## CHALLENGES WITH SERVICES THAT STABILIZE HOUSING

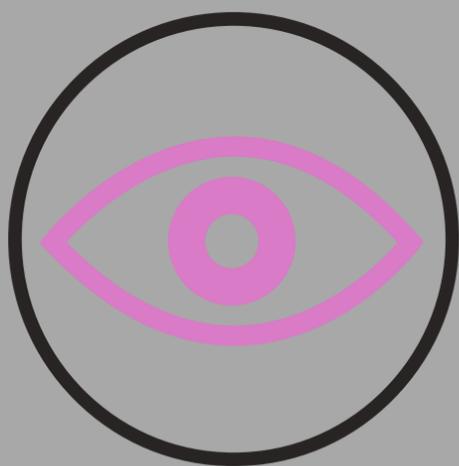

- LGBTQ direct services not geared towards seniors.
- Senior centers too heteronormative
- Housing and senior centers too politically/socially conservative

## LGBTQ SENIOR CHALLENGES TO AFFORDABLE HOUSING

- LGBTQ POC elders cannot not rely on bio family because they do not have children or their family is no longer with them
- Discrimination and stigma against LGBTQ people of color within POC communities
- Lack of tenant involvement in SHA facilities
- Lack of emotional safety (not safe to be out) in public housing (glares, smirks, ignoring)
- Rules in section 8 challenging and burdensome

## IMPACT OF HOUSING INSTABILITY FOR LGBTQ SENIORS

- Invisibility
- Not a lot of intergenerational community access
- Social isolation
- Loss of LGBTQ + community, history, culture and safe places
- Closing LGBTQ bars (social spaces)
- Lack of safety

## METHODOLOGIES AND OVERVIEW

LGBTQ Allyship gathered this information from 2 listening sessions. One listening session of 4 participants focused on LGBTQ seniors on a fixed income. The second listening session of 10 participants was co-sponsored by POCAAN and Entre Hermanos and focused on LGBTQ people of color seniors.

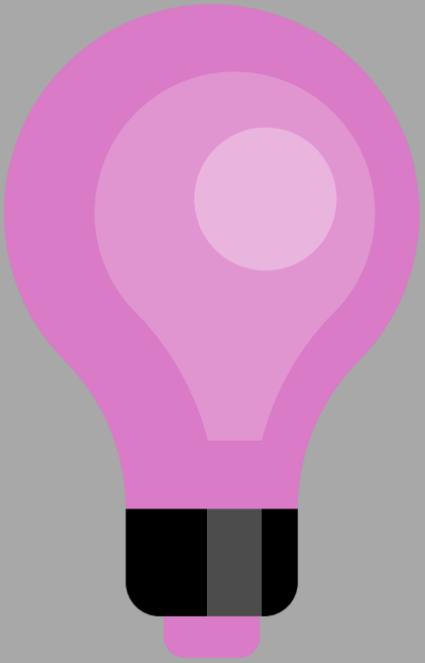

On the backside are community-led solutions to increase affordable housing and address challenges LGBTQ marginalized seniors face on a daily basis.
