PREAMBLE:

Current use taxation programs, as defined in chapters 84.33 and 84.34 RCW, offer a property tax reduction to landowners who voluntarily preserve or manage lands within four categories: open

space land or land in the public benefit rating system, farm and agricultural land, timberland and designated forestland.

King County first adopted a public benefit rating system program in 1992 and has updated the program several times since then. The changes to the program recommended in this ordinance, include the creation of a new ecological enhancement land category, which offers applicants additional points and tax savings for conducting major resource recovery efforts on their property.

Additional changes to existing category requirements and clarification on certain aspects of program policy, administration, the public hearing process for property in an incorporated area and reporting are designed to assist program applicants and to enhance the county's ability to administer program requirements fairly and consistently.

An eligible site must be listed as an Element Occurrence by the Washington Natural Heritage Program ~~((as of the date of the application))~~ or be identified as a property that meets the criteria for an Element Occurrence. The identification must be confirmed by a qualified expert acceptable to the department. The department ~~((will))~~ shall notify the Washington Natural Heritage Program of any verified ~~((e))~~ Element ~~((o))~~ Occurrence on an enrolling property. Commercial nurseries, arboretums or other maintained garden sites with native or nonnative plantings are ineligible for this category;

~~((15.))~~ 16. Significant wildlife or salmonid habitat - five points.

a. ~~((For the purposes of this subsection B.15.))~~ "~~((s))~~Significant wildlife or salmonid habitat" means:

(1) an area used by animal species listed as endangered, threatened, sensitive or candidate by the Washington state Department of Fish and Wildlife or Department of Natural Resources ~~((as of the date of the application,))~~ or used by species of local significance that are listed by the King County Comprehensive Plan or a local jurisdiction;

(2) an area where the species listed in subsection ~~((B.15.a.(1.))~~ C.16.a.(1) of this section are

potentially found with sufficient frequency for critical ecological processes (~~(to occur)~~), such as reproduction, nesting, rearing, wintering, feeding or resting, to occur;

(3) a site that meets the criteria for priority habitats as defined by the Washington state Department of Fish and Wildlife and that is so listed by the King County Comprehensive Plan or by the local jurisdiction in which the property is located; or

(4) a site that meets criteria for a wildlife habitat conservation area as defined by the department or a local jurisdiction.

b. To be eligible (~~(as significant wildlife or salmonid habitat)~~), the department, by its own determination or by expert determination acceptable to the department, must verify that qualified species are present on the property or that the land fulfills the functions described in subsection (~~(B.15.a.)~~) C.16.a. of this section. To receive credit for salmonid habitat, the owner (~~(must)~~) shall provide a buffer at least fifteen percent greater in width than required by any applicable regulation. Property consisting mainly of disturbed or fragmented open space determined by the department as having minimal wildlife habitat significance is ineligible (~~(for this category)~~);

~~((16.))~~ 17. Special animal site - three points. (~~(For the purposes of this subsection B.16.)~~) "(s)Special animal site" means a site that includes a wildlife habitat network identified by the King County Comprehensive Plan or individual jurisdictions through the Growth Management Act, chapter 36.70A RCW, or (~~(urban natural)~~) a biodiversity area ((as)) and corridor identified by the Washington state Department of Fish and Wildlife's priority habitats and species project as of the date of the application. (~~(To be eligible as a special animal site, t))~~)The property must be identified by King County or local or state jurisdiction or by expert verification acceptable to the department or local jurisdiction. Property consisting mainly of disturbed or fragmented open space determined by the department to have minimal wildlife habitat significance is ineligible for this category;

~~((17.))~~ 18. Surface water quality buffer - five, eight or ten total points. (~~(For the purposes of this~~

~~subsection B.17.,~~) ~~"((s))~~Surface water quality buffer" means an undisturbed area that has a plant community in which native plants are dominant ~~((adjacent to))~~ abutting a lake, pond, stream, shoreline, wetland or marine waters on or abutting the property, that provides buffers beyond that required by any applicable regulation. To ~~((be eligible as surface water quality buffer))~~ receive five points, the buffer must be at least fifty percent wider than the buffer required by any applicable regulation ~~((and longer than twenty-five feet))~~. To receive eight points, the buffer must be at least two times the required width. To receive ten points, the buffer must be at least three times the required width. The qualifying buffer ~~((area))~~ must be longer than twenty-five feet and must be preserved from clearing ~~((and intrusion by domestic animals and protected from grazing))~~ or maintenance, unless this area is part of a department-approved ecological enhancement, farm management, forest stewardship, rural stewardship or resource restoration plan. Grazing or use by livestock on such land is prohibited;

~~((18.))~~ 19. Urban open space - five points.

a. ~~((For the purposes of this subsection B.18.,))~~ ~~"((u))~~Urban open space" means land located within the boundaries of a city or within the urban growth area that has a plant community in which native plants are dominant and that under the applicable zoning is eligible for more intensive development or use. ~~((To be eligible as urban open space, t))~~The enrolling area must be at least one acre, or be at least one-half acre if the land meets one of the following criteria:

- (1) the land conserves and enhances natural or scenic resources;
- (2) the land protects streams or water supply;
- (3) the land promotes conservation of soils, wetlands, beaches or tidal marshes;
- (4) the land enhances the value to the public of ~~((abutting or neighboring))~~ adjacent parks, forests, wildlife preserves, nature reservations or sanctuaries or other open space;
- (5) the land enhances recreation opportunities ~~((to))~~ for the general public; or
- (6) the land preserves visual quality along highways, roads, and streets or scenic vistas.

b. Owners of noncontiguous properties that together meet the minimum acreage requirement (~~(of subsection B.18.a. of this section)~~) may jointly apply under this category if each property is closer than seventy-five feet to one other property in the application and if each property contains an enrolling open space area at least as large as the minimum zoned lot size; and

~~((19.))~~ 20. Watershed protection area - five points. ~~((For the purposes of this subsection B.19.))~~ ~~((w))~~ Watershed protection area" means property contributing to the forest cover that provides run-off reduction and groundwater protection. ~~((To be eligible as watershed protection area, t))~~ The property must consist of contiguous native forest or be in the process of reforestation. The enrolling forested area must consist of additional forest cover beyond that required by county or applicable local government regulation and must be at least one acre or sixty-five percent of the property acreage, whichever is greater. If reforestation or improvements to the forest health are necessary, the property owner shall provide and implement an ecological enhancement, forest stewardship, resource restoration or rural stewardship plan that addresses this need and is acceptable to the department.

~~((C.))~~ D. Property qualifying for an open space category in subsection ~~((B.))~~ C. of this section may receive credit for additional points as follows:

~~((1. Resource restoration - five points. For the purposes of this subsection C.1, "resource restoration" means restoration of an enrolling area of property benefiting an area in an open space resource category. Emphasis shall be placed on the restoration of anadromous fish rearing habitat, riparian zones, migration corridors and wildlife, upland, stream and wetland habitats. To be eligible as resource restoration, the owner must provide and implement a restoration plan developed in cooperation with the Soil Conservation Service, the state Department of Fisheries and Wildlife, King County or other appropriate local or county agency that is acceptable to by the department. Historic resource restoration must be approved by the King County historic preservation officer or officer of another certified local government and must be accompanied by a long-term maintenance plan. For resource restoration credit, the owner shall provide to the department a yearly~~

~~monitoring report for at least five years following enrollment in the public benefit rating system program. The report shall describe the progress and success of the restoration project and shall include photographs to document the success. Land receiving credit for this category shall not receive credit for the forest stewardship land category or the rural stewardship land category;~~

~~2. Additional surface water quality buffer – three or five points. For the purposes of this subsection C.2, "additional surface water quality buffer" means an undisturbed area of native vegetation adjacent to a lake, pond, stream, wetland or marine water providing a buffer width of at least twice that required by regulation. To be eligible as additional surface water quality buffer, the property must qualify for the surface water quality buffer category in subsection B. of this section. Three points are awarded for additional buffers no less than two times the buffer width required by any applicable regulation. Five points are awarded for additional buffers no less than three times the buffer width required by any applicable regulation;~~

~~3.)) 1. Conservation easement or historic preservation easement - eighteen points. "Conservation easement or historic preservation easement" means land on which an easement is voluntarily placed that restricts, in perpetuity, further potential development or other uses of the property. The easement must be approved by the department and be recorded with the King County recorder's office or its successor. The easement must be conveyed to the county or to an organization acceptable to the department, such as a land trust or conservancy. Historic preservation easements must also be approved by the historic preservation officer of King County or of the local government jurisdiction in which the property is located. An easement required by zoning, subdivision conditions or other land use regulation is not eligible unless an additional substantive easement area is provided beyond that otherwise required;~~

~~2. Contiguous parcels under separate ownership - two points ((per participating owner above one owner. The points under this subsection C.3 accrue to all of the owners of a single application. However, the withdrawal of a participating property by an owner results in the loss of two points to the total credit awarded for each of the remaining owners under this subsection C.3. For the purposes of this subsection C.3,~~

~~"contiguous parcels" means either:))~~.

~~((a. enrolling parcels abut each other without any significant natural or human-made barrier separating them; or))~~ a. "Contiguous parcels under separate ownership" means at least two or more parcels under different ownership where either:

(1) the enrolling parcels and open space acreage abut each other without a significant human-made barrier separating them; or

(2) the enrolling parcels do not abut each other, but abut a publicly owned open space, without a significant human-made barrier separating the publicly owned open space and the open space portion of the parcels seeking open space classification.

~~((b. enrolling parcels abut a publicly owned open space but not necessarily abut each other without any significant natural or human-made barriers separating the publicly owned open space and the parcels seeking open space classification.))~~ b. Award of this category requires a single application by multiple owners and parcels with identical qualifying public benefit rating system resources. Only a single application fee is required.

c. Contiguous parcels of land with the same qualifying public benefit rating system resources are eligible for treatment as a single parcel if open space classification is sought under the same application, except as otherwise prohibited by the farm and agricultural conservation land category. ((Award of this category requires a single application by multiple owners and parcels with identical qualifying public benefit rating system resources. Treatment as contiguous parcels shall include the requirement to pay only a single application fee and the requirement that the total area of all parcels combined must equal or exceed any required minimum area, rather than each parcel being required to meet the minimum area. Individual parcels may be withdrawn from open space classification consistent with all applicable rules and regulations without affecting the continued eligibility of all other parcels accepted under the same application, but the combined area of the parcels remaining in open space classification must still qualify for their original enrolling public

~~benefit rating system category or categories. To be eligible as contiguous parcels under separate ownership, the property must include two or more parcels under different ownership. The owners of each parcel included in the application must agree to identical terms and conditions for enrollment in the program;))~~

5-)) Each parcel need not meet the minimum acreage requirements for a resource category so long as the total area of all enrolling land combined meets any required minimum acreage requirements. The owners of each parcel included in the application must agree to identical terms and conditions for enrollment in the program.

d. Individual parcels or portions of parcels may be withdrawn or removed from open space classification, consistent with all applicable rules and regulations. The continued eligibility of all parcels and associated acreage remaining in open space classification accepted under the same application is dependent upon the continued qualification for a resource category or categories.

e. Points are awarded for each participating owner above one owner and accrue to all owners of a single application. The withdrawal or removal of all enrolled acreage associated with an owner results in the loss of two points for each remaining owner;

~~((4. Conservation easement or historic preservation easement – fifteen points. For the purposes of this subsection C.4, "conservation easement or historic preservation easement" means land on which an easement is voluntarily placed that restricts, in perpetuity, further potential development or other uses of the property. The granting of this conservation easement or historic preservation easement provides additional value through permanent protection of a resource. These easements are typically donated or sold to a government or nonprofit organization, such as a land trust or conservancy. To be eligible as conservation easement or historic preservation easement, the easement must be approved by the department and be recorded with the records and licensing services division. The easement shall be conveyed to the county or to an organization acceptable to the department. In addition, historic preservation easements shall also be approved by the historic preservation officer of King County or officer of another certified of the local government jurisdiction in which the property~~

is located. ~~An easement required by zoning, subdivision conditions or other land use regulation is not eligible unless an additional substantive easement area is provided beyond that otherwise required;~~

5.) 3. Easement and access - thirty-five points. "Easement and access" means that the property has at least one qualifying open space resource, unlimited public access or limited public access due to resource sensitivity, and a conservation easement or historic preservation easement in perpetuity in a form and with conditions acceptable to the department. To be eligible, a property must receive credit for an open space category and for the conservation easement or historic easement in perpetuity category. The owner must agree to allow public access to the portion of the property designated for public access in the easement. An easement required by zoning, subdivision conditions or other land use regulation is not eligible, unless there is additional easement area beyond that required. Credit for this category may not overlap with the equestrian-pedestrian-bicycle trail linkage;

4. Public access - points depend on type and frequency of access allowed. ((For the purposes of this subsection C.5;)) "(p)Public access" means the general public is allowed access on an ongoing basis for uses such as((, but not limited to,)) recreation, education or training. Access must be allowed on ((only)) the portion of the property that is designated for public access. The landowner may impose reasonable restrictions on access, such as limiting use to daylight hours, ((that are mutually)) agreed to by ((the landowner and)) the department. No physical barriers may limit reasonable public access or negatively affect an open space resource. ((To be eligible for public access at one of the levels described in a. through d. of this subsection C.5; a))A property owner shall demonstrate that the property is open to public access and is used by the public. ((Public access points for historic properties shall be approved by t))The historic preservation officer of King County or ((officer of another certified)) a certified officer of another local government jurisdiction in which the property is located must approve the award of public access points for historic properties. The property owner may be required to furnish and maintain signage according to county specifications.

a. Unlimited public access - five points. Year-round access by the general public is allowed ((on the

~~enrolled parcel~~) without special arrangements with the property owner.

b. Limited public access because of resource sensitivity - five points. Access may be reasonably limited by the property owner (~~(on the enrolled parcel)~~) due to the sensitive nature of the resource, with access provided only to appropriate user groups. The access allowed (~~(shall)~~) should generally be for an educational, scientific or research purpose and may require special arrangements with the owner.

c. Seasonally limited public access - three points. Access by the public is allowed only for part of the year due to due to seasonal conditions, as mutually agreed to by the landowner and the department.

d. Environmental education access - three points. The landowner enters into an agreement with a school, an organization with 26 U.S.C. Sec. 501(c)(3) tax status, or₂ with the agreement of the department, an other community organization that allows membership by the general public to provide environmental education (~~(on the enrolled parcel)~~) to its members or the public at large. The (~~(landowner and the)~~) department must (~~(mutually)~~) agree that the enrolled (~~(parcel)~~) portion of the property has value for environmental education purposes.

~~((d. Seasonally limited public access - three points. Access by the public is allowed on the enrolled parcel, without special arrangements with the property owner, during only part of the year based on seasonal conditions, as mutually agreed to by the landowner and the department.))~~

e. None or members-only - zero points. No public access is allowed or the access is allowed only by members of the organization using or owning the land; and

~~((6. Easement and access - thirty five points. For the purposes of this subsection C.6, "easement and access" means that the property has at least one qualifying open space resource, unlimited public access or limited public access due to resource sensitivity, and a conservation easement or historic preservation easement in perpetuity in a form and with conditions acceptable to the department. To be eligible, a property must receive credit for an open space category and for the conservation easement or historic easement in perpetuity category. The owner must agree to allow public access to the portion of the property designated for public~~

~~access in the easement. An easement required by zoning, subdivision conditions or other land use regulation is not eligible, unless there is additional easement area beyond that required. Credit for this category ((cannot overlap with the equestrian pedestrian bicycle trail linkage category.))~~ 5. Resource restoration - five points. "Resource restoration" means restoration of an enrolling area of property benefiting an area in an open space resource category. Emphasis is placed on the restoration of native vegetation associated with anadromous fish rearing habitat, riparian zones, migration corridors and wildlife, forest, stream and wetland habitats. The owner shall provide and implement a restoration plan approved by the department. The plan may be developed in cooperation with a natural resource expert or agency. The approved restoration plan must, at a minimum, include a purpose statement, a description of restoration work to be done, a detailed site map of the area to be restored, a specific timeline for the restoration activities to be completed and a monitoring schedule for the restoration project's first five years. Historic resource restoration must be approved by the King County historic preservation officer or officer of another certified local government in the jurisdiction in which the property is located and must be accompanied by a long-term maintenance plan. The owner shall also provide to the department a yearly monitoring report for at least five years following enrollment in the public benefit rating system program. The report must describe the progress and success of the restoration project and must include photographs to document the success. Land receiving credit for this category may not receive credit for the ecological enhancement land, forest stewardship land or rural stewardship land categories.

SECTION 13. Ordinance 1886, Section 11, as amended, and K.C.C. 20.36.120 are hereby amended to read as follows:

The county assessor shall approve or disapprove all applications for farm and agricultural classification with due regard ~~((to))~~ for all relevant evidence. These applications ~~((shall be))~~ are deemed ~~((to have been))~~ approved unless, prior to the first of May of the year after such application was mailed or delivered to the assessor, the assessor notifies the applicant in writing ~~((to the extent to which))~~ that some or all of the application is denied.

SECTION 14. Ordinance 1886, Section 12, as amended, and K.C.C. 20.36.130 are hereby amended to read as follows:

A.1. An applicant for current assessment of farm and agricultural land who receives notice in writing from the county assessor that all or a portion of the application has been denied may appeal ~~((such))~~ the denial ~~((to the county council))~~ by filing a written appeal with the ~~((clerk of the county council))~~ board of appeals and equalization within ~~((twenty-one))~~ sixty calendar days of the date of the ~~((assessor's written))~~ notice of denial.

2. An applicant for public benefit rating system open space land who receives notice in writing from the council that all or a portion of the application has been denied may appeal the denial by filing a written appeal with the superior court of the county within twenty calendar days of the date of the notice of denial.

B. An owner of farm and agricultural or open space classified land who receives notice in writing from the county assessor that all or a portion of ~~((such))~~ the land has been removed from current use classification may appeal ~~((such))~~ the removal ~~((to the county board of equalization))~~ by filing a written appeal with the ~~((clerk of the))~~ board of appeals and equalization within ~~((thirty))~~ sixty calendar days of the date of the ~~((assessor's written))~~ notice of removal.

SECTION 15. Ordinance 10511, Section 6, and K.C.C. 20.36.160 are hereby amended to read as follows:

The public benefit rating system ~~((for open space land bases))~~ reduces the ~~((level of assessed fair market value reduction))~~ appraised land value for the participating portion of the parcel. The level of reduction shall be based on the total number of points awarded ~~((points. The market value reduction))~~. The total number of points awarded establishes the current use value for taxation purposes. ~~((This))~~ The current use value ~~((will))~~ shall be expressed as a percentage of ~~((market))~~ appraised value based on the public benefit rating of the property and the following valuation schedule ~~((below))~~:

Public Benefit Rating

0-4 points

Current Use Value

100% of ~~((market))~~ appraised value

5-10 points	50% of ((market)) <u>appraised</u> value
11-15 points	40% of ((market)) <u>appraised</u> value
16-20 points	30% of ((market)) <u>appraised</u> value
21-34 points	20% of ((market)) <u>appraised</u> value
35 ((52)) <u>points and above</u>	10% of ((market)) <u>appraised</u> value

SECTION 16. Ordinance 10511, Section 8, as amended, and K.C.C. 20.36.170 are hereby repealed.

SECTION 17. Ordinance 10511, Section 9, and K.C.C. 20.36.180 are hereby amended to read as follows:

The executive shall submit an annual report to the council ~~((with))~~ that details the extent of participation in the public benefit rating system. ~~((The council shall reevaluate the public benefit rating system program two years from August 17, 1992, to assess the progress of the program.))~~

SECTION 18. Ordinance 15137, Section 10, as amended, and K.C.C. 20.36.190 are hereby amended to read as follows:

A. The definitions in K.C.C. 20.36.100 apply to this section.

B. A property may achieve a maximum ~~((of a))~~ ninety-percent reduction in ~~((assessed))~~ appraised value ~~((of))~~ for that portion of the land enrolled in the public benefit rating system ~~((through the rating system and the bonus categories. Portions of a property may qualify for open space designation))~~. A plant community where native plants are dominant that does not independently contain a qualifying open space resource can participate if it is contiguous to and provides a benefit to a portion of the property being awarded credit for a qualifying open space priority resource. The department shall evaluate ~~((a property for which open space classification is sought under this chapter))~~ the property for the presence of open space resource categories. ~~((Adjacent))~~ Abutting parcels of land with the same open space resources, owned by one or more landowners, may be eligible for consideration as a single parcel if open space classification is sought under the same application~~((;~~

~~except for~~); however, property pursuing credit for the farm and agricultural conservation land category(~~(;~~
~~which~~)) must be owned by the same owner or held under the same ownership. For ~~((the purpose of determining~~
~~))~~ buffer measurements under this chapter, the width is the distance perpendicular to the edge of the resource
and the length of the buffer is parallel to the resource. The entire buffer width may be averaged to qualify for a
resource category.

~~((B.1.))~~ C. The presence or occurrence of an eligible open space resource ~~((shall))~~ may be verified by:

~~((a.))~~ 1. ~~((#))~~Reference to a recognized source, such as:

~~((1))~~ a. the natural heritage data base;

~~((2))~~ b. the state office of historic preservation;

~~((3))~~ c. state, national, county or city registers of historic places;

~~((4))~~ d. the ~~((interagency committee for outdoor))~~ Washington state recreation and conservation
office inventory of dry accretion beach and shoreline features;

~~((5) the))~~ e. a shoreline master program;

~~((6))~~ f. parks and recreation studies; or

~~((7))~~ g. studies by the state Department of Fish and Wildlife or Department of Natural Resources; ~~((~~
~~or))~~

~~((b))~~ 2. ~~((#))~~Reference to a map developed by the county or other recognized authority~~((:));~~ or

~~((2.))~~ 3. ~~((Alternatively, the existence of the resource may be verified u))~~Using the best available
source, such as a recognized expert in the particular resource being reviewed.

~~((3.))~~ D. When more than one reasonable interpretation can be supported by the text of this chapter, the
department ~~((is authorized to))~~ may make a determination relating to the open space resource definitions and
eligibility standards in accordance with the purpose and intent of this chapter. The department ~~((is authorized~~
~~to))~~ may calculate the appropriate area of land to receive credit for a particular priority resource to support the
assessor's determination of the accompanying tax reduction for each priority resource.

~~((C.))~~ E. Management or preservation of the open space resources is a condition for acceptance into the program. Each open space resource must be maintained in the same or better condition as it was when approved for enrollment. The property owner shall not engage in any activity that reduces the value of the open space resource, unless that activity is required for public safety and is conducted lawfully under appropriate permits. As a condition of enrollment into the program, the department may require ~~((the development of))~~ the owner to develop a plan acceptable to the department to restore any property whose open space resources are degraded. In addition, if an existing approved plan for farm and agricultural conservation land, ecological enhancement land, forest stewardship land, rural stewardship land or resource restoration category has a management schedule or management goals that are out of date or otherwise require change, the owner is responsible for revising the plan. ~~((Any such revisions to the plan must be reviewed and accepted by the department))~~ The department must review and accept any plan revisions.

~~((D.))~~ F. The county~~((s))~~ may base acceptance of property into the public benefit rating system ~~((may be based))~~ on specific conditions or requirements being met, including, but not limited to, ~~((the granting of))~~ granting easements.

~~((E.))~~ G. Except as otherwise provided in this chapter, the following properties or areas are not eligible for open space classification:

1. Improvements or structures ~~((situated up))~~ on eligible open space land;
2. Properties that do not contain a qualifying open space ~~((priority))~~ resource;
3. Open space areas protected by a native growth, forest retention or other covenant that is required as part of a development process or subdivision, or required by zoning or other land use regulations~~((, except))~~; however, such an area ~~((would be))~~ is eligible as ecological enhancement, forest stewardship or rural stewardship land if ~~((its participation))~~ implementation of the associated plan provides ~~((further public benefit and there is))~~ resource improvements within the enrolling open space. Such an area is also eligible as public recreation area, equestrian-pedestrian-bicycle or active trail linkage due to the public's use and benefit.

Additionally:

a. ~~((e))~~ Enrollment of at least ten percent additional open space acres, beyond that restricted or required by applicable covenant or regulation, is necessary to qualify for additional resource categories not referenced in this subsection G.3. but not including those additional resource categories referenced in subsection G.3.b. of this section; and

b. The minimum ten percent additional ~~((acreage))~~ open space acres provided must be acceptable to the department and feature a plant community where native plants are dominant or ~~((that will))~~ should be dominant ~~((following the implementation of))~~ after implementing an approved farm management, ecological enhancement, forest stewardship, resource restoration or rural stewardship plan associated with the approved open space resource or bonus category;

4. Any portion of a property ~~((that is))~~ dominated by or whose resource value is compromised by invasive plant species, unless the department has received a resource restoration, rural stewardship, ecological enhancement, farm management or forest stewardship plan and determined that the plan adequately addresses the invasive plant species concern and ~~((that the plan has been provided and))~~ is being implemented; and

5. Homesite and other areas developed for residential or personal use, such as garden, landscaping and driveway, except for historic resources.

~~((F.))~~ H. The department may monitor the participating portion of the property to evaluate its current use and ~~((the))~~ continuing compliance with the conditions ~~((under which open space classification was granted))~~ of enrollment.

1. Monitoring may include scheduled, physical inspections of the property and in-office review using aerial photography, mapping software or other available technologies.

2. ~~((A))~~ Program staff may require an owner of enrolled property ~~((enrolled in the program may be required))~~ to submit a monitoring report on an annual or less frequent basis ~~((as requested by program staff)).~~

~~((This))~~ The report must include a brief description of how the property still qualifies for each awarded

resource category(~~(-It must also include)~~), photographs from established points on the property and any owner observations (~~(by the owner)~~). The owner must submit this report to the department by email, the program's website or by other mutually agreed upon method. An environmental consultant need not prepare this report.

3. An owner of property receiving credit for farm and agricultural conservation land, ecological enhancement land, forest stewardship land(~~(-)~~) or rural stewardship land, all of which require a stewardship or management plan, (~~(must)~~) shall annually provide a monitoring report that describes progress (~~(of)~~) in implementing the plan and includes a brief description of activities taken to implement the plan and photographs from established points on the property. The owner (~~(must)~~) shall submit this report(~~(-which must include a brief description of activities taken to implement the plan and photographs from established points on the property,)~~) to the department by email or by other mutually agreed upon method. An environmental consultant need not prepare this report.

~~(G.)~~ I. Failure by the owner to meet the conditions of the approval or to maintain the uses of the property that were the basis for the original approval (~~(shall be)~~) is grounds for the department to reevaluate the property under the public benefit rating system. If the reevaluation shows the property or a portion of the property is no longer eligible to participate in the program (~~(because it does not qualify for any public benefit rating system category as originally approved)~~), the county shall take action to remove the current use classification and determine the amount of deferred taxes, interest and penalty owed by the landowner. (~~(An appeal by the landowner from such a determination may be filed as provided for in K.C.C. 20.36.130.B.)~~) If the reevaluation shows the property or a portion thereof is no longer eligible as approved but that the property still qualifies for one or more public benefit rating system resource categories, then the overall credit award shall be adjusted to reflect the reevaluation. The new credit award may result in a current use assessment at a lower percentage of (~~(market)~~) appraised value than was originally approved. A landowner may appeal a determination under this subsection by following K.C.C. 20.36.130.B.

SECTION 19. Severability. If any provision of this ordinance or its application

to any person or circumstance is held invalid, the remainder of the ordinance or the application of the provision to other persons or circumstances is not affected.
