| Resolution No: | FCD2022-05 | Date: | March 2, 2022 |

Proposed FCD Resolution FCD2022-05: A RESOLUTION approving an interlocal agreement with the City of North Bend regarding the Ribary Creek Flood Reduction Risk Project.

Frequent flooding of Ribary Creek makes businesses inaccessible, results in damaged property, and temporarily closes State Route 202, Bendigo Boulevard South in the city of North Bend (North Bend). Larger, less frequent flood events result in additional impacts to commercial properties and arterials in North Bend. North Bend and the District have identified the need to conduct a comprehensive flood risk reduction strategy at this location along Ribary Creek (Project). The Project is included in the South Fork Snoqualmie River Capital Investment Strategy adopted as policy guidance in October 2017. North Bend will serve as the District's service provider for the Project.

The District authorized funding for the Project in 2020 for a project total of \$6,198,993 in its annual budget and work plan. The ILA authorizes funding not to exceed \$456,168 for 30% design of the Project. Approval of this ILA does not change the Project budget. The ILA has been reviewed by legal counsel.
