

**315139 Cedar River Natural Riverbanks CFL** Conservation Futures:King County PROGRAM  
**Fund:** 00000315 Conservation Futures Council District 12  
**Dept:** 0349 Conservation Futures Location

**Description:**  
 This is a five-parcel project is seven acres in size with 2,800 feet of frontage on the Cedar River, located between Maxwell Road and State Route 169 near Maple Valley. The goal of the project is to improve the riparian habitat by connecting the river to its floodplain through the removal of levees. Three parcels contain structures that will be removed, however, Conservation Futures funds will only be used towards the land value of those properties.

**Project Comparison:**  
 Status: New allocation from 2002 collections

**Cost Data:** Funding Request: \$150,000 (2002)

---

**Fund:** 00000315 Conservation Futures      **Council District** 3

**Dept:** 0349 Conservation Futures      **Location**

**Description:**

This project consists of a 33-acres of riparian habitat containing significant Chinook spawning habitat, located on Avondale Road at Northeast 136th Street. Over one-half mile of Cottage Lake Creek flows through the property and the creek. The property contains forested uplands, wetlands and riparian habitat and will be preserved as high quality habitat.

**315142 Icy Creek CFL**

**Fund:** 00000315 Conservation Futures  
**Dept:** 0349 Conservation Futures

**Council District** 9  
**Location**

**Description:**

This project is located on the Franklin-Enumclaw Road and covers 80 acres of an overall 192 acre site, adjacent to the Green River Gorge State Park and containing critical headwaters of Icy Creek. Icy Creek is a groundwater-fed stream that contributes a significant source of cold, clear water to the Green River system and an important goal of this project is to protect the water supply to Icy Creek and to allow site habitat restoration.

**Project Comparison:**

**315138 Maury Island Nearshore CFL**

**Conservation Futures: King County PROGRAM**

Fund: 00000315 Conservation Futures

Council District 8

Dept: 0349 Conservation Futures

Location

**Description:**

This project contains almost one mile of undeveloped Puget Sound waterfront and near shore habitat of regional significance, located off Southwest 260th Street on the southeast shoreline of Maury Island. This goal of this project is to protect 60 shoreline acres of nearshore habitat that are part of a larger 275-acre site. The State of Washington Department of Natural Resources has designated the shoreline around Maury Island as the Maury Island Aquatic Preserve and preservation of this portion of the shoreline will make an important contribution towards protection of the preserve.

Conservation Futures:Seattle PROGRAM

315404 Thornton Creek Park CFL

Fund: 00000315 Conservation Futures  
Dept: 0349 Conservation Futures

Council District 2  
Location

**Description:**

This project consists of the acquisition of an almost-one-acre property at Northeast 100th Street near Lake City Way. The property contains small structures that will be removed, made available for salvage, or demolished. The creek bed on this site, currently contained in a narrow rock-lined corridor, will be restored to a more natural riparian condition, including a meandering streambed, pools and streamside native vegetation.

**Project Comparison:**

Conservation Futures:Seattle PROGRAM

315416 Whittier Park CFL

Fund: 00000315 Conservation Futures  
 Dept: 0349 Conservation Futures

Council District 4  
 Location

**Description:**

This project is located at 6th Avenue Northwest and Northwest 76th Street and is intended to create a passive open space. Part of the site is a former Seattle City Light substation property that City Light must sell. The other parcel contains a home that will be removed. The value of structures on the site may not be funded with Conservation Futures Funds. Once in public ownership, the City will remove, salvage or demolish the house and then develop the open space.

**Project Comparison:**
