Briefly describe why you are interested in serving on the Solid Waste Advisory Committee:

I am interested in serving on SWAC because it presents an opportunity for me to serve the SCA membership on an issue of regional importance. I support the recycling effort that is helping reduce the waste stream but am concerned about our future capability for handling increased solid waste in our local land fill. I look forward to participating in the identification and support of a long range solution to this problem. Thank you in advance for your consideration of my application.
