AN ORDINANCE relating to comprehensive planning and zoning, amending policies and regulations relating to active recreation facilities in the agricultural production district to comply with the order of the Central Puget Sound Growth Management Hearings Board in Green Valley et al. v. King County, CPSGMHB Case No. 98-3-0008c, Final Decision and Order (1998) and the order of the Washington state supreme court in King County v. Central Puget Sound Growth Management Hearings Board, 142 Wn.2d 543, 14 P.3d 133 (2000); amending Ordinance 10870, Section 331, as amended, and K.C.C. 21A.08.040, Ordinance 263, Art. 2, Section 1, as amended, and K.C.C. 20.12.010, and declaring an emergency.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. Findings:

A. In 1997, King County adopted Ordinances 12927 and 12930, which among other things allowed active recreational uses on agricultural lands under limited circumstances. The provisions of these ordinances that allowed active recreational uses on agricultural lands (the “agricultural lands amendments”) were challenged to the Central Puget Sound Growth Management Hearings Board ("board").

B. On July 29, 1998, the board found that the agricultural lands amendments failed to comply with the Growth Management Act, invalidated the agricultural lands amendments, and ordered the county to repeal the agricultural lands amendments.

C. King County successfully appealed the board’s decision to King County superior court. On June 17, 1999, King County superior court entered an order reversing the board’s decision.

D. The King County superior court decision was in turn appealed to the Washington state supreme court. On December 14, 2000, the Washington state supreme court issued its decision reversing the superior court decision and reinstating the board’s decision.

E. In the summer of 2001, the state of Washington has, on two separate occasions, ruled King County ineligible for state monies on the grounds that the county is allegedly out of compliance with the Growth Management Act, based on the county’s failure to legislatively repeal the agricultural lands amendments. Currently twenty-seven million dollars in loan funds are at risk comprised of seventeen million dollars from the Public Works Trust Fund, administered by the Washington state Public Works Board, for the “Denny Way/Lake Union CSO Project Final Design and Program Consultant Refinance” and ten million dollars from the Washington state Water Pollution Control Revolving Fund, administered by the Washington state Department of Ecology, for the “North Creek Storage Facility Project.” Additionally, a one-hundred-twenty-thousand-dollar grant for the county’s Dockton Boat Launch Improvements from the Interagency Committee for Outdoor Recreation may be in jeopardy.

F. Immediate action to legislatively repeal the 1997 agricultural lands amendments is necessary in order to maintain county eligibility for significant state moneys.

G. The amendments in this ordinance are adopted on an interim basis. A public hearing will be held within sixty days of adoption in accordance RCW 35.70A.390.

SECTION 2. Ordinance 10870, Section 331, as amended, and K.C.C. 21A.08.040 are each hereby amended to read as follows:

B. Development conditions.

1. The following conditions and limitations shall apply, where appropriate:

- a. No stadiums on sites less than ten acres;
- b. Lighting for structures and fields shall be directed away from residential areas;
- c. Structures or service yards shall maintain a minimum distance of fifty feet from property lines adjoining residential zones, except for structures in on-site recreation areas required in K.C.C. 21A.14.180 and 21A.14.190. Setback requirements for structures in these on-site required recreation areas shall be maintained in accordance with K.C.C. 21A.12.030;

d. Facilities in the RA-10, RA-20, F, A or M zones, or in a designated rural forest focus area, shall be limited to trails and trailheads ((and active recreation facilities)), including related accessory uses such as parking and sanitary facilities. ((Active recreation facilities shall be limited to those properties within the agricultural production district (APD) that are acquired before designation of the APD, using voter-approved recreation funds, state funds mandated for recreation funds or King County board of recreation funds. Active recreation uses allowed on parcels as noted in this subsection B.1.d may be transferred to other parcels within the same APD. However, active recreation from lands outside of the APD shall not be relocated to any parcel within an APD. Where those facilities are permitted within an APD, the following deed restrictions shall be applied:

- (1) active recreation uses shall be designed in a manner that visually screens adjacent agricultural uses

from park users and that restricts physical trespass onto adjacent agricultural production district properties;

(2) buildings associated with recreational uses shall be limited to restroom facilities, picnic shelters and storage/maintenance facilities for equipment used on-site;

(3) no use that permanently compacts, removes, sterilizes, pollutes or otherwise materially impairs the future use of the soil for raising agricultural crops shall be allowed;

(4) any soil surfaces temporarily disturbed through construction activities shall be restored in a manner consistent with agricultural uses, including restoration of the original soil horizon sequence, as soon as practical following the disturbance;

(5) access to recreational uses shall be designed to minimize impact on the surrounding agricultural production district and should be limited to direct access along district boundaries whenever feasible; and

(6) although the recreational use of agricultural production district properties may be long term, the use shall be recognized as an interim use of the production district's prime agricultural soils. As such, any acquisition funding or policy restrictions for the recreational use of the property shall be viewed as subordinate to the county's prior commitment to the preservation of prime agricultural soils and the viability of local agricultural production. If the county declares through action of the King County council a critical shortage of agricultural soils to accommodate an active soil-dependent agricultural proposal, the county shall initiate a process to relocate any recreational uses off the subject property and to make the property available for re-establishment of agricultural activities)); and

e. Overnight camping is allowed only in an approved campground.

2. Recreational vehicle parks are subject to the following conditions and limitations:

a. The maximum length of stay of any vehicle shall not exceed one hundred eighty days during a three-hundred-sixty-five-day period;

b. The minimum distance between recreational vehicle pads shall be no less than ten feet; and

c. Sewage shall be disposed in a system approved by the Seattle-King County health department.

3. Limited to day moorage. The marina shall not create a need for off-site public services beyond those already available before the date of application.

4. Not permitted in the RA-10 or RA-20 zones. Limited to recreation facilities subject to the following conditions and limitations:

a. The bulk and scale shall be compatible with residential or rural character of the area;

b. For sports clubs, the gross floor area shall not exceed ten thousand square feet unless the building is on the same site or adjacent to a site where a public facility is located or unless the building is a nonprofit facility located in the urban area; and

c. Use is limited to residents of a specified residential development or to sports clubs providing supervised instructional or athletic programs.

5. Limited to day moorage.

6. a. Adult entertainment businesses shall be prohibited within three hundred thirty feet of any property zoned RA, UR or R or containing schools, licensed daycare centers, public parks or trails, community centers, public libraries or churches. In addition, adult entertainment businesses shall not be located closer than three thousand feet to any other adult entertainment business. These distances shall be measured from the property line of the parcel or parcels proposed to contain the adult entertainment business to the property line of the parcels zoned RA, UR or R or that contain the uses identified in this subsection B.6.a.

b. Adult entertainment businesses shall not be permitted within an area likely to be annexed to a city subject to an executed interlocal agreement between King County and a city declaring that the city will provide opportunities for the location of adult businesses to serve the area. The areas include those identified in the maps attached to Ordinance 13546.

7. Clubhouses, maintenance buildings, equipment storage areas and driving range tees shall be at least fifty feet from residential property lines. Lighting for practice greens and driving range ball impact areas shall be directed away from adjoining residential zones. Applications shall comply with adopted best management practices for golf course development. Within the RA zone, those facilities shall be permitted only in the RA-5

and RA-2.5 zones. Not permitted in designated rural forest focus area, regionally significant resource areas or locally significant resource areas. Ancillary facilities associated with a golf course are limited to practice putting greens, maintenance buildings and other structures housing administrative offices or activities that provide convenience services to players. These convenience services are limited to a pro shop, food services and dressing facilities and shall occupy a total of no more than ten thousand square feet. Furthermore, the residential density that is otherwise permitted by the zone shall not be used on other portions of the site through clustering or on other sites through the transfer of density provision. d. Subject to the licensing provisions of K.C.C. Title 6.

10. a. Only in an enclosed building, and subject to the licensing provisions of K.C.C. Title 6;

b. Indoor ranges shall be designed and operated so as to provide a healthful environment for users and operators by:

(1) installing ventilation systems that provide sufficient clean air in the user's breathing zone, and

(2) adopting appropriate procedures and policies that monitor and control exposure time to airborne lead for individual users.

11. Only as accessory to a park or in a building listed on the National Register as an historic site or designated as a King County landmark subject to K.C.C. chapter 21A.32.
