WHEREAS, King County Flood Control District ("the District") has identified the need for Factoria Boulevard Storm Conveyance improvements to increase storm system conveyance capacity to reduce the risk of flooding along Factoria Boulevard between SE 38<sup>th</sup> Street and the Richards Creek inlet channel; and

WHEREAS, Bellevue and the District desire to replace a segment of the existing storm pipe with a larger capacity conveyance system along the north bound lanes of Factoria Boulevard SE that will outfall into the Richards Creek Inlet channel adjacent to the Factoria Village commercial area design to protect affected regional traffic and commercial properties ("the Project"); and

WHEREAS, the Project is included in the District's 2021 and 2022 annual budget, in a total amount of \$6,814,000 to construct the Project; and

WHEREAS, Bellevue has agreed to serve as the District's service provider for the Project;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE KING COUNTY FLOOD CONTROL DISTRICT:
