The executive shall review the requests in accordance with the department's or agency's work plan and determine whether to submit a supplemental appropriation request.

2. If the executive determines that the fund has unrestricted reserves, the executive may use these reserves to avoid making expenditure reductions; however, the use of reserves may not reduce the fund balances below target reserve amounts. If the use of reserves exceeds five percent of the total appropriation, the council shall be notified in the quarterly management and budget report. An expenditure shall not be made from any portion of an appropriation that has been assigned to a reserve status except as provided in this section.

B. All unexpended appropriations in noncapital appropriation ordinances lapse at the end of the fiscal period.

C. The executive may transfer appropriation authority from an emergent need contingency project to support a cost increase for a capital project in the same fund in accordance with the procedures in section 21 of this ordinance.

A contract made in violation of this subsection is null and void. ii. The costs associated with such a termination, if any, shall not exceed the appropriation for the biennium in which termination occurs;

b. The contract commits the county to expend funds beyond the biennium and the council, at the request of the executive, adopts an ordinance permitting the county to enter into the contract;

c. The contract commits the county to expend funds beyond the biennium and the contract is for a capital improvement project as authorized in a capital improvement program adopted by ordinance;

d. The contract implements a grant awarded to the county before the appropriation of grant funds, including appropriations that must be made in future years, if the council has received prior notice of the grant application and if either of the following conditions are met: all of the funds to be appropriated under the contract will be from the granting agency; or all financial obligations of the county under the contract are subject to appropriation; or

e. The contract is an emergency contract as authorized by K.C.C. 2.93.080.

3. In accordance with Section 495 of the King County Charter, real property shall not be leased to the county for more than one year unless it is included in a capital budget appropriation ordinance.

4.a. Any lease or license for the possession or use of real property by the county with a term, including any potential options, extensions or renewals, longer than five years must be approved by the council before execution by the executive.

E. A capital project budget and phases of a capital project shall be prepared by the user agency. The capital project shall be managed by the implementing agency.

F. Ongoing review of capital projects for which moneys have been appropriated shall be coordinated by the office of performance, strategy and budget or its successor. For capital projects involving more than one agency, representatives from the agencies shall consult with the office of performance, strategy and budget or its successor. The office of performance, strategy and budget shall review capital projects for compliance with scope, budget and schedule.

NEW SECTION. SECTION 21. There is hereby added to the chapter established in section 9 of this ordinance a new section to read as follows:

A. An emergent need contingency project may be included in any capital improvement fund under section 14 of this ordinance.

B. Emergent need contingency projects must be included in the proposed capital fund's six year capital improvement program and be consistent with the proposed fund financial plan.

C. An emergent need contingency project amount shall not exceed five percent of the total proposed capital fund amount anticipated for the fiscal period or twenty million dollars, whichever is less.

D.1. For capital projects other than mandatory phased appropriation projects, appropriation authority may be transferred from an emergent need contingency project to another capital project within the same fund to address costs not anticipated at the time of budget adoption. Capital projects requiring a transfer of less than fifteen percent of total project costs, a scope change or a schedule deviation must be reported in the quarterly management and budget report under section 25 of this ordinance.

2. For transfers of fifteen percent or more of total project costs, the director of the office of

performance, strategy and budget or its successor shall be responsible for filing a capital project exception notification in the form of a paper original and an electronic copy with the clerk of the council, who shall retain the original and provide an electronic copy to all councilmembers and the lead staff for the budget and fiscal management committee or its successor. Councilmembers may object to the proposed transfer of emergent need contingency appropriation to another project in the same fund at either of those two council meetings. If an objection is not made at either council meeting, the transfer may proceed. If an objection to the transfer of emergent need contingency is made at a council meeting, the transfer may not proceed. The clerk of the council shall notify the director of the office of performance, strategy and budget or its successor of the council's action.

NEW SECTION. SECTION 22. There is hereby added to the chapter established in section 9 of this ordinance a new section to read as follows:

A grant contingency project may be included in a capital improvement fund appropriation in anticipation of projects to be supported by grant revenues or other external funding sources. A grant contingency project shall not be approved without documentation, such as grant applications or records of previous grant awards, to support the anticipated project appropriation. Appropriations for grant contingency projects shall be expended or encumbered only in the amount of revenues awarded from external funding sources or a combination of external funds received and county matching revenues.

SECTION 23. Ordinance 620, Section 4, as amended, and K.C.C. 4.04.050 are hereby repealed.

a. conversion of residential units (single or multiple) to include additional customers or equivalents, or both; and

b. expansions in commercial or industrial activity;

3. Septic to sewer conversions; and

4. I/I flows from the new connections and newly constructed conveyance systems.

P. "Nonpotable use" means using reclaimed water for nondrinking water applications that may include but are not limited to irrigation, industrial processing, agricultural uses and stream augmentation.

Q. "Operational master plan" means a comprehensive plan for an agency setting forth how the organization will operate now and in the future. An operational master plan shall include the analysis of alternatives and their life cycle costs to accomplish defined goals and objectives, performance measures, projected workload, needed resources, implementation schedules and general cost estimates. The operational master plan shall also address how the organization would respond in the future to changed conditions.

R. "Reclaimed water" means wastewater that is treated to a sufficiently high level that it can be safely used for intended purposes.

~~((R-))~~ S. "Residential customer equivalent" means the factor in cubic feet of water used to describe the discharge from a single-family residence. Commercial and industrial customers are converted to residential customer equivalents based on the volume of water consumption.

~~((S-))~~ T. "RWQC" means the regional water quality committee, which is a regional committee as defined by Section 270 of the King County Charter, with powers and duties to "develop, review and recommend ordinances and motions adopting, repealing, or amending ~~((county-wide))~~ countywide policies and plans relating to the subject matter area for which a regional committee has been established."

~~((T-))~~ U. "RWSP" means the regional wastewater services plan.

~~((U-))~~ V. "Sewer rate" means the amount in dollars, charged to a residential customer equivalent each

month for use of the wastewater system.

((V-)) W. "Shall" and "will" in a policy mean that it is mandatory to carry out the policy. "Should" in a policy provides noncompulsory guidance and establishes some discretion in making decisions. "May" in a policy means that it is in the interest of the county or other named entity to carry out the policy but there is total discretion in making decisions.

((W-)) X. "Wastewater revenues" means revenues from the monthly sewer rate, capacity charge, grants and other revenues, such as interest income and charges for services, available for the wastewater system.

((X-)) Y. "Wastewater system" means all the county's water pollution abatement facilities, together with all lands, property rights, equipment and accessories necessary for those facilities, and any other infrastructure, and all operations and programs provided by the county under chapter 35.58 RCW, including but not limited to: 1. conveyance of influent from component agencies; 2. treatment of sewage; 3. disposal of treated effluent; 4. production and recycling of biosolids; 5. regulation of I/I; 6. control of combined sewer overflows; and 7. production of reclaimed water.

((Y-)) Z. "Water reuse" means using reclaimed water.

SECTION 76. Ordinance 13680, Section 17, and K.C.C. 28.86.170 are each hereby amended to read as follows:

The capital improvement program required to implement the comprehensive water pollution abatement plan, as amended, including the RWSP, a supplement to the comprehensive water pollution abatement plan, as amended, shall be prepared pursuant to ((K.C.C. 4.04.200 through 4.04.270)) K.C.C. 4A.xx (the chapter established in section 9 of this ordinance).

SECTION 77. Ordinance 13680, Section 18, as amended, and K.C.C. 28.86.180 are each hereby amended to read as follows:

A. The RWSP operational master plan that was adopted by council in December 1999, shall be updated on a regular basis following substantive adopted policy revisions to the RWSP, and shall meet the requirements

of ((K.C.C. chapter 4.04)) K.C.C. 4A.xx (the chapter established in section 9 of this ordinance).

B. The operational master plan shall contain projects related to major program elements and shall further define as necessary the major projects, projected capacity, milestones, projected completion dates, and estimated costs.

1. Treatment capacity.

a. Population and employment growth is projected to require the wastewater system capacity to expand from two hundred forty-eight mgd to three hundred four mgd by 2030. The estimated cost and list of treatment facilities and improvements to achieve this expanded capacity by 2030, shall be included in future RWSP operational master plans, summarized in RWSP annual reports and comprehensive reviews as outlined in K.C.C. 28.86.165.

b. The Brightwater treatment plant at the Route 9 site shall be built with a capacity of thirty-six mgd by 2010 or as soon thereafter as possible to handle wastewater flows from a new north service area as defined in the plan. This plant would provide secondary treatment and would discharge treated effluent to Puget Sound. To facilitate the production of reclaimed water, the possibility of upgrading to tertiary treatment with a freshwater outfall should be investigated ((prior to)) before subsequent expansions.

c. Expanding the treatment capacity at the south treatment plant from one hundred fifteen mgd to one hundred thirty-five mgd by 2029. This expansion would handle increased wastewater flows from the southern and eastern portions of the service area. Some or all of the plant capacity could also be upgraded to tertiary treatment, to meet water quality standards or facilitate water reuse, as part of future expansions or in additions to the secondary level of treatment using available land reserves at the plant site.

d. The west point treatment plant will be maintained at its capacity of one hundred thirty-three mgd, primarily to serve the city of Seattle and handle flows from the combined sewers in the area.

2. Conveyance facilities.

a. Conveyance facilities are to be configured, sized, and scheduled to support the treatment plants by

conveying wastewater to and treated effluent from the plants. The estimated cost, schedule and list of conveyance facility improvements, shall be included in future RWSP operational master plans, summarized in RWSP annual reports and comprehensive reviews as outlined in K.C.C. 28.86.165.

b. King County will construct additional conveyance improvements (e.g., increasing conveyance and pump station capacity and extending conveyance) to accommodate increased flows in other parts of the service area to serve population growth in the smaller wastewater service basins and to prevent improper discharges from the sanitary system.

3. I/I control.

a. The I/I control program shall be implemented incrementally and be limited to projects that prove to be most cost effective. The estimated cost, schedule and list of I/I improvement projects, shall be included in future RWSP operational master plans, summarized in RWSP annual reports and comprehensive reviews as outlined in K.C.C. 28.86.165.

b. The goal of the I/I control program is to reduce the expense of conveyance system improvements over time. Every ten years, beginning in 2010, the wastewater treatment division will conduct system monitoring to update hydraulic models and measure the effectiveness of I/I control and reduction in the system.

4. CSOs.

a. The county shall implement CSO control projects consistent with the schedule outlined in the county's long-term CSO control plan as approved in Attachment A to Ordinance 14713 and the Environmental Protection Agency/Washington state Department of Ecology Consent Decree.

b. Consistent with the Environmental Protection Agency/Washington state Department of Ecology Consent Decree, the county may request refinements to the CSO program, including changes to the sequencing of projects, in response to changing conditions, new information and new regulations.

5. Biosolids.

a. King County will continue to produce Class B biosolids using anaerobic digestion at the south and

west treatment plants and to implement the same process at the Brightwater treatment plant until a new technology can be used reliably. The plan also proposes that the county continue to evaluate alternative technologies to reduce the water content of biosolids while preserving their marketability. The primary objective of this evaluation will be to identify alternatives to digesters at the west treatment plant, a condition of the West Point Settlement Agreement.

b. As part of ongoing planning for its treatment plants, King County will periodically evaluate conventional, alternative and new solids processing technologies using criteria such as product quality (class A or B), marketability, odor and other potential community impacts, impact on sewer rates, reliability of the treatment process, amount of land needed for the treatment facility and the number of truck trips needed to transport the biosolids produced. Based on the results of this evaluation and public comment, the executive should recommend one of three biosolids handling scenarios at any of all of the treatment plants:

- (1) continue using anaerobic digestion;
- (2) supplement anaerobic digestion with another treatment technology; or
- (3) replace anaerobic digestion with another treatment technology.

c. The estimated cost, schedule and list of biosolids improvement projects, shall be included in future RWSP operational master plans, summarized in RWSP annual reports and comprehensive reviews as outlined in K.C.C. 28.86.165.

d. The county should continue using a public-private partnership approach to recycling biosolids such as using biosolids on working forests in King County to enhance wildlife habitat and generate long-term income from selective timber harvests.

6. Water reuse.

a. The south and west treatment plants should continue to produce reclaimed water for non-potable uses and explore the production of reclaimed water at new facilities. King County will explore the production of reclaimed water at new facilities and work with water suppliers to plan and implement an accelerated water

reuse program that could augment existing water supplies.

b. If a public education and involvement program on water reuse is to be developed and implemented, it shall be coordinated with water conservation education programs. The estimated cost, schedule and list of water reuse projects, shall be included in future RWSP operational master plans, summarized in RWSP annual reports and comprehensive reviews as outlined in K.C.C. 28.86.165.

7. Community treatment systems.

a. Any operations under these policies shall require an operational master plan as described in K.C.C. 4.04.200.C.1. Failure to submit such a plan shall cause the affected capital improvement project to be out of compliance with these policies.

b. In addition to the requirements of K.C.C. 4.04.200.C.1, an operational master plan submitted under these policies shall include:

(1) description of career retention programs that are to be structured in a manner consistent with the King County/metro merger, labor law and King County's labor contracts;

(2) an engineering evaluation that confirms that the selected projects are most cost effective and technically efficacious and consistent with King County growth management policies for the surrounding area; and

(3) explanation of how King County participation in community treatment systems is consistent with other water pollution abatement activities of the department of natural resources and parks, which currently operates centralized wastewater treatment facilities as contrasted with community treatment systems.

SECTION 78. A. No later than January 31, 2015, the executive shall transmit to the council for approval by ordinance any lease or license for the possession or use of real property by the county or any decision to extend such a lease or license, as described in section 20.D.4. of this ordinance, that:

1. Before the effective date of this ordinance was executed by the executive; and
2. Under section 20.D.4 of this ordinance would have required prior council approval before the

execution by the executive.

B. Failure to comply with this section may result in the council withholding or disappropriating moneys for the leases or licenses.
