The Honorable Claudia Balducci
Chair, King County Council
Room 1200
C O U R T H O U S E

Dear Councilmember Balducci,

This letter transmits a proposed Ordinance that would, if enacted, authorize King County to enter into an interagency agreement with the City of Buckley for the portion of Segment B of the Foothills Trail that is in Buckley. The proposed Ordinance has no fiscal impact.

King County is working cooperatively with the cities of Buckley and Enumclaw, and Pierce County Parks on the proposed Ordinance to construct a new multi-use bridge over the White River, a vital community amenity that connects the completed portions of the of the trail in Enumclaw and Buckley.

As part of King County's 175-mile regional trail system, the proposed Foothills Segment B addition would connect communities and provide opportunities for recreation that can reduce health factors linked to obesity, diabetes, chronic illness, and reduced life expectancy. The addition of Foothills Segment B also supports economic and civic growth by connecting local businesses to non-motorized transportation options for their customers and employees. By improving access and safety and by creating a more inviting place to recreate and recharge, the Foothills Trail can become a gathering place and focal point for the community.

This proposed legislation furthers the mobility goal of the King County Strategic Plan by delivering a safe, reliable, and seamless network of transportation options to get people where they need to go, when they need to get there. Execution of the interagency agreement would also further the facility and system improvements goal of the Equity and Social Justice Strategic Plan by providing access to safe and efficient non-motorized transportation and more equitable access to recreation for all ages and abilities in a part of the county that has historically not been served by regional parks and trails. Finally, by providing an increased opportunity for non-motorized transportation, construction of the Foothills Trail supports the Strategic Climate Action Plan and goal of providing and encouraging the use of sustainable transportation choices.

The Honorable Claudia Balducci

Thank you for your consideration of this proposed Ordinance. This proposed legislation will give residents increased access to an inter-connected, non-motorized, active transportation network for more efficient mobility and safe and healthy recreation.

If your staff have any questions, please contact Warren Jimenez, Division Director of the Parks and Recreation Division of the Department of Natural Resources and Parks, at 206-477-4525.

Sincerely,

 for
