Dear Mr. Nwankwo:

Pursuant to WAC 365-195-820, this is notice of the King County Executive's intent to transmit, for Metropolitan King County Council adoption, the enclosed amendments to the King County development regulations relating to a low impact development project.

The purpose of this legislation is to foster innovative design and development techniques that will demonstrate that the impact of development can be substantially reduced while maintain housing affordability and that changes to the development regulations and building practices will lead to an innovative approach to land development, storm water management and increased construction of affordable housing.
