i) If a contractor wishes to distinguish between an employee's covered and non-covered work, the contractor must keep records or other proof reflecting such distinctions. Only if the contractor adequately segregates the employee's time will time spent on non-covered work be excluded from hours worked counted toward the accrual of paid sick leave. Similarly, only if that contractor adequately segregates the employee's time may a contractor properly refuse an employee's request to use paid sick leave on the ground that the employee was scheduled to perform non-covered work during the time they asked to use paid sick leave.

(ii) If a contractor estimates covered hours worked by an employee who performs work in connection with covered contracts pursuant to 29 CFR 13.5(a)(i) or (iii), the contractor must keep records or other proof of the verifiable information on which such estimates are reasonably based. Only if the contractor relies on an estimate that is reasonable and based on verifiable information will an employee's time spent in connection with non-covered work be excluded from hours worked counted toward the accrual of paid sick leave. If a contractor estimates the amount of time an employee spends performing in connection with covered contracts, the contractor must permit the employee to use their paid sick leave during any work time for the contractor.

(3) In the event a contractor is not obligated by the Service Contract Act, the Davis-Bacon Act, or the Fair Labor Standards Act to keep records of an employee's hours worked, such as because the employee is exempt from the FLSA's minimum wage and overtime requirement, and the contractor chooses to use the assumption permitted by 29 CFR 13.5(a)(1)(iii), the contractor is excused from the requirement in paragraph (1)(d) of this section to keep records of the employee's number of daily and weekly hours worked.

(4)(i) Records relating to medical histories or domestic violence, sexual assault, or stalking, created for purposes of Executive Order 13706, whether of an employee or an employee's child, parent, spouse, domestic partner, or other individual related by blood or affinity whose close association with the employee is the equivalent of a family relationship, shall be maintained as confidential records in separate files/records from the usual personnel files.

(ii) If the confidentiality requirements of the Genetic Information Nondiscrimination Act of 2008 (GINA), section 503 of the Rehabilitation Act of 1973, and/or the Americans with Disabilities Act (ADA) apply to records or documents created to comply with the recordkeeping requirements in this contract clause, the records and documents must also be maintained in compliance with the confidentiality requirement of the GINA, section 503 of the Rehabilitation Act of 1973, and/or ADA as described in 29 CFR 1635.9, 41 CFR 60-741.23(d), and 29 CFR 1630.14(c)(1), respectively.

(iii) The contractor shall not disclose any documentation used to verify the need to use 3 or more consecutive days of paid sick leave for the purposes listed in 29 CFR 13.5(c)(1)(iv) (as described in 29 CFR 13.5(e)(1)(ii)) and shall maintain confidentiality about any domestic abuse, sexual assault, or stalking, unless the employee consents or when disclosure is required by law.

(5) The contractor shall permit authorized representative of the Wage and Hour Division to conduct interviews with employees at the worksite during normal working hours.

(6) Nothing in this contract clause limits or otherwise modifies the contractor's recordkeeping obligations, if any, under the Davis-Bacon Act, the Service Contract Act, the Fair Labor Standards Act, the Family and Medical Leave Act, Executive Order 13658, their respective implementing regulations, or any other applicable law.

h. The contractor (as defined in 29 CFR 13.2) shall insert this clause in all of its covered subcontracts and shall require its subcontractors to include this clause in any covered lower-tier subcontracts.

i. Certification of Eligibility.

(1) By entering into this contract, the contractor (and officials thereof) certifies that neither it (nor he or she) nor any person of firm who has an interest in the contractor's firm is a person of firm ineligible to be awarded Government contracts by virtue of the sanctions imposed pursuant to section 5 of the Service Contract Act, section 3(a) of the Davis-Bacon Act, or 29 CFR 5.12(a)(1).

(2) No part of this contract shall be subcontracted to any person or firm whose name appears on the list of persons or firms ineligible to received Federal contracts currently maintained on the System for Award Management Web site, <http://www.SAM.gov>.

(3) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

j. Interference/Discrimination.

(1) A contractor may not in any manner interfere with an employee's accrual or use of paid sick leave as required by Executive Order 13706 or 29 CFR part 13. Interference includes, but is not limited to, miscalculating the amount of paid sick leave an employee has accrued, denying or unreasonably delaying a response to a proper request to use paid sick leave, discouraging an employee from using paid sick leave, reducing an employee's accrued paid sick leave by more than the amount of such leave

used, transferring an employee to work on non-covered contracts to prevent the accrual or use of paid sick leave, disclosing confidential information contained in certification of other documentation provide to verify the need to use paid sick leave, or making the use of paid sick leave contingent on the employee's finding a replacement worker or the fulfillment of the contractor's operational needs.

(2) A contractor may not discharge or in any other manner discriminate against any employee for:

(i) Using, or attempting to use, paid sick leave as provided for under Executive Order 13706 and 29 CFR part 13;

(ii) Filing any complaint, initiating any proceeding, or otherwise asserting any right or claim under Executive Order 13706 and 29 CFR part 13;

(iii) Cooperating in any investigation or testifying in any proceeding under Executive Order 13706 and 29 CFR part 13;

(iv) Informing any other person about his or her rights under Executive Order 13706 and 29 CFR part 13.

k. Waiver. Employees cannot waive, nor may contractors induce employees to waive, their rights under Executive Order 13706, 29 CFR part 13, or this clause.

l. Notice. The contractor must notify all employees performing work on or in connection with a covered contract of the paid sick leave requirements of Executive Order 13706, 29 CFR part 13, and this clause by posting a notice provided by the Department of Labor in a prominent and accessible place at the worksite so it may be readily seen by employees. Contractors that customarily post notices to employees electronically may post the notice electronically, provided such electronic posting is displayed prominently on any Web site that is maintained by the contractor, whether external or internal, and customarily used for notices to employees about terms and conditions of employment.

m. Disputes concerning labor standards. Disputes related to the application of Executive Order 13706 to this contract shall not be subject to the general disputes clause of the contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR part 13. Disputes within the meaning of this contract clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

THIS LEASE is also executed by the Lessee this ____ day of _____, 20__.

SPU	Seattle Pacific University
USACE	United States Army Corps of Engineers
U.S. EPA	United States Environmental Protection Agency

CERTIFICATION AND DECLARATION

All information and documentation provided herein accurately reflects the environmental condition of the property. This Phase I Environmental Site Assessment (ESA) Report is prepared in accordance with the requirements set forth in American Society for Testing and Materials (ASTM) E1527-13 – Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process – and fulfils the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by Community Environmental Response Facilitation Act (CERFA).

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in 312.10 of 40 Code of Federal Register (CFR) 312 and the ASTM Standard. I have the specific qualifications, based on education, training, and experience to assess a property of the nature, history, and setting of the Property. I have developed and performed the Phase I ESA in conformance with the ASTM and CERCLA standards and practices set forth in 40 CFR 312 and the ASTM standard. I certify that the property conditions stated in this report are based on a thorough review of records made available and are true and correct to the best of my knowledge and belief.

1. INTRODUCTION

1.1 Purpose

The purpose of conducting this Environmental Condition of Property (ECP) Report is to assess, determine and document the environmental condition of the leased property currently leased for use by the U.S. Army Corps of Engineers, Seattle District (USACE) to King County. It is USACE policy under Engineering Regulation 200-2-3 to protect Government real estate assets by assessing the environmental condition of property prior to entering into designated real property transactions. The ECP Report is based on readily available information and summarizes the historical, cultural, and environmental conditions of the property subject to the real estate transaction and includes references to publicly available and related reports, studies, and leases. The ECP Report follows guidelines set forth in American Society for Testing and Materials (ASTM) E1527-13 - Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. A critical part of the analysis is the evaluation of known and suspected hazardous, toxic, or radioactive waste (HTRW) conditions with the potential to impact U.S. Government property. This ECP identifies all known and suspected HTRW releases and its scope is limited to the project boundaries.

This ECP fulfils the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by Community Environmental Response Facilitation Act (CERFA). This report will attempt to identify any potential sources of environmental risk or liability on the Property.

In order for USACE to comply with the requirements of the CERCLA and avail itself of the landowner liability protections afforded under the CERCLA, USACE must perform certain actions to assess the environmental condition of property prior to entering into designated real property transactions. These transactions include fee acquisition of real property on behalf of the United States, leases of USACE controlled property, transfers of jurisdiction between federal agencies and deeds divesting title from the United States.

1.2 Scope of Work

The scope of work is in general accordance with the ASTM Standard Practices for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM E1527-13). These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property to identify recognized environmental conditions. The project effort includes the following tasks:

- Conduct a record search and review all reasonably attainable federal, state, and local government information and records to determine possible onsite sources of hazardous substances and environmental condition of the property.
- Review of historical topographic maps, satellite imagery, and aerial imagery of the site and local area to identify any potential for concern.
- Analysis of historical data on prior uses of the property and the surrounding area.

- Interviews with the owners and/or tenants or other knowledgeable sources.
- Identify contamination sources using data gathered, evaluate what risk they pose, and the effect to the categorization of the environmental condition of the property. Identify all ongoing actions that may affect the environmental conditions of the property.
- Determine the environmental condition of the property.

The scope of this report did not include an audit of environmental regulatory compliance issues or leases, wetland delineation, or collection and testing of environmental samples, including those for radon gas, lead-based paint, polychlorinated biphenyls (PCBs), asbestos, soil, and/or groundwater condition.

2. SITE DESCRIPTION AND PHYSICAL SETTING

2.1 General Location

The King County Bulkhead is located in the Lake Washington Ship Canal (LWSC), at 322 W. Ewing Street, Seattle, Washington 98119 (hereafter referred to as “the Property”). Figure 1 depicts the location of the King County Bulkhead lease area. The Property is located adjacent to the Seattle Pacific University (SPU) Small Dock property in the Northwest quarter of the Southeast quarter of Section 13, of Township 25 North, Range 3 East of the Willamette Meridian, King County Washington at 21 feet above sea level. The leased parcel is located within the city limits of Seattle but there are no utilities (sewer, water, electricity, garbage) available on the Property itself. The lease allows King County the right to maintain a renovated portion of the Government's bulkhead, on the Fremont Cut of the Lake Washington Ship Canal and Ballard (Hiram M. Chittenden) Locks Project. The initial lease term of five (5) years began 1 June 1994. The renewal of the lease was extended an additional twenty (20) years through 31 May 2019. The most recent lease term is for five (5) years, beginning June 1, 2019 and ending May 31, 2024, but revocable at will by the Secretary of the Army.

Lessee Facility Name and Address:	King County Bulkhead 322 W. Ewing Street Seattle, WA 98119
Property Owner:	US Army Corps of Engineers
Date of Ownership:	1900
Current Occupants:	King County
Zoning:	Manufacturing/Industrial
County, State:	King County, Washington
USGS Quadrangle:	Seattle North, Washington
Parcel Number :	132503HYDR
Section/Township/Range:	Section 13, Township 25N, Range 3 East
Latitude/Longitude:	47° 39' 8.57" North, 122° 21' 41.59" West

Legal Description:

**Lake Washington Ship Canal (LWSC)
Lease to King County
DACW671230010000**

**± 0.05 Ac's.
Tract 000006**

LEGAL DESCRIPTION

A parcel of land situated within the Southeast Quarter of Section 13, Township 25 North, Range 3 East, W.M., King County, Washington.

Commencing at Northwest corner of said Section 13, thence South 48°30'02" East, a distance of 4,906.78 feet, to the **POINT OF BEGINNING;**

Thence South 51°26'07" East a distance of 15.75 feet;

Thence South 41°10'47" West a distance of 3.52 feet;

Thence South 48°49'10" East a distance of 105.99 feet;

Thence North 41°10'47" East a distance of 8.62 feet;

Thence South 51°51'19" East a distance of 50.23 feet;

Thence South 07°03'46" West a distance of 18.64 feet;

Thence North 51°37'34" West a distance of 177.11 feet;

Thence North 21°55'40" East a distance of 16.55 feet, to the **POINT OF BEGINNING.**

Containing ± 0.05 acres.

This Legal is not based on an actual survey and should be replaced as soon as one becomes available.

Doc: 002568.docx

2.3 Physical Description

The leased property (bulkhead) occupies approximately 0.05 acres and sits adjacent to the LWSC and SPU leased property to the northeast and King County Environmental Laboratory to the west (Figure 1). The lease area is for a portion of the Government’s bulkhead that was renovated by King County when they constructed their environmental laboratory building. Access to the southeastern part of the Property can occur via an asphalt-paved surface or the canal. Access to the SPU lease area is through the King County lease area. King County and SPU have a reciprocal agreement to use each others’ lease areas. During the site visit, no evidence of a hazardous waste release was recognized. Photographs of a site visit conducted on 29 December 2021 can be viewed in Appendix A – Site Visit Report. Topographic maps, aerial photographs, and Sanborn maps indicate that the property was developed between 1917 and the start of the ship canal project in 1911.

2.4 Regional Climate

The climate of Seattle is temperate with cool, wet winters and mild, relatively dry summers. The mean annual precipitation is 30 to 40 inches with frequent, though light rainfall between October and May. The mean annual air temperature is 48 to 52 degrees Fahrenheit. The frost-free period is 180 to 240 days and snowfall annual average is approximately 6 inches.

2.5 Surface Water

The Property has an elevation of 21 feet above sea level and borders the LWSC. The Property is southeast from Shilshole Bay and Ballard Locks at a distance of approximately 2.6 miles and 1.9 miles, respectively. The Shilshole Bay entrance is where LWSC drains into the Puget Sound. Green Lake is approximately 1.5 miles northeast of the site and Lake Union is approximately 2,000 feet southeast of the Property. No other surface water bodies are within one mile of the Property.

Topography of the Property varies significantly within one mile of the site; to the north (21 to 131 feet above sea level), south (21 to 318 feet above sea level), west (21 to 202 feet above sea level), and east (21 to 152 feet above sea level) (Figure 2).

Lake Washington water elevation is controlled by the Ballard (Hiram M. Chittenden) Locks, so it is not subject to periodic flooding according to the Federal Emergency Management Agency flood risk maps. According to Environmental Data Resources, Inc. (EDR) Federal Emergency Management Agency Flood Insurance Rate Map, Community Panel 53033C0340F the site is not included in either the 100-year or the 500-year flood plain. A National Wetlands Inventory and State Wetland sites reside along the edges of the LWSC. The Property has been designated as part of the National Wetland Inventory and State Wetlands as Identified in Figure 3.

Figure 2 – Surrounding Topography: Elevation Profiles (Source: Topography determined from the USGS 7.5' Digital Elevation Model)

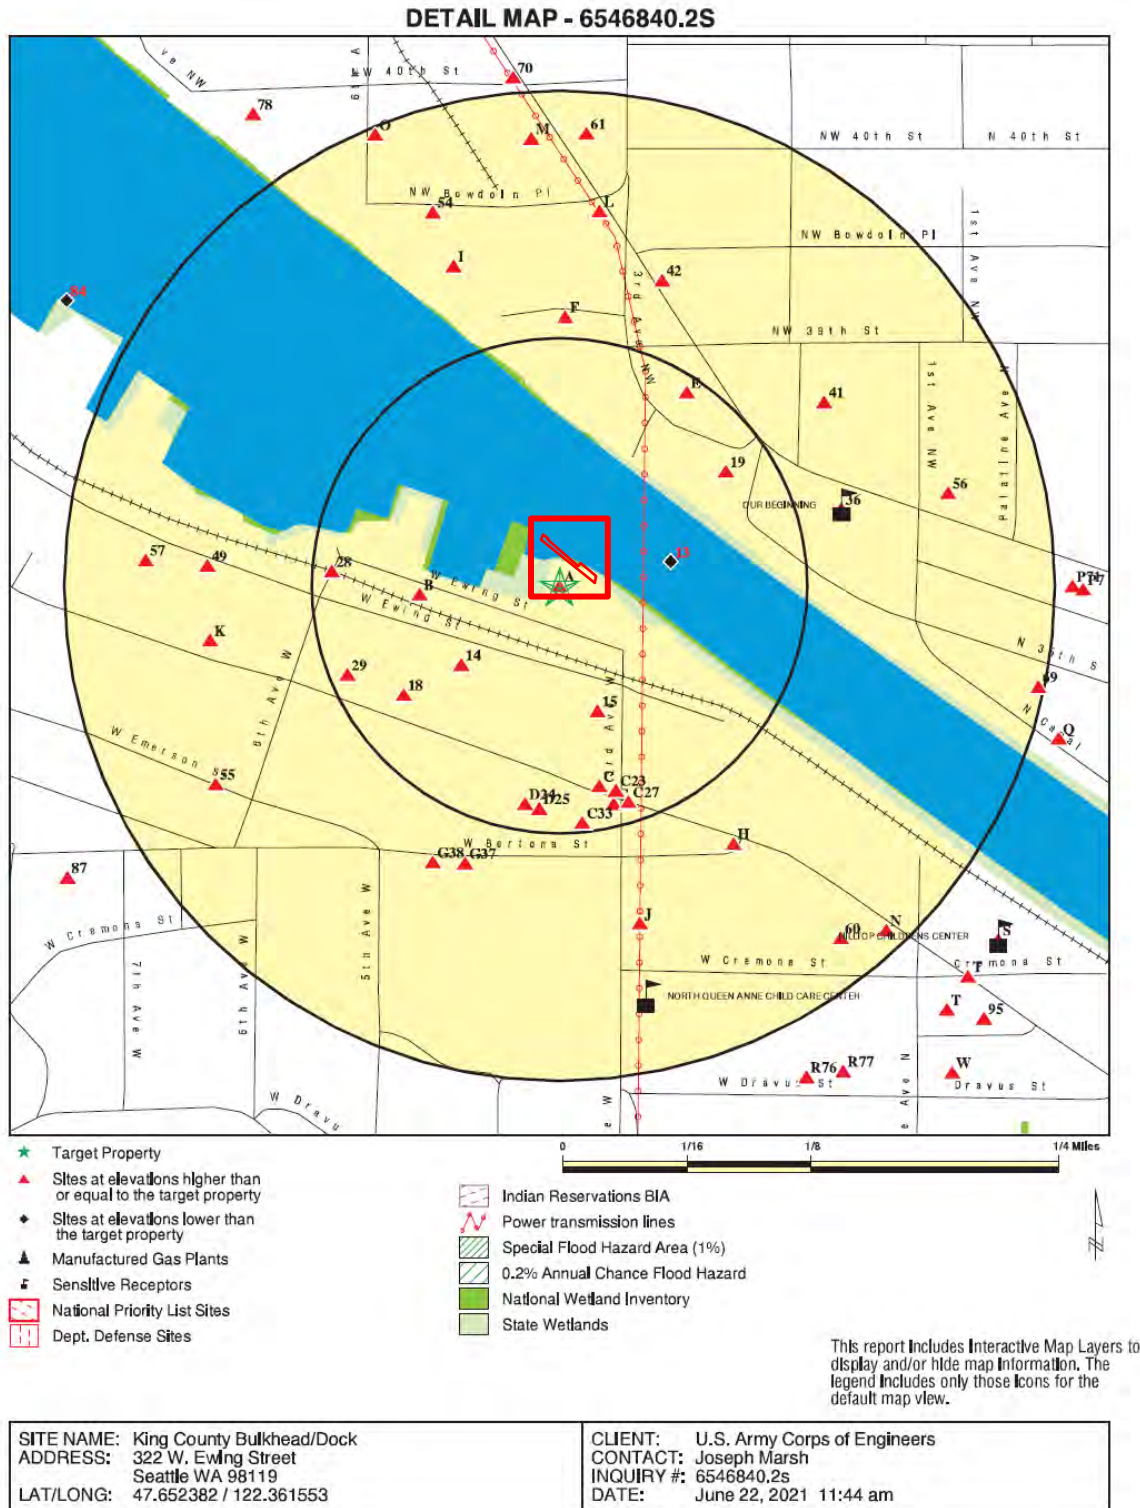

Figure 3 – EDR environment records detail map.

2.6 Geology and Hydrogeology

The geology of the soils adjacent the Property generally consists of approximately 10 feet of fill overlying native estuarine sediment. The fill is a diverse mixture of silty sand, silt, wood waste, and occasional debris. Soils are moderately well drained and have a layer of low hydraulic conductivity. Below the fill layer is native dense sand with zones of gravelly sand, sandy gravel, and silty sand to 18 to 20 feet below the ground surface. Beneath the sand layer is a layer of discontinuous silt and clay, typically 1 to 4 feet thick. Below this layer are discontinuous layers of gravel, sands, and silt of increasing density, which inhibits the downward migration of groundwater.

Table 1 – Monitoring well identification, locations, and groundwater flow directions at those wells identified by EDR.

Map ID	Location from Property	General Direction of Groundwater Flow
1946	½-1 Mile NW	SW
AT3468	½-1 Mile NE	NE
AM3469	½-1 Mile West	Not Reported
3844	½-1 Mile ENE	S
4849	½-1 Mile NNW	SE
1G	½-1 Mile NNW	SE
2G	½-1 Mile NE	NE
4G	½-1 Mile NW	SW
6G	½-1 Mile ENE	S
7G	½-1 Mile West	Not Reported

Depth to water at for monitoring wells within 1 mile of the Property is between 0.51 and 35.02 feet below ground surface. Monitoring well 1946 has a groundwater depth of 8.62 feet (at its deepest) and is located within 1 mile of the Property and has a similar placement in relation to the LWSC as the Property. It can be assumed that the groundwater depth of the Property is probable this depth +/- 2 feet (seasonal groundwater elevation fluctuations which depends largely on the elevation of the Ship Canal, which is adjusted seasonally by the USACE). The surrounding surface topography from the Property (Figure 2) is indicative of the direction of surficial groundwater flow in the area, which generally flows towards the north-northeast before discharging into the Lake Washington Ship Canal.

Salmon Bay is freshwater due to the locks restricting saltwater from Puget Sound entering Lake Washington. No public water wells or septic systems were identified during the records search, interview, or site visit. The water wells identified in Figure 4 are described as monitoring or resource protection wells and not for potable use.

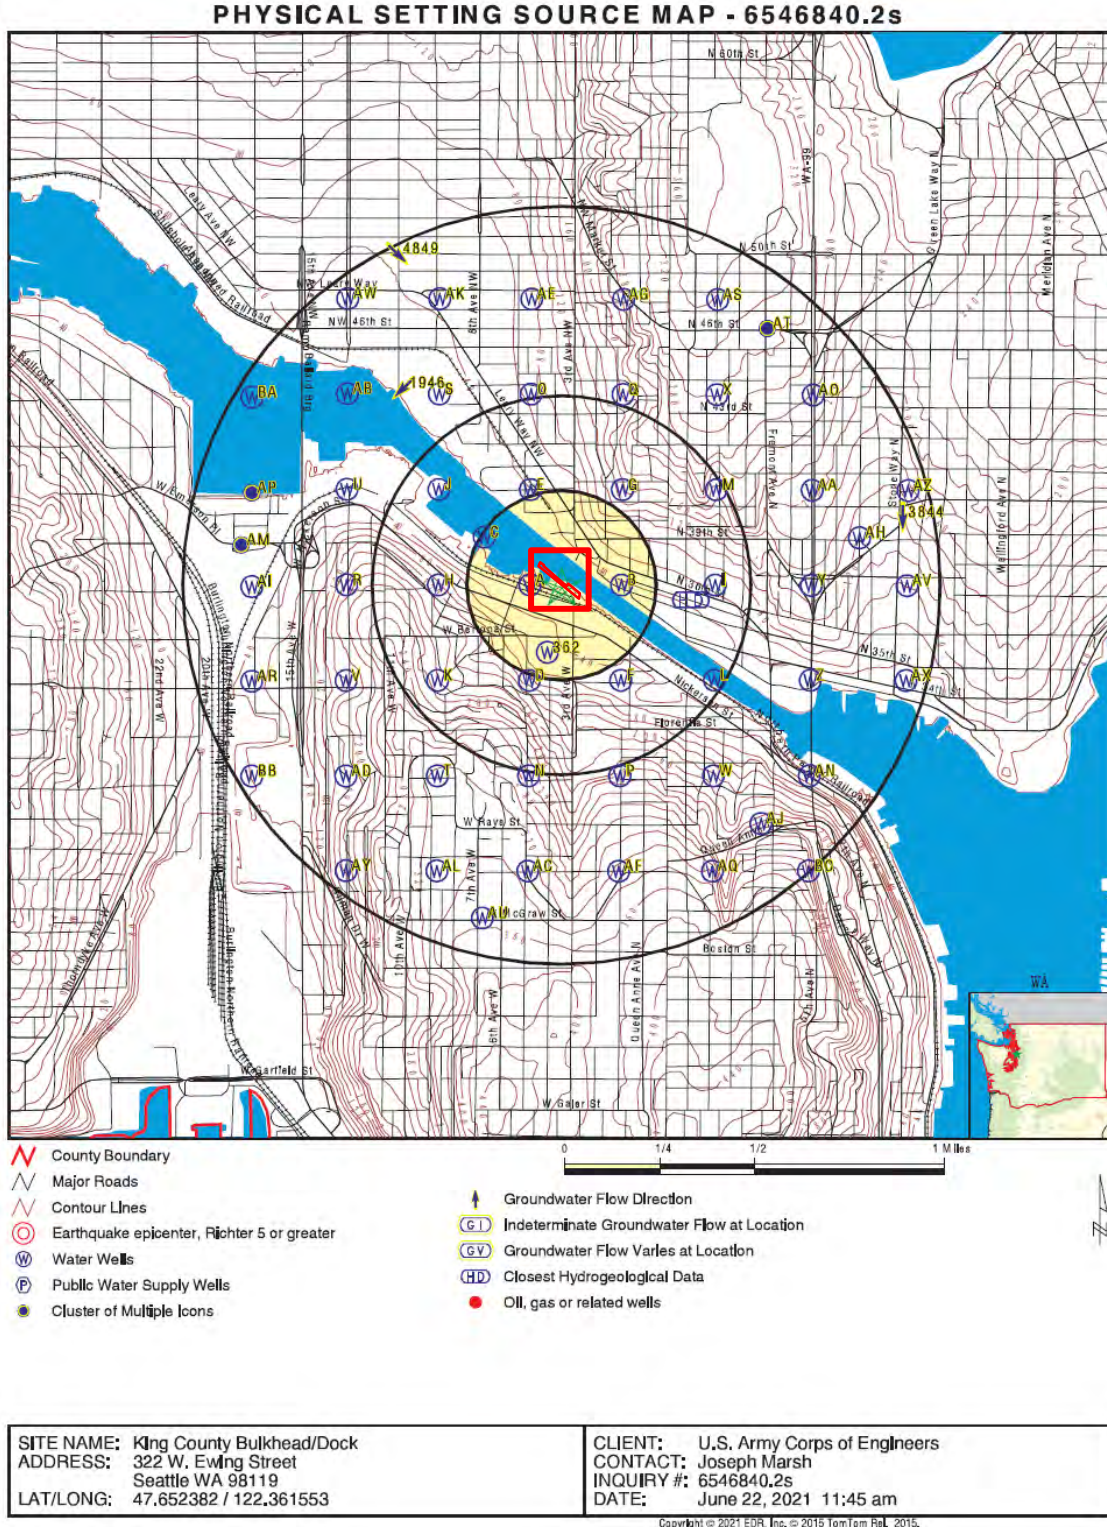

Figure 4 – EDR Map of Water Wells within 1 mile of King County Bulkhead

3. SITE HISTORY

The history of land use at and surrounding the lease Property was reviewed to identify past uses with the potential to adversely affect environmental conditions. Historical records reviewed include images of topographic maps, aerial photos, and certified Sanborn maps. It includes aerial photographs from 1936 to 2017; Sandborn maps from 1905 to 1966, and topographic maps from 1894 to 2014 as a means to determine Site history as seen below. Additional aerial photographs, topographic maps, and Sanborn maps can be seen in Appendix B – Environmental Records Search.

3.1 Site and Adjacent Property History

The Property is located on a former estuarine tideflat. In the 1920s, the area was filled with sand dredged from the Lake Washington Ship Canal, wood waste, and construction debris. The site has primarily been used for industrial usage. Beginning sometime prior to 1905 the Property appears to have been used as a lumbermill and lumber shed. The lumbermill production and storage ceased prior to 1917 and the site was vacated. Before 1930 it appears that the site was redeveloped as a wood planing mill lumber shed. This remained in place until sometime after the 1950's, but before 1966, when a portion of the site was repurposed for fiberglass and concrete pipe fabrication in addition to the lumber shed. The King County Environmental Laboratory was constructed on the site between 1980 and 1985.

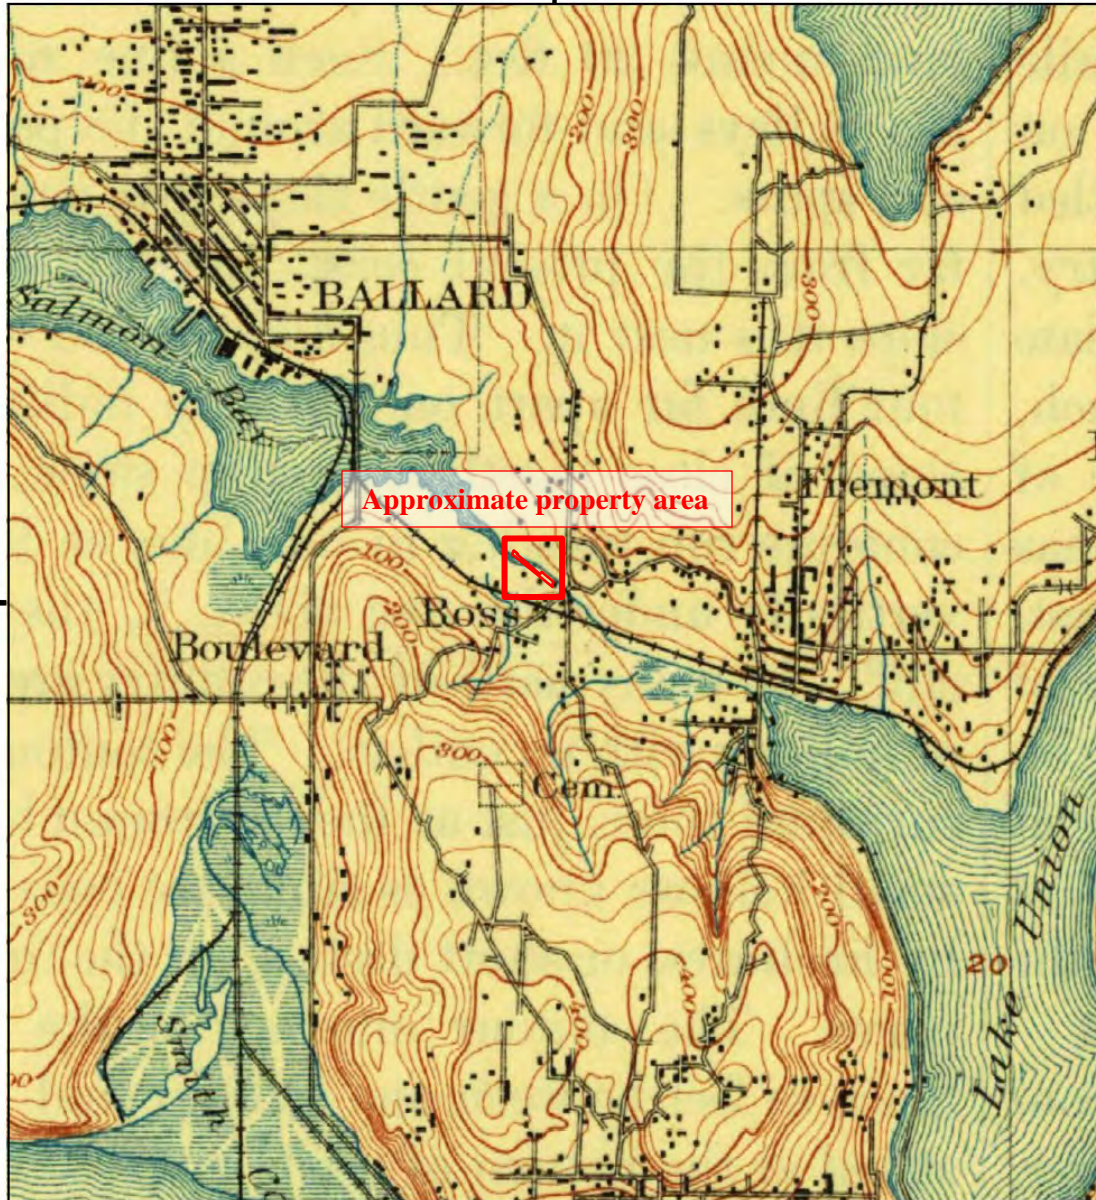

Historical topographic maps show the original shoreline prior to the construction of the Ballard Locks and LWSC in 1911 (Figure 5) (Note: all maps, e.g., topo, Sanborn, and aerials, are organized sequence from oldest to newest). The 1905 Sanborn map shows the original shoreline, a lumbermill in the approximate property vicinity, and the original bridge crossing a stream that drains from Lake Union to Salmon Bay (Figure 6). Numerous roads and building begin to appear in the vicinity of the Property by 1908 (Figure 7). The Property was not developed until sometime after the start of the ship canal project in 1917 but before 1922. The 1917 Sanborn map shows the lumbermill is no longer present, the site is vacant, and the recently constructed LWSC (Figure 8). By 1930 a wood planing mill is in place adjacent to the now constructed SPU Dock (Figure 9). The initial aerial photograph from 1936 shows the completed LWSC, the completed bulkhead, and the adjacent landward area being used as lumbermill with log rafts moored in the project area (Figure 10). To the north-northwest on the opposite bank is the property that currently owned by Lakeside Industries. The area surrounding the Property appears to contain multiple businesses and industrial buildings and complexes most likely associated with commerce and production with the LWSC and in the surrounding area. 550 feet south-southwest of the Property residential homes have been built and existed from 1936 to the 1970's. Due to the low resolution of the photograph from 1936 not much else can be garnered from the photo. The historical topographic map in Figure 11 shows the state of the area post LWSC development, in which minimal land use changes have occurred since completion. Figure 12 and Figure 13 show the portion of the site repurposed for fiberglass and concrete pipe fabrication in addition to the lumber shed. Aerial photograph from 1969 provides greater detail of the bulkhead than the initial aerial photograph from 1936 in addition to the adjacent fiberglass fabrication facility, concrete pipe facility, and lumber shed (Figure 14). The adjacent King County Environmental Laboratory, shown in Figure 15 and Figure 16, has been there approximately 35 years (present in 1985

aerial photograph but not the 1980) and is located immediately to the southwest of the bulkhead. The 2017 aerial photograph shows the Property in its current configuration (Figure 17). Presently, the nearest homes are approximately 850 feet southwest. Aerial photos indicate that minimal land use changes occurred during the time period of 1936 to 2017 in the surrounding area.

4. ENVIRONMENTAL DATABASE REVIEW

4.1 Regulatory Agency Databases Records Search

A search of applicable environmental records sources, as defined in ASTM E1527-13, was performed using EDR’s® radius map search to obtain recognized environmental conditions. Reviews of records related to the project site and nearby properties kept by both Federal and State, regulatory agencies were conducted. This review was used to help identify known or potential sources of contamination that could adversely affect the lease area. Table 2 provides a summary of the ASTM standard environmental records sources databases searched and corresponding radii and quantitative results of the record search corresponding to databases. Figure 18 and Figure 19 show the 1-mile and 0.25-mile radius results of the EDR reporting of environmental risks associated with the parcel being considered to be leased to King County, while Figure 20 shows the general resource protection and water well locations.

Table 2 – Environmental Database Searches

4.2 EDR Report Summary

4.2.1 Federal Lists

- A review of the Resource Conservation and Recovery Act (RCRA) small quantity generators list, dated 03/22/2021, revealed that there are 2 RCRA small quantity generators sites within approximately 0.25 miles of the target property. A review of the RCRA very small quantity generators list, dated 03/22/2021, revealed that there are 2 RCRA very small quantity generators sites within approximately 0.25 miles of the target property.
- A review of the Superfund Enterprise Management System Archive list (formerly known as the CERCLIS-NFRAP), which tracks sites that have no further interest under the Federal Superfund Program based on available information, dated 04/27/2021, revealed that there is 1 site within approximately 0.5 miles of the target property.

4.2.2 State and Tribal Lists

- A review of the WA Underground Storage Tank list, dated 02/09/2021, revealed that there are 10 sites within approximately 0.25 miles of the target property.
- A review of the WA Solid Waste Facilities/Landfill Sites list revealed that there is 1 site within approximately 0.5 miles of the target property.
- A review of the WA Leaking Underground Storage Tank Incident Reports revealed that there are 11 sites within approximately 0.5 miles of the target property.
- A review of the WA Institutional Control list, dated 01/12/2021, revealed that there are 3 sites within approximately 0.5 miles of the target property.
- A review of the WA Voluntary Cleanup Program list, dated 01/12/2021, revealed that there are 12 sites within approximately 0.5 miles of the target property.
- A review of the WA Independent Cleanup Reports list, dated 12/01/2002, revealed that there are 14 sites within approximately 0.5 miles of the target property.
- A review of the WA Petroleum Technical Assistance Program list, dated 02/09/2021, revealed that there is 1 site within approximately 0.5 miles of the target property.
- A review of the WA Hazardous Sites List, dated 02/24/2021, revealed that there are 13 sites within approximately 1 mile of the target property.
- A review of the WA Confirmed and Suspected Contaminated Sites List, dated 01/12/2021, revealed that there are 62 sites within approximately 1 mile of the target property.

4.2.3 Local Lists

- A review of the WA ALLSITES list (facilities and sites of interest to the Department of Ecology), dated 02/03/2021, revealed that there are 86 sites within approximately 0.5 miles of the target property.
- A review of the WA Confirmed and Suspected Contaminated Sites list that have received a No Further Action (NFA) determination, dated 01/12/2021, revealed that there are 9 sites within approximately 0.5 miles of the target property.

4.2.4 Other Ascertainable Records

- A review of the RCRA Non-Generators / No Longer Regulated list, dated 03/22/2021, revealed that there are 17 sites within approximately 0.25 miles of the target property.
- A review of the WA Drycleaners list (A listing of registered drycleaners who registered with the Department of Ecology (using the SIC code of 7215 and 7216) as hazardous waste generators), dated 01/12/2021, revealed that there is 1 site within approximately 0.25 miles of the target property.
- A review of the WA Inactive Drycleaners list, dated 01/12/2021, revealed that there is 1 site within approximately 0.25 miles of the target property.
- A review of the WA hazardous waste manifest information list, dated 12/31/2019, revealed that there are 13 sites within approximately 0.25 miles of the target property.

4.2.5 EDR Exclusive Records

- A review of the EDR Hist Auto list (a list of potential gas station/filling station/service station sites that were available to EDR researchers) revealed that there are 6 sites within approximately 0.125 miles of the target property.
- A review of the EDR Hist Cleaner list (a list of potential dry cleaner sites that were available to EDR researchers) revealed that there are 3 sites within approximately 0.125 miles of the target property.

4.2.6 Resource Protection and Water Wells

- A review of the WA DOE Well Construction and Licensing Search Tools, for wells with measurable static water level, revealed that there are 62 non-decommissioned Resource Protection Wells¹ and 0 groundwater wells within a radius of 0.25 mile from the Property.

4.3 Findings from the Database Search

The Property identified in Figure 19, and additional properties within 0.25 miles of the Property, are listed below in Table 3. All listed sites below can be identified on the map with a letter and or number combination.

4.3.1 The Property (King County Bulkhead Lease NO. DACW671230010000)

The environmental record search provided by EDR lists three recorded releases at the Property. The SPILLS database provided a record of a Petroleum – Hydraulic Oil spill in the surface water in 2000 – no reported quantity or remedial action listed. In 2009 there is a record of a Petroleum – Hydraulic Oil spill in the surface water with a reported quantity of zero gallons and no remedial

¹ Per Chapter 173-160-410 (13) WAC (Washington Administrative Code) it defines a resource protection well as “a cased boring intended or used to collect subsurface information or to determine the existence or migration of pollutants within an underground formation. Resource protection wells include monitoring wells, observation wells, piezometers, spill response wells, remediation wells, environmental investigation wells, vapor extraction wells, ground source heat pump boring, grounding wells, and instrumentation wells.”

actions. The ERNS database provided a record of an incident in 2005. Three gallons of Petroleum – Diesel Fuel was released from a “research” vessel due to an unknown fuel leak. Remedial action took place: booms and absorbents applied. The material was documented as contained.

The adjacent property, King County Department of Natural Resources Environmental Lab, has had a recorded spill of two quarts of bilge water in 2006. The facility, listed as a RCRA large quantity generator of hazardous waste (WAD981763527) producing acid/base neutralization of aqueous, ignitable, corrosive waste with heavy metals and semivolatiles organic compounds. There are no indications that the Property has been impacted by the bilge water spill in 2006.

4.3.2 Properties Evaluated for Potential Environmental Risks

Table 3. Properties Evaluated for Potential Environmental Risks

Detail Map ID*	Company / Property	Address	Distance Category (miles)	Direction	Elevation in Regard to the Property	Potential Risk to the Property	Database	Comment
Star	Property	322 W Ewing Seattle, WA 98119	N/A	N/A	Equal	N/A	ERNS, SPILLS	Three records of petroleum product spills at the Property. These have been remedied and documented as contained/cleaned.
A	King County Department of Natural Resources Environmental Lab	322 W Ewing Seattle, WA 98119	<1/8	N/A	Equal	Low	ECHO, FINDS, ERNS, WA SPILLS, RCRA-LQR, WA ALLSITES, WA MANIFEST	King County Department of Natural Resources Environmental Lab borders the Property. Recorded spill of two quarts of bilge water in 2006. The facility also is a large quantity generator of hazardous waste under RCRA producing acid/base neutralization of aqueous, ignitable, corrosive waste with heavy metals and semivolatile organic compounds. There are no indications that the Property has been impacted by the bilge water spill in 2006. No indication of a current risk to the Property from this site or Recognized Environmental Conditions (RECs), however, there is a potential environmental risk present due to the site use and proximity to the Property.
C21 - C22	Texaco Stations	306 W Nickerson St. Seattle, WA 98119	<1/8	SSE	Higher	None	EDR Hist Auto	Past gasoline station, however, no identified release has been recognized in connection to the use of this property as a historical auto site. Now the site is Seattle Pacific University Motor pool and the Seattle Pacific University Proposed Emerson Hall site.
E32	Northend Rentals / Lucca	3623 Leary Way NW	<1/8	NNE	Higher	None	WA LUST, WA UST,	No known releases recorded for this property. Became Lucca Statuary, which Closed in 2010.

Detail Map ID*	Company / Property	Address	Distance Category (miles)	Direction	Elevation in Regard to the Property	Potential Risk to the Property	Database	Comment
	Statuary	Seattle, WA 98107					WA ICR	Property has been listed as a WA Confirmed and Suspected Contaminated Sites List site for arsenic, benzene, petroleum-gasoline, and petroleum-other contamination related to LUST from Northend Rentals usage. The property also generates hazardous waste under RCRA producing corrosive liquids. Underground storage tank was removed and had a volume of 1,000 gallons. Due to the distance and the tank size, it is unlikely to have affected the Property. Excavation extent was approximately 12 feet by 18 feet with varying depths between 10 and 17 feet. Excavation and disposal of 120 cubic yards of PCS occurred.
18	Northwest Millwork Inc / Seattle Pacific University Warehouse	360 W Nickerson St Seattle, WA 98119	<1/8	SW	Higher	None	RCRA-SQG, WA CSCSL, WA ALLSITES, FINDS, ECHO	Release of heating oil from underground storage tank (UST) located inside an industrial warehouse building, covered by 6-inches of concrete. Heating oil has been pumped out from the UST and use of the UST discontinued. Kane Environmental Inc. sampling and analysis indicated the release of heating oil only extended approximately 10 feet beyond the footprint of the UST, within the building footprint. There is no floating product on the groundwater, and no threat to human health or the environment due to the release.
29	King Fiberglass - Clark Schwebel Distribution Corp.	366 W Nickerson St Seattle, WA 98119	<1/8	WSW	Higher	None	WA LUST, WA UST, WA ALLSITES, WA CSCSL NFA, RCRA NonGen /	Closure of LUST contaminating soil (Benzene, Petroleum-Diesel, Petroleum-Gasoline, and Petroleum-Other). All contaminants below cleanup level. WSDOE changed site status to No Further Action in 2013.

Detail Map ID*	Company / Property	Address	Distance Category (miles)	Direction	Elevation in Regard to the Property	Potential Risk to the Property	Database	Comment
							NLR, FINDS, ECHO	
55	Seattle City DOT Ship Canal Trail	6th Ave W & Emerson St Viaduct Seattle, WA 98119	1/8 - 1/4	WSW	Higher	None	WA CSCSL, WA ALLSITES	<p>Site Discovery/Release Report Received in 2004 for Metals Priority Pollutants, Petroleum Products-Unspecified, Polycyclic Aromatic Hydrocarbons. All confirmed above cleanup level for soil and groundwater. Site awaiting cleanup.</p> <p>Due to length of the Ship Canal Trail and the distance of the release to the Property, there is unlikely to have affected the Property.</p>
J47	Clean M Rite, Olsen-Hirji Property, Stells Burgers	3310 3rd Ave W Seattle, WA 98119	1/8 - 1/4	SSE	Higher	None	WA VCP	<p>Release of halogenated organics confirmed above cleanup levels in soil and groundwater. Those impacts to the soil and groundwater were confirmed because of releases of the dry-cleaning solvent and associated chemicals from the former dry-cleaning facility.</p> <p>SPU is voluntarily overseeing the cleanup. Site cleanup in process. Following completion of the remedial investigation and feasibility study in 2014, remedial activities were initiated in 2015. There do not appear to be any potential environmental impacts associated with the parcels comprising the Ross Parking Lot (the land surrounding the parcel containing the duplex is known as the Ross Parking Lot associated with the Seattle Pacific University (SPU) campus), other than impacts to groundwater migrating from the Property onto</p>

Detail Map ID*	Company / Property	Address	Distance Category (miles)	Direction	Elevation in Regard to the Property	Potential Risk to the Property	Database	Comment
								<p>and beneath the adjacent parcels.</p> <p>Shallow and deep aquifer groundwater generally migrates in a northeasterly direction (not north-northwest towards the Property). The lateral and vertical extent of the dissolved-phase plume is well characterized and remains stable relative to previous sampling data. The extent of the dissolved-phase plume in the shallow aquifer is highly stable and appears to be at a steady state. The extent of the dissolved-phase plume in the deep aquifer is relatively stable within the Ross Parking Lot</p> <p>Due to the direction, extent, and distances of the release to the Property there is a negligible to no impact on the Property.</p>
F34	Lakeside Industries	309 NW 39th Street, Seattle WA 98107	1/8 - 1/4	N	Higher	None	<p>WA CSCSL, WA LUST, WA UST, WA ICR, WA ALLSITES, WA MANIFEST, WA NPDES, WA SWF/LF, WA ASBESTOS</p>	<p>Interim cleanup is complete for LUST releases into soil. However, migration of contamination is unknown due to the lack of environmental reports regarding groundwater data. Majority of contaminated soils have been removed. In addition, the results of sediment sampling from 2003 indicates that past activities either from this site or nearby has impacted sediments near to the site indicating that a release on the Property to surface waters could have occurred in the past.</p> <p>Listed as a WA Confirmed and Suspected Contaminated Sites List and LUSTL site. Records reference the start of cleanup for, petroleum products within soil and groundwater on site related to the LUSTs. Records indicate that cleanup has started and that three LUSTs and associated contaminated</p>

Detail Map ID*	Company / Property	Address	Distance Category (miles)	Direction	Elevation in Regard to the Property	Potential Risk to the Property	Database	Comment
								soils were removed, however, not all soils were removed due to the potential of undermining and damage to structure and building on the property. The size of the tanks were between 2,001 to 4,999 gallons; 5,000 to 9,999 gallons; and 10,000 to 19,999 gallons each. Tank removal occurred in 1998. Due to the type and distance of the release to the Property it is unlikely to have impacted the Property.
O64	Western Towboat Company	3956 6th NW Seattle, WA 98107	1/8 - 1/4	NNW	Higher	None	WA ALLSITES, WA CSCSL, RCRA NonGen / NLR	Listed as a WA Confirmed and Suspected Contaminated Sites List NFA site as a volunteer cleanup program site with a no further action date of 19 November 1999. The interim cleanup report was received on 1 November 1999 noting contamination in the soil from metals and petroleum products.
O68	Brooks Rand LLC (STREAM CORP)	3958 6th Ave NW Seattle, WA 98107	1/8 - 1/4	NNW	Higher	None	WA CSCSL, WA ALLSITES, WA SPILLS, RCRA NonGen / NLR, ECHO, FINDS, WA MANIFEST	Release of non-halogenated organics and petroleum products occurred above cleanup levels. UST and soil removal occurred in 2012 and 2013; however, specifics regarding sizes of tanks are unknown. Due to the distance of the site, the likelihood of this release affecting the Property is unlikely.
I43 - 45	Flohr Metal Fabricators Inc / Kvichak Marine	3920 6th Ave NW Seattle, WA 98107	1/8 - 1/4	NNW	Higher	None	WA VCP, WA ICR, WA CSCSL, WA INST CONTROL,	Listed as a WA Confirmed and Suspected Contaminated Sites List site for halogenated organics in soil and groundwater, and for metals and petroleum products-unspecified in

Detail Map ID*	Company / Property	Address	Distance Category (miles)	Direction	Elevation in Regard to the Property	Potential Risk to the Property	Database	Comment
							WA ALLSITES, RCRA NonGen / NLR, ECHO, FINDS	soil. The Periodic Review of Flohr Metals Fabricators indicates that the groundwater gradient on the property is to the southwest – toward LWSC. Institutional controls have been placed on the property and include maintenance requirements, property use restrictions, impermeable surfacing, and restricted groundwater usage. An interim cleanup report has been finalized for the property on 31 May 2000 and the 2017 periodic review of the site indicates that the release from this site does not impact the Property as the plume is approximate 950 feet to the northwest of the Property.
60	Seattle Pacific Univ W Cremona	14 18 22 30 W Cremora St Seattle, WA 98119	1/8 - 1/4	SE	Higher	None	WA CSCSL, WA ALLSITES	Release of petroleum products in soil occurred above cleanup levels. Non-UST and soil cleanup started. Due to the type and distance of the release to the Property it is unlikely to have impacted the Property.

Notes:

*Detail Map is identified as Figure 19 of this ECP.

4.4 Summary of Findings

The findings from the environmental records search are that there are sites within 0.5 miles of the Property that are confirmed and suspected to be contaminated sites. However, due to the type of releases and the distances of the releases of these sites there is a negligible impact on the Property (leased land).

The exception of all the sites is King County Department of Natural Resources Environmental Lab, which is directly adjacent to the Property. The lab is a large quantity generator of hazardous waste under RCRA producing acid/base neutralization of aqueous, ignitable, corrosive waste with heavy metals and semivolatile organic compounds. In 2006 there was a recorded spill of two quarts of bilge water, though there are no indications that the Property has been impacted by the bilge water spill in 2006. Currently, there are no indication of risk to the Property from this adjacent site or RECs, however, there is a potential future environmental risk due to the site use and proximity to the Property.

5. SITE VISIT

The environmental professional from the USACE conducted a visual reconnaissance of the site and structure on 29 December 2021 (Appendix A). Photos taken during the site visit can be reviewed in the site visit report in Appendix A. Property, photos provide a general idea of the condition of the Property. The site visit provided the means to collect data regarding the physical condition, identify hazardous waste releases, and other site conditions that could affect the environmental conditions of the property. The visit included a walk around the assumed perimeter and in accessible structure known as the King County Bulkhead. Structurally the bulkhead or retaining wall of the Property is in good condition with the surface of the water of the LWSC being approximately 5-6 feet below the top of the bulkhead. The asphalt cement that covers much of the site is in good condition as no cracking was apparent. No other significant information regarding the environmental conditions of the property was obtained during the site visit.

6. INTERVIEWS

Interviews with Ali Wandy (KC Operating Engineer), Francis Sweeney (KC Lab Supervisor), Diane McElhany (KC Lab Manager), and Claire Christian (KC Property Asset Management Program Manager) were conducted remotely. No identifiable issues were noted during the interview. For the complete interview see Appendix C.

7. SIGNIFICANT DATA GAPS

Significant data gaps were not identified during this assessment.

8. SUMMARY OF FINDINGS AND CONCLUSIONS

USACE has performed an ECP in conformance with the Scope and Limitations of ASTM Practice E1527-13 for LWSC King County Bulkhead 322 W. Ewing Street, Seattle, WA 98119. The findings of this ECP indicate that no RECs were identified in connection with the Property.

- Releases of de minimis quantities of petroleum products and bilge water have occurred in adjacent waters to the Property. These releases are not considered to be recognized environmental conditions because of the limited quantities of the releases and because no further cleanup or monitoring is required. The known releases include:
 - Three releases of petroleum from motorized vessels into surface water. The cause of the releases is either unknown or from a “research” vessel due to an unknown fuel leak. Two of these releases were of hydraulic oil and recorded no, or zero, quantity of release and no remedial action was listed. The third recorded release consisted of three gallons of Petroleum – Diesel Fuel and remedial action took place, and the material was documented as contained.
 - The adjacent upland property, King County Department of Natural Resources Environmental Lab, recorded a spill of two quarts of bilge water in 2006. There are no indications that the Property has been impacted by the bilge water spill in 2006.

9. RECOMMENDATIONS

Given the findings of this ECP the following recommendation is given:

- Evaluation at the next renewal of this lease, to determine whether the findings of this ECP Report still hold, or if an update or addendum needs to be made to account for any new developments or information coming to light.

This ECP identified no further recommendations.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 04/27/2021 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

GEOCHECK[®] - PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

KING COUNTY BULKHEAD/DOCK
322 W. EWING STREET
SEATTLE, WA 98119

TARGET PROPERTY COORDINATES

Latitude (North): 47.652382 - 47° 39' 8.58"
Longitude (West): 122.361553 - 122° 21' 41.59"
Universal Transverse Mercator: Zone 10
UTM X (Meters): 547945.8
UTM Y (Meters): 5277644.0
Elevation: 21 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map: 6005541 SEATTLE NORTH, WA
Version Date: 2014

Northwest Map: 6005219 SHILSHOLE BAY, WA
Version Date: 2014

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

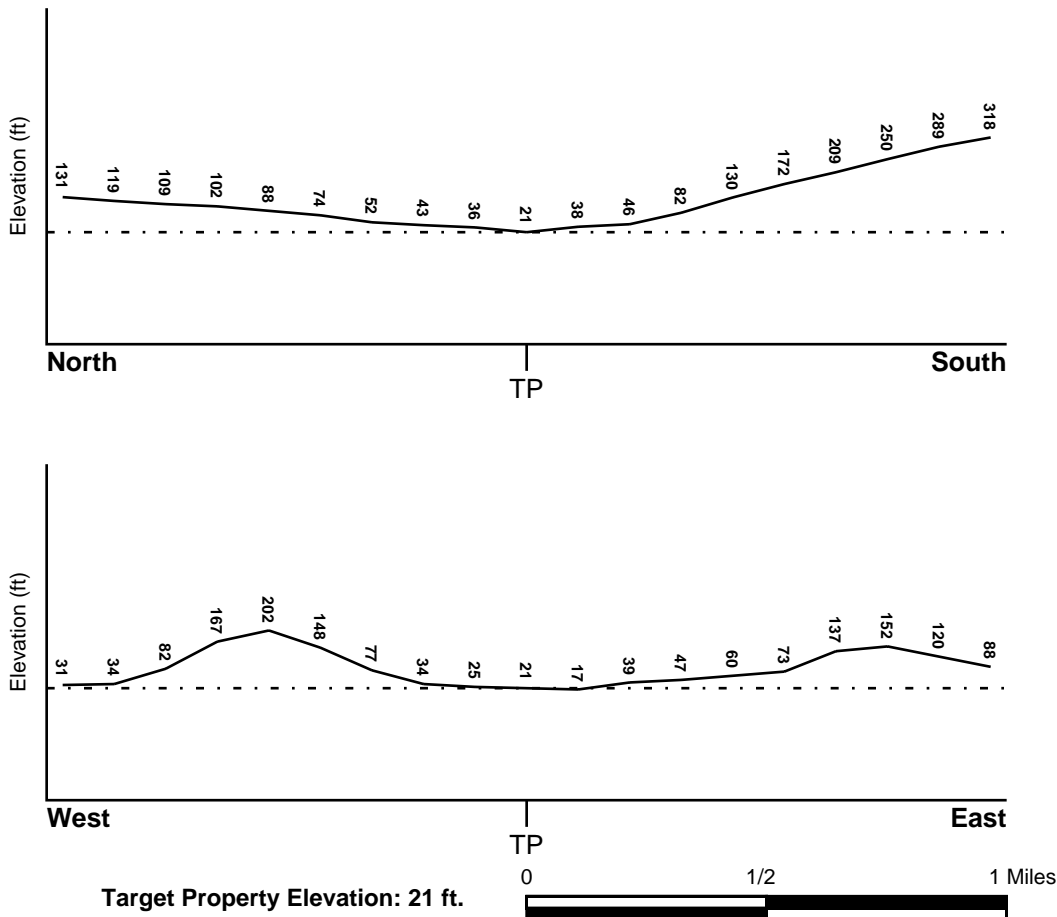

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic</u>
SEATTLE NORTH	<u>Data Coverage</u>
	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/4 - 1/2 Mile East
Site Name:	ASKO PROCESSING INC
Site EPA ID Number:	WAD041920554
Groundwater Flow Direction:	S
Inferred Depth to Water:	less than 20 feet
Hydraulic Connection:	Gravels and sands present to a depth of approximately 90 feet are underlain by a clay layer that inhibits the downward migration of groundwater.
Sole Source Aquifer:	A sole source aquifer is not present at or near the site
Data Quality:	Information is inferred in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

7G	1/2 - 1 Mile West	Not Reported

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Cenozoic
System: Quaternary
Series: Quaternary
Code: Q (decoded above as Era, System & Series)

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

No detail available.

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Ecology

Telephone: 360-407-6121

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Wells

Source: Department of Health

Telephone: 360-236-3148

Group A and B well locations.

Water Well Listing

Source: Public Utility District

Telephone: 206-779-7656

A listing of water well locations in Kitsap County.

Ecology Well Logs

Source: Department of Ecology

Telephone: 360-407-7294

Point geodatabase with a record for each Ecology well report. Points are located by quarter quarter section centroid.

Points contain all well report types including water wells, resource protection wells, and decommissioned wells.

OTHER STATE DATABASE INFORMATION

Oil and Gas Well Listing

Source: Department of Natural Resources

Telephone: 360-902-1450

Locations that represent oil and gas test well sites in Washington State from 1890 to present.

RADON

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

APPENDIX C – INTERVIEW

Environmental Site Assessment – Interview Questionnaire

Interview Questionnaire Form

Project Name/No.: ESA King County Bulkhead Lease Interview Questionnaire

Date: 12/13/2021

Interviewer: Travis Kelsay

Persons being interviewed: Ali Wandy, KC Operating Engineer; Francis Sweeney, KC Lab Supervisor, Diane McElhany, KC Lab Manager, Claire Christian, KC Property Asset Management Program Manager

Persons being interviewed are the: See immediately above

Location of interview: Email

Current Land Use: King County renovation/maintenance of Government Bulkhead supports King County's Environmental Laboratory building.

1. To the best of your knowledge, has the Property ever been used in the past for industrial and/or commercial purposes?

This lab was built by Metro in the 1980's and occupied in the mid ~1986. It is unknown what the property was used for prior to that.

2. Have the adjacent properties ever been used for industrial and/or commercial purposes?

The adjacent property immediately west of us is Canal Marina. The property west/south of us was a lumber yard, now vacant due to a fire in 2018. The property immediately to our east is a City of Seattle Park. The property directly south of us Seattle Pacific University. It is unknown what these properties were used for prior to their most recent uses. Bordering our property to the north of us is the Ship Canal.

3. Are the adjacent properties currently being used for industrial and/or commercial purposes?

The Canal Marina is still in use. It is unknown what is happening with former lumber yard.

4. Have there ever been potentially hazardous substances (paints, pesticides, dry cleaning fluids, automotive or industrial batteries, etc.) stored, used, or disposed on the Property?

The property is an environmental lab and as such uses chemicals (acids, bases, solvents) as part of the day-to-day work. All items are stored within the King County Lab Building and disposed of according to local, state and federal regulations. Prior to the lab's existence, it is unknown what was on this property.

5. Are there potentially hazardous substances currently stored, used, or disposed on the property?

The property is an environmental lab and as such uses chemicals (acids, bases, solvents) as part of the day-to-day work.

All items are stored within the King County Lab Building and disposed of according to local, state and federal regulations. Prior to the lab's existence, it is unknown what was on this property.

6. Did you observe evidence or have prior knowledge that fill dirt has been brought onto the Property that is from a contaminated site or from an unknown origin?

No.

7. Did you observe evidence or have prior knowledge of any pits, ponds, or lagoons located on the Property in connection with waste treatment or waste disposal?

No.

8. Are there any pits, ponds, or lagoons currently located on the Property?

No, not to our knowledge

9. Did you observe evidence or have prior knowledge of any stained soil on the property previously?

No.

10. Is there currently any stained soil on the property?

No, not to our knowledge

11. Did you observe evidence or have prior knowledge that any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried, and/or burned on the Property?

No.

12. Did you observe evidence or have prior knowledge of historical or current use and/or disposal of munitions, ordnances, or explosive materials/waste on the Property?

No.

13. Is there any registered or unregistered storage tanks (underground or aboveground) that are located on the Property?

No, not to our knowledge

14. Did you observe evidence or have prior knowledge that there have been previously storage tanks (underground or aboveground) located on the Property?

No, not to our knowledge

15. Are there currently vent pipes, fill pipes, or access ways indicated a fill pipe protruding from the ground on the Property or adjacent to any structures on the Property?

No, not to our knowledge

16. Did you observe evidence or have prior knowledge that there have been previously vent pipes, fill pipes, or access ways on the Property or adjacent to any structures on the Property?

No, not to our knowledge

17. Did you observe evidence or have prior knowledge of any dry wells on the Property?

No.

18. Has a private well or a non-public water system ever served the Property?

Yes, a legal private well (permit G1-24659P) is located on the property for the permitted use of “fish propagation”. The well is not and never has been used for drinking water.

19. Do you have evidence or prior knowledge that the well or water system has been designated contaminated by any government environmental/health agency?

No, the well water is monitored for metals and organics at least annually and there has never been any indication of contamination.

20. Is the Property connected to the city/county sanitary sewer system and for how long?

Yes. It is unknown for how long although it is safe to assume at least since the mid-1980's when this building was built.

21. Any previous septic system was used on the Property?

It is unknown.

22. Are there any as-built drawings available showing the location of septic systems and drain fields on the Property?

Unknown

23. Does the Owner or Occupant of the Property have any knowledge of any environmental liens; federal, state, or local government agency notices of violations, or other enforcement actions concerning environmental issues with respect to the Property or any facility located on the Property?

None known

24. Has the Owner or Occupant of the Property been informed of past existence of hazardous/toxic substances or petroleum products with respect to the Property or any facility located on the Property?

No, Not to our knowledge

25. Has the Owner or Occupant of the Property been informed of current existence of hazardous/toxic substances or petroleum products with respect to the Property or any facility located on the Property?

No, none known other than the lab chemicals approved for use by King County, contained within the building.

26. Do you have any knowledge of previous ESAs, EBSs, remedial action reports, geotechnical studies, or other similar studies conducted on the Property or facility located on the Property?

No

27. If yes, did it indicate the actual or suspected presence of contamination from release(s) of hazardous/toxic substances or petroleum products on the Property?

N/A

28. Was further assessment and/or remedial cleanup actions recommended?

N/A

29. Are you aware of any wetlands on the Property? If yes, has there been any wetland delineation conducted on the Property?

No, none known.

30. Describe the structures on the Property and their construction age:

The original lab building was built in the mid-1980's and is a 2-story cement building that was designed as a laboratory. Each floor as both lab and office spaces. The building projects into the Ship Canal. There is a below grade area (the "core") containing the boiler, chillers etc.

A second building built just to the west was built ~2003. This building houses an office area and a kitchen on the 2nd story and a covered garage and storage space underneath. There is a breezeway between the buildings and a shared enclosed reception area is at the north end of the breezeway.

King County owns docks perpendicular to the west building where 2 King County boats are moored. There is a dock that is parallel to the lab building and is owned by Seattle Pacific University. [Note: the Seattle Pacific University dock is not subject of the current lease.]

31. Describe any improvements/remodeling made on the structures and dates:

The west building was built in ~2003. There was a reconfiguration of lab space completed approximately in ~2000. The boiler/chillers were upgraded in ~ 2013. Most of the fume hoods were replaced in ~2018. A new heat pump system replaced the old heating system on the west building ~2020. A new roof is scheduled to be completed on the lab building in 2021.

32. Are there any floor drains and/or sumps within the structure(s) on the Property?

Yes

33. Are there currently any flooring, drains, sumps, or walls that are stained by substances other than water or are emitting foul odor?

No

34. Did you observe evidence or have prior knowledge that there have been previously flooring, drains, or walls that were stained by substances other than water or that were emitting foul odor?

No, none to our knowledge

35. Are you aware of the presence of asbestos-containing materials and/or lead-based paint in the structure(s)?

None known

36. Are there any fluorescent light fixtures in the structure(s)? If yes, are you aware of any light fixtures with ballasts containing PCBs? Have any fluorescent light fixtures been replaced?

Most if not all have been replaced. None have PCBs.

37. Are there any transformers, capacitors, or any hydraulic equipment (e.g. elevators, auto lifts, etc.) for which there are records indicating the presence of PCBs?

Yes, there is a transformer within the lab building's core that has PCBs.

38. Who is the electric utility company that provides power to the facility?

Seattle City Light

39. What type of heating system does the facility currently have and for how long?

Boiler/chillers in the lab building and a heat pump system in the west office building.

40. Did you observe evidence or have prior knowledge of previous heating systems used to heat the facility?

Yes, prior to the heat pump system, there were air handlers that heated the west building.

41. What type of roofing does the facility currently have?

Flat bitumen roof on the lab building. Flat gravel roof on the west building.

42. What type of industrial/commercial activities currently conducted at the facility and for how long?

This is an environmental lab and office space. Environmental analyses such as metals, organics, microbiology, conventional and aquatic toxicology have occurred here since the 1986. Also, boats are deployed for the purpose of sampling from the docks at the property.

43. Describe each industrial/commercial process(es) with respect on how hazardous substances are used in the process:

The lab uses EPA methods to conduct lab sample analyses. Analyses are performed with appropriate PPE and all hazardous substances are dealt with according to local, state and federal guidelines including having a waste hauler haul lab waste periodically.

44. Is there anyone else we can interview about your Property?

Yes. Ali Wandy – building engineer or Claire Christian, Real Property Agent as point of contact, then directed to appropriate staff member to interview if needed.

45. Other information provided: Prior e-mail communications may include other and/or additional information

Exhibit D

RECIPROCAL PROPERTY USE AGREEMENT

THIS AGREEMENT is entered into this 1st day of March, 1985, between the Municipality of Metropolitan Seattle ("Metro") and Seattle Pacific University (the "University").

Recitals

1. Metro is constructing a water quality laboratory on property it owns at 322 West Ewing Street, Seattle, Washington, and on adjacent property on the Lake Washington Ship Canal which Metro leases from the U.S. Army Corps of Engineers under Corp Lease No. DACW67-1-84-15. The property Metro leases from the Corps of Engineers ("Metro's leased property") is described as follows:

Beginning at the northwestern most corner of Lot 14, Ross Addition to the City of Seattle, thence North along the westerly margin of Lot 14 extended, a distance of 16.92 feet to a point within the Lake Washington Ship Canal given to the U.S. Government by Quit Claim Deed recorded on June 23, 1900 under King County Auditor's Number 25384 in Volume 258, Book of Deeds beginning on page 279; thence South 51°49'36" East a distance of 16 feet; thence South 40°40'24" West a distance of 5 feet; thence South 49°14'36" East a distance of 106.65 feet; thence North 38°10'24" East a distance of 10.02 feet; thence South 51°49'36" East a distance of 47.89 feet to the easterly line of Lot 18, Ross Addition, extended; thence along said line a distance of 20.72 feet to the northeasterly corner of said Lot 18; thence North 51°49'36" West a distance of 169.00 feet to the point of beginning; all situate within the Southeast quarter of Section 13, Township 25 North, Range 3 East, W.M., King County, Washington.

2. The University is developing a rowing dock on property adjacent to Metro's leased property which the University leases from the U.S. Army Corps of Engineers under Corp Lease No. DACK67-1-85-2 (the "University's leased property") and which is described as follows:

Beginning at the northwestern most corner of Lot 14, Ross Addition to the City of Seattle, thence North along the westerly margin of Lot 14 extended, a distance of 16.92 feet to a point within the Lake Washington Ship Canal given to the U.S. Government by Quit Claim Deed recorded on June 23, 1900 under King County Auditor's number 25384 and Volume 258, Book of

Deeds beginning on page 279; thence South 51°49'36" East a distance of 16 feet to the TRUE POINT OF BEGINNING; thence North 40°40'24" East a distance of 10 feet; thence South 49°19'36" East a distance of 106 feet; thence South 38°10'24" West a distance of 15.02 feet; thence North 49°14'36" West a distance of 106.65 feet; thence North 40°40'24" East a distance of 5 feet to the TRUE POINT OF BEGINNING; all situate within the southeast quarter of Section 13, Township 25 North, Range 3 East, W.M., King County, Washington.

3. Metro's and the University's leased properties are shown on the site plan in Exhibit A which is attached hereto and incorporated herein.

4. To facilitate each other's operations on their adjoining leased properties, Metro and the University wish to grant to each other certain rights of access and intrusion across and under their respective leased properties.

Agreement

1. Metro hereby grants to the University, its officers, agents, employees, students, and guests, and to others to whom the University grants access to the rowing dock, a right of access across Metro's leased property to and from the rowing dock. Metro also grants to the University the right to dredge the Metro leased property approximately in the area and to the depth shown on Exhibit A, and to extend and maintain any bulkhead structure(s) required by said dredging. Metro also grants to the University the right to extend water and electrical service lines across and under Metro's leased property to serve the rowing dock.

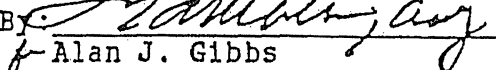

2. The University hereby grants to Metro, its officers, agents, employees, and guests, a right of access across the University's leased property and the rowing dock to use, inspect, and maintain its water quality laboratory facilities. The University also grants to Metro the right to construct its water intake system and sloped concrete bulkhead on and under the University's leased property approximately in the locations indicated on Exhibit A.

3. The University shall install and maintain water and electrical service lines to and on the rowing dock, and shall install and maintain navigational-aid lighting on the rowing dock, to serve and protect Metro and University facilities. The University hereby grants to Metro a right to use the water and electrical service lines. In return, Metro hereby agrees to

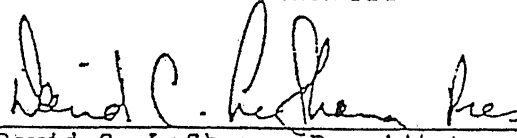

furnish and pay for the electricity and water to be used by Metro and the University from said water and electrical service lines.

4. This Agreement shall continue in effect for so long as both Metro and the University continue to lease their respective leased properties from the Corps of Engineers. If either Metro or the University ceases to lease its respective leased property from the Corps of Engineers, this Agreement shall terminate on the same date that the Metro or University lease with the Corps of Engineers terminates.

MUNICIPALITY OF METROPOLITAN
SEATTLE

By: 
Alan J. Gibbs
Executive Director

SEATTLE PACIFIC UNIVERSITY

By: 
David C. LeShana, President

Attest:

Secretary

STATE OF WASHINGTON)
) ss.
COUNTY OF KING)

On this 1st day of MARCH, 1985, before me personally appeared Richard A. Mattsen, to be the Acting Executive Director of the Municipality of Metropolitan Seattle, a municipal corporation, and acknowledged the within and foregoing instrument to be the free and voluntary act and deed of said corporation, for the uses and purposes therein mentioned, and on oath stated that he was authorized to execute said instrument and that the seal affixed is the corporate seal of said corporation.

IN WITNESS WHEREOF I have hereunto set my hand and affixed my official seal the day and year first above written.

Lawrence A. Elliott
Notary Public in and for the State of
Washington, residing at Seattle

STATE OF WASHINGTON)
) ss.
COUNTY OF KING)

On this 1st day of March, 1985, before me, the undersigned Notary Public in and for the State of Washington, personally appeared David C. LeShana, to me known to be the President of Seattle Pacific University, the corporation that executed the foregoing instrument, and acknowledged the said instrument to be the free and voluntary act and deed of said corporation, for the uses and purposes therein mentioned, and on oath stated that he is authorized to execute the said instrument.

WITNESS my hand and official seal hereto affixed the day and year first above written.

Lawrence A. Elliott
Notary Public in and for the State of
Washington, residing at Seattle, Wash.
