KING COUNTY COUNCIL
CLERK

Dear Councilmember Ferguson:

It is my pleasure to forward to you my department's response to Proviso 2 (Section 43) of the 2010 Assessments Budget. This Department of Assessments Proviso (#2, Section 43) requested that the Assessor's office identify objective workload measures for all lines of business in the department and projects 2010 workload for each measure within each line of business.

Attached to this letter your will find the Assessor's final report. My office has also worked with the Executive's Office representative, Mr. Michael Jacobson, Section Manager for Performance Management in the review of this initial report.

As you can see from the information included in this report, our department's objective workload measures not only measure work load to meet our own department's priorities and statutorily mandated mission, but also align to the King County's County-wide strategic plan and the King County Council's priorities for governance in the 21st Century.

I look for a collaborative approach with all our governments' agencies and departments to meet the needs of our constituents and work towards the development of an integrated County-wide approach to objective/performance measure development and analysis.
