1.0 Introduction

The purpose of this document is to describe the resource requirements necessary to perform the ABT scope of work. We first describe the general ABT project roles by responsibilities and skill sets, then we describe the specific team organization structures by track (HCM or Finance) and by phase and lastly we describe the specific resource requirements in an Excel chart format in the appendix.

2.0 Primary Resource Roles and Responsibilities

Role	Responsibilities	Required Skill Set
Program Managers	<ul style="list-style-type: none"> • Responsible for overall successful delivery of the ABT program • Responsible to manage the Program Management Office (PMO) • Manage the master plan and schedule (DIP) • Manage the phasing, transition and production support plans • Manage ABT strategies for: fit/gap; BPR; training; testing; development of interfaces, reports, data conversions, workflows and modifications; change management, issue management and risk management • Manage and control scope, resources, costs, success criteria and deliverable acceptance • Manage the ABT governance and approval process • Manage coordination of project managers • Risk Manager for the Program 	<ul style="list-style-type: none"> • Ability to manage large scale programs and projects (also includes project manager skills) • Ability to establish and manage the Program Management Office (PMO) • Ability to plan, manage and control project scope, budget and schedule • Ability to communicate expectations, establish commitment, provide leadership and follow up to ensure project team is held accountable for project performance • Ability to collect and analyze program/project scope, cost, schedule, performance, risk, issue data and report to stakeholders • Ability to build teams and organize resources to efficiently manage work • Ability to identify and manage conflict and resistance
Project Managers	<ul style="list-style-type: none"> • Responsible for project scope assigned by PMO • Manage the DIP: elaborate plan details, schedule/ organize work activities, assign resources, sanction work items, monitor 	<ul style="list-style-type: none"> • Ability to plan, organize, lead and control project activities to perform a product/deliverable within a specific budget and timeframe • Ability to estimate, plan, schedule, monitor and correct project activities

Role	Responsibilities	Required Skill Set
	<p>performance, manage quality and deliverables</p> <ul style="list-style-type: none"> • Collect, assess and report on project performance • Manage project team resources • Recommend necessary corrective action • Manage, communicate and escalate project changes, issues and risks as necessary • Provide project leadership 	<ul style="list-style-type: none"> • Ability to manage scope, cost and schedule. • Ability to build and organize teams • Ability manage and control scope, issues and risks • Ability to manage resources, schedule resources to activities, establish commitment and ensure accountability • Ability to monitor and measure project performance against planned performance and take corrective action as necessary to stay on track • Ability to establish quality objectives and ensure quality deliverables • Ability to communicate to PMO, project team and stakeholders • Ability to lead, motivate project team
Project Administrators	<ul style="list-style-type: none"> • Logistics for daily program operations • Budgeting and expense tracking • Project schedule maintenance and management • Issue and Risk log tracking 	<ul style="list-style-type: none"> • Expertise with Microsoft Project, Excel, Word, Visio • Ability to collect and analyze program/project scope, cost, schedule, performance, risk, issue data and report to project and program managers
Functional Leads	<ul style="list-style-type: none"> • The Functional Leads are primarily responsible for managing: <ul style="list-style-type: none"> ▪ Business requirements gathering, mapping the requirements into new business processes and into system configuration ▪ Requirements fit/gap analysis ▪ Business process analysis and design ▪ System design and configuration ▪ Development functional design for technical work by developers ▪ Testing ▪ Training ▪ Transition support • Functional Leads will have extensive knowledge, skills and 	<ul style="list-style-type: none"> • Ability to understand, define and document county business requirements and processes • Ability to learn new software applications quickly • Ability to design new business processes or adopt leading business practices within new software applications • Ability to turn business requirements into test scenarios and develop test scripts to validate the business requirements in software applications • Ability to test software applications • Ability to train end-users on new software and business processes • Ability to support end-users through a production transition and go-live • Provide leadership to county users and SMEs

Role	Responsibilities	Required Skill Set
	<p>experience in their respective business areas</p> <ul style="list-style-type: none"> • Provide leadership and mentorship to team members 	
Functional Resource	<ul style="list-style-type: none"> • Provide functional expertise during the project and during the identified Transition Period • Provide an understanding of the organization including its policies and procedures • Assist with design of the new business processes and analyzing fit/gaps in the new system • Assist with development of testing scenarios and with testing activities • Analyze business needs and work with technical resources to develop functional design for reports and other development 	<ul style="list-style-type: none"> • Ability to configure tables • Ability to create a PeopleSoft query or develop Oracle ad hoc queries in Discoverer • Functional knowledge of an Oracle and/or PeopleSoft application(s) • Ability to troubleshoot • Ability to mentor
Technical & Developer Resources	<ul style="list-style-type: none"> • Provide skills and expertise within a technical area for custom development, system administration and/or database administration as required during the project and during identified Transition Period • Provide hardware, storage, network and operating system expertise during infrastructure build and maintain same during course of ABT project • Provide expertise and support of maintaining multiple Oracle environments • ABT developers are responsible to develop technical designs for reports, interfaces, customizations, data conversions, and to extract, cleanse and map data between county side-system or legacy system and Oracle EBS/PeopleSoft • ABT Developers are responsible for development of reports, 	<ul style="list-style-type: none"> • Ability to configure tables • Technology skill sets depend on specific technologies to be used for the specific developer assignment. Could include a number of PeopleSoft and Oracle technologies • Ability to create a PeopleSoft query or develop an Oracle report • Ability to develop system modifications with assistance from the technical consultant team • Technical knowledge of an Oracle and/or PeopleSoft application(s) • Ability to setup / maintain end user security with assistance from the consultant team • Ability to provide database management administration • Ability to program with assigned technologies and tools • Ability to unit test developed objects and perform system testing

Role	Responsibilities	Required Skill Set
Functional Consultant Leads	<p>interfaces, data conversions, workflows and modifications</p> <ul style="list-style-type: none"> • Provide leadership and guidance on system capabilities, system configuration, business best practices, and pros and cons of various choices for system implementation • The Functional Leads are responsible for managing: <ul style="list-style-type: none"> ▪ Business requirements gathering, mapping the requirements into new business processes and into system configuration ▪ Requirements fit/gap analysis ▪ Business process analysis and design ▪ System design and configuration ▪ Development of internal controls and system auditing capabilities ▪ Development of application access/security profiles ▪ Testing ▪ Training and knowledge transfer ▪ Transition support • Functional Leads will have extensive knowledge, skills and experience in their respective application • Provide leadership and mentorship to team members 	<ul style="list-style-type: none"> • Ability to understand, define and document business requirements and processes • Expert knowledge and experience understanding and skills in the use of specific Oracle EBS and/or PeopleSoft applications and leading practices • Ability to design new business processes and/or modify leading business practices to existing business practices • Ability to turn business requirements into test scenarios and develop test scripts to validate the business requirements in software applications • Ability to test software applications • Ability to train end-users on new software and business processes • Ability to support end-users through a production transition and go-live • Provide leadership to ABT team leads and county users • Ability to create validation and audit scripts to confirm quality of data conversions and system configuration
Technical Consultant Leads	<ul style="list-style-type: none"> • Provide skills and expertise within a technical area for custom development, system administration and/or database administration • Provide support during transition periods • Developers are responsible for development of reports, interfaces, data conversions, workflows and 	<ul style="list-style-type: none"> • Ability to configure tables • Knowledge and ability of Oracle PeopleSoft or Oracle EBS data structures and Oracle database environment; Skill with PL/SQL. • Expert functional / technical knowledge of an Oracle and / or PeopleSoft application(s) • Ability to develop custom code for data conversions, interfaces, reports,

Role	Responsibilities	Required Skill Set
	<p>modifications</p> <ul style="list-style-type: none"> • System administrators are responsible to design, install, configure and maintain hardware, operating systems and networks • Database administrators are to responsible to design, install and maintain the Oracle applications and environments and to ensure required database security, backup/recovery • Develop technical documentation and provide knowledge transfer to county technical staff 	<p>workflows, modifications and customizations</p> <ul style="list-style-type: none"> • Ability to troubleshoot code and software • Ability to setup/maintain end user security • Ability to support and maintain all project environments • Ability to provide database management and maintenance • Ability to mentor junior technical staff • Ability to create validation and system audit scripts to validate data and system quality
Trainers	<ul style="list-style-type: none"> • Develop training plans, training curriculum, course outlines and training material • Conduct train-the-training courses to develop training skills • Assist with training • Plan and schedule training sessions 	<ul style="list-style-type: none"> • Ability to develop training plan • Ability to train, coach and monitor trainers • Ability to utilize UPK to develop and deliver training • Ability to organize, schedule and conduct training events
Organizational Change Management Resource	<ul style="list-style-type: none"> • Identify areas of resistance and manage change • Develop and manage communication and training plans and provide expertise • Assist with development of training curriculum and with training • Provide management leadership and expertise to assist develop and manage a help desk 	<ul style="list-style-type: none"> • Ability to provide business process expertise • Ability to utilize UPK to develop and deliver end user training • Ability to develop and deliver communications

3.0 Other Resource Needs

3.1 Fit/Gap

ABT fit/gap activities will require participation from county users and SMEs. Users will need to bring knowledge of the county business processes and current practices. Additional details will be planned during the ABT implementation initiation and planning phases.

3.2 Integration Testing and Data Conversion Validation

ABT integration testing and data validation activities will require participation from county users and SMEs. Integration testing will require county users to verify that the system is passing data from module to module, either internally (PeopleSoft HR to PeopleSoft Payroll) or externally (PeopleSoft HR to Access Leave Tracking), by executing test scripts. Data conversion activities will consist of verification of converted data in the new systems. Additional details will be planned during the ABT implementation initiation and planning phases.

3.3 User Acceptance Testing

ABT user testing activities will require participation from county users and SMEs. User Acceptance Testing will require county users to verify that the system is working correctly by executing test scripts. Additional details will be planned during the ABT implementation initiation and planning phases.

3.4 Cutover

ABT cutover activities will require participation from county users and SMEs. Cutover activities will include final conversion and production testing activities. Additional details will be planned during the ABT implementation initiation and planning phases.

3.5 Technical Implementation

ABT technical activities will require participation from OIRM, county users and SMEs. Technical activities will include data export and data validation for conversions, assist with interfaces to/from side systems, infrastructure and database installs, database replications, tuning, and monitoring. Additional details will be planned during the ABT implementation initiation and planning phases.

4.0 Project Management Office and Shared Resources

This section will describe the staffing that is dedicated to leading the ABT Program as well as shared resources areas dedicated to business transformation efforts like Communications, Change Management and Training, Business Process Reengineering and other areas that cross all ABT projects.

4.1 Team Structure for PMO Office

The PMO team includes an average of 15.7 full time equivalent (FTE) resources—3.5 FTEs from CIBER and 12.2 FTES from ABT. The structure of the PMO office is depicted in the chart below.

ABT Program Project Management Office (PMO)

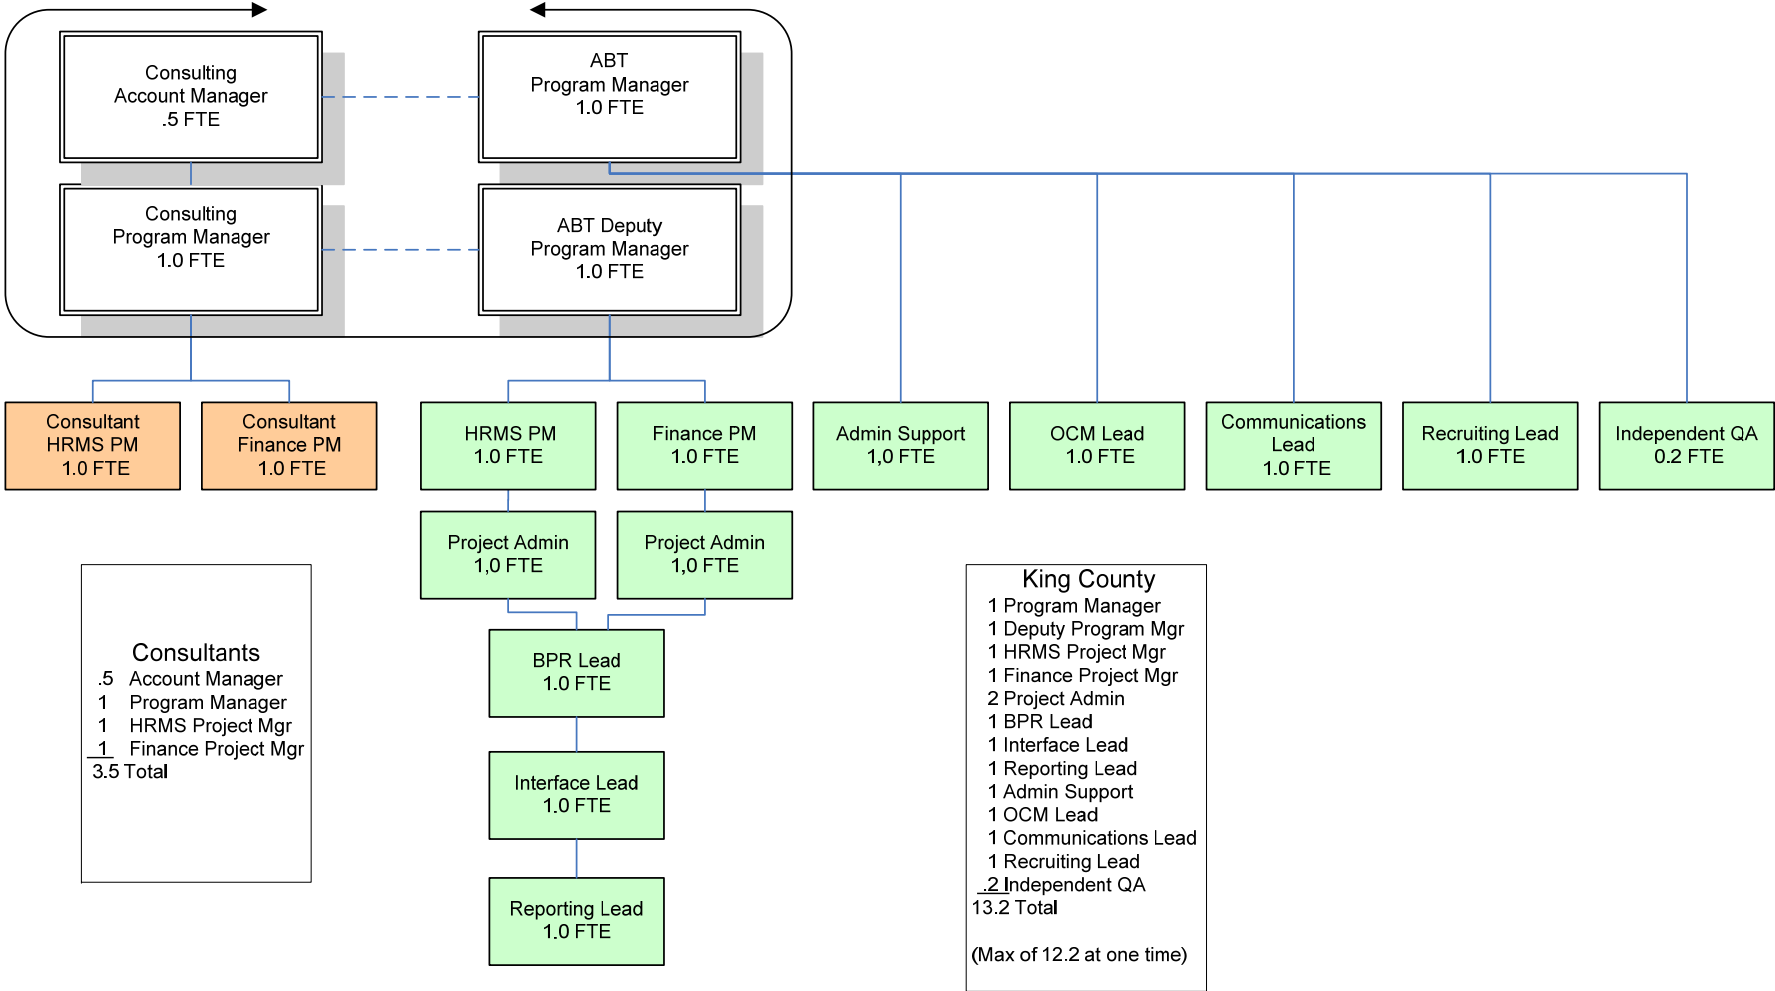

Chart 1 - July 9, 2008

4.2 Team Structure for Communications and Change Management/Training

The team structure for Communications, Change Management and Training and System Retirement efforts are shown in the chart below. The lead positions for these areas are found in the PMO group previously shown. Resource levels vary at different times during the ABT program depending on the needs of the ABT projects with staffing levels rising to a maximum of 12 FTE. A finer level of detail is located in the imbedded excel spreadsheet in Appendix A.

ABT Program Communications, Change Management/Training, System Retirements Years 1 - 3

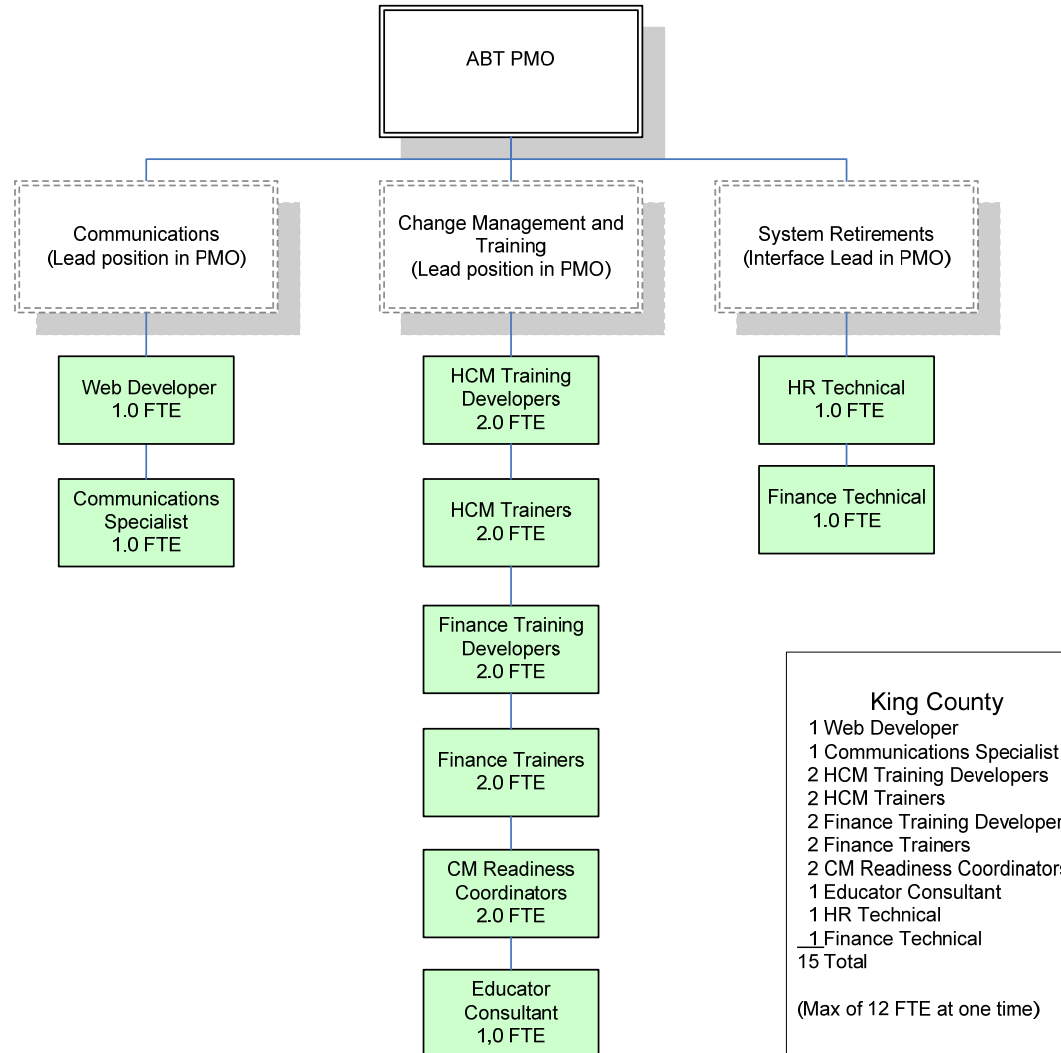

Chart 2 - July 9, 2008

5.0 Core Team Structure – HR/Payroll

This section will describe the staffing resources necessary by deployment phase of the HR/Payroll rollout. These counts show resources for county and consultant staff. Production support resources are not included in this document. Information on that subject can be found in the Post Implementation Support plan.

5.1 Deployment 1 – Countywide rollout of HR

The HR/Benefits/Position Management team includes an average of 22 full time equivalent (FTE) resources—9 FTEs from CIBER and 13 FTES from ABT—and as well as part time county resources. The project will begin in November of 2008 with a Go Live date of September 1, 2009.

The following is a graphical representation of team composition. A finer level of detail is located in the imbedded excel spreadsheet in Appendix A.

Deployment 1

PeopleSoft HR/Benefits/Position Management - Countywide

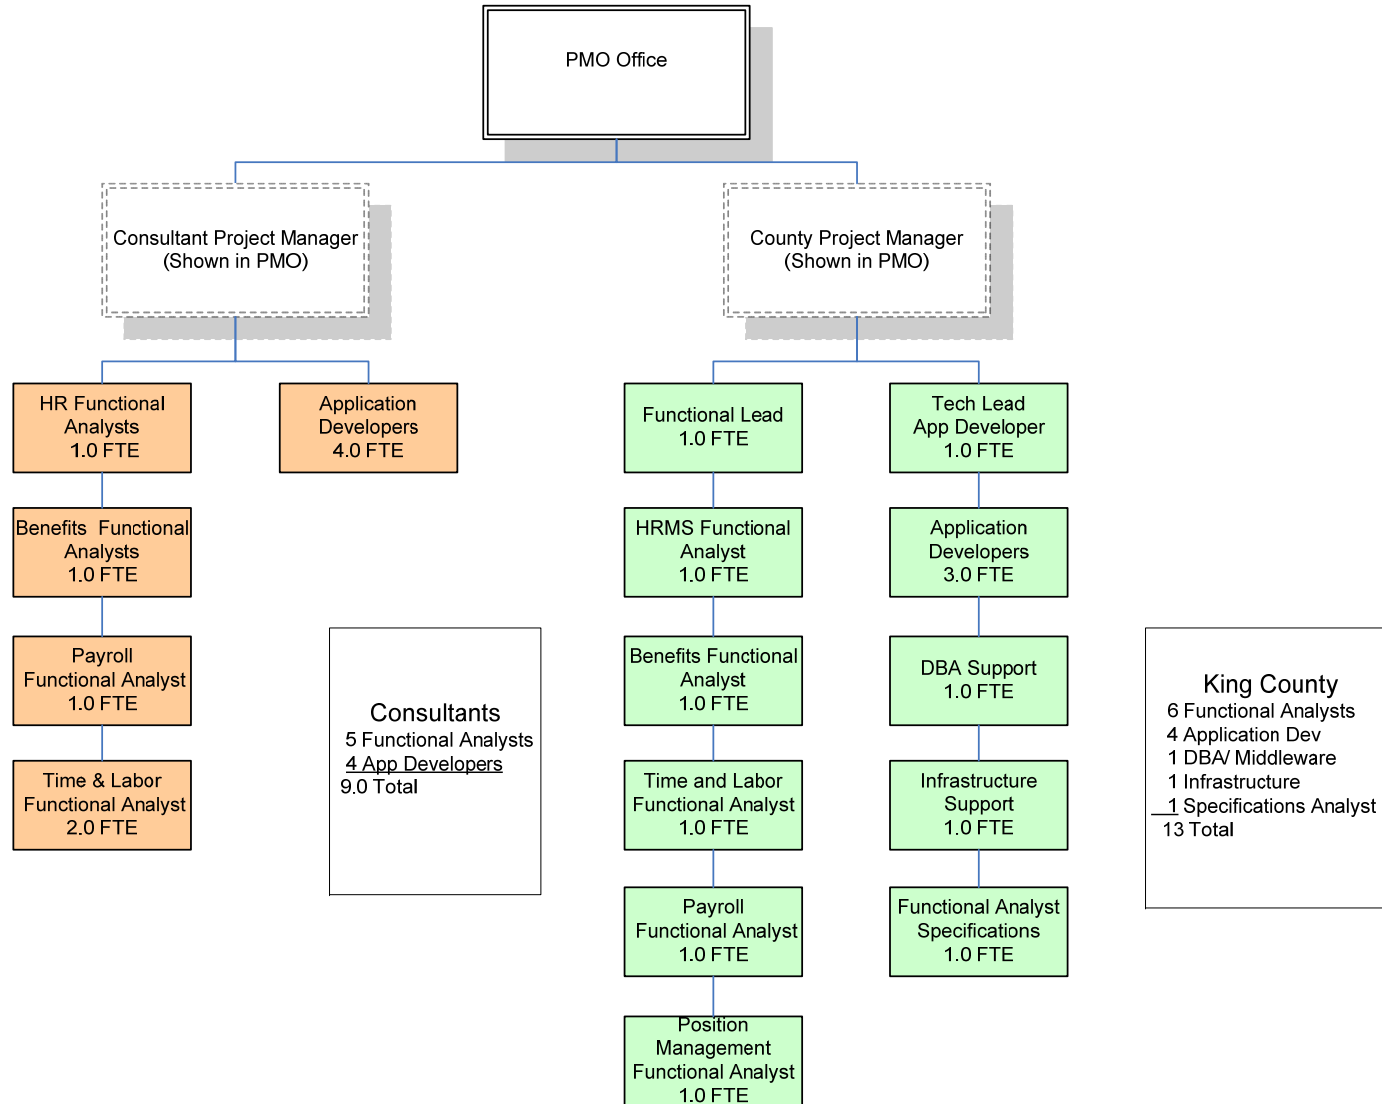

Chart 3 - July 9, 2008

Departmental resources will be needed around the following estimated schedule:

Resource Category	Timing	Involvement*
Fit/Gap Activities	11/2008 – 2/2009	3 weeks of time
Data Validation	1/2009 – 8/2009	5 weeks of time
User Acceptance Testing	6/2009 – 8/2009	4 weeks of time
Cutover	8/2009 – 9/2009	1 week of time
Technical Implementation(s)	11/2008 – 9/2009	See resource sheet

*These are not full time equivalents and it is not dedicated time.

5.2 Deployment 2, 3, and 4 – Rollouts of Payroll/T&L

The Payroll/Time and Labor teams include an average of 21.5 full time equivalent (FTE) resources — 7 FTEs from CIBER and 14.5 FTES from ABT—and part-time county resources.

The following is a graphical representation of team composition. A finer level of detail is located in the imbedded excel spreadsheet in Appendix A

Deployment 2,3,4 – PeopleSoft Payroll Agencies Live on Biweekly Payroll

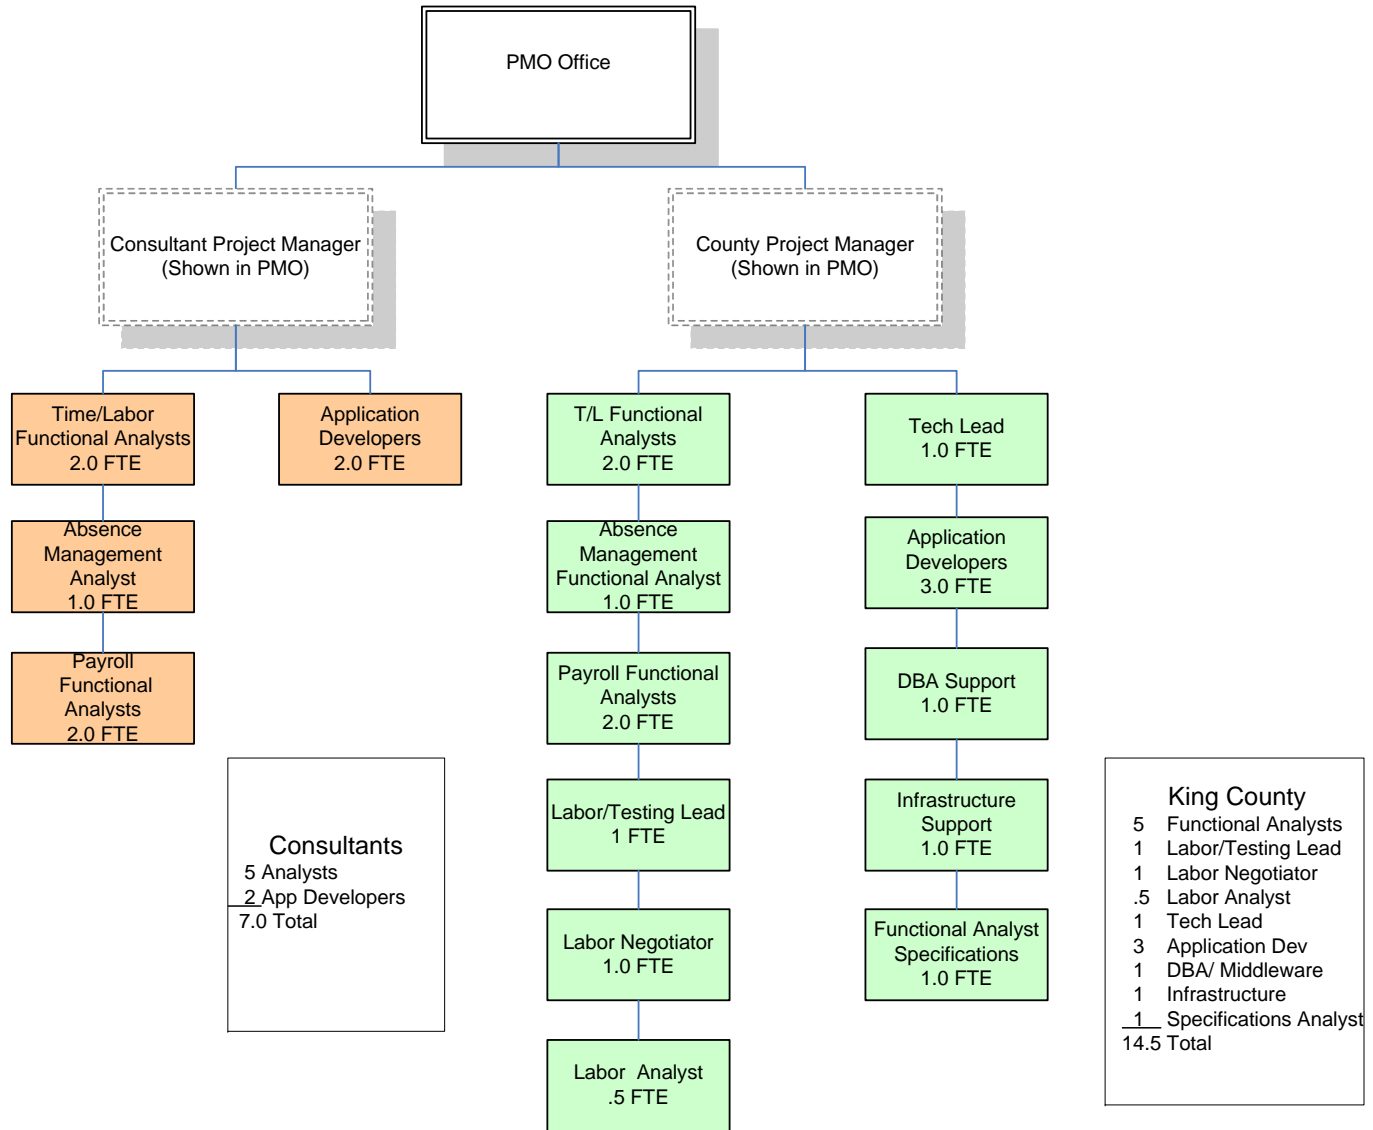

Chart 4 - July 9, 2008

Departmental resources will be needed around the following estimated schedule:

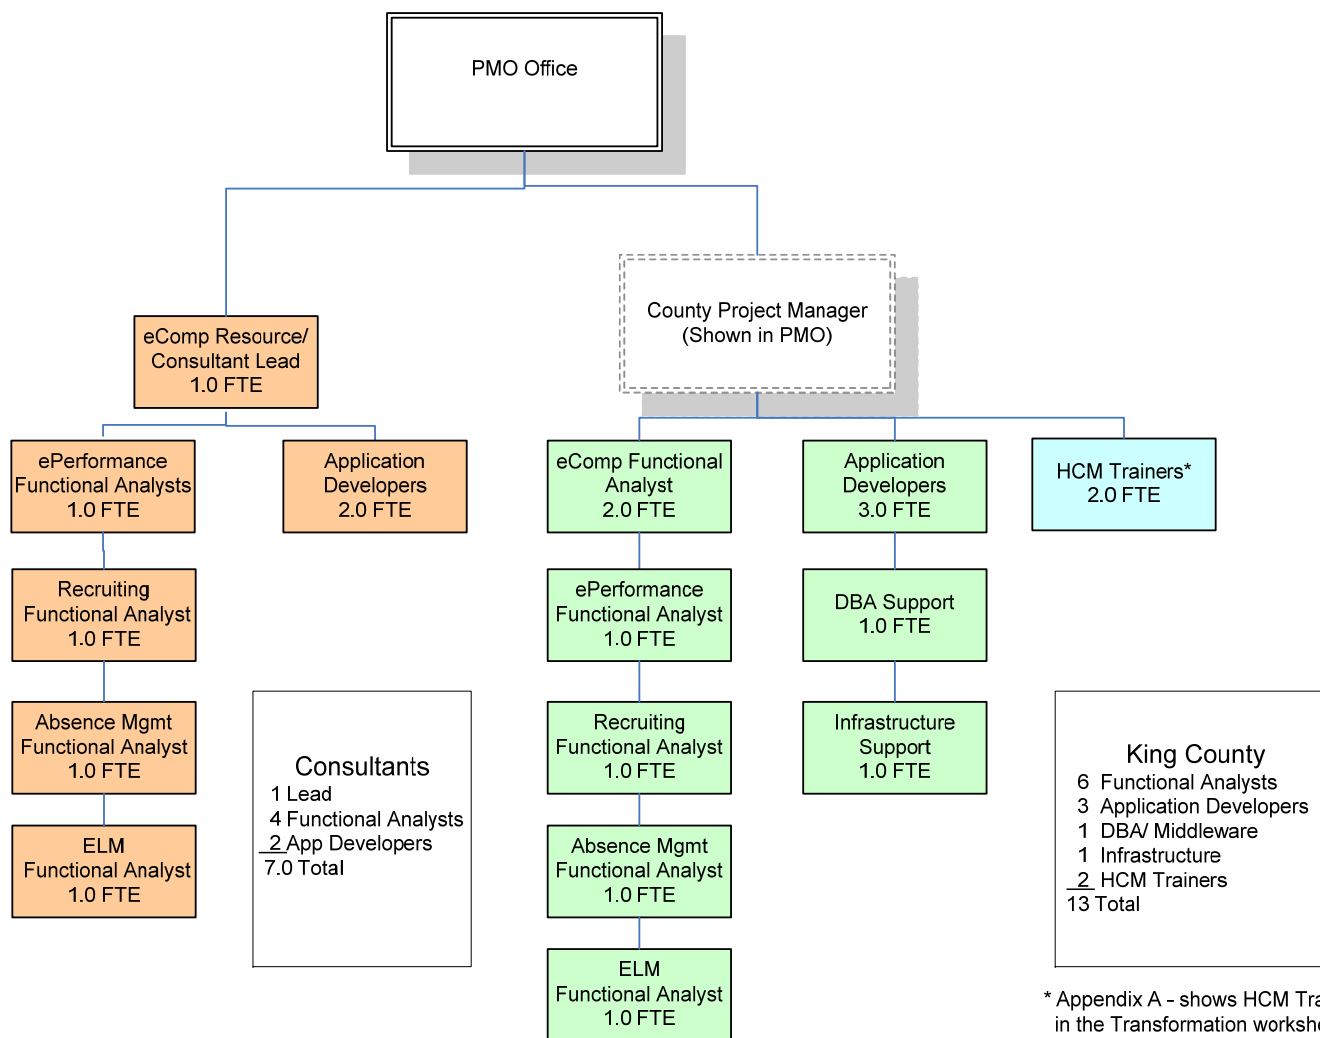

Resource Category	Timing	Involvement
Fit/Gap Activities	11/2008 – 6/2009	3 weeks of time
Data Validation	10/2009 – 12/2011	3 weeks of time
User Acceptance Testing	11/2009 – 4/2010	6 weeks of time
Cutover	1/2011, 7/2011, 1/2012	2 week of time
Technical Implementation(s)	1/2009 – 1/2012	See resource sheet

5.3 Phase II – Years 4 and 5 HR/Payroll Initiatives

The HR/Payroll team structure for years 4-5 is comprised of 7 full-time consultants and 13 ABT counterparts for the implementation of eCompensation, eCompensation Manager, ePerformance, Absence Management, Enterprise Learning Management (ELM) and Recruiting.

The following is a graphical representation of team composition. A finer level of detail is located in the imbedded excel spreadsheet in Appendix A.

PeopleSoft HR/Payroll Phase II – Years 4 & 5 Initiatives

* Appendix A - shows HCM Trainers in the Transformation worksheet.

Chart 5 - July 9, 2008

Departmental resources will be needed around the following estimated schedule:

Resource Category	Timing	Involvement
Fit/Gap Activities	3/2012 – 5/2012	2 weeks of time
Data Validation	5/2012 – 8/2012	2 weeks of time
User Acceptance Testing	6/2012 – 5/2013	4 weeks of time
Cutover – eCompensation, ePerformance, Absence Management	1/2013	1 week of time
Cutover – Enterprise Learning Management (ELM)	6/2013	1 week of time
Cutover – Recruitment	7/2013	1 week of time
Technical Implementation(s)	5/2012 – 7/2013	See resource sheet

6.0 Core Team Structure – Finance

6.1 Deployment 2 - Finance - all agencies on EBS

Deployment 2 follows the earlier HR deployment but it is the first implementation for the Oracle EBS system. The Finance team includes an average of 32.5 full time equivalent (FTE) resources—12 FTEs from CIBER and 20.5 FTES from ABT—and part-time county resources.

The following is a graphical representation of team composition. A finer level of detail is located in the imbedded excel spreadsheet in Appendix A.

Deployment 2 – County-wide Live on Oracle EBS

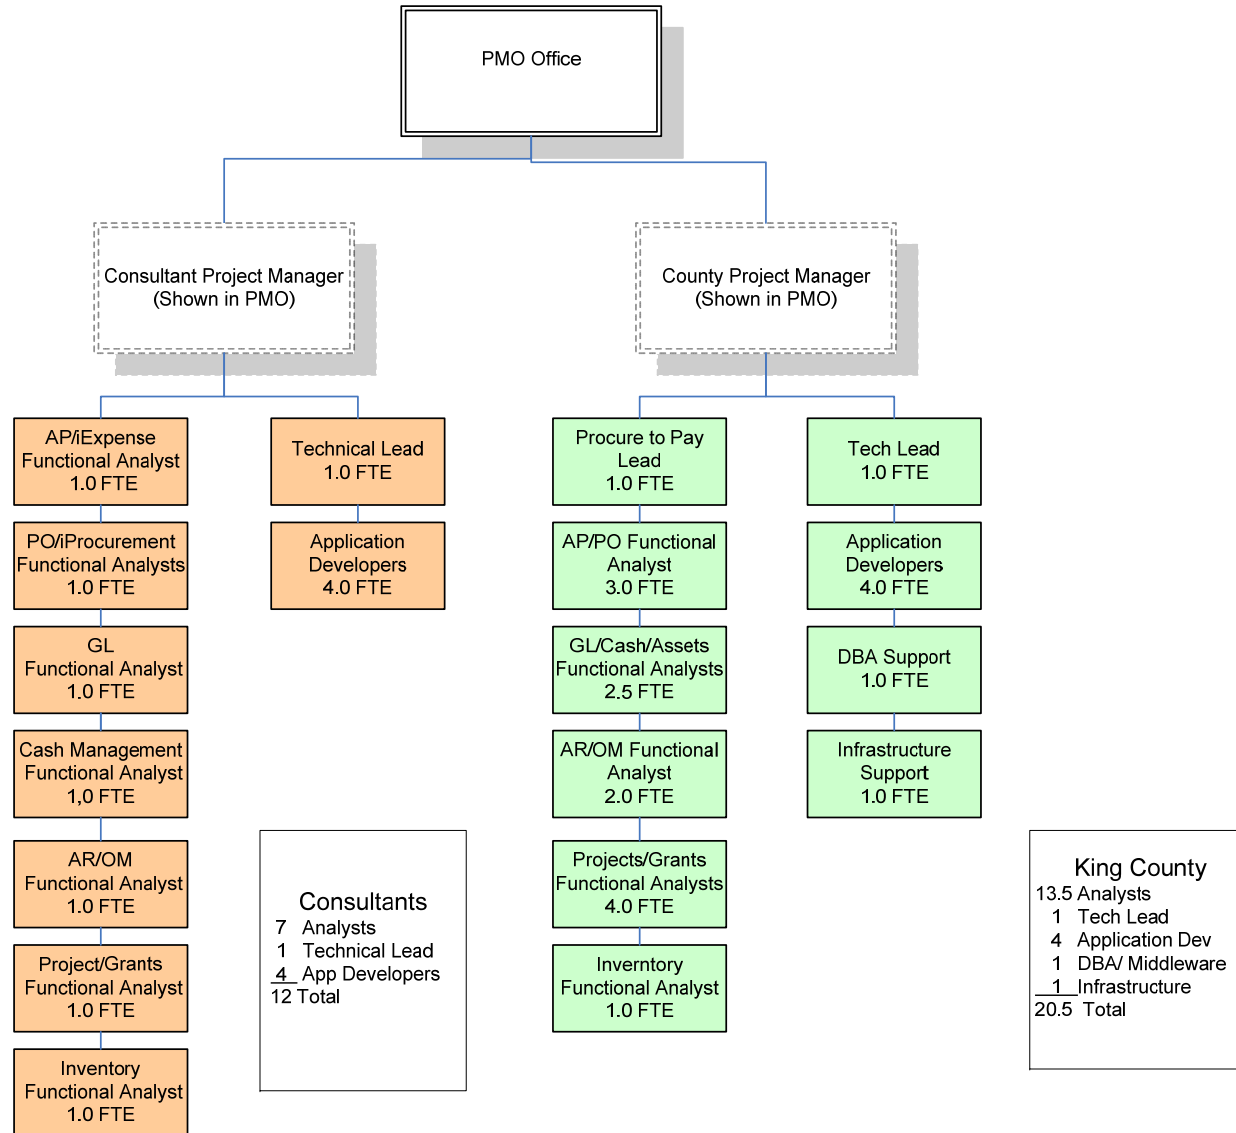

Chart 6 - July 9, 2008

Departmental resources will be needed around the following estimated schedule:

Resource Category	Timing	Involvement
Fit/Gap Activities	1/2009 – 6/2009	6 weeks of time
Data Validation	3/2010 – 12/2010	8 weeks of time
User Acceptance Testing	11/2009 – 4/2010	8 weeks of time
Cutover	1/2011	2 week of time
Technical Implementation(s)	1/2009 – 12/1010	See resource sheet

6.2 Phase II – Year 4 and 5 Finance

In Year 4 and 5 of the ABT Program, additional functionality is planned in the Finance area in two areas:

- Implementation of the Internal Controls module in Oracle EBS
- Additional functionality added to iProcurement

This team includes an average of approximately 6 full time equivalent (FTE) resources—3 FTEs from CIBER and 3 FTES from ABT—and part-time county resources. The duration for each effort varies. See Appendix A for more details.

Phase II – Years 4 & 5 Oracle EBS Initiatives

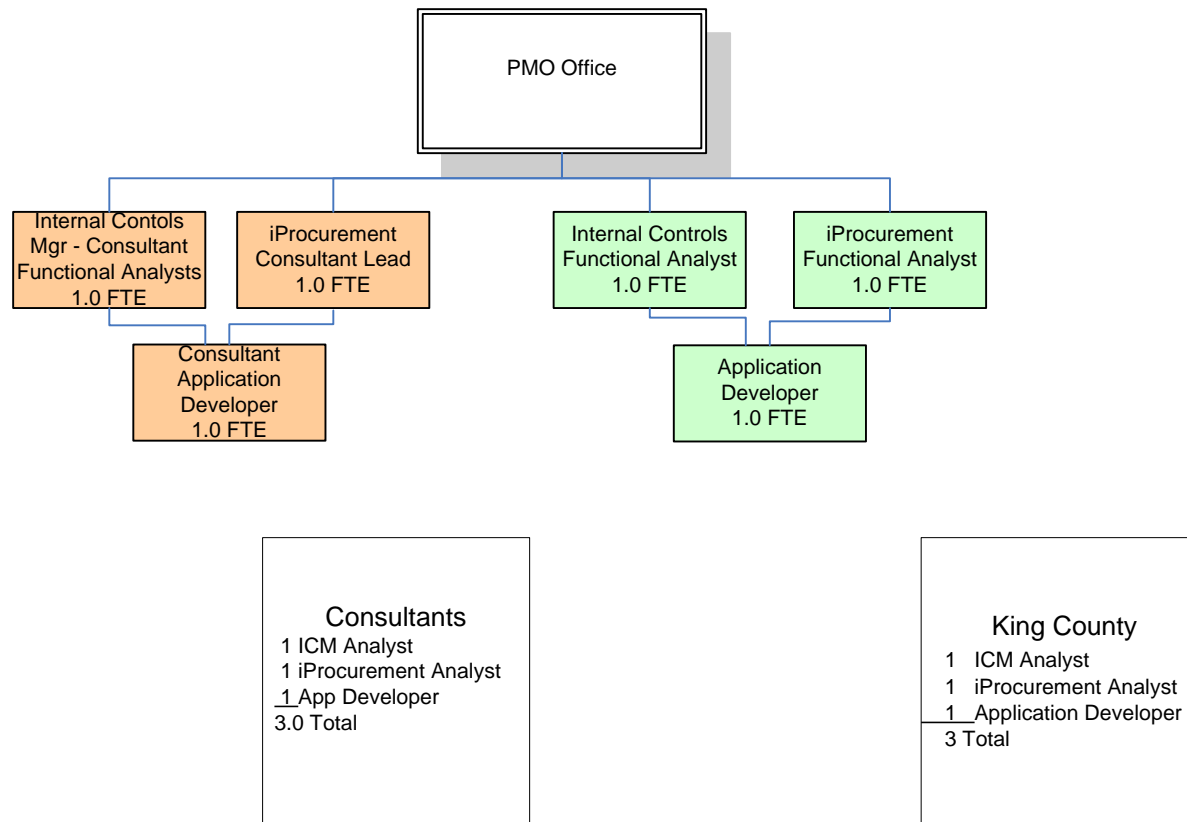

Chart 7 - July 9, 2008

6.3 Phase II – Year 4 and 5 – Other Initiatives

In addition to the PeopleSoft and Oracle EBS initiatives planned for Year 4 and 5 work is also planned in three areas:

- Complete system retirement work begun in Year 3
- Implement a consolidated Finance and Human Resources data repository and a new metrics reporting tool (OBIEE or equivalent)
- Conduct a data archival study

This team includes 5 full time equivalent (FTE) King County resources. The timing of these resources varies and therefore not all 5 resources will be working at the same time. More detailed information can be found in Appendix A.

Phase II – Years 4 & 5 Other ABT Initiatives
