AN ORDINANCE that adopts the 2021-2022 Biennial Budget and makes appropriations for the operation of county agencies and departments and capital improvements for the fiscal biennium beginning January 1, 2021, and ending December 31, 2022.

PREAMBLE:

King County has an established record of fiscal responsibility, and this budget upholds that policy while also advancing the principles that define us, which are equity and social justice, housing those in need and increasing the availability of affordable housing, investing in mental and behavioral health, protecting our environment and ensuring the safety and health of all of the public. This budget continues the strong fiscal management that has led to the county's AAA credit rating while facing the financial crisis associated with coronavirus disease 2019 that is expected to last for most if not all of the coming biennium.

King County is not immune to suffering from the impacts of the coronavirus disease 2019 pandemic. The county's revenues have in many cases decreased at a time when the service needs of the community are increasing dramatically, particularly in mental and behavioral health. Despite the inability of the elected officials in the "other" Washington to negotiate an additional aid package to state and local governments through the country, King County continues to lead by placing the needs of the community at the top of our budgeting priorities. We applaud the executive and the executive's team for transmitting a budget that advances the county's mission in the face of coronavirus disease 2019. The executive's divest, invest and reimagine plan will transform the criminal legal system, taking a strong antiracism stance and funding cutting-edge programs to take this work into the future. The executive prioritizes combatting climate change and addresses infrastructure needs.

Black lives matter to King County, and this budget invests a significant amount of critical funding into the urban unincorporated areas with the highest populations of our Black, Indigenous and Persons of Color, also known as BIPOC, neighbors. This budget also advances the county's mission of equity and social justice in further ways by thoughtfully and efficiently reforming our criminal legal and juvenile justice system in partnering with community-based organizations to improve the lives of at-risk youth, interrupting the school-to-prison pipeline and committing funding for accessibility and inclusion of county services for people with disabilities.

During this tumultuous time caused by coronavirus disease 2019, we have taken a hard look at our transit operations to ensure people who need access to mobility have been able to get to where they need to go. At the same time, this budget lays out a solid framework and makes necessary investments to ensure our transit system provides affordable, convenient and equitable access throughout the county and remains one of the best in the nation and remains poised to grow when this crisis is behind us.

This budget also includes difficult budget reductions to most departments, many of them already overburdened by the inadequacies of state and federal support and regulation. Recognizing the intense and dire effects of coronavirus disease 2019 on mental and behavioral health, drug and alcohol dependency, domestic violence and housing instability, every effort was made to minimize reduction of these even more critical services. This includes using rainy day reserves, specific emergency funds that the county has never before used, to shore up services to the county's most vulnerable.

This budget also includes investments throughout all the council districts, including requiring development of a sustainability plan for roads and local government services in unincorporated King County as well as a thoughtful and collaborative approach addressing specific projects and

needs in every corner of the county.

This budget has been discussed, negotiated and adopted through hard work, shared values, extensive collaboration and the kind of consensus-based negotiations necessary to deliver innovation and strategies in a constrained revenue environment. The policies contained within this budget will drive the policy decisions facing the county for years to come.

SECTION 51. PUBLIC DEFENSE - From the general fund there is hereby appropriated to:

Public defense	\$153,411,000
----------------	---------------

The maximum number of FTEs for public defense shall be:	459.0
---	-------

ER1 EXPENDITURE RESTRICTION:

Of this appropriation, no moneys may be encumbered or expended for twenty FTE attorney positions that shall remain unfilled except as set out in this expenditure restriction. For purposes of determining the appropriate FTE attorney staffing level for the department of public defense during the biennium, the office of performance, strategy and budget's staffing model forecasted the department of public defense should have an average monthly total of 498 felony assignments ("the base load"). To avoid the impact of sustained but unpredictable increases of felony filings by the prosecuting attorney's office on the department of public defense, if in each month of a two month-rolling period, the total number of felony assignments meets or exceeds the base load, as adjusted in accordance with this expenditure restriction, by multiples of 8, then the department of public defense is authorized to expend or encumber moneys to fill one of the 20 FTE attorney positions for each multiple of 8 additional felony assignments. The initial base load number of 498 shall incrementally be increased by 8 for each FTE attorney position authorized in accordance with this expenditure restriction. For explanatory purposes only, if in January the number of felony assignments exceeds the base load of 498 by 9 and in February the number exceeding the base load is 17 felony assignments, then the department is authorized to fill 1 FTE attorney position because for a two-month period the base load was exceeded by one multiple of 8. In March the base load would be reset at an average of 506 felony assignments.

If in March the felony assignments exceed the adjusted based load of 506 by 9 felony assignments, then the department would be authorized to fill 1 of the remaining 19 FTE attorney positions because for the two-month period of February and March, the case load exceeded the adjusted base load of 506 felony assignments by a multiple of 8 and in April the base load would be adjusted to 514. If in April the number of felony assignments did not exceed the adjusted base load, which is 514, by a multiple of 8 and in May the number exceeding the adjusted base load is 12 felony assignments, then the department would not be authorized to fill 1 FTE attorney position because for a two-month period the adjusted base load was not exceeded by a multiple of 8 and the adjusted base load for June would remain at 514 felony assignments. If in June the base load, which is 514, was exceeded by 9 felony assignments, then the department would be authorized to fill one of the remaining 18 FTE attorney positions because for a two-month period of May and June the base load of 514 was exceeded by one multiple of 8 and the new adjusted base load for July would be 522.

The motion should reference the subject matter, the proviso's ordinance number, ordinance section

and proviso number in both the title and body of the motion.

The report shall include, but not be limited to, the following:

A.1. A historical overview of race-based restrictive real estate practices, together with identification of neighborhoods or geographic areas of application and racial groups targeted or impacted by such restrictive practices that limited or constrained the opportunity to purchase real estate based on the race of the prospective purchaser, or that had the effect of restricting purchase financing in "redlined" neighborhoods due to the presence of targeted demographic groups. For the purposes of this proviso, "race-based restrictive real estate practices" include, but are not limited to, race-based restrictive covenants and deed restrictions and restrictive lending practices commonly referred to as "redlining";

2. A discussion of the tolerance of such race-based restrictive real estate practices by jurisdictions of local government during the period of implementation of such practices;

3. A discussion of the effects of race-based restrictive real estate practices, with particular attention to: (a) how race-based restrictive covenants and deed restrictions contributed to restricting targeted or impacted racial populations to specific neighborhoods; and (b) how redlining practices limited real estate purchase opportunities within such neighborhoods; and

4. The estimated value of intergenerational wealth not realized by targeted or impacted racial groups based on factors including the size of the populations impacted and current rates of home ownership by racial group as compared to nontargeted, nonimpacted populations during the same time periods;

B. Trends in home ownership rates over the period of implementation of such race-based restrictive real estate practices for those targeted or impacted racial groups as compared to nontargeted or nonimpacted racial groups and the same comparison in home ownership rates between the groups currently;

C. An estimate of the number of persons, by targeted or impacted racial group, present in King County during the periods when race-based restrictive real estate practices were enforceable;

D. A discussion of the purpose and intent of the wastewater capacity charge, as a fee for connection to

the sewer system for those populations residing in structures connecting to the system for the first time after the initiation of the wastewater capacity charge in 1990, and the current and projected rate of the capacity charge through 2025; and

E. An analysis and recommendation on the establishment of a wastewater capacity charge exemption or reduced rate for identified populations, and identification of program considerations such as the estimated numbers of persons who may be eligible to participate in such exemption or reduced rate, including any changes to the King County Code or county policies necessary to implement an exemption or reduced-rate program.

If the recommendation of the executive is to propose an exemption program or a reduced rate, then the executive shall transmit a proposed ordinance to the council to effectuate the recommendation. Included in the qualification criteria for an exemption program or reduced rate shall be the requirements that applicants demonstrate that they, their progenitors, or both: (1) were alive and living in King County during the period that race-based restrictive real estate practices were enforceable; and (2) did not acquire residential real estate before February 1, 1990, the effective date of the initial capacity charge.

The executive should electronically file the report, the proposed ordinance, if applicable, and motion required by this proviso no later than June 1, 2022, with the clerk of the council, who shall retain the original and provide an electronic copy to all councilmembers, the council chief of staff and the lead staff for the regional water quality committee and the budget and fiscal management committee, or their successors.

**P3 PROVIDED FURTHER THAT:**

Of this appropriation, \$200,000 shall not be expended or encumbered until the executive transmits a report on the shift of the sewer rate cost burden to the single-family sector from the commercial/industrial/multifamily sector, and a motion that acknowledges receipt of the report and a motion acknowledging receipt of the report is passed by the council. The motion should reference the subject matter, the proviso's ordinance number, ordinance section and proviso number in both the title and body of the motion.

The report shall include, but not be limited to, the following:

A. A discussion of the history of, and rationale for, the sewer rate cost structure that has resulted in the shifting of the cost burden from commercial/industrial/multifamily housing sectors to single-family homeowners;

B. Options for alternative cost structures that would distinguish multifamily ratepayers from commercial and industrial ratepayers; and

C. A discussion of the appropriate balance of costs between the residential sector and the commercial/industrial sector in sewer rate revenues, and the criteria impacting that balance.

The executive should electronically file the report and motion required by this proviso no later than August 1, 2021, with the clerk of the council, who shall retain the electronic copy and provide an electronic copy to all councilmembers, the council chief of staff and the lead staff for the regional water quality committee and the budget and fiscal management committee, or their successors.

P4 PROVIDED FURTHER THAT:

Of this appropriation, \$300,000 shall not be expended or encumbered until the executive transmits a status report and a final report on toxics in King County wastewater effluent, evaluating the presence of toxic elements in the effluent of treatment plants, and a motion that acknowledges receipt of the final report and a motion acknowledging the receipt of the final report is passed by the council. The motion should reference the subject matter, the proviso's ordinance, ordinance section and proviso number in both the title and body of the motion.

The report shall include, but not be limited to, a summary of the results of an evaluation of toxic elements in the effluent of treatment plants. The evaluation shall comply with the following:

A. The evaluation shall be based on testing of the undiluted effluent of treatment plants, and shall be compared with chemical elements being discharged as industrial wastes into the wastewater collection system; sampling of effluents shall be timed to include at least one seasonal period of high winter discharge volumes;

B. The evaluation shall address and report on the presence, origin, volume, toxicity, environmental fate and impacts to the marine environment from toxics including metals, volatile organic compounds, chemicals of emerging concern and other toxics in the undiluted effluent of treatment plants;

C. While the evaluation shall be as broad as possible within costs, to the extent necessary to narrow the scope of the evaluation in light of the extensive range of potentially toxic elements, the focus shall be on:

1. Those elements considered most toxic to the marine environment generally; and
2. Those elements considered potentially toxic to Southern Resident Orcas and the hierarchy of marine species upon which the Southern Resident Orcas depend;

D. The evaluation shall assess whole effluent toxicity of the discharges, to assess the impact of the complex mix of toxic elements on marine species. The assessment shall be designed to indicate whether undiluted wastewater effluent represents a potential source of deleterious toxic influence to Puget Sound marine organisms, and to Southern Resident Orcas and the hierarchy of marine species upon which they depend particularly;

E. The evaluation shall include an assessment of the accumulation of those toxic elements in marine organisms, either directly or through bioaccumulation, and shall discuss potential impacts on metabolic processes, behavior and mortality. The assessment may be accomplished either through analysis of the tissue of selected species, or through bioaccumulation modeling;

F. The evaluation shall describe potential wastewater treatment technologies that have the capacity, in part or in whole, to limit or control the discharge of toxics in wastewater effluents to a significantly greater extent than is currently being accomplished at King County treatment plants; and

G. The evaluation shall be contracted to an entity with the capacity to address the required elements of the evaluation. Preference shall be given to entities with a demonstrated history of evaluating and reporting on the impacts of wastewater effluents on the marine environment, including impacts on Southern Resident Orcas or their prey species, and that have the capacity for modeling the bioaccumulation of toxics.

The executive should file electronically a report on the status of the evaluation project by December 31, 2021, and the final report and motion required by this proviso by June 30, 2022, with the clerk of the council, who shall retain the original and provide an electronic copy to all councilmembers, the council chief of staff and the lead staff for the regional water quality committee and the committee of the whole, or their successors.
