

King County Elections 2021 Year in Review

|--|

Dear Friends,

As I reflect on 2021, one word that keeps coming to mind is gratitude. I'm grateful to live and work in a place that continues to remove barriers to voting. I'm grateful for incredible voters who make their voices heard and get involved. And I'm grateful for a team that never hesitates to put in the hard work it takes to ensure that all voters can meaningfully participate in our elections.

While 2021 was undoubtedly a hard year for all election administrators, my team continued to amaze me with their commitment and dedication to accessible, secure, and accurate elections.

We came together to conduct and fully reconcile five (yes, really FIVE!) elections. We dug in and worked together to define our organizational values and affirm our mission and vision statements. We have found new ways to increase transparency and pushed the envelope on voter education, supported our election colleagues around the state and country, and welcomed more election observers to Elections HQ than ever before.

Our team goes into 2022 ready to face the challenges and opportunities ahead. We will continue to put our shared values of accuracy, integrity, equity, service, teamwork, and transparency into action every single day.

Sincerely,

Cjulii Wise

Julie Wise King County Director of Elecitons

Defining Our Core Values

The entire King County Elections (KCE) team engaged in affirming the mission, vision, and values for the organization. We came to those conversations open, honest, and a bit vulnerable, which can be tough to do in a work-setting. Ultimately, it was remarkable how closely aligned in our values we are as a team of seventy people with differing backgrounds, experiences, and jobs within the organization. Integrity, accuracy, equity, teamwork, transparency, and service rose to the top in every small group discussion and were adopted as the organization's core values.

Welcoming Observers & Focusing on Transparency

2021 brought a record number of observers to our facility and a record number of public disclosure requests to our inboxes here at King County Elections. Our team worked collaboratively with both major political parties to increase the access that observers have within our facility, responded to public disclosure requests that have increased in both volume and complexity, and answered thousands of questions about what the law says about accessing and returning a ballot.

Our team also debuted a new data dashboard that features information on ballots returned, broken down in variety of ways from district to ballot status to voter age and more. Publicly available on our website and updated at least twice daily during the voting period, the dashboard provides near realtime data on the ballots our voters have returned, providing a deeper look for those who want to dig into the numbers.

Restoration of Voting Rights for Those on Community Supervision

In the 2021 session, legislators passed a bill that restores voting rights for those formerly incarcerated for a felony conviction. The legislation restores rights immediately upon release, regardless of community supervision status or any outstanding legal fines or fees.

Director Julie Wise testified in support of this legislation many times during its journey through the state legislature. This legislation creates clarity for voters and election administrators alike, while removing barriers for all who have been convicted of a felony.

As of January 1, 2022, it's simple – if you are otherwise eligible and not currently incarcerated for a felony conviction, you can register and vote.

Award-Winning Work, Nationally Recognized

This year, KCE was recognized by both the U.S. Election Assistance Commission (EAC) and the Elections Center for innovation in elections.

We were honored to be awarded the <u>EAC's Clearinghouse Award for Outstanding Innovation (Large</u> <u>Jurisdiction)</u> for our first-of-its-kind <u>Voter Education Fund</u>. This award is designed to recognize programs that creatively improve election administration and advance new and innovative concepts.

KCE was also awarded <u>Elections' Center Eagles Award – Use of Technology</u> for the Esri application suite that powers our impressive ballot collection operation. This custom app suite improves efficiency and communication, as well as provides real-time tracking and data from our ballot collection teams while they're in the field emptying drop boxes and transporting ballots back to the KCE facility.

Demystifying What It Takes to Become a Candidate

Here at KCE, we know that democracy works best when all voices are heard, and that people are more likely to cast their vote when they see candidates on the ballot who look like them or represent their community and values. While KCE works to remove barriers to voting itself, we also work to find ways to make other entry points to democracy a little easier, including running for office.

In the months leading up to May's filing week, our team hosted a series of candidate workshops that trained 155 potential candidates

for office. Covered in the workshops were topics such as filing requirements, deadlines, and fees, as well as Voter Pamphlet statement guidelines. The Public Disclosure Commission and Seattle Ethics & Elections Commission also joined us to provide information on campaign finance rules and the City's democracy voucher program.

Kicking Off Fifth Voter Education Fund Cohort with Nearly \$1M in Grants

The Voter Education Fund (VEF) kicked off its fifth grant cycle with nearly \$1 million in grant dollars to thirty organizations over a two-year period (2021-2022). VEF was created to deliver accurate information about elections to historically excluded communities from a source that they already trust.

VEF community partners receive resources for voter education and monthly trainings from KCE on a variety of topics. In addition, partners are provided with the materials and knowledge they need to reach voters and engage them in the electoral process.

Piloting Risk Limiting Audits

Following the August Primary, the team tested the latest in elections audits, the Risk Limiting Audit (RLA). A Risk Limiting Audit is a postelection audit that checks a random sample of individual ballots to provide strong evidence that the reported outcome is correct. RLAs use a formula to determine how many ballots need to be audited to be statistically confident in the results.

The purpose of the pilot was to see how the RLA process would work for a jurisdiction of our size, as well as to prove that the procedures we've built are efficient and accurate.

In partnership with the Secretary of State's Office, we conducted a pilot that 3,300 test ballots and audited 108 of those. The pilot was successful and confirmed the integrity of our processes and procedures.

Recalling the December Election

It is not often that we see an election in December but 2021 was a year like no other. The City of Seattle saw its first recall election on the ballot since 1975. While the number of voters participating in the election was relatively small (approximately 75,000), interest in the election from both voters and media was enormous.

KCE opened a Vote Center inside the district at the Langston Hughes Performing Arts Center to provide in-person service in the final days of the voting period.

Voters in Seattle's City Council District 3 turned out at 54% for this standalone December 7 recall election, just weeks after voting in the November General.

Looking Back and Looking Ahead

Coming off 2020, the team at KCE was ready to assess our operations and dig into the thoughtful work of balancing access, security, and transparency in King County's elections. Our team kicked off work to improve the signature verification process, and how voters are educated about why their signature matters when it comes to voting. We implemented implicit bias training for signature verification staff, increased access to translated information and materials about signatures, emphasized signatures with community partners, and more.

In addition, KCE hosted workshops on ranked choice voting for election administrators across Washington State. Experts from other jurisdictions around the country presented on ballot design, tabulation, and what they learned from implementing ranked choice voting in their jurisdiction.

As ranked choice voting and other alternative voting methods remain a topic of interest among lawmakers, it's critical that election administrators be prepared to think through both the big picture and the finer details of a new way of voting.

As these conversations continue at both the state and local level, our team is better prepared to answer questions and provide technical guidance where needed.

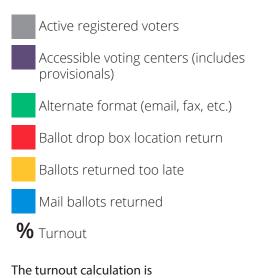

2022 and Beyond

2022 promises to be an exciting year for election administrators everywhere. We will see the General election in November bring out lots of voters, observers, and interest in election administration. And, our team here at KCE is always looking for ways to remove barriers and help our voters make their voices heard.

KCE has asked King County Council to codify the addition of Somali and Russian to our suite of fullservice languages, is working to expand capacity to battle misinformation, and continues to be a resource and leader in the world of innovative election administration.

Comments:

2016: Includes the Presidential Primary election, which increased total cost.

2017: Building lease payments were absorbed into the department's square footage central cost rates.

2016 to 2018: Cost increases due to State-mandated and Council-sponsored requirements for ballot drop box increases, pre-paid postage for returned ballots, and outreach to community based organizations.

2018: General election experienced voter turnout similar to a presidential election, and therefore increased expense.

2019: Increased temporary labor compared to previous odd-year elections due to implementation of Statewide VoteWA project.

2020: Includes the Presidential Primary election, which increased total cost. No April election.

2021: No February election. Recall election in December (City of Seattle Council District No. 3).
