B. Development conditions.

1. Except bed and breakfast guesthouses.

2. In the forest production district, the following conditions apply:

a. Site disturbance associated with development of any new residence shall be limited to three acres.

Site disturbance shall mean all land alterations including, but not limited to, grading, utility installation, landscaping, clearing for crops, on-site sewage disposal systems((;)) and driveways. Additional site disturbance for raising livestock, up to the smaller of thirty-five percent of the lot or seven acres, may be approved ((~~provided that~~)) only if a farm management (conservation) plan is prepared ((~~pursuant to the requirements of~~)) in accordance with K.C.C. chapter 21A.30. Animal densities shall be based on the area devoted to animal care and not the total area of the lot;

b. A forest management plan shall be required for any new residence in the forest production district, which shall be reviewed and approved by the King County department of natural resources and parks prior to building permit issuance; and

c. A fire protection plan for the subject property is required and shall be reviewed and approved by the Washington state department of natural resources with the concurrence of the fire marshal for each residential use. This plan shall be developed in such a manner as to protect the adjoining forestry uses from a fire that might originate from the residential use. This plan shall provide for setbacks from existing forestry uses and maintenance of approved fire trails or other effective fire line buffers on perimeters with forest land.

3. Only as part of a mixed use development subject to the conditions of K.C.C. chapter 21A.14, except that in the NB zone on properties with a land use designation of commercial outside of center (CO) in the urban areas, stand-alone townhouse developments are permitted subject to K.C.C. 21A.12.040, 21A.030, 21A.14.060 and 21A.14.180.

4.a. Only in a building listed on the National Register as an historic site or designated as a King County landmark subject to the provisions of K.C. C. 21A.32.

b. In the R-1 zone, apartment units are permitted, provided that:

(1) ~~((†))~~The proposal shall be subject to a conditional use permit when exceeding base density,

(2) ~~((a))~~At least fifty percent of the site is constrained by unbuildable sensitive areas. For purposes of this section, unbuildable sensitive areas shall include wetlands, streams and slopes forty percent or steeper and associated buffers; and

(3) ~~((†))~~The density does not exceed a density of eighteen units per acre of net buildable area as defined in K.C.C. 21A.06.797; or

c. In the R-4 through R-8 zones, apartment units are permitted, provided that the proposal shall be subject to a conditional use permit when exceeding base density, and provided that density does not exceed a density of eighteen units per acre of net buildable area defined in K.C.C. 21A.06.797.

5. Apartment units are permitted outright as follows:

a. In the R-1 zone when at least fifty percent of the site is constrained by unbuildable sensitive areas which for purposes of this section, includes wetlands, streams and slopes forty percent or steeper and associated buffers, and provided that the density does not exceed a density of eighteen units per acre of net buildable area as defined in K.C.C. 21A.06.797; or

b. In the R-4 through R-8 zones, provided that the density does not exceed eighteen units per acre of net buildable areas as defined in K.C.C. 21A.06.797.

6. Only as an accessory to a school, college, university or church.

7.a. Accessory dwelling units:

(1) only one accessory dwelling per primary single detached dwelling unit;

(2) only in the same building as the primary dwelling unit on an urban lot that is less than ten thousand square feet in area, on a rural lot that is less than the minimum lot size, or on a lot containing more than one primary dwelling;

(3) ~~((†))~~The primary dwelling unit or the accessory dwelling unit shall be owner occupied;

(4)(a) ~~((e))~~One of the dwelling units shall not exceed a floor area of one thousand square feet except when one of the dwelling units is wholly contained within a basement or attic, and

(b) ~~((w))~~When the primary and accessory dwelling units are located in the same building, only one entrance may be located on each street side of the building;

(5) ~~((o))~~One additional off-street parking space shall be provided;

(6) ~~((t))~~The accessory dwelling unit shall be converted to another permitted use or shall be removed if one of the dwelling units ceases to be owner occupied; and

(7) ~~((a))~~An applicant seeking to build an accessory dwelling unit shall file a notice approved by the department of executive services, records, elections and licensing services division, which identifies the dwelling unit as accessory. The notice shall run with the land. The applicant shall submit proof that the notice was filed before the department shall approve any permit for the construction of the accessory dwelling unit. The required contents and form of the notice shall be set forth in administrative rules. If an accessory dwelling unit in a detached building in the ~~((R))~~rural zone is subsequently converted to a primary unit on a separate lot, neither the original lot or the new lot may have an additional detached accessory dwelling unit constructed unless the lot is at least twice the minimum lot area required in the zone.

(8) ~~((a))~~Accessory dwelling units and accessory living quarters are not allowed in the F zone.

(9) ~~((i))~~In the A zone, one accessory dwelling unit is allowed on any lot under twenty acres in size, and two accessory dwelling units are allowed on lots that are twenty acres or more, provided that the accessory dwelling units are occupied only by farm workers and the units are constructed in conformance with the state Building Code.

b. One single or twin engine, noncommercial aircraft shall be permitted only on lots that abut, or have a legal access that is not a county right-of-way, to a waterbody or landing field, provided there is:

(1) no aircraft sales, service, repair, charter or rental; and

(2) no storage of aviation fuel except that contained in the tank or tanks of the aircraft.

- c. Buildings for residential accessory uses in the RA and A zone shall not exceed five thousand square feet of gross floor area, except for buildings related to agriculture or forestry.
- 8. Mobile home parks shall not be permitted in the R-1 zones.
- 9. Only as an accessory to the permanent residence of the operator, and
 - a. Serving meals to paying guests shall be limited to breakfast; and
 - b. There shall be no more than five guests per night.
- 10. Only as an accessory to the permanent residence of the operator, and
 - a. Serving meals to paying guests shall be limited to breakfast; and
 - b. The number of persons accommodated per night shall not exceed five, except that a structure that satisfies the standards of the Uniform Building Code as adopted by King County for R-1 occupancies may accommodate up to ten persons per night.
- 11. Only if part of a mixed use development, and subject to the conditions of K.C.C. 21A.08.030B.10.
- 12. Townhouses are permitted, but shall be subject to a conditional use permit if exceeding base density.
- 13. Required before approving more than one dwelling on individual lots, except on lots in subdivisions, short subdivisions or binding site plans approved for multiple unit lots, and except as provided for accessory dwelling units in K.C.C. 21A.08.030B.7.
- 14. No new mobile home parks are allowed in a rural zone.
- 15. Limited to domestic violence shelter facilities.
- 16. Only in the R4-R8 zones limited to:
 - a. developments no larger than one acre;
 - b. not adjacent to another cottage housing development such that the total combined land area of the cottage housing developments exceeds one acre; and
 - c. All units must be cottage housing units with no less than three units and no more than sixteen

units, provided that if the site contains an existing home that is not being demolished, the existing house is not required to comply with the height limitation in subsection B.25. of this section or the floor area and footprint limits in section 18.B. of this ordinance.

SECTION 11. Ordinance 10870, Section 331, as amended, and K.C.C. 21A.08.040 are each hereby amended to read as follows:

GENERAL CROSS REFERENCE Land Use Table Instructions, see K.C.C. 21A.08.020 and 21A.02.070; Development Standards, see K.C.C. <u>chapters</u> 21A.12 through 21A.30; General Provisions, see K.C.C. <u>chapters</u> 21A.32 through 21A.38; Application and Review Procedures, see K.C.C. <u>chapters</u> 21A.40 through 21A.44; (*) Definition of this specific land use, see K.C.C. <u>chapter</u> 21A.06.

B. Development conditions.

1. The following conditions and limitations shall apply, where appropriate:

- a. ((N))no stadiums on sites less than ten acres;
- b. Lighting for structures and fields shall be directed away from residential areas;
- c. Structures or service yards shall maintain a minimum distance of fifty feet from property lines

adjoining residential zones, except for structures in on-site recreation areas required in K.C.C. 21A.14.180 and 21A.14.190. Setback requirements for structures in these on-site required recreation areas shall be maintained in accordance with K.C.C. 21A.12.030;

d. Facilities in the A zone shall be limited to trails and trailheads, including related accessory uses such as parking and sanitary facilities; and

- e. Overnight camping is allowed only in an approved campground.

2. Recreational vehicle parks are subject to the following conditions and limitations:

a. The maximum length of stay of any vehicle shall not exceed one hundred eighty days during a three-hundred-sixty-five-day period;

- b. The minimum distance between recreational vehicle pads shall be no less than ten feet; and

c. Sewage shall be disposed in a system approved by the Seattle-King County health department.

3. Limited to day moorage. The marina shall not create a need for off-site public services beyond those already available before the date of application.

4. Not permitted in the RA-10 or RA-20 zones. Limited to recreation facilities subject to the following conditions and limitations:

- a. The bulk and scale shall be compatible with residential or rural character of the area;
- b. For sports clubs, the gross floor area shall not exceed ten thousand square feet unless the building

is on the same site or adjacent to a site where a public facility is located or unless the building is a nonprofit facility located in the urban area; and

c. Use is limited to residents of a specified residential development or to sports clubs providing supervised instructional or athletic programs.

5. Limited to day moorage.

6.a. Adult entertainment businesses shall be prohibited within three hundred thirty feet of any property zoned RA, UR or R or containing schools, licensed daycare centers, public parks or trails, community centers, public libraries or churches. In addition, adult entertainment businesses shall not be located closer than three thousand feet to any other adult entertainment business. These distances shall be measured from the property line of the parcel or parcels proposed to contain the adult entertainment business to the property line of the parcels zoned RA, UR or R or that contain the uses identified in this subsection B.6.a.

b. Adult entertainment businesses shall not be permitted within an area likely to be annexed to a city subject to an executed interlocal agreement between King County and a city declaring that the city will provide opportunities for the location of adult businesses to serve the area. The areas include those identified in the maps attached to Ordinance 13546.

7. Clubhouses, maintenance buildings, equipment storage areas and driving range tees shall be at least fifty feet from residential property lines. Lighting for practice greens and driving range ball impact areas shall be directed away from adjoining residential zones. Applications shall comply with adopted best management practices for golf course development. Within the RA zone, those facilities shall be permitted only in the RA-5 and RA-2.5 zones. Not permitted in designated rural forest focus area, regionally significant resource areas or locally significant resource areas. Ancillary facilities associated with a golf course are limited to practice putting greens, maintenance buildings and other structures housing administrative offices or activities that provide convenience services to players. These convenience services are limited to a pro shop, food services and dressing facilities and shall occupy a total of no more than ten thousand square feet. Furthermore, the

residential density that is otherwise permitted by the zone shall not be used on other portions of the site through clustering or on other sites through the transfer of density provision. This residential density clustering or transfer limitation shall be reflected in a deed restriction that is recorded at the time applicable permits for the development of the golf course are issued.

8. Limited to a golf driving range only as:

- a. ~~((A))~~an accessory to golf courses; or
- b. ~~((A))~~an accessory to a large active recreation and multiuse park.

9.a. New structures and outdoor ranges shall maintain a minimum distance of fifty feet from property lines adjoining residential zones, but existing facilities shall be exempt.

b. Ranges shall be designed to prevent stray or ricocheting projectiles, pellets or arrows from leaving the property.

c. Site plans shall include: safety features of the range; provisions for reducing sound produced on the firing line; elevations of the range showing target area, backdrops or butts; and approximate locations of buildings on adjoining properties.

d. ~~((S))~~subject to the licensing provisions of K.C.C. Title 6.

10.a. Only in an enclosed building, and subject to the licensing provisions of K.C.C. Title 6;

b. Indoor ranges shall be designed and operated so as to provide a healthful environment for users and operators by:

- (1) installing ventilation systems that provide sufficient clean air in the users breathing zone, and
- (2) adopting appropriate procedures and policies that monitor and control exposure time to airborne lead for individual users.

11. Only as accessory to a park or in a building listed on the National Register as an historic site or designated as a King County landmark subject to K.C.C. chapter 21A.32.

12. Only as accessory to a nonresidential use established through a discretionary permit process, if the

scale is limited to ensure compatibility with surrounding neighborhoods. This condition applies to the UR zone only if the property is located within a designated unincorporated ~~((R))~~rural ~~((T))~~town.

13. Subject to the following:

- a. The park shall abut an existing park on one or more sides, intervening roads notwithstanding;
- b. No bleachers or stadiums are permitted if the site is less than ten acres, and no public amusement devices for hire are permitted;
- c. Any lights provided to illuminate any building or recreational area shall be so arranged as to reflect the light away from any premises upon which a dwelling unit is located; and
- d. All buildings or structures or service yards on the site shall maintain a distance not less than fifty feet from any property line and from any public street.

14. Excluding amusement and recreational uses classified elsewhere in this chapter.

15. Limited to golf driving ranges and subject to subsection B.7. of this section.

16. Subject to the following conditions:

- a. The length of stay per party in campgrounds shall not exceed one hundred eighty days during a three hundred sixty-five day period; and
- b. ~~((Θ))~~only for campgrounds that are part of a proposed or existing county park, which are subject to review and public meetings through the department of natural resources and parks.

17. Only for stand-alone sports clubs that are not part of a park.

18. Subject to review and approval of conditions to comply with trail corridor provisions of K.C.C. chapter 21A.14 when located in an RA zone and in an equestrian community designated by the Comprehensive Plan.

19. Only as an accessory to a large active recreation and multiuse park.

20. Only as an accessory to a large active recreation and multiuse park with the floor area of an individual outdoor performance center stage limited to three thousand square feet.

21. Only as an accessory to a park, or a large active recreation and multiuse park in the RA zones, and limited to:

- a. ~~((R))~~rentals of sports and recreation equipment; and
- b. ~~((A))~~a total floor area of seven hundred and fifty square feet.

22. Only as an accessory to a large active recreation and multiuse park and limited to:

- a. ~~((W))~~waterslides, wave pools and associated water recreation facilities; and
- b. ~~((R))~~rentals of sports and recreation equipment.

23. Limited to natural resource and heritage museums and only allowed in a farm or forestry structure, including but not limited to barns or sawmills, existing as of December 31, 2003.

SECTION 12. Ordinance 10870, Section 332, as amended, and K.C.C. 21A.08.050 are each hereby amended to read as follows:

B. Development conditions.

1. May be further subject to K.C.C. Title 25, Shoreline Management.
2. Only forest research conducted within an enclosed building.
3. Accessory dwelling units in accordance with K.C.C. 21A.08.030.
4. Excluding housing for agricultural workers.
5. Limited to either maintenance or storage facilities, or both, in conjunction with mineral extraction or processing operation.
6. Large livestock allowed in accordance with K.C.C. chapter 21A.30.
7. Only in conjunction with a mineral extraction site plan approved in accordance with K.C.C. chapter 21A.22.
8. Only on the same lot or same group of lots under common ownership or documented legal control, which includes, but is not limited to, fee simple ownership, a long-term lease or an easement:
 - a. as accessory to a primary mineral use((,-œ));
 - b. as a continuation of a mineral processing use ((established prior to the effective date of consistent with this title)) only for that period to complete delivery of products or projects under contract at the end of mineral extraction; or
 - c. for a public works project under a temporary grading permit issued in accordance with K.C.C. 16.82.152.

9. Limited to ((~~mining activities~~)) mineral extraction and processing:

a. on a lot or group of lots under common ownership or documented legal control, which includes but is not limited to, fee simple ownership, a long-term lease or an easement;

b. that are located greater than one-quarter mile from an established residence; and

c. that do not use local access streets that abut lots developed for residential use.

10. Agriculture training facilities are allowed only as an accessory to existing agricultural uses and are subject to the following conditions:

a. The impervious surface associated with the agriculture training facilities shall comprise not more than ten percent of the allowable impervious surface permitted under K.C.C. 21A.12.040;

b. New or the expansion of existing structures, or other site improvements, shall not be located on class 1, 2 or 3 soils;

c. The director may require reuse of surplus structures to the maximum extent practical;

d. The director may require the clustering of new structures with existing structures;

e. New structures or other site improvements shall be set back a minimum distance of seventy-five feet from property lines adjoining residential zones;

f. Bulk and design of structures shall be compatible with the architectural style of the surrounding agricultural community;

g. New sewers shall not be extended to the site;

h. Traffic generated shall not impede the safe and efficient movement of agricultural vehicles, nor shall it require capacity improvements to rural roads;

i. Agriculture training facilities may be used to provide educational services to the surrounding rural/agricultural community or for community events. Property owners may be required to obtain a temporary use permit for community events in accordance with K.C.C. chapter 21A.32;

j. Use of lodging and food service facilities shall be limited only to activities conducted in

conjunction with training and education programs or community events held on site;

k. Incidental uses, such as office and storage, shall be limited to those that directly support education and training activities or farm operations; and

l. The King County agriculture commission shall be notified of and have an opportunity to comment upon all proposed agriculture training facilities during the permit process in accordance with K.C.C. chapter 21A.40.

11. Continuation of mineral processing and asphalt/concrete mixtures and block uses after reclamation in accordance with an approved reclamation plan.

SECTION 17. Ordinance 10870, Section 340, as amended, and K.C.C. 21A.12.030 are each hereby amended to read as follows:

Densities and dimensions - residential zones.

A. Densities and dimensions - residential zones.

B. Development conditions.

1. This maximum density may be achieved only through the application of residential density incentives in accordance with K.C.C. chapter 21A.34 or transfers of development rights in accordance with K.C.C. chapter 21A.37, or any combination of density incentive or density transfer. Maximum density may only be exceeded in accordance with K.C.C. 21A.34.040, F.1.g. and F.6.

2. Also see K.C.C. 21A.12.060.

3. These standards may be modified under the provisions for zero lot-line and townhouse developments.

4. Height limits may be increased if portions of the structure that exceed the base height limit provide one additional foot of street and interior setback for each foot above the base height limit, but the maximum

height may not exceed seventy-five feet.

Netting or fencing and support structures for the netting or fencing used to contain golf balls in the operation of golf courses or golf driving ranges are exempt from the additional interior setback requirements but the maximum height shall not exceed seventy-five feet, except for large active recreation and multiuse parks, where the maximum height shall not exceed one hundred and twenty-five feet, unless a golf ball trajectory study requires a higher fence.

5. Applies to each individual lot. Impervious surface area standards for:

- a. ~~((f))~~Regional uses shall be established at the time of permit review;
- b. ~~((n))~~Nonresidential uses in residential zones shall comply with K.C.C. 21A.12.120 and

21A.12.220;

c. ~~((i))~~Individual lots in the R-4 through R-6 zones that are less than nine thousand seven-hundred square feet in area shall be subject to the applicable provisions of the nearest comparable R-6 or R-8 zone; and

d. ~~((a))~~A lot may be increased beyond the total amount permitted in this chapter subject to approval of a conditional use permit.

6. Mobile home parks shall be allowed a base density of six dwelling units per acre.

7. The standards of the R-4 zone shall apply if a lot is less than fifteen thousand square feet in area.

8. At least twenty linear feet of driveway shall be provided between any garage, carport or other fenced parking area and the street property line. The linear distance shall be measured along the center line of the driveway from the access point to such garage, carport or fenced area to the street property line.

9.a. Residences shall have a setback of at least one hundred feet from any property line adjoining A, M or F zones or existing extractive operations. However, residences on lots less than one hundred fifty feet in width adjoining A, M or F zones or existing extractive operations shall have a setback from the rear property line equal to fifty percent of the lot width and a setback from the side property equal to twenty-five percent of the lot width.

b. Except for residences along a property line adjoining A, M or F zones or existing extractive operations, lots between one acre and two and one-half acres in size shall conform to the requirements of the R-1 zone and lots under one acre shall conform to the requirements of the R-4 zone.

10.a. For developments consisting of three or more single-detached dwellings located on a single parcel, the setback shall be ten feet along any property line abutting R-1 through R-8, RA and UR zones, except for structures in on-site play areas required in K.C.C. 21A.14.190, which shall have a setback of five feet.

b. For townhouse and apartment development, the setback shall be twenty feet along any property line abutting R-1 through R-8, RA and UR zones, except for structures in on-site play areas required in K.C.C. 21.14.190, which shall have a setback of five feet, unless the townhouse or apartment development is adjacent to property upon which an existing townhouse or apartment development is located.

11. Lots smaller than one-half acre in area shall comply with standards of the nearest comparable R-4 through R-8 zone. For lots that are one-half acre in area or larger, the maximum impervious surface area allowed shall be at least ten thousand square feet. On any lot over one acre in area, an additional five percent of the lot area may be used for buildings related to agricultural or forestry practices. For lots smaller than two acres but larger than one-half acre, an additional ten percent of the lot area may be used for structures that are determined to be medically necessary, if the applicant submits with the permit application a notarized affidavit, conforming with K.C.C. 21A.32.170A.2.

12. For purposes of calculating minimum density, the applicant may request that the minimum density factor be modified based upon the weighted average slope of the net buildable area of the site in accordance with K.C.C. 21A.12.087.

13. The minimum lot area does not apply to lot clustering proposals as provided in K.C.C. chapter 21A.14.

14. The base height to be used only for projects as follows:

a. in R-6 and R-8 zones, a building with a footprint built on slopes exceeding a fifteen percent

finished grade; and

b. in R-18, R-24 and R-48 zones using residential density incentives and transfer of density credits in accordance with this title.

15. Density applies only to dwelling units and not to sleeping units.

16. Vehicle access points from garages, carports or fenced parking areas shall be set back from the property line on which a joint use driveway is located to provide a straight line length of at least twenty-six feet as measured from the center line of the garage, carport or fenced parking area, from the access point to the opposite side of the joint use driveway.

17.a. All subdivisions and short subdivisions in the R-1 zone shall be required to be clustered if the property is located within or contains:

- (1) a floodplain;
- (2) a critical aquifer recharge area;
- (3) a ~~((R))~~regionally or ~~((L))~~locally ~~((S))~~ significant ~~((R))~~resource ~~((A))~~area;
- (4) existing or planned public parks or trails, or connections to such facilities;
- (5) a ~~((Class I or II stream))~~ category S or F aquatic area or category I or II wetland;
- (6) a steep slope; or
- (7) a ~~(("))~~greenbelt/urban separator~~(("))~~ or ~~(("))~~wildlife corridor~~(("))~~ area designated by the

Comprehensive Plan or a community plan.

b. The development shall be clustered away from ~~((sensitive))~~ critical areas or the axis of designated corridors such as urban separators or the wildlife habitat network to the extent possible and the open space shall be placed in a separate tract that includes at least fifty percent of the site. Open space tracts shall be permanent and shall be dedicated to a homeowner's association or other suitable organization, as determined by the director, and meet the requirements in K.C.C. 21A.14.040. On-site ~~((sensitive))~~ critical area and buffers, wildlife habitat networks, required habitat and buffers for protected species and designated urban separators

shall be placed within the open space tract to the extent possible. Passive recreation (with no development of recreational facilities) and natural surface pedestrian and equestrian trails are acceptable uses within the open space tract.

18. See K.C.C. 21A.12.085.

19. All subdivisions and short subdivisions in R-1 and RA zones within the North Fork and Upper Issaquah Creek subbasins of the Issaquah Creek Basin (the North Fork and Upper Issaquah Creek subbasins are identified in the Issaquah Creek Basin and Nonpoint Action Plan) and the portion of the Grand Ridge subarea of the East Sammamish Community Planning Area that drains to Patterson Creek shall have a maximum impervious surface area of eight percent of the gross acreage of the plat. Distribution of the allowable impervious area among the platted lots shall be recorded on the face of the plat. Impervious surface of roads need not be counted towards the allowable impervious area. Where both lot- and plat-specific impervious limits apply, the more restrictive shall be required.

20. This density may only be achieved on RA 2.5 and RA 5 zoned parcels receiving density from rural forest focus areas through the transfer of density credit pilot program outlined in K.C.C. chapter 21A.55.

21. Base density may be exceeded, if the property is located in a designated rural city urban growth area and each proposed lot contains an occupied legal residence that predates 1959.

22. The maximum density is four dwelling units per acre for properties zoned R-4 when located in the Rural Town of Fall City.

23. The minimum density requirement does not apply to properties located within the Rural Town of Fall City.

24. The impervious surface standards for the county fairground facility are established in the King County Fairgrounds Site Development Plan, Attachment A to Ordinance 14808 on file at the department of natural resources and parks and the department of development and environmental services. Modifications to that standard may be allowed provided the square footage does not exceed the approved impervious surface

square footage established in the King County Fairgrounds Site Development Plan Environmental Checklist, dated September 21, 1999, Attachment B to Ordinance 14808, by more than ten percent.

25. For cottage housing developments only:

a. The base height is eighteen feet.

b. Buildings having pitched roofs with a minimum slope of six and twelve may extend up to twenty-five feet at the ridge of the roof.

NEW SECTION. SECTION 18. There is hereby added to K.C.C. 21A.14 a new section to read as follows:

Cottage housing development. For cottage housing developments in the R4-R8 zones:

A. The total area of the common open space must be at least two hundred and fifty square feet per unit and at least fifty percent of the units must be clustered around the common space.

B. The total floor area of each unit, including any enclosed parking, is limited to one thousand two hundred square feet. The footprint of each unit, including any enclosed parking, is limited to nine hundred square feet.

C. Fences within the cottage housing unit development are limited to three feet in height. Fences along the perimeter of the cottage housing development are limited to six feet.

D. Individual cottage housing units must be at least ten feet apart.

SECTION 19. Ordinance 10870, Section 364 and K.C.C. 21A.14.040 are each hereby amended to read as follows:

Lot segregations - clustered development. ~~((If))~~Residential lot clustering ~~((is))~~ may be proposed~~((;))~~ as part of a subdivision or short subdivision and shall comply with the following ~~((provisions shall be met))~~:

A. In the R zones, any designated open space tract resulting from lot clustering shall not be altered or disturbed except as specified on recorded documents creating the open space. Open spaces may be retained under ownership by the subdivider, conveyed to residents of the development, or conveyed to a third party. If

access to the open space is provided, the access shall be located in a separate tract;

B. In the RA zone:

1. No more than eight lots of less than two and one-half acres shall be allowed in a cluster;
2. No more than eight lots of less than two and one-half acres shall be served by a single cul-de-sac street;
3. Clusters containing two or more lots of less than two and one-half acres, whether in the same or adjacent developments, shall be separated from similar clusters by at least one hundred twenty feet;
4. The overall amount, and the individual degree of clustering shall be limited to a level that can be adequately served by rural facilities and services, including, but not limited to, on-site sewage disposal systems and rural roadways;
5. A fifty-foot Type II landscaping screen, as defined in K.C.C. 21A.16.040, shall be provided along the frontage of all public roads. The planting materials shall consist of species that are native to the Puget Sound region. Preservation of existing healthy vegetation is encouraged and may be used to augment new plantings to meet the requirements of this section;
6. Except as provided in subsection B.7 of this section, open space tracts created by clustering in the RA zone shall be designated as permanent open space. Acceptable uses within open space tracts are passive recreation, with no development of active recreational facilities, natural-surface pedestrian and equestrian foot trails and passive recreational facilities;
7. In the RA zone a resource land tract may be created through a cluster development in lieu of an open space tract. The resource land tract may be used as a working forest or farm if the following provisions are met:
 - a. Appropriateness of the tract for forestry or agriculture has been determined by the King County department of natural resources and parks;
 - b. The subdivider shall prepare a forest management plan, which must be reviewed and approved by

the King County department of natural resources, or a farm management (conservation) plan, if such is required pursuant to K.C.C. chapter 21A.30, which must be developed by the King Conservation District. The criteria for management of a resource land tract established through a cluster development in the RA zone shall be set forth in a public rule. The criteria must assure that forestry or farming will remain as a sustainable use of the resource land tract and that structures supportive of forestry and agriculture may be allowed in the resource land tract. The criteria must also set impervious surface limitations and identify the type of buildings or structures that will be allowed within the resource land tract;

c. The recorded plat or short plat shall designate the resource land tract as a working forest or farm;

d. Resource land tracts that are conveyed to residents of the development shall be retained in undivided interest by the residents of the subdivision or short subdivision;

e. A homeowners association shall be established to assure implementation of the forest management plan or farm management (conservation) plan if the resource land tract is retained in undivided interest by the residents of the subdivision or short subdivision;

f. The subdivider shall file a notice with the King County department of executive services, records, elections and licensing services division. The required contents and form of the notice shall be set forth in a public rule. The notice shall inform the property owner or owners that the resource land tract is designated as a working forest or farm, which must be managed in accordance with the provisions established in the approved forest management plan or farm management (conservation) plan;

g. The subdivider shall provide to the department proof of the approval of the forest management plan or farm management (conservation) plan and the filing of the notice required in subsection B.7.f. of this section before recording of the final plat or short plat;

h. The notice shall run with the land; and

i. Natural-surface pedestrian and equestrian foot trails, passive recreation, and passive recreational facilities, with no development of active recreational facilities, are allowed uses in resource tracts; and

8. For purposes of this section, passive recreational facilities include trail access points, small-scale parking areas and restroom facilities.

C. In the R-1 zone, open space tracts created by clustering required by K.C.C. 21A.12.030 shall be located and configured to create urban separators and greenbelts as required by the Comprehensive Plan, or subarea plans or open space functional plans, to connect and increase protective buffers for environmentally sensitive areas as defined in K.C.C. 21A.06.1065, to connect and protect wildlife habitat corridors designated by the Comprehensive Plan and to connect existing or planned public parks or trails. King County may require open space tracts created under this subsection to be dedicated to an appropriate managing public agency or qualifying private entity such as a nature conservancy. In the absence of such a requirement, open space tracts shall be retained in undivided interest by the residents of the subdivision or short subdivision. A homeowners association shall be established for maintenance of the open space tract.

SECTION 20. Ordinance 10870, Section 365 and K.C.C. 21A.14.050 are each hereby amended to read as follows:

UR zone reserve tract. Subdivision of UR zoned property of ~~((40))~~ ten or more acres shall be required to be clustered and a reserve tract shall be created for future development ~~((pursuant to))~~ in accordance with the following ~~((provisions))~~:

A. The reserve tract shall be no less than ~~((75))~~ seventy-five percent of the net developable area of the property to be subdivided.

B. The reserve tract shall be configured to contain lands with topography and natural features that allow future conversion of the reserve tract to residential development at urban densities.

C. The reserve tract may contain a single dwelling unit, ~~((provided))~~ only if:

1. The unit was included in the overall density calculations for the original subdivision creating the reserve tract~~((;))~~; and

2. The unit was noted on the face of the original subdivision~~(plat or short plat)~~.

D. The reserve tract shall not be altered or disturbed except as specified on the face of the original subdivision (plat or short plat).

E. The reserve tract may be retained under the ownership of the subdivider, conveyed to residents of the subdivisions, or conveyed to a third party. Regardless of ownership of the reserve tract, all restrictions relative to the reserve tract shall apply.

F. The reserve tract shall not be used to satisfy the recreation space requirement of the original subdivision.

G. The layout of the lots and roadways created in the original subdivision shall facilitate future development of the reserve tract.

H. ~~((The lots created in the original subdivision shall be of a sufficient area to comply with on-site sewage disposal requirements, if public sewers are not available.))~~ The reserve tract shall not be eligible for further subdivision until such time that reclassification of the reserve tract occurs ~~((pursuant to))~~ in accordance with the community plan area zoning process outlined in K.C.C. 20.08.030.

~~((J.))~~ I. Any proposed subsequent development on the reserve tract shall be governed by the development standards in effect at the time of such development.

SECTION 21. Ordinance 10870, Section 388, as amended, and K.C.C. 21A.16.030 are each hereby amended to read as follows:

Land use grouping. To facilitate the application of this chapter, the land uses of K.C.C. chapter 21A.08 have been grouped in the following manner:

A. Residential~~(())~~ development refers to those uses listed in K.C.C. 21A.08.030, except those uses listed under ~~(())~~Accessory~~(())~~ uses, and:

1. ~~(())~~Attached/group residences~~(())~~ refers to:

- a. townhouses, except as provided in subsection A.2.a. of this section;
- b. apartments~~(())~~ and detached dwelling units developed on common property at a density of twelve

or more units per acre;

- c. senior citizen assisted housing;
- d. temporary lodging;
- e. group residences other than Type I community residential facilities;
- f. mobile home parks; and

2. ~~(())~~Single-family development~~(())~~ refers to:

a. residential subdivisions and short subdivisions, including attached and detached dwelling units on individually platted or short platted lots;

- b. any detached dwelling units located on a lot including cottage housing units; and
- c. Type 1 community residential facilities;

B. ~~(())~~Commercial development~~(())~~ refers to those uses in:

- 1. K.C.C. 21A.08.040 as amusement/entertainment uses, except golf facilities;
- 2. K.C.C. 21A.08.050 except recycling centers, health and educational services, daycare I, churches, synagogues and temples, and miscellaneous repair as allowed in the A and RA zones; and
- 3. K.C.C. 21A.08.070, except forest product sales and agricultural ~~((crop))~~ product sales as allowed in the A, F, and RA zones and building, hardware and garden materials as allowed in the A zones.

C. ~~(())~~Industrial development~~(())~~ refers to those uses listed in:

- 1. K.C.C. 21A.08.050 as recycling center;
- 2. K.C.C. 21A.08.060, except government services and farm product warehousing, refrigeration and storage as allowed in the A zones;
- 3. K.C.C. 21A.08.080, except food and kindred products as allowed in the A and F zones; and
- 4. K.C.C. 21A.08.090 as mineral extraction and processing;

D. ~~(())~~Institutional development~~(())~~ refers to those uses listed in:

- 1. K.C.C. 21A.08.040 as cultural uses, except arboretums;

2. K.C.C. 21A.08.050 as churches, synagogues and temples, health services((;)) and education services except specialized instruction schools permitted as an accessory use; and

3. K.C.C. 21A.08.060 as government services;

E. (("))Utility development((")) refers to those uses listed in K.C.C. 21A.08.060 as utility facilities; and

F. Uses in K.C.C. chapter 21A.08 that are not listed in subsections A₂ through E₂ of this section shall not be subject to landscaping and tree retention requirements except as specified in any applicable review of a conditional use or special use permits.

SECTION 22. Ordinance 10870, Section 406, as amended, and K.C.C. 21A.18.020 are each hereby amended to read as follows:

Authority and application.

A. Before an occupancy permit may be granted for any new or enlarged building or for a change in use in any existing building, the use shall be required to meet the requirements of this chapter. In addition, K.C.C. 21A.18.110 I. and J. establish residential parking limitations applicable to existing, as well as new, residential uses.

B. If this chapter does not specify a parking requirement for a land use, the director shall establish the minimum requirement based on a study of anticipated parking demand. Transportation demand management actions taken at the site shall be considered in determining anticipated demand. If the site is located in an activity center or community business center, the minimum requirement shall be set at a level less than the anticipated demand, but at no less than seventy-five percent of the anticipated demand. In the study, the applicant shall provide sufficient information to demonstrate that the parking demand for a specific land use will be satisfied. Parking studies shall be prepared by a professional engineer with expertise in traffic and parking analyses, or an equally qualified individual as authorized by the director.

C. If the required amount of off-street parking has been proposed to be provided off-site, the applicant shall provide written contracts with affected landowners showing that required off-street parking shall be

provided in a manner consistent with this chapter. The contracts shall be reviewed by the director for compliance with this chapter, and if approved, the contracts shall be recorded with the county records ~~((and))~~, elections and licensing services division as a deed restriction on the title to all applicable properties. These deed restrictions may not be revoked or modified without authorization by the director.

D. Upon request from the proponent of any use subject to the this chapter located in a rural town, rural neighborhood center, ~~((or))~~ any commercial zone located in a rural area or natural resource production district designated by the ~~((e))~~ Comprehensive ((p)) Plan, or any agricultural product production, processing or sales use allowed in the A or F zones the director may waive or modify this chapter in order to protect or enhance the historic character of the area, ~~((and))~~ to reduce the need for pavement or other impervious surfaces, to recognize the seasonal nature of any such activity, or to minimize the conversion of agriculturally productive soils. Where a neighborhood or subarea plan with design guidelines that includes the subject property has been adopted, the director shall base allowable waivers or modifications on the policies and guidelines in such a plan.

SECTION 23. Ordinance 10870, Section 439, as amended, and K.C.C. 21A.22.010 are each hereby amended to read as follows:

Purpose. The purpose of this chapter is to establish standards ~~((which))~~ that minimize the impacts of ~~((extractive))~~ mineral extraction and materials processing operations upon surrounding parties by:

- A. Ensuring adequate review of operating aspects of ~~((extractive))~~ mineral extraction and materials processing sites;
- B. Requiring project phasing on large sites to minimize environmental impacts;
- C. Requiring minimum site areas large enough to provide setbacks and mitigations necessary to protect environmental quality; and
- D. Requiring period review of ~~((extractive and processing))~~ mineral extraction and materials processing operations to ensure compliance with the ~~((most current))~~ approved operating standards.

SECTION 24. Ordinance 10870, Section 440 and K.C.C. 21A.22.020 are each hereby amended to read as follows:

~~((Exemptions))~~ **Applicability of chapter.** ~~((The provisions of t))~~ This chapter shall ~~((not))~~ only apply to uses or activities ~~((specifically exempted in K.C.C. 16.82.050))~~ that are mineral extraction or materials processing operations.

SECTION 25. Ordinance 10870, Section 441 and K.C.C. 21A.22.030 are each hereby amended to read as follows:

Grading permits required. Extractive operations and materials processing operations shall commence only after issuance of a grading permit.

NEW SECTION. SECTION 26. There is hereby added to K.C.C. 21A.22 a new section to read as follows:

Community meeting.

A. Not later than thirty days after the department provides the notice of application to the public required by K.C.C. 20.20.060 on a mineral extraction or materials processing site or for an expansion of an existing mineral extraction or materials processing site or operation beyond the scope of the prior environmental review, the applicant shall hold a community meeting. The notice of application shall include notification of the date, time and location of the community meeting. At the meeting, the applicant shall provide information relative the proposal, including information on existing residences and lot patterns within one-quarter mile of potential sites and on alternative haul routes. The applicant shall also provide a preliminary evaluation at the meeting of any alternative routes that have been provided to the applicant in writing at least five days in advance of the meeting. The applicant shall provide to the department within fourteen days after the community meeting a written list of meeting attendees and documentation of the meeting.

B. Public notice of the community meeting required by this section shall be prepared, posted and distributed in accordance with KCC 20.20.060 at least two weeks before the community meeting. In addition,

the department shall:

1. Publish a notice of the meeting in a local newspaper of general circulation in the affected area;
2. Mail the notice of the meeting to the unincorporated area council serving the area where the site is located; and
3. Mail the notice of the meeting to all property owners within one-quarter mile of the proposed or expanded site or to at least twenty of the property owners nearest to the site, whichever is greater; and
4. Mail the notice of the meeting to all property owners within five hundred feet of any proposed haul route from the site to the nearest arterial.

SECTION 27. Ordinance 10870, Section 442 and K.C.C. 21A.22.040 are each hereby amended to read as follows:

Nonconforming ~~((extractive))~~ mineral extraction operations. To the ~~((extent determined feasible by the county))~~ maximum extent practicable, nonconforming ~~((extractive))~~ mineral extraction operations shall be brought into conformance with the operating conditions and performance standards of ~~((K.C.C. 21A.22.070))~~ this chapter during permit renewal. The department shall establish a schedule for conformance during the first periodic review of the nonconforming mineral extraction operation and incorporated into the permit conditions.

SECTION 28. Ordinance 10870, Section 443 and K.C.C. 21A.22.050 are each hereby amended to read as follows:

Periodic review. ~~((Unless a more frequent review is required by the county, periodic review of extractive and processing operations shall be provided as follows:))~~

A. In addition to the review conducted as part of the annual renewal of a mineral extraction operating permit or materials processing permit, the department shall be subject to)) conduct a periodic review of ((development)) mineral extraction and materials processing operation site design and operating standards at five-year intervals((;)).

B. The periodic review ~~((shall be:~~

1. ~~Conducted by the director or zoning adjustor pursuant to the review process outlined in K.C.C. 21A.42.040-090;))~~ is a Type 2 land use decision.

~~((2. Used to))~~ C. The periodic review shall determine ((that)):

1. Whether the site is operating consistent with all existing permit conditions; and
2. That the most current site design and operating standards ((and to establish other)) are applied to the site through additional or revised permit conditions as necessary to mitigate identifiable environmental impacts.

SECTION 29. Ordinance 10870, Section 444, as amended, and K.C.C. 21A.22.060 are each hereby amended to read as follows:

Site design standards. Except as otherwise provided for nonconforming ~~((extractive))~~ mineral extraction operations in K.C.C. 21A.22.040, in addition to requirements in this title, all ~~((extractive and processing))~~ mineral extraction and materials processing operations shall ~~((at minimum))~~ comply with the following standards:

A. The minimum site area of ~~((an extractive))~~ a mineral extraction or materials processing operation shall be ~~((10))~~ ten acres~~((:))~~;

B. ~~((Extractive))~~ Mineral extraction or materials processing operations on sites larger than ~~((20))~~ twenty acres shall occur in phases to minimize environmental impacts. The size of each phase shall be determined during the review process;

C. If the department determines they are necessary to eliminate a safety hazard, ~~((F))~~ fences or alternatives to fences approved by the department, shall be:

1. Provided in a manner ~~((which))~~ that discourages access to ~~((safety hazards which may arise on))~~ areas of the site where:

- a. active extracting, processing, stockpiling and loading of materials is occurring;
- b. boundaries are in common with residential or commercial zoned property or public lands; or

- c. any unstable slope or any slope exceeding a grade of ~~((40))~~ forty percent is present; ~~((or~~
- e. ~~any settling pond or other stormwater facility is present;))~~

2. At least six feet in height above the grade measured at a point five feet ~~((from the))~~ outside ~~((of))~~ the fence and the fence material shall have no opening larger than two inches;

- 3. Installed with lockable gates at all openings or entrances;
- 4. No more than four inches from the ground to fence bottom; and
- 5. Maintained in good repair;

D. Warning and trespass signs advising of the ~~((extractive))~~ mineral extraction or materials processing operation shall be placed on the perimeter of the site adjacent to RA, UR or R zones at intervals no greater than ~~((200))~~ two hundred feet along any unfenced portion of the site where the items noted in subsection C.1.a~~((--))~~ .through c. of this section are present;

E. Structural setbacks from property lines shall be as follows:

1. Buildings, ~~((or))~~ structures and stockpiles used in the processing of materials shall be no closer than:

a. ~~((0))~~ one hundred feet from any ~~((UR or R))~~ residential zoned properties except that the setback may be reduced to ~~((50))~~ fifty feet when the grade where such building or structures are proposed is ~~((50))~~ fifty feet or greater below the grade of ~~((said UR or R))~~ the residential zoned property~~((, or))~~;

b. ~~((Twenty))~~ fifty feet from any other zoned property, except when adjacent to another ~~((extractive))~~ mineral extraction or materials processing site; and

c. ~~((Twenty))~~ the greater of fifty feet from the edge of any public street((-)) or the setback from residential zoned property on the far side of the street; and

2. Offices, scale facilities, equipment storage buildings and stockpiles, including those for reclamation, shall not be closer than ~~((20))~~ fifty feet from any property line except when adjacent to another ~~((extractive))~~ mineral extraction or materials processing site(;;) or M or F zoned property. Facilities necessary

to control access to the site, when demonstrated to have no practical alternative, may be located closer to the property line;

F. ~~((No))~~ On-site clearing, grading or excavation, excluding that necessary for required access, roadway or storm drainage facility construction or activities in accordance with an approved reclamation plan, shall not be permitted within ~~((20))~~ fifty feet of any property line except along any portion of the perimeter adjacent to another ~~((extractive))~~ mineral extraction or materials processing operation ~~((provided that such activities may be pursuant to an approved reclamation plan))~~ or M or F zoned property. If native vegetation is restored, temporary disturbance resulting from construction of noise attenuation features located closer than fifty feet shall be permitted;

G. Landscaping ~~((as required pursuant to))~~ consistent with type 1 screening K.C.C. chapter 21A.16, except using only plantings native to the surrounding area, shall be provided along any portion of the site perimeter where disturbances such as site clearing and grading, or mineral extraction or materials processing is performed, except where adjacent to another ~~((extractive))~~ mineral extraction, materials processing or forestry operation or M or F-zoned property; ~~((and))~~

H. Relevant clearing and grading operating standards from K.C.C. chapter 16.82 shall be applied; and

I. Lighting shall:

1. Be limited to that required for security, lighting of structures and equipment, and vehicle operation; and
2. Not ~~((direct))~~ directly glare onto surrounding properties.

SECTION 30. Ordinance 10870, Section 445, as amended, and K.C.C.

21A.22.070 are each hereby amended to read as follows:

Operating conditions and performance standards. ~~((All-))~~ Operating conditions and performance standards shall be as specified in K.C.C. chapter 16.82 except:

A. Noise levels produced by ~~((an extractive))~~ a mineral extraction or materials processing operation

shall not exceed levels specified by ~~((the King County Noise Ordinance))~~ K.C.C. chapters 12.86, 12.87, 12.88, 12.90, 12.91, 12.92, 12.94, 12.96, 12.98, 12.99 and 12.100;

B. Blasting shall be conducted under an approved blasting plan:

1. Consistent with the methods specified in the ~~((Θ))~~office of ~~((S))~~surface ~~((M))~~mining, 1987 Blasting Guidance Manual in a manner that protects from damage all structures, excluding those owned and directly used by the operator, and persons in the vicinity of the blasting area, including but not limited to adherence to the following:

a. Airblast levels shall not exceed one hundred thirty-three dBL measured by a two Hz or lower flat response system at the nearest residential property or place of public assembly;

b. Flyrock shall not be cast one-half the distance to the nearest residential property, place of public assembly or the property boundary, whichever is less; and

c. Ground motion shall not exceed ground vibration levels damaging to structures using one of the four accepted methods in the Blasting Guidance Manual;

2. During daylight hours; and

3. According to a time schedule, provided to residents within one-half mile of the site, that((:

~~a.)) features regular or predictable times, except in the case of an emergency((; and~~

~~b. is provided to residents within one-half mile of the site;)).~~ If requested by a resident, the operator shall provide notice of changes in the time schedule at least twenty four hours before the changes take effect;

C.1. Dust and smoke produced by ~~((extractive))~~ mineral extraction and materials processing operations shall ~~((not substantially increase the existing levels of suspended particulates at the perimeter of the site and shall))~~ be controlled by ~~((watering of the site and equipment or other methods specified by the county))~~ best management practices to comply with relevant regulations of the Puget Sound Clean Air Agency.

2. Dust and smoke from process facilities shall be controlled in accordance with a valid operating permit from the Puget Sound Clean Air Agency. Copies of the permit shall be kept onsite and available for

department and public inspection. Copies of the Puget Sound Clean Air Agency monitoring results shall be provided to the department on permit monitoring data submittal dates.

3. Dust and smoke from process facilities shall not significantly increase the existing levels of suspended particulates at the perimeter of the site;

D. The applicant shall ~~((provide for measures to))~~ prevent ~~((transport of))~~ rocks, dirt, ~~((and))~~ mud and any raw or processed material from spilling from or being tracked by trucks onto public roadways and shall be responsible for cleaning debris or repairing damage to roadways caused by the operation;

E. The applicant shall provide ~~((T))~~ traffic control measures such as ~~((flagmen))~~ flaggers or warning signs as determined by the ~~((county shall be provided by the applicant))~~ department during all hours of operation; ~~((and))~~

F. ~~((The applicant shall be responsible for cleaning of debris or repairing of damage to roadways caused by the operation.))~~ The operator shall control surface water and site discharges to comply with K.C.C. chapter 9.04 and the surface water design manual and K.C.C. chapter 9.12 and the stormwater pollution prevention manual. For the life of the mineral resource operation and until site reclamation is complete, the operator shall maintain a valid Washington state department of ecology National Pollutant Discharge Elimination System individual permit or maintain coverage under the sand and gravel general permit. The operator shall keep onsite and available for department review copies of the erosion and sediment control plan, the applicable National Pollution Discharge Elimination System individual or general permit and the Stormwater Pollution Prevention Plan. The operator shall make the plans and permit available for public inspection upon request. The operator shall provide to the department copies of the monitoring results on permit monitoring data submittal dates. The department shall make the monitoring results available for public inspection. If the department determines that National Pollution Discharge Elimination System monitoring frequency or type is not adequate to meet the demands of the site and the requirements of this subsection, the department may require more frequent and detailed monitoring and may require a program designed to bring

the site into compliance;

G. The operator shall not excavate below the contours determined through hydrologic studies necessary to protect groundwater and the upper surface of the saturated groundwater that could be used for potable water supply;

H. If contamination of surface or ground water by herbicides is possible, to the maximum extent practicable, mechanical means shall be used to control noxious weeds on the site;

I. Upon depletion of mineral resources or abandonment of the site, the operator shall remove all structures, equipment and apurtenances accessory to operations; and

J. If the operator fail to comply with this section, the department shall require modifications to operations, procedures or equipment until compliance is demonstrated to the satisfaction of the department. If the modifications are inconsistent with the approved permit conditions, the department shall revise the permit accordingly.

SECTION 31. K.C.C.16.82.110, as amended by this ordinance, is hereby recodified as a new section in K.C.C. chapter 21A.22.

SECTION 32. Ordinance 1488, Section 12, as amended and K.C.C. 16.82.110 are each hereby amended to read as follows:

((Land restoration)) Reclamation.

A. A valid clearing and grading permit shall be maintained on a mineral extraction site until the reclamation of the site required under chapter 78.44 RCW is completed.

B. A reclamation plan approved in accordance with chapter 78.44 RCW shall be submitted before the effective date of a zone reclassification in Mineral-zoned properties or the acceptance of any development proposal for a subsequent use in Forest-zoned properties. The zone reclassification shall grant potential zoning that is only to be actualized, under K.C.C. chapter 20.24, upon demonstration of successful completion of all requirements of the reclamation plan. Development proposals in the Forest zone for uses subsequent to mineral

extraction operations shall not be approved until demonstration of successful completion of all requirements of the reclamation plan except that forestry activities may be permitted on portions of the site already fully reclaimed.

C. Mineral extraction operations that are not required to have an approved reclamation plan under chapter 78.44 RCW shall meet the following requirements:

1. Upon the exhaustion of minerals or materials or upon the permanent abandonment of the quarrying or mining operation, all nonconforming buildings, structures, apparatus or appurtenances accessory to the quarrying and mining operation shall be removed or otherwise dismantled to the satisfaction of the director((- This requirement shall not require land restoration on projects completed prior to January 1, 1971, except those covered under previously existing zoning requirements.));

((B))2. Final grades shall:

a. be such so as to encourage the uses permitted within the primarily surrounding zone or, if applicable the underlying or potential zone classification((-)); and

b. result in drainage patterns that reestablish natural conditions of water velocity, volume, and turbidity within six months of reclamation and that precludes water from collecting or becoming stagnant. Suitable drainage systems approved by the department shall be constructed or installed where natural drainage conditions are not possible or where necessary to control erosion. All constructed drainage systems shall be designed consistent with the Surface Water Design Manual;

((C))3. All areas subject to ((G))grading or backfilling shall ((be made with));

a. incorporate only nonnoxious, nonflammable, noncombustible and nonputrescible solids((-)); and

((D. Such graded or backfilled areas,)) b. except for roads and areas incorporated into drainage facilities, ((shall)) be ((sodded or)) surfaced with soil of a quality at least equal to the topsoil of the land areas immediately surrounding, and to a depth of ((at least four inches or a depth of that of)) the topsoil of land area immediately surrounding ((if less than four)) six inches, whichever is greater. The topsoil layer shall have an

organic matter content of eight to thirteen percent and a pH of 6.0 to 8.0 or matching the pH of the original undisturbed soil layer. Compacted areas such as pit floors or compacted fill shall be tilled or scarified prior to topsoil placement;

4. All reclaimed slopes shall comprise an irregular sinuous appearance in both profile and plan view and blend with adjacent topography to a reasonable extent;

5. Where excavation has penetrated the seasonal or permanent water table creating a water body or wetland:

a. All side slopes below the permanent water table and banks shall be graded or shaped as to not constitute a safety hazard;

b. Natural features and plantings to provide beneficial wetland functions and promote wildlife habitat shall be provided; and

c. Appropriate drainage controls shall be provided to stabilize the water level and not create potential flooding hazards;

~~((E. Such))~~ 6. All cleared, graded or backfilled areas, including areas surfaced with topsoil ((as required by subdivision D)), shall be planted with a variety of trees, shrubs, legumes ((or)) and grasses((, and said flora shall be so selected as to be)) indigenous to the surrounding area((-)) and appropriate for the soil, moisture and exposure conditions;

~~((F. Graded or backfilled areas shall be reclaimed in a manner which will not allow water to collect and permit stagnant water to remain. Suitable drainage systems approved by the department of natural resources and parks shall be constructed or installed if natural drainage is not possible.~~

~~G))~~ 7. Waste or soil piles shall be ((leveled and the area treated as to sodding or surfacing)) used for grading, backfilling or surfacing if permissible under this section, then covered with topsoil and ((planting as required in)) planted in accordance with subsection((s D))C.3. and ((E)) 6. of this section. Waste or soil piles not acceptable to be used for fill in accordance with this chapter or as top soil in accordance with subsection

C.3. of this section shall be removed from the site; and

8. Where excavation has exposed natural materials that may create polluting conditions, including but not limited to acid-forming coals and metalliferous rock or soil, such conditions shall be addressed to the satisfaction of the department. The final ground surface shall be graded so that surface water drains away from any such materials remaining on the site.

H. The department may modify any requirement of this section when not applicable or if it conflicts with an approved subsequent use for the site.

SECTION 33. Ordinance 10870, Section 446, as amended, and K.C.C. 21A.22.080 are each hereby repealed.

NEW SECTION. SECTION 34. There is hereby added to K.C.C. 21A.22 a new section to read as follows:

Mitigation and monitoring. The applicant shall mitigate adverse impacts resulting from the extraction or processing operations and monitor to demonstrate compliance with this chapter.

SECTION 35. Ordinance 10870, Section 447, as amended, and K.C.C. 21A.22.090 are each hereby amended to read as follows:

Financial guarantees. Financial guarantees shall be required consistent with ~~((the provisions of))~~ K.C.C. Title 27A.

SECTION 36. Ordinance 10870, Section 514 and K.C.C. 21A.28.040 are each hereby amended to read as follows:

Adequate water supply. All new development shall be served by an adequate public or private water supply system as follows:

A. A public water system is adequate for a development proposal ~~((provided that))~~ only if:

1. For the issuance of a building permit, preliminary plat approval or other land use approval, the applicant ~~((must))~~ demonstrates that the existing water supply system available to serve the site:

a. complies with the applicable planning, operating and design requirements of:

(1) chapters WAC 246((~~2~~))-290 and 246-291;

(2) K.C.C. chapters 14.42 and ((~~K.C.C.~~)) 14.44 and K.C.C. Title 17;

(3) ((~~E~~))coordinated ((~~W~~))water system plans;

(4) K.C.C. Titles 12((~~, K.C.C. Title~~)) and 13 and other applicable ((~~provisions of the~~)) rules ((and regulations)) of the King County board of health;

(5) applicable rules of the Washington state Board of Health, Department of Health, Utilities and Transportation Commission and Department of Ecology;

(6) applicable provisions of King County groundwater management plans and watershed plans;

(7) applicable provisions of the King County Comprehensive Plan and development regulations;

and

(8) any limitation or condition imposed by the county-approved comprehensive plan of the water purveyor; ((and))

b. ((~~t~~))The proposed improvements to an existing water system have been reviewed by the department and determined to comply with the design standards and conditions specified in ((~~paragraph a. of this~~)) subsection A.1.a of this section; ((~~or~~)) and

c. ((~~a~~))A proposed new water supply system has been reviewed by the department and determined to comply with the design standards and conditions specified in ((~~paragraph a. of this~~)) subsection A.1.a. of this section;

2. ((~~Prior to~~)) Before issuance of a certificate of occupancy for a building or change of use permit, the approved public water system and any system improvements ((~~set forth~~)) in subsection A.1. of this section ((~~shall be~~)) are installed to serve each building or lot respectively;

3. For recording a final plat, final short plat or binding site plan, either the approved public water supply system or system improvements ((~~set forth~~)) in subsection A.1. of this section ((~~shall be~~)) are installed to

serve each lot or a bond or similar security shall be deposited with King County and may be assigned to a purveyor to assure the construction of required water facilities in Group A systems as defined by board of health regulations, within two years of recording; and

4. For a zone reclassification or urban planned development permit, the timing of installation of required water system improvements ~~((shall be))~~ is included in the approving ordinance as specified in K.C.C. 20.24.230.

B. An on-site~~((;))~~ individual water system is adequate and the plat or short plat may receive preliminary and final approval, and a building or change of use permit may be issued~~((;~~

~~1. In an urban area if:~~

~~a. the buildings or lots to be served are located outside of a county approved water purveyor service area; or~~

~~b. The water purveyor has indicated that service cannot be provided in compliance with the purveyors approved comprehensive plan; and~~

~~c. The Seattle King County department of public health has approved the proposed method of water supply in accordance with the applicable King County board of health rules and regulations and this section. The applicant shall provide appropriate information to demonstrate to the department and the Seattle King County department of public health that a private individual water system will be adequate. The Seattle King County department of public health may require installation of private individual water systems prior to final approval of a plat or short plat where information is insufficient to show an adequate water supply can be made available.~~

~~2. In a rural area, if the Seattle King County department of public health has approved the proposed method of water supply in accordance with the applicable King County board of health rules and regulations and this section. The applicant shall provide appropriate information to demonstrate to the department and the Seattle King County department of public health that a private individual water system will be adequate. The~~

~~Seattle King County department of public health may require installation of private individual water systems prior to final approval of a plat or short plat where information is insufficient to show an adequate water supply can be made available)) as provided in K.C.C. 13.24.138 and 13.24.140.~~

SECTION 37. Ordinance 10870, Section 536, as amended, and K.C.C. chapter 21A.30.080 are each hereby amended to read as follows:

Home occupation. Residents of a dwelling unit may conduct one or more home occupations as accessory activities, ~~((provided))~~ only if:

A. The total area devoted to all home occupation~~((s)))~~ or occupations shall not exceed twenty percent of the floor area of the dwelling unit. Areas with attached garages and storage buildings shall not be considered part of the dwelling unit for purposes of calculating allowable home occupation area but may be used for storage of goods associated with the home occupation;

B. In urban residential zones, all the activities of the home occupation~~((s)))~~ or occupations shall be conducted indoors, except for those related to growing or storing of plants used by the home occupation~~((s)))~~ or occupations;

C. In A, F and RA zones:

1. The total indoor area of a home occupation shall not exceed twenty percent of the floor area of the dwelling unit. Areas with attached garages and storage buildings shall not be considered part of the dwelling unit for purposes of calculating allowable home occupation area but may be used for storage of goods associated with the home occupation.

2. Total outdoor area of a home occupation shall not exceed one percent of the size of the lot up to a maximum of five thousand square feet.

3. Outdoor storage and parking shall have ten-foot wide Type II landscaping.

D. No more than one nonresident shall be employed by the home occupation~~((s)))~~ or occupations;

E. The following activities ~~((shall be))~~ are prohibited in urban residential zones only:

1. Automobile, truck and heavy equipment repair;
2. Autobody work or painting;
3. Parking and storage of heavy equipment; and
4. Storage of building materials for use on other properties.

F. In addition to required parking for the dwelling unit, on-site parking ~~((shall be))~~ is provided as follows:

1. One stall for a non~~((-))~~resident employed by the home occupation~~((s))~~; and
2. One stall for patrons when services are rendered on-site~~((-))~~;

G. Sales ~~((shall be))~~ are limited to:

1. Mail order sales; and
2. Telephone sales with off-site delivery~~((-))~~;

H. Services to patrons ~~((shall be))~~ are arranged by appointment or provided off-site;

I. The home occupation~~((s-may))~~ or occupations use or store a vehicle for pickup of materials used by the home occupation~~((s))~~ or occupations or the distribution of products from the site ~~((provided))~~ only if:

1. No more than one such a vehicle ~~((shall be))~~ is allowed;
2. ~~((Such))~~ The vehicle ~~((shall))~~ does not park within any required setback areas of the lot or on adjacent streets; and
3. ~~((Such))~~ The vehicle ~~((shall))~~ does not exceed a weight capacity of one ton, except in the A, F and RA zones on lots at least five acres in size, where it is only if the vehicle does not exceed a weight capacity of two and one-half tons ~~((-))~~;

J. The home occupation~~((s-shall))~~ or occupations do not use electrical or mechanical equipment that results in:

1. A change to the occupancy type of the structure~~((s))~~ or structures used for the home occupation~~((s))~~ or occupations;

2. Visual or audible interference in radio or television receivers, or electronic equipment located off premises; or

3. Fluctuations in line voltage off premises((:));

K. Uses not allowed as home occupations may be allowed as a home industry ((pursuant to)) under K.C.C. chapter 21A.30.

SECTION 38. Ordinance 10870, Section 563, as amended, and K.C.C. 21A.34.040 are each hereby amended to read as follows:

Public benefits and density incentives.

A. The public benefits eligible to earn increased densities, and the maximum incentive to be earned by each benefit, are in subsection F of this section. The density incentive is expressed as additional bonus dwelling units, or fractions of dwelling units, earned per amount of public benefit provided.

B. Bonus dwelling units may be earned through any combination of the listed public benefits.

C. The guidelines for affordable housing bonuses including the establishment of rental levels, housing prices and asset limitations, will be updated and adopted annually by the council in the consolidated housing and community development plan.

D. Bonus dwelling units may also be earned and transferred to the project site through the transfer of development rights (TDR) program established in K.C.C. chapter 21A.37, by providing any of the open space, park site or historic preservation public benefits set forth in subsection((s)) F.2. or ((F-))3. of this subsection on sites other than that of the RDI development.

E. Residential development in R-4 through R-48 zones with property specific development standards requiring any public benefit enumerated in this chapter, shall be eligible to earn bonus dwelling units in accordance with subsection F of this section of the public benefits provided exceed the basic development standards of this title. If a development is located in a special overlay district, bonus units may be earned if the development provides public benefits exceeding corresponding standards of the special district.

F. The following are the public benefits eligible to earn density incentives through RDI review.

BENEFIT	DENSITY INCENTIVE
1. AFFORDABLE HOUSING	
a. Benefit units consisting of rental housing permanently priced to serve non((-))senior citizen low-income households (((i.e.)) <u>that is</u> no greater than 30 percent of gross income for households at or below 50 percent of King County median income, adjusted for household size). A covenant on the site that specifies the income level being served, rent levels and requirements for reporting to King County shall be recorded at final approval.	1.5 bonus units per benefit unit, up to a maximum of 30 low-income units per five acres of site area; projects on sites of less than five acres shall be limited to 30 low-income units?
Benefit units consisting of rental housing designed and permanently priced to serve low-income senior citizens (((i.e.)) <u>that is</u> no greater than 30 percent of gross income for 1- or 2-person households, 1 member of which is 62 years of age or older, with incomes at or below 50 percent of King County median income, adjusted for household size). A covenant on the site that specifies the income level being served, rent levels and requirements for reporting to King County shall be recorded at final approval.	1.5 bonus units per benefit unit, up to a maximum of 60 low-income units per five acres of site area, projects on sites of less than five acres shall be limited to 60 low-income units.
c. Benefit units consisting of senior citizen assisted housing units 600 square feet or less	1 bonus unit per benefit unit

d. Benefit units consisting of moderate income housing reserved for income- and asset-qualified home buyers (total household income at or below 80 percent of King County median, adjusted for household size). Benefit units shall be limited to owner-occupied housing with prices restricted based on typical underwriting ratios and other lending standards, and with no restriction placed on resale. Final approval conditions shall specify requirements for reporting to King County on both buyer eligibility and housing prices.

0.75 bonus unit per benefit unit.

3. Benefit units consisting of moderate income housing reserved for income and asset-qualified home buyers (total household income at or below 80 percent of King County median, adjusted for household size). Benefit units shall be limited to owner-occupied housing with prices restricted based on typical underwriting ratios and other lending standards, and with a 15-year restriction binding prices and eligibility on resale to qualified moderate income purchasers. Final approval conditions shall specify requirements for reporting to King County on both buyer eligibility and housing prices.

1 bonus unit per benefit unit.

f. Benefit units consisting of moderate income housing reserved for income- and asset-qualified home buyers (total household income at or below 80 percent of King County median, adjusted for household size). Benefit units shall be limited to owner-occupied housing, with prices restricted to same income group, based on current underwriting ratios and other lending standards for 30 years from date of first sale. A covenant on the site that specifies the income level and other aspects of buyer eligibility, price levels and requirements for reporting to King County shall be recorded at final approval.

1.5 bonus units per benefit unit.

g. Projects in which 100 percent of the units are reserved for moderate income- and asset-qualified buyers (total household income at or below 80 percent of the King County median, adjusted for household size). All units shall be limited to owner-occupied housing with prices restricted based on current underwriting ratios and other lending standards, and with prices restricted to same income group, for 15 years from date of first sale. Final approval conditions shall specify requirements for reporting to King County on both buyer eligibility and housing prices.

200 percent of the base density of the underlying zone. Limited to parcels 5 acres or less in size and located in the R-4 through R-8 zones. Housing types in the R-4 or R-6 zones shall be limited to structures containing four or less units, except for townhouses. Such RDI proposals shall not be eligible to utilize other RDI bonus incentives listed in this section.

h. Benefit units consisting of mobile home park space or pad reserved for the relocation of an insignia or non((-))insignia mobile home, that has been or will be displaced due to closure of a mobile home park located in incorporated or unincorporated King County.

1.0 bonus unit per benefit unit.

2. OPEN SPACE, TRAILS AND PARKS

a. Dedication of park site or trail right-of-way meeting King County location and size standards for neighborhood, community or regional park or trail, and accepted by the parks division.

b. Improvement of dedicated park site to King County standards for developed parks.

c. Improvement of dedicated trail segment to King County standards.

0.5 bonus unit per acre of park area or quarter-mile of trail exceeding the minimum requirement of K.C.C. 21A.14 for on-site recreation space or trail corridors, computed on the number of dwelling units permitted by the site's base density.

0.75 bonus unit per acre of park improvement. If the applicant is dedicating the site of the improvements, the bonus units earned by improvements shall be added to the bonus units earned by the dedication.

1.8 bonus units per quarter((-)) mile of trail constructed to county standard for pedestrian trails; or

2.5 bonus units per quarter((-)) mile of constructed to county standard for multipurpose trails (pedestrian/bicycle/equestrian).

Shorter segments shall be awarded bonus units on a (~~pro-rata~~) pro-rata basis. If the applicant is dedicating the site of the improvements, the bonus units earned by improvements shall be added to the bonus units earned by the dedication.

3. HISTORIC PRESERVATION

a. Dedication of a site containing an historic landmark in accordance with K.C.C. chapter 20.62, to King County or a qualifying nonprofit organization capable of restoring and/or maintaining the premises to standards set by the King County ((L))l andmarks ((C))commission.

0.5 bonus unit per acre of historic site.

b. Restoration of a site or structure designated as an historic landmark in accordance with K.C.C. chapter 20.62 to a specific architectural or site plan approved by the King County ((L))l andmarks ((C))commission.

0.5 bonus unit per acre of site or one thousand square feet of floor area of building restored.

4. ENERGY CONSERVATION

a. Benefit units that incorporate conservation features in the construction of all on-site dwelling units heated by electricity that save at least 20 percent of space heat energy use from the maximum permitted by the Northwest Energy Code, as amended. No more than 50 percent of the required savings may result from the installation of heat pumps. None of the required savings shall be achieved by reduction of glazing area below 15 percent of floor area. Energy use shall be expressed as allowable energy load per square foot or as total transmittance (UA).

0.15 bonus unit per benefit unit that achieves the required savings.

b. Benefit units that incorporate conservation features on the construction of an all on-site dwelling units heated by natural gas, or other non((-))electric heat source, that save at least 25 percent of space heat energy use from the maximum permitted by the Northwest Energy Code, as amended. None of the required savings shall be achieved by reduction of glazing area below 15 percent of floor area. Energy use shall be expressed as allowable energy load per square foot or as total transmittance (UA).

0.10 bonus unit per benefit unit that achieves the required savings.

c. Developments located within 1/4 mile of transit routes served on at least a half-hourly basis during the peak hours and hourly during the daytime non((-))peak hours.

10 percent increase above the base density of the zone.

5. PUBLIC ART

a. Devoting 1% of the project budget to public art on site.

5 percent increase above the base density of the zone.

b. Contributing 1% of the project budget to the King County public art fund for development of art projects. The contribution shall be used for projects located within a one mile radius of the development project.

5 percent increase above the base density of the zone.

6. COTTAGE HOUSING

Provision of three to sixteen detached cottage units clustered around at least one common open space.

Two hundred percent of the base density of the underlying zone. Limited to parcels in the R4-R8 zones. Such RDI proposals shall not be eligible to utilize other RDI bonus density incentives listed in this section.

((Note:)) If proposed energy conservation bonus units of this section are reviewed in conjunction with a subdivision of a short subdivision, the applicant shall provide data and calculations for a typical house of the type to be built in the development that demonstrates to the department's satisfaction how the required savings will be achieved. A condition of approval shall be recorded with the plat and shown on the title of each lot specifying the required energy savings that must be achieved in the construction of the dwelling unit. The plat notation shall also specify that the savings shall be based on the energy code in effect at the time of preliminary plat application.

SECTION 39. Ordinance 13724, Section 1, as amended, and K.C.C. 21A.37.010 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - purpose.

A. The purpose of the transfer of development rights program is to ~~((provide a))~~ transfer residential density from eligible sending sites to eligible receiving sites through a voluntary~~((,-incentive-based))~~ process for permanently preserving rural resource and ~~((U))~~urban ~~((S))~~separator lands that provide a public benefit. The TDR provisions are intended to supplement land use regulations, resource protection efforts and open space acquisition programs and to encourage increased residential development density or increased commercial square footage, especially inside cities, where it can best be accommodated with the least impacts on the natural environment and public services by:

1. Providing an effective and predictable incentive process for property owners of rural, resource and ~~((U))~~urban ~~((S))~~separator land ~~((property owners))~~ to preserve lands with a public benefit as described in K.C.C. 21A.37.020; and

2. Providing an efficient and streamlined administrative review system to ensure that transfers of

development rights to receiving sites are evaluated in a timely way and balanced with other county goals and policies, and are adjusted to the specific conditions of each receiving site.

B. The TDR provisions in this chapter shall only apply to TDR receiving site development proposals submitted on or after September 17, 2001, and applications for approval of TDR sending sites submitted on or after September 17, 2001.

SECTION 40. Ordinance 13724, Section 4, as amended, and K.C.C. 21A.37.020 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - sending sites.

A. For the purpose of this chapter, ~~((“))~~sending site~~((“))~~ means ~~((the portion of the))~~ the entire tax lot or lots qualified under subsection B of this section. Sending sites may only be located within rural~~((;))~~ or resource lands or ~~((U))~~urban ~~((S))~~separator areas with R-1 zoning, as designated by the King County Comprehensive Plan and ~~((may))~~ cannot be in public ownership. If the sending site consists of more than one tax lot, the lots must be contiguous. For purposes of this section, lots divided by a street are considered contiguous if the lots would share a common lot line if the street was removed~~((. Sending sites shall be maintained in a natural state, except for lands zoned A or F, or lands zoned RA within the rural forest focus areas, or within proposed regional trail or open space sites suitable for passive recreation.))~~; this provision may be waived by the interagency committee if the total acreage of a rural or resource sending site application exceeds one hundred acres. A sending site shall be maintained in a condition that is consistent with the criteria in this section under which the sending was qualified.

B. Qualification of a sending site shall demonstrate that the site contains a public benefit such that preservation of that benefit by transferring residential development rights to another site is in the public interest. A sending site must meet at least one of the following criteria:

1. Designation in the King County Comprehensive Plan or a functional plan as an agricultural production district or zoned A;

2. Designation in the King County Comprehensive Plan or a functional plan as forest production district or zoned F;

3. Designation in the King County Comprehensive Plan as rural residential, zoned RA-5 or RA-10, and meeting the definition in RCW 84.34.020 of open space, farm and agricultural land, or timber land;

4. Designation in the King County Comprehensive Plan or a functional plan as within the rural forest focus area and zoned RA with a minimum of fifteen acres of forested land that is not encumbered through King County's development rights purchase program;

((4)) 5. Designation in the King County Comprehensive Plan, or a functional plan as a proposed rural or resource area regional trail or rural or resource area open space site, through either:

a. designation of a specific site; or

b. identification of proposed rural or resource area regional trails or rural or resource area open space sites which meet adopted standards and criteria, and for rural or resource area open space sites, meet the definition of open space land, as defined in RCW 84.34.020;

((5)) 6. Identification as habitat for federal listed endangered or threatened species in a written determination by the King County department of natural resources and parks, Washington state Department of Fish and Wildlife, United States Fish and Wildlife Services or a federally recognized tribe that the sending site is appropriate for preservation or acquisition; or

((6)) 7. Designation in the King County Comprehensive Plan as ((U))urban ((S))separator and zoned R-1.

C. For the purposes of the TDR program, (("))acquisition((")) means obtaining fee simple rights in real property, or a less than a fee simple right in a form that preserves in perpetuity the public benefit supporting the designation or qualification of the property as a sending site.

D. If a sending site has any outstanding code violations, the person responsible for code compliance should resolve these violations, including any required abatement, restoration, or payment of civil penalties,

before a TDR sending site may be qualified by the interagency review committee created under K.C.C.

21A.37.070. However, the interagency may qualify and certify a TDR sending site with outstanding code violations if the person responsible for code compliance has made a good faith effort to resolve the violations and the proposal is in the public interest.

E. For lots on which the entire lot or a portion of the lot has been cleared or graded (~~((pursuant to))~~) in accordance with to a Class II, III or IV special forest practice as defined in chapter 76.09 RCW within the six years prior to application as a TDR sending site, the applicant must provide an affidavit of compliance with the reforestation requirements of the Forest Practices Act, and any additional reforestation conditions of their forest practice permit. Lots on which the entire lot or a portion of the lot has been cleared or graded without any required forest practices or county authorization, shall be not qualified or certified as a TDR sending site for six years unless the six-year moratorium on development applications has been lifted or waived or the landowner has a reforestation plan approved by the state Department of Natural Resources and King County.

SECTION 41. Ordinance 13724, Section 5, as amended, and K.C.C. 21A.37.030 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - receiving sites.

A. Receiving sites shall be:

1. King County unincorporated urban sites, except as limited in subsection ~~((of))~~ of D₂ of this section, zoned R-4 through R-48, NB, CB, RB or O, or any combination thereof. The sites may also be within potential annexation areas established under the countywide planning policies; or

2. Cities where new growth is or will be encouraged under the Growth Management Act and the countywide planning policies and where facilities and services exist or where public investments in facilities and services will be made, or

3. RA-2.5 (~~(and RA-5)~~) zoned parcels, except as limited in subsection E₂ of this section, that meet the criteria listed in this subsection A.3₂ may receive development ~~((credits))~~ rights transferred from rural forest

focus areas, and accordingly may be subdivided and developed at a maximum density of one dwelling per two and one-half acres. Increased density allowed through the designation of rural receiving areas:

- a. must be eligible to be served by domestic Group A public water service;
- b. must be located within one-quarter mile of an existing predominant pattern of rural lots smaller than five acres in size;
- c. must not adversely impact regionally or locally significant resource areas or environmentally sensitive areas;
- d. must not require public services and facilities to be extended to create or encourage a new pattern of smaller lots;
- e. must not be located within rural forest focus areas; and
- f. must not be located on Vashon Island or Maury Island((s)).

B. Except as provided in this chapter development of an unincorporated King County receiving site shall remain subject to all zoning code provisions for the base zone, except TDR receiving site developments shall comply with dimensional standards of the zone with a base density most closely comparable to the total approved density of the TDR receiving site development.

C. An unincorporated King County receiving site may accept development rights from one or more sending sites, up to the maximum density permitted under K.C.C. 21A.12.030 and 21A.12.040.

D. Property located within the outer boundaries of the Noise Remedy Areas as identified by the Seattle-Tacoma International Airport may not accept development rights.

E. Property located on Vashon Island or Maury Island may not accept development rights.

SECTION 42. Ordinance 13724, Section 6, as amended, and K.C.C. 21A.37.040 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - calculations.

A. The number of residential development rights that an unincorporated sending site is eligible to send

to a receiving site shall be determined by applying the TDR sending site base density established in subsection D of this section to the area of the sending site after ~~((the following has been deducted:~~

~~1. A)) any portion of the sending site already in a conservation easement or other similar encumbrance ((;)) has been deducted.~~

~~((2. The amount of land area equal to the base density in the density and dimensions tables in K.C.C. 21A.12.030 and 21A.12.040 for the zone for each existing or proposed residential development unit within the lot or lots;~~

~~3. Any submerged land; and~~

~~4. Other areas, excluding setbacks, required by King County to remain undeveloped.))~~

B. Any fractions of development rights that result from the calculations in subsection A₂ of this section shall not be included in the final determination of total development rights available for transfer.

C. For purposes of calculating the amount of development rights a sending site can transfer, the amount of land contained within a sending site shall be determined as follows:

1. If the sending site is an entire tax lot, the square footage or acreage shall be determined:

a. by the King County department of assessments records; or

b. by a survey funded by the applicant that has been prepared and stamped by a surveyor licensed in the state of Washington; and

~~2. ((If the sending site is a portion of a tax lot, the square footage or acreage shall be determined by a survey that has been prepared and stamped by a surveyor licensed in the state of Washington; and~~

~~3.))~~ If the sending site consists of a lot that is divided by a zoning boundary, the square footage or acreage shall be calculated separately for each zoning classification. The square footage or acreage within each zoning classification shall be determined by the King County record of the action that established the zoning and property lines, such as an approved lot line adjustment. When such records are not available or are not adequate to determine the square footage or acreage within each zoning classification, the department of

development and environmental services shall calculate the square footage or acreage through the geographic information system (GIS) mapping system.

D. For the purposes of the transfer of development rights (TDR) program, the following TDR sending site base densities apply:

1. Sending sites designated in the King County Comprehensive Plan as ~~((U))~~urban ~~((S))~~separator and zoned R-1 shall have a base density of four dwelling units per acre ~~((:-))~~ for transfer purposes only;

2. Sending sites zoned RA outside a rural forest focus area shall have a base density consistent with the base density established in the density and dimensions tables in K.C.C.21A.12.030;

3. Sending sites zoned RA within rural forest focus areas shall have a base density of one dwelling unit per five acres for transfer purposes only;

4. Sending sites zoned A-10 and A-35 within the agricultural production district shall have a base density of one dwelling unit per five acres for transfer purposes only; and

5. Sending sites zoned F within the forest production district shall have a base density of one dwelling unit per eighty acres or one dwelling unit per each lot that is between fifteen and eighty acres in size for transfer purposes only.

E. A sending site may send one development right for every legal lot created on or before September 17, 2001, if that number is greater than the number of development rights determined under subsection A, of this section.

F. The number of development rights that a King County unincorporated rural or natural resources land sending site is eligible to send to a King County incorporated urban area receiving site shall be determined through the application of a conversion ratio established by King County and the incorporated municipal jurisdiction. The conversion ratio will be applied to the number of available sending site development rights determined under subsection A, or E, of this section.

G. Development rights from one sending site may be allocated to more than one receiving site and one

receiving site may accept development rights from more than one sending site.

H. The determination of the number of residential development rights a sending site has available for transfer to a receiving site shall be valid for transfer purposes only, shall be documented in a TDR certificate letter of intent and shall be considered a final determination, not to be revised due to changes to the sending site's zoning.

I. The number of residential development rights that a sending site with RA, A or F zoning is eligible to send to an unincorporated urban area receiving site shall be determined by applying twice the base density allowed for transfer purposes as specified in subsection D₂ of this section.

SECTION 43. Ordinance 14190, Section 7 and K.C.C. 21A.37.050 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - development limitations.

A. Following the transfer of residential development rights ~~((from))~~ a sending site ~~((, the portion of the lot or lots not designated as a sending site))~~ may subsequently accommodate remaining residential dwelling units, if any, on the buildable portion of the parcel or parcels or be subdivided, consistent with the zoned base density provisions of the density and dimensions tables in K.C.C. 21A.12.030 and 21A.12.040, the allowable dwelling unit calculations in K.C.C. 21A.12.070 and other King County development regulations. For sending sites zoned RA, the subdivision potential remaining after a density transfer may only be actualized through a clustered subdivision, short subdivision or binding site plan that creates a permanent preservation tract as large or larger than the portion of the subdivision set aside as lots. Within rural forest focus areas, resource use tracts shall be at least fifteen acres of contiguous forest land.

B. Residential and ~~((N))~~nonresidential uses on lots zoned R-1, RA, A and F shall be limited ~~((as follows:))~~ to a maximum of ten percent impacting impervious surface.

~~((1-))~~ C. Only those nonresidential uses directly related to, and supportive of the criteria under which the site qualified are allowed ~~((on the portion of the lot designated as a sending site))~~ on a sending site.

D. The applicable limitations in this section shall be included in the sending site conservation easement.

~~((2. The portion of the lot outside the sending site may develop nonresidential uses consistent with the zone.))~~

SECTION 44. Ordinance 14190, Section 8 and K.C.C. 21A.37.060 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - documentation of restrictions.

A. Following the transfer of development rights from a sending site, deed restrictions documenting the development rights transfers shall be recorded by the department of natural resources and parks, or its successor, and notice placed on the title to the sending site parcel. The department of development and environmental services, or its successor, shall establish and maintain an internal tracking system that identifies all certified transfer of developments rights sending sites.

B. A conservation easement granted to the county or other appropriate land management agency shall be required for land contained in the sending site. The conservation easement shall be documented by a map. The conservation easement ~~((may))~~ shall be placed on the entire lot or lots ~~((or only the portion of the lot or lots that is qualified as the sending site))~~. The conservation easement shall ~~((indicate the portion of the lot or lots restricted from future residential development, or))~~ identify limitations on future residential and nonresidential development ~~((within the conservation easement, whether or not the land is dedicated,))~~ consistent with this chapter and as follows:

1. A conservation easement, which contains the easement map, shall be recorded on the entire sending site to indicate development limitations on the sending site;

2. For a sending site zoned A-10 or A-35, the conservation easement shall be consistent in form and substance with the purchase agreements used in the agricultural land development rights purchase program. The conservation easement shall preclude subdivision of the subject property but may permit not more than one dwelling per sending site, and shall permit agricultural uses as provided in the A-10 or A-35 zone;

3. For a sending site located within a rural forest focus area, the sending site shall be a minimum of twenty acres. The conservation easement shall require that fifteen acres of contiguous forest land be restricted to forest management activities and shall include a forest stewardship plan approved by the county for ongoing forest management practices. The Forest Stewardship Plan shall ~~((include a description of the sites forest resources and the long term forest management objectives of the property owner,))~~ meet the requirements of King County administrative rules concerning forest stewardship plans and shall not impose standards that exceed Title 222 ~~((of the Washington Administrative Code))~~ WAC. No more than one dwelling unit is allowed for every twenty acres~~((The dwelling unit is to remain with the unrestricted portion of the conservation easement or unencumbered portion of the sending site))~~;

4. For a rural sending site located outside a rural forest focus area the conservation easement shall allow for restoration, maintenance or enhancement of native vegetation. A present conditions report shall be required to document the location of native vegetation. If residential development will be allowed on the site under the conservation easement, the present conditions report shall be used to guide the location of residential development;

5. For a sending site qualifying as habitat for federal listed endangered or threatened species, the conservation easement shall ~~((be placed on the portion of the lot or lots needed for habitat protection. The conservation easement shall))~~ protect habitat and allow for restoration, maintenance or enhancement of native vegetation. A present conditions report shall be required to document the location of ~~((native vegetation))~~ existing structures. If existing or future residential development will be allowed on the site under the conservation easement, the present conditions report shall be used by the owner to guide the location of residential development; and

6. For a sending site zoned F, the conservation easement shall encumber the entire sending site. Lots between fifteen acres and eighty acres in size are not eligible to participate in the TDR program if they include any existing dwelling units intended to be retained, or if a new dwelling unit is proposed. For eligible lots

between fifteen acres and eighty acres in size, the sending site must include the entire lot. For lots greater than eighty acres in size, the sending site shall be a minimum of eighty acres. The conservation easement shall permit forestry uses subject to a forest stewardship plan prepared by the applicant and approved by the county for ongoing forest management practices. The Forest Stewardship Plan shall include a description of the site's forest resources and the long-term forest management objectives of the property owner, and shall not impose standards that exceed Title 222 ~~((of the Washington Administrative Code))~~ WAC.

SECTION 45. Ordinance 13274, Section 7, as amended, and K.C.C. 21A.37.070 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - sending site certification and interagency review committee process.

A. An interagency review committee, chaired by the directors of the department of development and environmental services and the department of natural resources and parks, or their designees, shall be responsible for qualification of sending sites. Determinations on sending site certifications made by the committee are appealable to the examiner ~~((pursuant to))~~ under K.C.C. 20.24.080. The department of natural resources and parks shall be responsible for preparing a written report, which shall be signed by the director of the department of natural resources and parks or the director's designee, documenting the review and decision of the committee. The committee shall issue a TDR certification letter within sixty days of the date of submittal of a completed sending site certification application.

B. Responsibility for preparing a completed application rests exclusively with the applicant.

Application for sending site certification shall include:

1. A legal description of the site;
2. A title report;
3. A brief description of the site resources and public benefit to be preserved;
4. A site plan showing the ~~((proposed conservation easement area,))~~ existing and proposed dwelling

units, nonresidential structures, driveways, submerged lands((;)) and any area already ((in)) subject to a conservation easement or other similar encumbrance ((and any other area, except setbacks, required by King County to remain open)));

5. Assessors map or maps of the lot or lots;

6. A statement of intent indicating whether the property ownership, after TDR certification, will be retained in private ownership or dedicated to King County or another public or private nonprofit agency;

7. Any or all of the following written in conformance with criteria established through a public rule consistent with K.C.C. chapter 2.98, if the site is qualifying as habitat for a threatened or endangered species:

- a. a wildlife habitat conservation plan;
- b. a wildlife habitat restoration plan; or
- c. a wildlife present conditions report;

8. A forest stewardship plan, written in conformance with criteria established through a public rule consistent with K.C.C. chapter 2.98, if required under K.C.C. 21A.37.060B.3₂ and 6;

9. An affidavit of compliance with the reforestation requirements of the Forest Practices Act and any additional reforestation conditions of the forest practices permit for the site, if required under K.C.C. 21A.37.020.E((;));

10. A completed density calculation worksheet for estimating the number of available development rights((;)); and

11. The application fee consistent with K.C.C. 27.36.020.

SECTION 46. Ordinance 13274, Section 8, as amended, and K.C.C. 21A.37.080 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - transfer process.

A. TDR development rights where both the proposed sending and receiving sites would be within unincorporated King County shall be transferred using the following process:

1. Following interagency review committee review and approval of the sending site application as described in K.C.C. 21A.37.070 the interagency review committee shall issue a TDR certificate letter of intent, agreeing to issue a TDR certificate in exchange for the proposed sending site conservation easement. The sending site owner may then market the TDR sending site development rights to potential purchasers. If a TDR sending site that has been reviewed and approved by the interagency review committee changes ownership, the TDR certificate letter of intent may be transferred to the new owner if requested in writing to the department of natural resources by the person or persons that owned the property when the TDR certificate letter of intent was issued, provided that the documents evidencing the transfer of ownership are also provided to the department of natural resources;

2. In applying for receiving site approval, the applicant shall provide the department of development and environmental services with one of the following:

- a. a TDR certificate letter of intent issued in the name of the applicant,
- b. a TDR certificate letter of intent issued in the name of another person or persons and a copy of a signed option to purchase those TDR sending site development rights,
- c. a TDR certificate issued in the name of the applicant, or
- d. a TDR certificate issued in the name of another person or persons and a copy of a signed option to purchase those TDR sending site development rights;

3. Following building permit approval, but before building permit issuance by the department of development and environmental services or following preliminary plat approval or preliminary short plat approval, but before final plat or short plat recording of a receiving site development proposal which includes the use of TDR development rights, the receiving site applicant shall deliver the TDR certificate issued in the applicant's name for the number of TDR development rights being used and the TDR extinguishment document to the county;

4. When the receiving site development proposal requires a public hearing under this title or K.C.C.

Title 19A or its successor, that public hearing shall also serve as the hearing on the TDR proposal. The reviewing authority shall make a consolidated decision on the proposed development and use of TDR development rights and consider any appeals of the TDR proposal under the same appeal procedures set forth for the development proposal; and

5. When the development proposal does not require a public hearing under this title or K.C.C. Title 19A, the TDR proposal shall be considered along with the development proposal, and any appeals of the TDR proposal shall be considered under the same appeal procedures set forth for the development proposal.

6. Development rights from a sending site shall be considered transferred to a receiving site when a final decision is made on the TDR receiving area development proposal, the sending site is permanently protected by a completed and recorded land dedication or conservation easement, notification has been provided to the King County assessor's office and a TDR extinguishment document has been provided to the department ~~((and the King County department))~~ of natural resources and parks, or ~~((their))~~ its successor ~~((agencies))~~ agency.

B. TDR development rights where the proposed receiving site would be within an incorporated King County municipal jurisdiction shall be reviewed and transferred using that jurisdiction's development application review process.

SECTION 47. Ordinance 13733, Section 10, as amended, and K.C.C. 21A.37.110 are each hereby amended to read as follows:

Transfer of development rights (TDR) bank expenditure and purchase authorization.

A. The TDR bank may purchase development rights from qualified sending sites at prices not to exceed fair market value and to sell development rights at prices not less than fair market value. The TDR bank may accept donations of development rights from qualified TDR sending sites.

B. The TDR bank may purchase a conservation easement only if the property subject to the conservation easement is qualified as a sending site as evidenced by a TDR certificate letter of intent, the

conservation easement restricts development of the sending site in the manner required by K.C.C. 21A.37.060 and the development rights generated by encumbering the sending site with the conservation easement are issued to the TDR bank at no additional cost.

C. If a conservation easement is acquired through a county park, open space, trail, agricultural, forestry ((-)) or other natural resource acquisition program for a property that is qualified as a TDR sending site as evidenced by a TDR certificate letter of intent, any development rights generated by encumbering the sending site with the conservation easement may be issued to the TDR bank so long as there is no additional cost for the development rights.

D. The TDR bank may use funds to facilitate development rights transfers. These expenditures may include, but are not limited to, establishing and maintaining internet web pages, marketing TDR receiving sites, procuring title reports and appraisals and reimbursing the costs incurred by the department of natural resources and parks, water and land resources division, or its successor, for administering the TDR bank fund and executing development rights purchases and sales.

E. The TDR bank fund shall not be used to cover the cost of identifying and qualifying sending and receiving sites, or the costs of providing staff support for the TDR interagency review committee or the department of natural resources and parks.

F. All proceeds from the sale of TDR bank development rights shall be available for acquisition of additional development rights upon approval of the TDR executive board.

SECTION 48. Ordinance 13733, Section 12, as amended, and K.C.C. 21A.37.130 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - sale of TDR rights by TDR bank.

A. The sale of development rights by the TDR bank shall be at a price that equals or exceeds the fair market value of the development rights. The fair market value of the development rights shall be established by the department of natural resources and shall be based on the amount the county paid for the development

rights and the prevailing market conditions.

B. When selling development rights, the TDR bank may select prospective purchasers based on the price offered for the development rights, the number of development rights offered to be purchased, and the potential for the sale to achieve the purposes of the TDR program.

C. The TDR bank may sell development rights only in whole or half increments to incorporated receiving sites through an interlocal agreement. The TDR bank may sell development rights only in whole increments to unincorporated King County receiving sites.

D. All offers to purchase development rights from the TDR bank shall be in writing, shall include a certification that the development rights, if used, shall be used only inside an identified city or within the urban unincorporated area, include a minimum ten((-))percent down payment with purchase option, shall include the number of development rights to be purchased, location of the receiving site, proposed purchase price and the required date or dates for completion of the sale, not later than (~~((one hundred twenty calendar days))~~) three years after the date of receipt by King County of the purchase offer.

E. Payment for purchase of development rights from the TDR bank shall be in full at the time the development rights are transferred unless otherwise authorized by the department of natural resources and parks

SECTION 49. Ordinance 13733, Section 15, as amended, and K.C.C. 21A.37.160 are each hereby amended to read as follows:

Transfer of development rights (TDR) program - establishment and duties of the TDR executive board.

A. The TDR executive board is hereby established. The TDR executive board shall be composed of the director of the budget office, the director of the department of natural resources and parks, the director of the department of transportation and the director of finance, or their designees. A representative from the King County council staff, designated by the council chair, may participate as an ex officio, nonvoting member of the TDR executive board. The TDR executive board shall be chaired by the director of the department of natural

resources and parks or that director's designee.

B. The issues that may be addressed by the executive board include, but are not limited to, using site evaluation criteria established by administrative rules, ranking and selecting sending sites to be purchased by the TDR bank, recommending interlocal agreements and the provision of TDR amenities, if any, to be forwarded to the executive, identifying future funding for amenities in the annual budget process, enter into other written agreements necessary to facilitate density transfers by the TDR bank and otherwise oversee the operation of the TDR bank to measure the effectiveness in achieving the policy goals of the TDR program.

C. The department of natural resources and parks shall provide lead staff support to the TDR executive board. Staff duties include, but are not limited to:

1. Making recommendations to the TDR executive board on TDR program and TDR bank issues on which the TDR executive board must take action;
 2. Facilitating development rights transfers through marketing and outreach to the public, community organizations, developers and cities;
 3. Identifying potential receiving sites;
 4. Developing proposed interlocal agreements with cities;
 5. Assisting in the implementation of TDR executive board policy in cooperation with other departments;
 6. Ranking certified sending sites for consideration by the TDR executive board;
 7. Negotiating with cities to establish city receiving areas with the provision of amenities;
 8. Preparing agendas for TDR executive board meetings;
 9. Recording TDR executive board meeting summaries;
 10. Preparing administrative rules in accordance with K.C.C. chapter 2.98 to implement this chapter;
- and
11. Preparing ~~((annual))~~ periodic reports on the progress of the TDR program to the council with

assistance from other departments.

NEW SECTION. SECTION 50. Ordinance 12823, Section 8 and K.C.C. 21A.38.130 are each hereby amended to read as follows:

Special district overlay - ~~((A))~~agricultural production buffer.

A. The purpose of the agricultural production buffer special district overlay is to provide a buffer between agricultural and upslope residential land uses. An agricultural production buffer special district overlay shall only be established in areas adjacent to an agricultural production district and zoned RA.

B.
