SECTION 70. Ordinance 18835, Section 108, as amended, is hereby amended as follows:

WASTEWATER TREATMENT - From the water quality fund there is hereby disappropriated from:

Wastewater treatment (\$400,000)

SECTION 71. The council directs that section 69 of this ordinance takes effect before section 71 of this ordinance.

SECTION 72. Ordinance 18835, Section 108, as amended, is hereby amended as follows:

WASTEWATER TREATMENT - From the water quality fund there is hereby appropriated to:

Wastewater treatment \$5,251,000

ER1 EXPENDITURE RESTRICTION:

Of this appropriation, \$55,000 shall be expended or encumbered solely to reimburse the department of human resources for the cost of assigning two Ruth Woo fellows, as described in K.C.C. 3.12.184, for three to four months to the wastewater treatment division.

Of this appropriation, \$400,000 shall be expended or encumbered solely to evaluate the presence of toxic elements in the effluent of treatment plants, as provided in Proviso P1 of this section.

ER3 EXPENDITURE RESTRICTION:

Of this appropriation, \$2,435,849, shall be expended or encumbered solely for water quality improvement activities, programs or projects and only in the amounts and for the specific water quality improvement activities, programs or projects located within the King County wastewater treatment service area

set forth by ordinance. Of this amount, \$133,500 shall be reserved for administrative costs associated with the program.

The ordinance or ordinances required by this expenditure restriction must be proposed by a King County councilmember.

ER4 EXPENDITURE RESTRICTION:

Of this appropriation, \$80,000 shall be expended or encumbered solely to support the Thornton Creek Alliance noxious weed project, as a water quality improvement project provided for in Expenditure Restriction ER3 of this section.

P1 PROVIDED THAT:

Of this appropriation, \$300,000 shall not be expended or encumbered until the executive transmits a status report on the progress of finalizing and transmitting an evaluation report on toxics in King County wastewater effluent, ((evaluating)) which shall include an evaluation of the presence of toxic elements in the effluent of treatment plants, and a motion that acknowledges receipt of the status report and ((the)) a motion acknowledging receipt of the status report is passed by the council. The motion should reference the subject matter, the proviso's ordinance, ordinance section and proviso number in both the title and body of the motion.

The status report should inform the council on the timeline line of when the required elements of the evaluation report, as set forth in this proviso, are expected to be completed and confirmation that the final evaluation report will transmitted to the council by June 30, 2021. The status report shall also describe any challenges or impediments in completing the evaluation report by that date.

The evaluation report shall be based on testing of the undiluted effluent of treatment plants, and shall be compared with chemical elements being discharged as industrial wastes into the wastewater collection system. The evaluation shall address and report on the presence, origin, volume, toxicity, environmental fate and impacts to the marine environment of toxics including metals, volatile organic compounds, chemicals of

emerging concern and other toxics in the undiluted effluent of treatment plants. While the evaluation shall be as broad as possible within costs, to the extent necessary to narrow the scope of the evaluation in light of the extensive range of potentially toxic elements, the focus shall be on: (1) those elements considered most toxic to the marine environment generally; and (2) those elements considered potentially toxic to Southern Resident Killer Whales and the hierarchy of marine species upon which the Southern Resident Killer Whales depend. The evaluation shall additionally assess whole effluent toxicity of the discharges, to assess the impact of the complex mix of toxic elements on marine species. The assessment shall be designed to indicate whether undiluted wastewater effluent represents a potential source of deleterious toxic influence to Puget Sound marine organisms, and to Southern Resident Killer Whales and the hierarchy of marine species upon which they depend particularly. The evaluation shall include an assessment of the accumulation of those toxic elements in marine organisms, either directly or through bioaccumulation, and shall discuss potential impacts on metabolic processes, behavior and mortality. The assessment may be accomplished either through analysis of the tissue of selected species, or through bioaccumulation modeling. The evaluation shall describe potential wastewater treatment technologies that have the capacity, in part or in whole, to limit or control the discharge of toxics in wastewater effluents to a significantly greater extent than is currently being accomplished at King County treatment plants.

The work to perform the evaluations required by this proviso and to prepare the evaluation report shall be contracted to an entity or entities with the ~~((capacity))~~ expertise to address the required elements of ~~((this))~~ the evaluation~~((;))~~. ~~((p))~~Preference shall be given to entities with a demonstrated history of evaluating and reporting on the impacts of wastewater effluents on the marine environment, including impacts on Southern Resident Killer Whales or their prey species, and that have the capacity for modeling the bioaccumulation of toxics.

The results of the evaluation shall be described in an evaluation report on toxics in King County wastewater effluent. Within the limits of funding, the report shall describe the presence, origin, volume,

toxicity, environmental fate and impacts to the marine environment of toxics evaluated, and shall discuss the identified or potential impacts of those toxics on marine species, particularly including the Southern Resident Killer Whales and the hierarchy of marine species upon which those killer whales depend.

The executive (~~(must)~~) should file the status report and a motion required by this proviso by (~~(March)~~) December 31, 2020, in the form of a paper original and an electronic copy with the clerk of the council, who shall retain the original and provide an electronic copy to all councilmembers, the council chief of staff and the lead staff for the regional water quality committee and the committee of the whole, or their successors.

P2 PROVIDED FURTHER THAT:

Of this appropriation, \$250,000 shall not be expended or encumbered until the executive transmits a report on the Kenmore interceptor impacts to fish populations and a motion that acknowledges receipt of the report and the motion is passed by the council. The motion should reference the subject matter, the proviso's ordinance, ordinance section and proviso number in both the title and body of the motion.

The report shall include, but not be limited to: (1) a discussion of the design and placement of Section 2 of the Kenmore interceptor, with particular attention to the placement of the interceptor section and efforts to avoid the accumulation of silt and accommodate the movement of water fauna; (2) a characterization of the silt accumulation beneath and around the Interceptor in the intervening years since its construction; (3) an analysis of the impacts of the silt accumulation on water fauna, with particular attention to the ability of the fauna to freely access the lake environment on both sides of the interceptor, including any potential impacts on the migration of anadromous species; (4) an analysis of the interruption of natural upland soil distribution processes from area streams discharging into the lake in the area of the interceptor Section 2. The report shall additionally address the impacts on the nearshore environment of effectively creating a barrier resulting in functionally separated lake areas. The report shall discuss options to remedy identified impacts as well as associated costs, and recommend appropriate subsequent steps.

The executive must file the report and motion required by this proviso by March 31, 2020, in the form

of a paper original and an electronic copy with the clerk of the council, who shall retain the original and provide an electronic copy to all councilmembers, the council chief of staff and the lead staff for the regional water quality committee and the committee of the whole, or their successors.

The primary existing biosolids processing strategy utilized by the county emphasizes the land application of biosolids generated by the wastewater treatment process at county facilities ("biosolids") in forest and farm environments. The report shall describe and evaluate alternative options for the use of those biosolids. The report should also address alternative biosolids management approaches that may lead to an expansion or diversification of the markets for those biosolids.

The report shall include, but not be limited to:

A. As an alternative option to be evaluated, the construction of a local biosolids facility that could generate by-products to include gas, electricity, Class A soil enhancer/amendment or for other productive uses;

B. To compare the costs and benefits of the alternative options to the existing strategy a financial analysis comparing the alternative options to the existing strategy, including the transportation costs of the existing strategy;

C. The size of the physical footprint needed for a biosolids facility sited locally, at which those biosolids could be further refined into marketable by-products, including gas, electricity and Class A soil enhancer or amendment;

D. The volume of storage capacity required to store biosolids under the existing biosolids strategy and

projected future storage capacity requirements. To the extent that under the existing biosolids strategy involves storage, the study shall also describe: (1) the volume of the storage; and (2) the proportion of total storage capacity that is being reached, described as peak storage levels over the past year;

E. The mapped locations of current land application of biosolids; and

F. A financial analysis of a strategy to transition all or a portion of the current production of biosolids to Class A biosolids, including discussion of the financial viability of the transition.

The executive should file the report and a motion required by this proviso by June 1, 2020, in the form of a paper original and an electronic copy with the clerk of the council, who shall retain the original and provide an electronic copy to all councilmembers, the council chief of staff and the lead staff for the regional water quality committee and the committee of the whole, or their successors.
