

Grocery Businesses in King County that would potentially be affected by PO 2021-0093

The list below indicates businesses that could potentially be affected by Proposed Ordinance 2021-0093. Each business must do its own due diligence to determine if it would be affected by the proposed ordinance. The three factors that determine whether a business is affected are:

- **LOCATION.** The grocery business is located in unincorporated King County. (✓ = unincorporated King County)
- **SIZE.** The grocery business in unincorporated King County is either:
 - Over 10,000 sf and primarily engaged in the retail sale of groceries, or
 - Over 85,000 sf with 30% or more of floor area dedicated to the retail sale of groceries.
- **EMPLOYEE COUNT.** The grocery business:
 - Has at least one employee working at the location in unincorporated King County, and
 - Employs 500 or more employees worldwide regardless of where those employees are employed, including but not limited to chains, integrated enterprises or franchises associated with a franchisor or network of franchises that employ 500 or more employees in aggregate. (✓ = business appears to meet employee count threshold)
