**PRELIMINARY REPORT:**

The Department of Natural Resources & Parks, Water and Land Resources Division Report on item no. E06CT008 was received by the Examiner on March 23, 2007.

**PUBLIC HEARING:**

After reviewing the report and examining available information on file with the application, the Examiner conducted a public hearing on the application as follows:

The hearing on item no. E06CT008 was held by the Examiner on April 4, 2007, in the Hearing Examiner's Conference Room, 400 Yesler Way, Room 404, Seattle, Washington.

Participants at the public hearing and the exhibits offered and entered are listed in the attached minutes. A verbatim recording of the hearing is available in the office of the King County Hearing Examiner.

**FINDINGS, CONCLUSIONS & RECOMMENDATION:** Having reviewed the record in this matter, the Examiner now makes and enters the following:

**FINDINGS:**

1. **General Information:**

**Owner:** Darrell Hamill  
PO Box 1737  
Issaquah, WA 98027

**Property location:** 18727 SE 109<sup>th</sup> Street  
Issaquah, WA 98027

**PBRs categories proposed and recommended:** **Open space resources**  
Aquifer protection area  
Buffer to public land  
Farm and agricultural conservation land  
Significant wildlife or salmonid habitat  
Surface water quality buffer  
**Bonus categories**  
Additional surface water quality buffer  
Resource restoration

**COMMENT:** This property is currently participating in PBRs (old file # E98CT081) – the purpose of this application is to increase the enrolled acreage and to award additional resource categories. Presently, 3.71 acres are participating in PBRs at a 70% reduction (20 points). PBRs staff initiated this application through a proposal to the landowners (please see Exhibit #9). Resources were proposed by staff and not requested by the applicant.

**STR:** SW 06-23-06  
**Zoning:** RA-5

**Parcel no.:** 062306-9077  
**Total acreage:** 5.65  
**Excluded area/homesite:** .81  
**Proposed PBRs:** 4.84

(The land area recommended for PBRs enrollment is the entire parcel less the excluded area(s), which is what has been calculated by DNRP. In the event the County Assessor's official parcel size is revised, the PBRs acreage shall be administratively adjusted to reflect that change.)

2. Except as modified herein, the facts set forth in the King County Department of Natural Resources & Parks, Water and Land Resources Division, Preliminary Report for the April 4, 2007, public hearing are found correct and are incorporated herein by reference. Copies of the department report will be provided with the copies of this report submitted to the King County Council.

The following change is made to the staff report:

- A. Page 5, Bonus categories, Resource restoration, line 4: “implemented by September 30, 2007...”
3. Timely application was made to King County for current use valuation of the subject property to begin in 2008. Notice of the application was given as required by law.
4. The property, which is already enrolled in the open space taxation program, is found to contain additional priority open space resources and is now eligible for a total award of 26 points pursuant to the King County Public Benefit Rating System. The resulting current use value therefore would be 20% of market value for 4.84 acres of the property.
5. Additional credit may be awarded administratively for the resource restoration category subject to submittal, approval and implementation of a resource restoration plan by September 30, 2007, that addresses the restoration of the native understory of approximately 2.5 acres of forestland. Credit for this category would increase the total point award to 31 with no change to the current use valuation for the property..

#### CONCLUSIONS:

1. Approval of current use valuation of 20% of market value for 4.84 acres of the property pursuant to the Public Benefit Rating System adopted by Chapter 20.36 KCC, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. As the property is currently enrolled in the program, any agreement executed pursuant to approval of the application should be worded to supersede any previous PBRS participation agreement for the property.

#### RECOMMENDATION:

APPROVE current use valuation of 20% of market value for 4.84 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources & Parks report for the April 4, 2007, public hearing, and the following additional conditions of approval:

1. Credit may be awarded administratively for the resource restoration category as stated in Finding no. 5 above. Award for this category would increase the point total to 31 with be no change to the property's current use valuation.
2. Any agreement executed pursuant to approval of the application shall contain a provision that the agreement supersedes any previous PBRS participation agreement for the subject property.

Current use valuation shall be subject to all terms and conditions of RCW Chapter 84.34 and KCC Chapter 20.36, as may be amended from time to time, and all regulations and rules duly adopted to implement state law and county ordinances pertaining to current use valuation.

RECOMMENDED April 23, 2007.
