AN ORDINANCE related to COVID-19; making a supplemental appropriation of \$8,505,000 to several general fund agencies; making a supplemental appropriation of \$23,498,000 to several non-general fund agencies; making a supplemental appropriation of \$5,719,000 to capital improvement fund 3311; making a supplemental appropriation of \$25,199,000 to capital improvement fund 3951; amending the 2019-2020 Biennial Budget Ordinance, Ordinance 18835, Sections 7, 19, 20, 41, 44, 52, 72, 72, 73, 84, 85, 85, 95, 101, 116 and 126, as amended, and Attachment A, as amended, adding new sections to Ordinance 18835, as amended; and declaring an emergency.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. Findings:

A. On February 29, 2020, public health - Seattle & King County confirmed the first cases of the novel coronavirus ("COVID-19"), including one death, in the county.

B. COVID-19 is an infectious disease that can result in serious illness or death and can easily spread from person to person; and is classified by the World Health Organization as a pandemic that spreads easily from person to person and may result in serious illness or death.

C. On February 29, 2020, Washington state Governor Jay Inslee signed a proclamation declaring a state of emergency exists in all counties in Washington state due to the number of confirmed cases of COVID-19 in the state and directed that the plans and procedures of the Washington State Comprehensive Emergency

Management Plan be implemented. The Washington State Comprehensive Emergency Management Plan regards the role of local government in the event of an emergency as providing "a key role in communicating with the public and helping people, businesses, and organizations cope with the consequences of an emergency or disaster within the jurisdiction."

D. On March 1, 2020, King County executive Dow Constantine signed a proclamation of emergency enabling "extraordinary measures" to respond to the COVID-19 outbreak. On March 3, 2020, the council passed Motion 15610 affirming the executive's proclamation of emergency.

E. As a result of the continued worldwide spread of COVID-19, its significant progression in Washington state, and the high risk it poses to our most-vulnerable populations, on March 23, 2020, the Governor issued a "Stay Home - Stay Healthy" order prohibiting, with limited exceptions, all people in Washington state from leaving their homes or participating in social, spiritual and recreational gatherings of any kind regardless of the number of participants, and required all nonessential businesses in Washington state to cease operations except for performing basic minimal operations. In describing COVID-19's impact on public health and the economy, the order noted the pandemic's progression in Washington state that continues to threaten the economy and remains a public disaster affecting life, health, property or the public peace.

F. On April 2, 2020, the Governor extended the "Stay Home - Stay Healthy" order through May 4, 2020, because conditions necessitate that to protect the health and safety of all Washingtonians, the stringent restrictions imposed on the people of Washington must be continued.

G. As a result of the Governor's order, most businesses and organizations, including those that promote tourism and attract tourists, are closed to the public.

H. COVID-19 and the related preventative measures necessitated by COVID-19 are causing devastating economic effects in Washington and across the nation. Based on statistics from the U.S. Bureau of Labor Statistics, Washington's unemployment rate increased to 5.1 percent in March 2020 and the state's economy lost more than 11,000 jobs. As of April 23, 2020, 605,114 people in Washington filed for

unemployment benefits since mid-March. Those numbers are expected to surge in the coming weeks as previously ineligible employees such as independent contractors and part-time employees can start applying for benefits under the expansion of unemployment benefits.

I. As of April 23, 2020, across the nation, approximately 5.8 million unemployment claims were filed on average over the past four weeks. On April 15, 2020, the U.S. Department of Commerce reported the steepest monthly drop in retail sales since record keeping began nearly 30 years ago, and the Federal Reserve said industrial production had recorded its biggest decline since 1946.

J. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("the CARES Act"), a \$2.2 trillion federal stimulus package, became law. The CARES Act provides relief to a wide range of entities including \$350 billion in grants and loans for small businesses. Economic relief is in high demand. For example, only 20 days later, on April 16, 2020, the Small Business Administration announced its CARES Act small business loan program is out of funding, with more than 1.4 million loans approved. On April 24, 2020, the Paycheck Protection Program and Health Care Enhancement Act ("the PPP"), a second round of emergency economic stimulus funding of \$484 billion to replenish and supplement financial support for critical programs under the CARES Act, became law. The PPP is intended, among other things, to replenish the depleted small business loan program.

K. The CARES Act provides relief to state and local governments through a variety of federal programs, such as the Federal Emergency Management Agency, the Housing and Urban Development's Community Development Block Grants and Public Health and Social Services Emergency Fund through Health and Human Services, as well the Treasury Department's Coronavirus Relief Fund and the Federal Reserve's municipal liquidity facility, among others. Certain of these relief programs apply to the county, which the county will use to either pay or reimburse, or both pay and reimburse, the county for necessary expenditures incurred due to the public health emergency, including expenses preparing for, responding to and preventing COVID-19. During the week of April 20, 2020, the county received \$262 million from the Treasury

Department's Coronavirus Relief Fund.

L. The health of the county's economy is of deep concern. In the context of these unique circumstances, the county is responding by taking appropriate action to address the resulting economic impacts of COVID-19 and prevent small businesses from having to close permanently due to hardship associated with government-mandated closure of their business. The intent and purpose of the appropriation authorized in sections 3 and 12 of this ordinance is to ensure compliance with public health guidelines at the same time as contributing to the prevention of the region's economic collapse from the COVID-19 public health emergency, and thus serving a fundamental governmental purpose. In response, the county anticipates realizing additional public benefits to the region's economy of preventing job losses, evictions, foreclosures, bankruptcies and permanent business closures, while also maintaining current tax revenues. If the county does not take such reasonable action, it may face resistance in continued compliance with public health orders from small businesses and may bear the burden of reducing services and postponing or cancelling critical capital projects, among others, should tax revenues significantly decline.

M. The regional tourism industry and the continued viability of local institutions and organizations that promote tourism and attract tourists to support that industry are also of great concern to the county. The intent and purpose of the appropriation authorized in section 21 of this ordinance is to ensure compliance with public health guidelines at the same time as supporting the arts, arts, culture or science organizations that provide education programs, cultural, heritage, preservation and science organizations, as well as other tourist destinations and attractions including live music venues, to help prevent the industry's collapse, and thus serving a fundamental governmental purpose. The county anticipates such support will result in additional public benefits to the region's economy of preventing job losses, bankruptcies and permanent closures, while also maintaining the viability of the arts, cultural, heritage, preservation, science and tourism facilities and programs to be enjoyed by county residents and visitors and that will generate tax revenues in the county.

N. It is expected that even as the public health orders are lifted, the businesses and organizations that

make up this region's economy will continue to suffer the lingering effects of the "Stay Home - Stay Healthy" order. Investing now in small businesses as well as those businesses and organizations that promote tourism and attract tourists will be critical to revitalizing the region's economy.

O. The council recognizes the devastating impacts of COVID-19 throughout the county and relief is necessary for every community impacted, and particularly those historically disadvantaged communities that are more adversely impacted by COVID-19.

P. The well-being of homeless youth through twenty-four years old is of considerable concern during the COVID-19 public health emergency. The Strategic Plan for the Washington State Office of Homeless Youth defines homeless youth as "...the population age 12 through 24, who are living on their own, without a parent or guardian, and are without a safe, stable living arrangement." There is research showing that the adolescent brain is not fully developed until the age of twenty-five and that adolescence is a period during which the frontal lobe of the brain undergoes great change. King County's Youth Action Plan, adopted by Motion 14378, recognizes the critical brain development that occurs during the first two and a half decades of life and acknowledges the opportunity to have a positive impact in each youth's development during that time. The Best Starts for Kids Implementation Plan, approved by Ordinance 18373, notes that adolescence is a critical period when patterns of health-promoting or potentially health-damaging behaviors are established and discusses the potentially life-altering impacts of adverse childhood experiences, trauma and toxic stress. The emotional and physical disruption caused by the COVID-19 public health emergency has the potential to be traumatic to youth under twenty-five years old due to the developing nature of their brains. That is especially true for youth experiencing homelessness who are already at risk for adverse outcomes due to trauma. The intent and purpose of the appropriation in section 22 of this ordinance is to ensure compliance with public health guidelines at shelters serving homeless youth, as well as to provide needed support for homeless youth through twenty-four years old.

Q. All of the public health, economic stability, housing, programming, judicial and other costs proposed

in this ordinance are in the public interest, reasonable and necessary expenditures to prevent, prepare for and respond to COVID-19 and incurred due to the COVID-19 public health emergency. Such costs were not accounted for in the state or county budgets most recently approved and will be incurred by the county before December 31, 2020.

R. The council has authority to enact an emergency appropriation ordinance as set forth in Section 470.20 of the King County Charter.
